23-94 - Methods of Providing Affordable Housing

LAST AMENDED

3/22/2016

- (a) Except for #MIH developments#, #affordable housing# shall be either #new construction affordable housing#, #substantial rehabilitation affordable housing# or #preservation affordable housing#. For #MIH developments#, #affordable housing# shall be either #new construction affordable housing# or a #conversion# from non-#residential# to #residential use#. Such #conversions# shall comply with the requirements of Section [23-90](#), inclusive, applicable to #new construction affordable housing#.
- (b) When determining whether #affordable housing# is #new construction affordable housing#, #substantial rehabilitation affordable housing# or #preservation affordable housing# in order to calculate #floor area compensation#, or when making a determination of which #building# or #building segment# constitutes a #generating site#, #HPD# may separately consider each #building# or #building segment# on a #zoning lot#. Where any such #building# consists of two or more contiguous sections separated by walls or other barriers, #HPD# may consider all relevant facts and circumstances when determining whether to consider the sections of such #building# separately or collectively, including, but not limited to, whether such sections share systems, utilities, entrances, common areas or other common elements and whether such sections have separate deeds, ownership, tax lots, certificates of occupancy, independent entrances, independent addresses or other evidence of independent functional use.
- (c) The amount of #affordable floor area# in any #generating site# or #MIH site# shall be determined based upon plans for such #generating site# or #MIH site# which have been approved by the Department of Buildings and which indicate thereon the amount of #floor area# devoted to #affordable housing# and the amount of #floor area# devoted to other #residential uses#. However, for #generating sites# where the Department of Buildings does not require #floor area# calculations, the amount of #affordable floor area# shall be determined by methods specified in the #guidelines#.
- (d) The amount of #low income#, #moderate income# and #middle income floor area# in a #generating site# and the amount of qualifying #floor area# for any #income band# in an #MIH site# shall be determined by the same method as the calculation of #affordable floor area#.
- (e) #Affordable housing units# shall be either rental #affordable housing# or #homeownership affordable housing#.
- (f) An #MIH site# that is part of an #MIH zoning lot# and contains no #dwelling units# other than #affordable housing units# shall be either a #building# that:
 - (1) shares a common #street# entrance with another #building# on the #zoning lot# that contains #dwelling units# other than #affordable housing units#; or
 - (2) is independent, from grade at the #street wall line# to the sky, of any other #building# on the #zoning lot# containing #dwelling units# other than #affordable housing units#. Such #building# shall have its primary entrance on a #street# frontage that has primary entrances for other #residential buildings#, except where #HPD# determines that the primary entrance is located in a manner that does not stigmatize occupants of #affordable housing units#.
