98-424 - Authorization to modify certain bulk regulations

LAST AMENDED
3/22/2006

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Sections 98-40 and 98-50, inclusive, the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.
