37-714 - Restrictions on orientation

LAST AMENDED

10/17/2007

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" #street line# means a #street line# facing within 45 degrees of the direction indicated. To front on a #street# means to be contiguous to the #street line# or to a sidewalk widening along the #street line#.

- (a) Where the major portion of a #public plaza# fronts on only one #street line#, such major portion is not permitted to front on a north-facing #street line# of a #zoning lot#.
- (b) No major portion of a #public plaza# shall only front on a west-facing #street line# or an east-facing #street line# if the #zoning lot# also has frontage that is 40 feet or more in length on a south-facing #street line#.
- (c) A #corner public plaza# must have its major portion, as defined in paragraph (b) of Section [37-715](#), front on the south-facing #street line#. In the case of a #zoning lot# having frontage on a south-facing #street line# of less than 40 feet, or having its frontage at the intersection of a north-facing #street line# with either an east- or west-facing #street line#, the major portion must front on the east- or west-facing #street line#.

However, the orientation restrictions may be modified if the Chairperson of the City Planning Commission finds that the orientation regulations would conflict with mandatory #street wall# regulations or that the modifications would result in better access to light and air for the #public plaza#.
