(d) Special public access provisions by parcel

The provisions of Sections 62-52 (Applicability of Waterfront Public Access Area

Requirements) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS) are modified at the following designated locations which are shown on Map BK-1b in paragraph (f) of this Section:

(1) Parcels 1 and 2

(i) #Shore public walkway#

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge of the #zoning lot# and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating or planting shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-652 and 62-655, respectively. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for a #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is #developed# first shall provide an #upland connection# along the #lot line# between the two parcels. The remaining parcel may include the width of the #upland connection# in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels,

according to the provisions of paragraph (e)(1) of this Section. If both parcels are #developed# concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

If, however, Parcel 4 is improved #predominantly# as a public access area prior to or concurrently with the #development# of Parcel 3, the #upland connection# requirement shall be waived. However, a public way shall be provided within an area bounded at its eastern edge by the shared #lot line# of Parcels 2 and 3, at its northern edge by the #shoreline#, at its western edge by a line 115 feet from the shared #lot line# of Parcels 2 and 3, and at its southern edge by the #lot line# along Commercial Street.

In addition, such public way shall have a minimum width of 15 feet, and shall comply with the provisions of Section 62-64 (Design Requirements for Upland Connections), as applicable for Type 2 #upland connections#. There shall be no more than two changes in direction over its entire length and no single turn shall be less than 90 degrees relative to the line of travel. Any change in direction with an angle of less than 135 degrees shall be posted with an entry sign and shall comply with the provisions of paragraph (b) of Section 62-654 (Signage), and shall also be accompanied by an arrow indicating the direction of travel towards the #shore public walkway#. At least 50 percent of the area of any walls bounding such public way shall be glazed. In addition, 24 linear feet of seating shall be provided within such public way and within 50 feet of its boundary with the #shore public walkway# and the #street# it connects to.

(ii) #Supplemental public access area#

The #supplemental public access area# shall #abut# the #shore public walkway# continuously along its longest side, and shall also #abut# the required #upland connection# where it meets the #shore public walkway#. The #upland connection# may cut across the #supplemental public access area# provided that any resulting #supplemental public access area# shall be at least 5,000 square feet. In no event shall the #supplemental public access area# be deeper than 100 feet.

Alternatively, a portion of the required #supplemental public access area# that is at least 5,000 square feet may #abut# the #shore public walkway# continuously along the longest side provided that it also #abuts# a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-64, but shall not be counted towards satisfying the required amount of #waterfront public access area# on the site.

(4) Parcel 5b

The portion of Block 2472, Lot 32, located within Parcel 5b shall constitute a #zoning lot# for the purpose of applying all #waterfront public access area# and #visual corridor# provisions of Sections 62-50 through 62-90 (WATERFRONT ACCESS

PLANS), inclusive.

If any #supplemental public access area# is located on the #pier#, one shade tree shall be required for each 1,000 square feet of #supplemental public access area#, but in no event shall more than four shade trees be required. A shading element may be substituted for the required shade trees at a rate of 450 square feet of shade element per tree.

(i) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street.

(ii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
