(a) Definitions

For the purposes of this Section, the following definitions shall be applicable.

Contiguous block

For the purposes of this Section, inclusive, a “contiguous block” is a #block# containing one or more #zoning lots# separated by a #narrow street# from the #block# containing the #development#.

Contiguous lot

For the purposes of this Section, inclusive, a “contiguous lot” is a #zoning lot# which shares a common #side lot line# with the #zoning lot# of the #development#.

Development

For the purposes of this Section, inclusive, in addition to the definition of #development# in Section [12-10](#) (DEFINITIONS), “development” shall also include an #enlargement# involving an increase in #lot coverage#.

Predominantly residential use

For the purposes of this Section, inclusive, a “predominantly residential use” means a #building# having a #residential# #floor area# in excess of 50 percent of the total #building# #floor area#.

(b) Applicability of Article II, Chapter 6

In C1-8, C1-9, C2-7, C2-8, C4-6, C4-7, C5-1, C5-2, C5-4, C6-3, C6-4, C6-5 or C6-8 Districts, or C1 or C2 Districts mapped within R9 or R10 Districts, the regulations of Article II, Chapter 6 (Special Urban Design Guidelines), shall apply to any #development# occupied by #predominantly residential use#, except as modified by the provisions of this Section. The purpose of these modifications is to make the regulations of Article II, Chapter 6, applicable to #Commercial Districts#.

(c) Retail Continuity

For #buildings# with front #building# walls that are at least 50 feet in width and front upon a #wide street#, a minimum of 50 percent of the width of such front #building# wall shall be occupied at the ground floor level by #commercial# #uses#, as permitted by district regulations.

In C1-8, C1-9, C2-7, C2-8 and C4-6 Districts and C1 or C2 Districts mapped within R9 or R10 Districts, #uses# which occupy such 50 percent of the front #building# wall shall be limited to those listed in Use Groups 6A and 6C, excluding banks and loan offices, except that in C4-6 Districts only, such #uses# may additionally include those listed in Use Groups 8A, 8B and 10A. All #uses# permitted by the underlying district regulations are permitted in the remaining 50 percent of the front #building# wall.

Such requirement of #commercial# #uses# for a minimum of 50 percent of the front #building# wall may be waived, or additional #uses# permitted, upon certification by the City Planning Commission to the Commissioner of Buildings that an adequate supply of such #uses# already exists at the ground floor level in the surrounding area.

The Commission may require that an application for such certification of additional #uses# for a completed #building#, where #floor area# has been designated for occupancy for such #commercial# #uses#, establish that a good faith effort has been made to secure tenancy by such #uses#.

(d) Ground floor transparency and articulation

When any #building# wall which is five feet or more in height adjoins a sidewalk, a #public plaza# or an #arcade#, ground floor level transparency shall be provided in accordance with the provisions of Section [37-34](#) (Minimum Transparency Requirements).

In addition, any portion of such #building# wall, 50 feet or more in width, which contains no transparent element between #curb level# and 12 feet above #curb level# or the ceiling of the ground floor, whichever is higher, or to its full height if such wall is less than 12 feet in height, shall be covered with ivy or similar planting or contain artwork or be treated so as to provide visual relief. Plants shall be planted in soil having a depth of not less than 2 feet, 6 inches, and a minimum width of 24 inches. If artwork is being used, approval by the New York City Design Commission shall be obtained prior to the certificate of occupancy being issued for the #development#.

(e) Sign regulations

In addition to the applicable district regulations in C1-8, C1-9, C2-7, C2-8 and C4-6 Districts and C1 or C2 Districts mapped within R9 or R10 Districts, all #signs#, other than #advertising signs# and window #signs#, shall be located in a horizontal band not higher than three feet, the base of which is located not higher than 17 feet above #curb level#. Where there is a grade change of at least 1.5 feet in 100 along the portion of the #street# upon which the #development# fronts, such signage band may be staggered along such #street#.

When a #building# on a #contiguous lot# or #contiguous block# contains #accessory# business #signs# within a coordinated horizontal band along its #street# frontage, the signage strip along the #development# shall be located at the same elevation as the adjacent band, but in no event higher than 17 feet above #curb level#. Where coordinated horizontal bands exist on two #contiguous lots# or #contiguous blocks# on both sides of the #development#, the signage strip shall be located at the same elevation as one adjacent band, or between the elevations of the two. For the purpose of this Section, the elevation is measured from the #curb level# to the base of the signage strip.

The City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of this Section. Such modifications will be permitted when the Commission finds that such modifications will

enhance the design quality of the #street wall#.
