74-841 - Development in certain Commercial Districts

LAST AMENDED

10/14/1971

In C5-2, C5-3, C5-4, C5-5, C6-4, C6-5, C6-6, C6-7, C6-8 or C6-9 Districts, the City Planning Commission may permit a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block# to be #developed# to its maximum allowable #bulk# under applicable district regulations and any existing #buildings# to remain temporarily on that lot and may permit the #floor area# of any existing #buildings# to be excluded from computations determining such maximum allowable #floor area#, provided that each and every one of the following conditions are met:

- (a) that existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;
- (b) that all leases within the existing #buildings# must terminate within five years after the issuance of a special permit under this Section, and that no new leases or any lease renewals shall be entered into on any existing #buildings# or portion of such existing #buildings#;
- (c) that the total #floor area# of all such existing #buildings# on the #zoning lot# is not greater than 20 percent of the maximum allowable #floor area# for that #zoning lot#;
- (d) that demolition of all such existing #buildings# must commence within five years after the issuance of the special permit under this Section;
- (e) that the portions of the #zoning lot# where existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan; and
- (f) that, until such time as demolition of all such existing #buildings# and completion of the approved site plans, #floor area# equal in amount to that which was located in such existing #buildings#, must be left unfinished and vacant in the new #development#; and a temporary certificate of occupancy, for the vacant space, shall remain in effect until all conditions in the special permit are satisfied.

The owner of the #zoning lot# shall submit a copy of all leases on any #building# or portion of any #building# on the #zoning lot# together with an opinion of counsel that the leases will terminate within five years.

All leases of such existing #buildings# or portions of #buildings# shall submit affidavits attesting to the expiration date of their leases together with an opinion of counsel that the lease will expire within five years.

The owner of the #zoning lot# shall have prominently displayed on the front of all existing #buildings# a sign stating the date that the #building# is to be demolished.

As a further condition for the issuance of a permit under this Section, the owner of the #zoning lot#, upon which new #development# is to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel sufficient in amount to:

- (1) cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time;
- (2) ensure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant; and
- (3) ensure that no new leases or lease renewals are entered into on any portion of any of the existing #buildings#.

The bonds or other securities shall be payable to The City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this Section, that the #development# shall result in

improved circulation and would eliminate the undesirable preemption of ground level space by private #buildings or other structures#. In making this finding, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this Section shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
