42-486 - Authorization for modification of streetscape provisions

LAST AMENDED

10/13/2016

For #zoning lots# that have a #street# frontage of less than 75 feet, where entrances to off-street parking or loading facilities are located along such #street# frontage, the City Planning Commission may modify the dimensions of the frontage and depth requirements for ground floor #commercial# #uses# set forth in Section [42-485](#) (Streetscape provisions), provided that the Commission finds that such modifications:

- (a) are the minimum necessary to provide sufficient space for access to off-street parking or loading facilities;
- (b) will not adversely affect the streetscape experiences or impact the viability of such #uses#, and the resulting ground floor frontages will effectively contribute to a vibrant mixed-use district; and
- (c) to the greatest extent feasible will result in a ground floor that meets the height requirements for #qualifying ground floors#.
