22-231 - Permitted illuminated accessory signs for hospitals and related facilities

LAST AMENDED
12/5/2024

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10 R11 R12

In all districts, as indicated, for hospitals and related facilities, #illuminated# non-#flashing# #accessory# #signs# are permitted in all districts, subject to Section 22-24 (Additional Regulations). Any number of #illuminated# non-#flashing# identification or directional #signs# are permitted, provided that the total #surface area# in square feet of said #illuminated# #signs# or the combined total #surface area# in square feet of the #illuminated# and non-#illuminated# identification or directional #signs# does not exceed 25 square feet on any one #street# frontage or 15 percent of such #street# frontage in feet, whichever is less, and provided further that the Commissioner of Buildings determines that such #signs# are so located as to cause a minimum amount of light to be projected onto abutting or adjacent #residences#. However, for #zoning lots# with more than one #building# that front upon the same #street#, each such #building# shall be permitted a #surface area# of 25 square feet.

In addition to #illuminated# or non-#illuminated# #accessory# #signs#, one illuminated non-flashing directory or bulletin board or combination thereof is permitted in lieu of a non-illuminated directory or bulletin board or combination thereof provided that the total #sign# area does not exceed 50 square feet and provided further that the Commissioner of Buildings determines that such #sign# is so located as to minimize the amount of light projected on the abutting or adjacent #residences#.
