66-41 - Construction, Maintenance and Other Obligations

LAST AMENDED

10/7/2021

Where an #easement volume# is provided pursuant to this Chapter, transit access improvements within such volume shall be constructed and maintained either by the #transit agency# or the owner of the #zoning lot# with the #development#, #enlargement# or #conversion#.

- (a) Where such transit access improvement is constructed and maintained by the #transit agency#:
- (1) the owner of #zoning lot# with the #development#, #enlargement# or #conversion# shall provide an #easement volume# that is designed and constructed in such a manner that would not inhibit the #transit agency's# functional requirements and ability to construct such transit access improvement at a future date;
 - (2) in the event that the construction of the improvement is not contemporaneous with the construction of the #development#, #enlargement# or #conversion#, any underground walls constructed along the #front lot line# adjacent to an #at- or below-grade mass transit station# shall include one or more knockout panels, below #curb level# down to the bottom of the #easement volume#. The actual location and size of such knockout panels shall be determined through consultation with the #transit agency#;
 - (3) temporary construction access shall be granted to the #transit agency# on portions of the #zoning lot# outside of the #easement volume#, as needed, to enable construction within and connection to the #easement volume#; and
 - (4) in the event that the #transit agency# has approved of obstructions associated with the #development#, #enlargement# or #conversion# within the #easement volume#, such as #building# columns or footings, such construction and maintenance shall exclude any such obstructions within the #easement volume#.
- (b) Where such transit access improvement is constructed and maintained by the owner of the #development #, #enlargement# or #conversion#:
- (1) a transit access improvement shall be provided in accordance with standards set forth by the #transit agency#;
 - (2) such improvement shall be accessible to the public at all times, except as otherwise approved by the #transit agency#;
 - (3) such improvement shall include #signs# to announce accessibility to the public. Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section [32-642](#) (Non-illuminated signs); and
 - (4) no temporary certificate of occupancy shall be granted by the Department of Buildings until the Chairperson of the City Planning Commission, acting in consultation with the #transit agency#, has certified that the improvement is substantially complete and usable by the public.
