## 13-43 - Certifications in the Manhattan Core

---

LAST AMENDED  
5/8/2013

---

### 13-431 - Reduction of minimum facility size

---

LAST AMENDED  
5/8/2013

An off-street parking facility in the #Manhattan Core# may provide a gross unobstructed surface area less than the minimum size required by Section [13-27](#) (Minimum and Maximum Size of Parking Facilities) upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the proposed layout of such parking facility, including, but not limited to, the arrangement of parking spaces, travel aisles and reservoir spaces, where applicable, is sufficient to accommodate the requisite vehicular navigation and turning movements associated with such a facility. In order to make such a determination, the applicant shall provide the Chairperson with dimensioned plan drawings that depict the proposed vehicular movement through the facility, including any relevant maneuverability or turning radius information.

Where the Chairperson certifies that an #accessory# off-street parking facility may be reduced in size because vehicles will be limited in length, such restriction shall be noted on the certificate of occupancy.

---

### 13-432 - Floor area exemption for automated parking facilities

---

LAST AMENDED  
5/8/2013

Floor space used for off-street parking spaces in an #accessory automated parking facility#, up to a height of 40 feet above #curb level#, shall be exempt from the definition of #floor area# upon certification of the Chairperson of the City Planning Commission to the Commissioner of Buildings that:

- (a) the entire #automated parking facility# will be contained within a #completely enclosed# #building#;
- (b) the portion of the #street wall# of such #automated parking facility# below a height of 14 feet, as measured above #curb level#, complies with the screening provisions of Section [13-221](#) (Enclosure and screening requirements), and the portion of the #street wall# above a height of 14 feet, will be similar in composition to the portion of the #building's# #street wall# immediately above such #automated parking facility#, including, but not limited to, the choice of building materials and arrangement and amount thereof; and
- (c) such #automated parking facility# is within a #building# with a #floor area ratio# of at least 2.0.

Any application for such certification shall include relevant plan, elevation and section drawings demonstrating compliance with the provisions of this Section.

A copy of an application for certification pursuant to this Section shall be sent by the Department of City Planning to the affected Community Board, which may review such proposal and submit comments to the Chairperson of the City Planning Commission. If the Community Board elects to comment on such application, it must be done within 30 days of receipt of such application. The Chairperson will not act on such application until the Community Board's comments have been received, or the 30 day comment period has expired, whichever is earlier.
