## 81-752 - Special street wall and setback regulations within the Eighth Avenue Corridor

LAST AMENDED

2/2/2011

#Buildings# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section [81-71](#), and east of Eighth Avenue, shall comply with the requirements of this Section, and except as superseded by this Section, with the provisions of Section [81-25](#) (General Provisions Relating to Height and Setback of Buildings), and either Section [81-26](#) (Height and Setback Regulations - Daylight Compensation) or [81-27](#) (Alternate Height and Setback Regulations - Daylight Evaluation).

#Buildings# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section [81-71](#), and west of Eighth Avenue shall comply with the requirements of this Section. The provisions of Sections [81-25](#), [81-26](#) and [81-27](#) shall not apply.

The provisions of paragraphs (a) and (b) of this Section shall apply to #developments#, #enlargements# and alterations, where such alterations change the height, width or location of a #street wall#.

(a) #Street wall# location and minimum and maximum heights before setbacks

- (1) On Eighth Avenue and 42nd Street, #street walls# shall extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, and shall rise to a minimum height of 50 feet or the height of the #building#, whichever is less. At least 70 percent of the width of such #street walls# shall be located on the #street line#, and the remaining 30 percent may be located beyond the #street line# in compliance with #residential# #outer court# regulations for #residential# portions of #buildings# and #community facility# #outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall comply with the location requirements of paragraph (a)(3) of this Section. The maximum height of #street walls# within 10 feet of the #wide street# #street line# shall be 150 feet beyond 15 feet of a #narrow street# #street line# and 85 feet within 15 feet of a #narrow street# #street line#.
- (2) On a #narrow street# east of Eighth Avenue, and on a #narrow street# west of and within 100 feet of Eighth Avenue, #street walls# shall extend along the entire width of such #narrow street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, and shall rise to a minimum height of 50 feet or the height of the #building#, whichever is less. At least 70 percent of the width of such #street walls# along such #narrow street# frontage shall be located on the #street line#, and the remaining 30 percent may be located beyond the #street line# in compliance with #residential# #outer court# regulations for #residential# portions of #buildings# and #community facility# #outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall comply with the location requirements of paragraph (a)(3) of this Section. The maximum height of #street walls# within 15 feet of the #narrow street# #street line# shall be 85 feet.

On a #narrow street# west of and beyond 100 feet of Eighth Avenue, the maximum height of #street walls# within 15 feet of the #narrow street# #street line# shall be 66 feet, except in accordance with paragraphs (b) or (c)(3) of this Section. However, no #street wall# need be provided where at least 70 percent of the entire frontage of the #zoning lot# along such #narrow street# is occupied by #street walls# located on the #street line#.

- (3) Within 30 feet of the intersection of two #street lines#, the #street wall# shall be located on the #street line# or anywhere within an area bounded by the two #street lines# and lines parallel to and 15 feet from such #street lines#.
- (4) Where a continuous sidewalk widening is provided along the entire #block# frontage of a #wide street#, the

boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

(b) Special #street wall# regulations for #buildings# adjacent to listed theaters

For #buildings# that are adjacent to a theater listed pursuant to Section [81-742](#) (Listed theaters), the maximum height of the #street wall# of the #building# facing the same #street# as the “listed theater” shall be 60 feet within 15 feet of the #street line#.

(c) Additional regulations applying west of Eighth Avenue

- (1) West of Eighth Avenue, at any level above a height of 85 feet, any #building# or #buildings# or portions thereof shall, in the aggregate, occupy not more than 40 percent of the #lot area# of the #zoning lot#, except that for #zoning lots# of less than 20,000 square feet of #lot area#, this percentage may be increased as set forth in Section [23-65](#) (Tower Regulations). At any level above a height of 85 feet, any #building# or #buildings# or portions thereof shall, in the aggregate, occupy not less than 33 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall not apply to the highest four #stories# of the #building#.
- (2) Beyond 125 feet of the western #street line# of Eighth Avenue, and beyond 100 feet of the northern #street line# of 42nd Street, no #building or other structure# shall exceed a height of 66 feet, except in accordance with paragraph (c)(3) of this Section.
- (3) Where the new or #enlarged# #building# #abuts# an existing #building# located entirely beyond 125 feet of the western #street line# of Eighth Avenue and the northern #street line# of 42nd Street, and such existing #building# exceeds a height of 66 feet, the new or #enlarged# #building# may exceed any height limits specified in this Section up to the height of the existing #building#, provided that, within 15 feet of the #narrow street# #street line#, such portion of the new or #enlarged# #building# does not exceed either the height of the existing #building# or 85 feet, whichever is less. For the purposes of this paragraph, the height of the existing #building# shall be the height of its #street wall#, before setback, if applicable, of that portion of the existing #building# #abutting# the new or #enlarged# #building#, fronting on the same #street line#, and located on the same or adjoining #zoning lot#.
