In all districts, as indicated, the minimum horizontal distance between a #legally required window# opening on an #inner court# and any wall opposite such window on the same #zoning lot# shall not be less than 30 feet. However, such provisions shall not apply to small #inner courts#, the provisions for which are set forth in paragraph (b) of Section [23-851](#) (Minimum dimensions of inner courts).

Such minimum distance shall be measured in a horizontal plane at the sill level of, and perpendicular to, the #legally required window# for the full width of the rough window opening, between such window and a projection of such wall onto such horizontal plane.
