### **13-41 - General Provisions**

---

LAST AMENDED  
5/8/2013

The City Planning Commission may grant certifications, authorizations and special permits in accordance with Section [13-40](#), inclusive. All such special permits and authorizations, in addition to meeting the requirements, conditions and safeguards prescribed by the Commission as specified in this Section, shall conform to and comply with all of the applicable regulations, except as otherwise specified herein.

---

LAST AMENDED  
5/8/2013

An application to the City Planning Commission for the grant of a certification, authorization or special permit under the provisions of Section [13-40](#) shall include a site plan showing the location of all existing and proposed #buildings or other structures# on the #zoning lot#, the location of all vehicular entrances and exits and off-street parking spaces, and such other information as may be required by the Commission.

#### **13-431 - Modification of minimum facility size**

---

LAST AMENDED  
12/5/2024

An off-street parking facility in the #Manhattan Core# may provide a gross unobstructed surface area less than the minimum size required or greater than the maximum size permitted by Section [13-26](#) (Minimum and Maximum Size of Parking Facilities) upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the proposed layout of such parking facility, including, but not limited to, the arrangement of parking spaces, travel aisles and reservoir spaces, where applicable, is sufficient to accommodate the requisite vehicular navigation and turning movements associated with such a facility. In order to make such a determination, the applicant shall provide the Chairperson with dimensioned plan drawings that depict the proposed vehicular movement through the facility, including any relevant maneuverability or turning radius information.

Where the Chairperson certifies that an #accessory# off-street parking facility may be reduced in size because vehicles will be limited in length, such restriction shall be noted on the certificate of occupancy.

---

### **13-44 - Authorizations in the Manhattan Core**

### **13-441 - Curb cuts**

---

The City Planning Commission may authorize, subject to the applicable zoning district regulations, curb cuts located on a #wide street#, provided the Commission finds that a curb cut at such a location:

- (a) is not hazardous to traffic safety;
- (b) will not create or contribute to serious traffic congestion, or unduly inhibit vehicular movement;
- (c) will not adversely affect pedestrian movement;
- (d) will not interfere with the efficient functioning of bus lanes, specially designated #streets# or public transit facilities; and
- (e) will not be inconsistent with the character of the existing streetscape.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

---

### **13-442 - Limited increase in parking spaces for existing buildings without parking**

---

The City Planning Commission may, by authorization, allow an increase in the number of parking spaces in an existing parking facility or the creation of a new parking facility associated with an existing #building# #developed# without parking, provided that the limitations of paragraph (a) and the findings of paragraph (b) of this Section are met.

(a) Limitations

The total number of parking spaces in a parking facility, inclusive of any existing spaces, where applicable, shall not exceed what would be permitted if such facility were #developed# in accordance with the provisions of Section [13-10](#) (PERMITTED OFF-STREET PARKING IN THE MANHATTAN CORE). However, in no event shall the number of additional spaces authorized pursuant to this Section exceed 15 spaces.

(b) Findings

The Commission shall find that:

- (1) the location of the vehicular entrances and exits to the parking facility will not unduly interrupt the flow of pedestrian traffic associated with #uses# or public facilities, including access points to mass transit facilities in close proximity thereto, or result in any undue conflict between pedestrian and vehicular movements, due to the entering and leaving movement of vehicles;
- (2) the location of the vehicular entrances and exits to such parking facility will not interfere with the efficient functioning of #streets#, including any lanes designated for specific types of users or vehicles, due to the entering

and leaving movement of vehicles;

- (3) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and
- (4) such parking facility will not be inconsistent with the character of the existing streetscape.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

---

### **13-443 - Reduction in the number of required existing parking spaces**

---

LAST AMENDED

5/8/2013

For off-street parking facilities built prior to May 8, 2013, the City Planning Commission may authorize a reduction in the number of required #accessory# off-street parking spaces where the Commission finds that such reduction will not have undue adverse effects on residents, businesses or community facilities in the surrounding area, as applicable.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

---

### **13-45 - Special Permits for Additional Parking Spaces**

---

LAST AMENDED

12/5/2024

In accordance with the special permit provisions of Sections [13-451](#) through [13-455](#), the City Planning Commission may permit the off-street parking facilities listed in paragraph (a) of this Section, provided that such parking facilities comply with the findings of paragraphs (b) and (c) of this Section.

