73-126 - Certain community facility uses in lower density growth management areas

LAST AMENDED

1/18/2011

In R3-1, R3A, R3X, R4-1, R4A or R4B Districts in #lower density growth management areas#, the Board of Standards and Appeals may permit ambulatory diagnostic or treatment health care facilities listed in Use Group 4, limited in each case to a maximum of 10,000 square feet of #floor area#, provided that such facilities are located on #zoning lots# that comply with the minimum #lot area# and #lot width# regulations of Section [23-35](#) (Special Provisions for Zoning Lots Containing Certain Community Facility Uses in Lower Density Growth Management Areas).

In addition, for #buildings# in R3, R4 and R5 Districts in #lower density growth management areas# subject to the provisions of paragraph (b) of Section [24-012](#) (Exceptions to the bulk regulations of this Chapter) the Board may permit the #development# of a #building# pursuant to the #bulk# regulations of Article II, Chapter 4 (Bulk Regulations for Community Facilities in Residence Districts).

In order to grant such special permit, the Board shall find that:

- (a) the amount and type of open area and its distribution on the #zoning lot# is compatible with the character of the neighborhood;
- (b) the distribution of #bulk# on the #zoning lot# will not unduly obstruct access of light and air to adjoining properties or #streets#; and
- (c) the scale and placement of the #building# on the #zoning lot# relates harmoniously with surrounding #buildings#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
