## 81-266 - Special permit for height and setback modifications

---

LAST AMENDED

4/28/1988

In C5-3, C6-6 or C6-7 Districts, where a special permit application is made pursuant to Section [74-71](#) (Landmark Preservation) for modification of #bulk# regulations on a #zoning lot# containing a landmark, or where a special permit application is made pursuant to Section [74-79](#) for transfer of development rights from a landmark site and the #floor area# represented by such transferred development rights exceeds 20 percent of the basic maximum #floor area# permitted on the #zoning lot# receiving the development rights, such application may include a request for modification of the height and setback regulations set forth in Sections [81-261](#) to [81-265](#), inclusive, relating to Height and Setback Regulations - Daylight Compensation. The City Planning Commission may authorize such height and setback modifications subject to the following conditions:

- (a) the applicant shall demonstrate to the satisfaction of the Commission that a feasible design for the proposed #development# or #enlargement# which accommodates the permitted #floor area# is not possible under the provisions of Sections [81-261](#) to [81-265](#), inclusive, and shall further indicate for the proposed design where and to what extent deficiencies of #compensating recess# are necessary or compliance with the length and height rules is not possible. Scale drawings shall be used in presenting the analyses required herein; and
- (b) the Commission shall make the following findings in addition to any required under the applicable provisions of Section [74-71](#) or Section [74-79](#):
  - (1) that the requested departure from the height and setback regulations is the minimum amount necessary to achieve a feasible #building# design;
  - (2) that the disadvantages to the surrounding area resulting from reduced light and air access will be more than offset by the advantages of the landmark's preservation to the local community and the City as a whole; and
  - (3) that where the landmark is located on the #zoning lot# proposed for #development# or #enlargement# or on a lot contiguous thereto or directly across a #street# therefrom, the modification of height and setback regulations will adequately protect the setting for the landmark.