(a) Eligible parking facilities

The City Planning Commission may permit, subject to the otherwise applicable zoning district regulations:

- (1) #accessory# off-street parking facilities on-site or off-site, open or enclosed, with any capacity, where such facilities:
  - (i) are proposed #developments# or #enlargements# with a capacity not otherwise allowed under the applicable regulations of Section [13-10](#) (PERMITTED OFF-STREET PARKING IN THE MANHATTAN CORE); or
  - (ii) are located in an existing parking facility or are creating a new parking facility associated with an existing #building# #developed# without parking beyond the capacity authorized pursuant to Section [13-442](#) (Limited increase in parking spaces for existing buildings);
- (2) #public parking lots#, where such facilities:
  - (i) are proposed #developments# or #enlargements# with any capacity not otherwise allowed under the applicable regulations of Section [13-10](#);

- (ii) are located in an existing parking facility or are creating a new parking facility associated with an existing #building# #developed# without parking beyond the capacity authorized pursuant to Section [13-442](#); or
  - (iii) are proposed #developments# or #enlargements# in locations not permitted by Section [13-14](#) (Permitted Parking in Public Parking Lots);
- (3) #public parking garages#, where such facilities:
- (i) are proposed #developments# or #enlargements# in the zoning districts permitted, pursuant to paragraph (d) of Section [13-041](#) (Applicability of parking regulations within the Manhattan Core); or
  - (ii) are located in an existing parking facility or are creating a new parking facility associated with an existing #building# #developed# without parking beyond the capacity authorized pursuant to Section [13-442](#).

The Commission may also permit floor space in such #public parking garages# used for off-street parking spaces in any #story# located not more than 23 feet above #curb level# to be exempt from the definition of #floor area#, as set forth in Section [12-10](#).

(b) Findings

The Commission shall find that:

- (1) the location of the vehicular entrances and exits to such parking facility will not unduly interrupt the flow of pedestrian traffic associated with #uses# or public facilities, including access points to mass transit facilities in close proximity thereto, or result in any undue conflict between pedestrian and vehicular movements, due to the entering and leaving movement of vehicles;
- (2) the location of the vehicular entrances and exits to such parking facility will not interfere with the efficient functioning of #streets#, including any lanes designated for specific types of users or vehicles, due to the entering and leaving movement of vehicles;
- (3) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;
- (4) for #public parking garages#, that where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion; and
- (5) such parking facility will not be inconsistent with the character of the existing streetscape.

(c) Additional findings

The Commission shall also find that each proposed off-street parking facility complies with the additional findings set forth in one of the following Sections, as applicable:

- (1) Section [13-451](#) (Additional parking spaces for residential growth) shall apply to any such parking facility serving the parking needs of a predominantly #residential# #development# or #enlargement# on a tract of land that has or will have an area of less than 1.5 acres;
- (2) Section [13-452](#) (Additional parking spaces for health care, arts or public assembly uses) shall apply to any such

parking facility serving the parking needs of any #use# listed in paragraph (a) of Section [13-452](#) on a tract of land that has or will have an area of less than 1.5 acres;

- (3) Section [13-453](#) (Additional parking spaces for economic development uses) shall apply to any such parking facility serving the parking needs of a non-#residential use# not otherwise listed in paragraph (a) of Section [13-452](#) on a tract of land that has or will have an area of less than 1.5 acres;
- (4) Section [13-454](#) (Additional parking spaces for large development sites) shall apply to any such parking facility serving the parking needs of a #large-scale development# or any other #development# or #enlargement# on a tract of land that has or will have an area of at least 1.5 acres; or
- (5) Section [13-455](#) (Additional parking spaces for existing accessory off-street parking facilities) shall apply to any such #accessory# parking facility existing prior to May 8, 2013.

In determining the amount of additional parking spaces to grant pursuant to such additional findings, the Commission may take into account levels of vacancy in existing off-street parking facilities within the area of the proposed parking facility.

---

LAST AMENDED  
5/8/2013

The City Planning Commission may permit a parking facility listed in paragraph (a) of Section [13-45](#) (Special Permits for Additional Parking Spaces), where such parking facility serves the parking needs of a predominantly #residential# #development# or #enlargement#, provided that, in addition to the conditions and findings set forth in Section [13-45](#), the Commission shall find that either:

- (a) the number of off-street parking spaces in such proposed parking facility is reasonable and not excessive in relation to recent trends in close proximity to the proposed facility with regard to:
  - (1) the increase in the number of #dwelling units# ; and
  - (2) the number of both public and #accessory# off-street parking spaces, taking into account both the construction, if any, of new off-street parking facilities and the reduction, if any, in the number of such spaces in existing parking facilities. In making this determination, the Commission may take into account off-street parking facilities for which building permits have been granted, or which have obtained City Planning Commission special permits pursuant to Section [13-45](#); or
- (b) the proposed ratio of parking spaces to #dwelling units# in the proposed #development# or #enlargement# does not exceed:
  - (1) 20 percent of the total number of #dwelling units#, where such units are located within Community District 1, 2, 3, 4, 5 or 6; or
  - (2) 35 percent of the total number of #dwelling units#, where such units are located within Community District 7 or 8.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
