35-63 - Height and Setback Requirements in Commercial Districts with R6 Through R12 Equivalency

File generated by <https://zr.planning.nyc.gov> on 5/1/2026

35-63 - Height and Setback Requirements in Commercial Districts with R6 Through R12 Equivalency

LAST AMENDED

12/5/2024

C1 C2 C4 C5 C6

In #Commercial Districts# mapped within, or with a #residential equivalent# of R6 through R12 Districts, the #street wall# location of a #building# shall be as set forth in Section [35-631](#), and the height and setback provisions shall be as set forth in Section 35-632. Additional height and setback provisions are set forth in Section [35-633](#) and Section [35-64](#), inclusive.

The height of all #buildings or other structures# shall be measured from the #base plane#. For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#.

35-631 - Street wall location

LAST AMENDED

12/5/2024

C1 C2 C4 C5 C6

In the districts indicated, the applicable #street wall# location provisions of this Section shall apply. Such provisions shall apply to the portion of a #street wall# located below the maximum base height and before the required setback as set forth in Section [23-432](#) (Height and setback requirements).

(a) Line-up rules

For #Commercial Districts# mapped within, or with a #residential equivalent# of, R8 through R12 Districts, when located within the #Manhattan Core#, the following #street wall# location provisions shall apply along #wide streets#:

- (1) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Section [23-432](#), or the height of the #building#, whichever is less. To allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection or, for #corner lots# with an angle of 75 degrees or less, at points 30 feet from their intersection.
- (2) Above a height of 15 feet above the #base plane#, or the height of the first #story#, whichever is lower, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except to articulate the #street walls# as set forth in paragraph (a)(1) of this Section.

However, where the #street walls# surrounding the subject #building# are located on a #block# with a #prevailing street wall frontage# that is located further from the #street line# than the applicable provisions of this paragraph, the line-up provisions of paragraph (a) of Section [23-431](#) may be applied.

(b) Percentage-based rules

For all #buildings# that are not subject to the provisions of paragraph (a) of this Section the following shall apply:

At least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least the minimum base height specified in Sections [23-432](#), or the height of the #building#, whichever is less. Up to 30 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

However, where the #street walls# surrounding the subject #building# are located on a #block# with a #prevailing street wall frontage# that is located further from the #street line# than the applicable provisions of this paragraph, the line-up provisions of paragraph (a) of Section [23-431](#) may be applied.

(c) Modifications for large #zoning lots#

Notwithstanding the provisions of paragraphs (a) or (b) of this Section, for #street walls# on #buildings# on a #zoning lot# that has a #lot area# of at least 40,000 square feet or occupies an entire #block#, at least 70 percent of the #aggregate width of street walls# shall be located within 15 feet of the #street line# and extend to at least the minimum base height specified in Section [23-432](#), or the height of the #building#, whichever is less.

(d) Articulation allowances

In all districts, and along all frontages, #street wall# articulation, including, but not limited to, window recesses and structural expression on the #building# facade, shall be permitted to project or recess beyond the #street wall# locations established in paragraphs (a), (b) or (c) of this Section, provided such articulation does not exceed a depth or projection of 12 inches. In

addition, to accommodate other forms of #street wall# articulation, such as bay windows, and facade recesses, up to 50 percent of the #aggregate width of street wall#, at any level, may recess or project beyond such #street wall# location provisions of this Section, provided that no such recess or projection exceeds a depth of three feet, as measured perpendicular to the #street wall#, or portion thereof. No projection shall extend beyond the #street line#, except where encroachments into the public right-of-way are permitted by the New York City Administrative Code.

35-632 - Maximum height of buildings and setback regulations

LAST AMENDED

12/5/2024

C1 C2 C4 C5 C6

In the districts indicated, where mapped within, or with a #residential equivalent# of an R6 through R12 district, the height and setback regulations of Section [23-43](#) (Height and Setback Requirements in R6 Through R12 Districts), inclusive, shall be applied in accordance with the provisions set forth in this Section.

(a) Height and setback requirements

The minimum base height, maximum base height and maximum #building# height shall be as set forth in the table in Section [23-432](#) for the applicable #Residence District#. Separate maximum base heights and maximum #building# heights are set forth for #zoning lots# containing standard #residences# and #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#. For portions of a #building# #street wall# that exceed

the maximum base height, a setback shall be provided at a height not lower than the minimum base height or higher than the maximum base height, in accordance with Section 23-433.

(b) Height and setback modifications on eligible sites

In #Commercial Districts# mapped within, or with a #residential equivalent# of R6 through R12 without a letter suffix, for #zoning lots# meeting the criteria of paragraph (a) of Section [23-434](#), the maximum #building# heights may be increased in accordance with the table in Section [23-434](#) for the applicable #Residence District#.

(c) Tower regulations

In #Commercial Districts# mapped within, or with a #residential equivalent# of R9 through R12 Districts, other than R9A, R9X, R10A or R11A Districts, as an alternative to the maximum #building# heights set forth in Sections [23-432](#), towers shall be permitted pursuant to the provisions of Section 23-435.

35-633 - Additional height and setback provisions

LAST AMENDED

12/5/2024

The additional height and setback regulations set forth in Section [23-436](#) shall apply, except as follows:

- (a) for the purposes of applying such provisions, references to the #street wall# location provisions of Section [23-431](#) shall be superseded by those of Section [35-631](#); and

- (b) for the purposes of applying the #street wall# modifications on #corner lots#, where a #zoning lot# is bounded by only one #street line# along a #street# frontage where a #Commercial District# is mapped along the entire #block# frontage, the #street wall# shall be applied along such frontage.
