The “Special Downtown Far Rockaway District” established in this Resolution is designed to promote and protect the public health, safety and general welfare of the Downtown Far Rockaway community. These general goals include, among others, the following specific purposes:

- (a) to strengthen the commercial core of Downtown Far Rockaway by improving the working and living environments;
- (b) to support the development of vacant and underutilized parcels in Downtown Far Rockaway with a mix of residential, commercial and community facility uses;
- (c) to encourage the design of new buildings to blend into the existing neighborhood fabric by providing a transition in height between the downtown commercial core and the lower-scale residential communities;
- (d) to establish a center to the downtown with lively new gathering and civic spaces along Mott Avenue that complement and strengthen the existing neighborhood;
- (e) to encourage the development of affordable housing;
- (f) to expand the retail, entertainment and commercial character of areas around transit nodes to enhance the area’s role as a local transportation hub;
- (g) to integrate new roadways into an improved pedestrian and vehicular network with key north-south and east-west connections;
- (h) to ensure the provision of adequate accessory parking that reflects both the automobile ownership patterns of the neighborhood and public transit access;
- (i) to enhance the pedestrian environment by relieving sidewalk congestion and providing pedestrian amenities; and
- (j) to promote the most desirable use of land and building development and thus conserve and enhance the value of land and buildings, and thereby protect the City’s tax revenues.

The requirements of this Section shall apply to #zoning lots# containing #developments# or #enlargements# within the current or former Downtown Far Rockaway Urban Renewal Area.

No building permit shall be issued for any #development# or #enlargement# until the Chairperson of the City Planning Commission certifies to the Department of Buildings that such #development# or #enlargement# complies with the provisions of this Section.

The Chairperson shall certify that:

- (a) all publicly accessible open spaces adjacent to the proposed #development# or #enlargement# comply with the provisions

of Section [136-324](#) (Publicly accessible open space requirements);

- (b) the location of private streets adjacent to the proposed #development# or #enlargement# complies with the provisions of Section [136-323](#) (Private streets); and
- (c) for any portion of Subdistrict A outside the area of the proposed #development# or #enlargement# for which a certification pursuant to this Section has not been obtained, the applicant has submitted sufficient documentation showing that the #development# or #enlargement# that is the subject of this certification, and any associated private streets and publicly accessible open spaces required to be constructed in conjunction with such #development# or #enlargement#, shall not preclude such undeveloped portions of Subdistrict A from complying with the provisions of Sections [136-323](#) and [136-324](#) under future certifications pursuant to this Section.

All required private streets and publicly accessible open spaces, once certified in accordance with the provisions of this Section, shall be duly recorded in the form of a signed declaration of restrictions, including provisions for the maintenance and operation of such private streets and publicly accessible open spaces, indexed against the property, binding the owners, successors and assigns to provide and maintain such private streets and publicly accessible open spaces in accordance with the plans certified by the Chairperson. Such declaration, or any maintenance and operation agreement with the City or its designee executed in connection with such declaration, shall require that adequate security be provided to ensure that the private streets and public access areas are maintained in accordance with the declaration and any related maintenance and operation agreement and are closed only at authorized times. The filing of such declaration in the Borough Office of the Register of the City of New York shall be a precondition for the issuance of a building permit.

In addition, the private streets and publicly accessible open spaces integral to the #development# or #enlargement# of a #building#, as indicated in the plans certified by the Chairperson, shall be recorded on the certificate of occupancy for such #building# by the Department of Buildings. The recording information of the declaration of restrictions shall be included on the certificate of occupancy for any #building#, or portion thereof, issued after the recording date.

The property owner shall be responsible for the construction and maintenance of all required private streets and publicly accessible open spaces on the #zoning lot#. No temporary or final certificate of occupancy shall be issued for any #building# adjacent to such private street or publicly accessible open space until all required improvements are completed, except as set forth in a phasing plan that has been incorporated in a signed and duly recorded declaration of restrictions, and that has provided for interim improvements and access where these do not present conflicts with construction, staging or public safety.

Such depth shall be measured perpendicular to the #street line#. Sidewalk widenings shall be improved as sidewalks to Department of Transportation standards, at the same level as the adjoining public sidewalk and shall be directly accessible to the public at all times. No #enlargement# shall be permitted to decrease the depth of such sidewalk widening to less than such minimum required depth.

Lighting shall be provided with a minimum level of illumination of not less than two horizontal foot candles throughout the

entire mandatory sidewalk widening. Lighting fixtures installed by the Department of Transportation within the #street# adjacent to such sidewalk widening shall be included in the calculation of the required level of illumination.

Where a continuous sidewalk widening is provided on the #zoning lot#, along the entire #block# frontage of a #street#, the boundary of the sidewalk widening within the #zoning lot# shall be considered to be the #street line# for the purposes of Sections [136-22](#) (Height and Setback Regulations) and [136-31](#) (Special Height and Setback Regulations Within Subdistrict A).
