74-85 - Covered Pedestrian Space

File generated by https://zr.planning.nyc.gov on 11/29/2025

74-85 - Covered Pedestrian Space

LAST AMENDED 8/14/2025

C4-7 C5-2 C5-3 C5-4 C5-5 C6-4 C6-5 C6-6 C6-7 C6-8 C6-9 C6-11 C6-12 M1-6A M1-7A M1-8A M1-9A

In the districts indicated and in the #Special Midtown South Mixed Use District#, the City Planning Commission may permit #floor area# bonuses for #covered pedestrian space# in accordance with the provisions of Sections <u>74-851</u> through <u>74-853</u>, inclusive.

74-851 - Floor area bonus for covered pedestrian space

LAST AMENDED 8/14/2025

For the #development# or #enlargement# of a #commercial#, #community facility# or #mixed building#, for each square foot of #covered pedestrian space# provided on a #zoning lot#, the total #floor area# permitted on that #zoning lot# under the provisions of Section 33-12 (Maximum Floor Area Ratio) or Section 43-132 (Floor area regulations in M1 Districts with an A suffix), as applicable, may be increased as set forth in the following table:

PERMITTED ADDITIONAL FLOOR AREA PER SQUARE FOOT OF COVERED PEDESTRIAN SPACE

District	Basic (in square feet)	Maximum (in square feet)
C5-3 C5-5 C6-6 C6-7 C6-9 C6-11 C6-12 M1-8A M1-9A	11	14
C4-7 C5-2 C5-4 C6-4 C6-5 C6-8 M1-6A M1-7A	8	11

In no event shall the resulting #floor area ratio# exceed the amount set forth in the underlying provisions by more than 20 percent. Any #floor area# bonus earned by providing a #covered pedestrian space# may be applied to increase the #residential# #floor area# of a #mixed building#.

Any portion of the #covered pedestrian space# that is within 10 feet of a #street line# or #lot line# and that is extended along such #street line# or #lot line# on either side of an entrance to it from an adjoining #street#, #arcade#, #publicly accessible open area#, #court#, #yard# or other #covered pedestrian space#, may receive only that #floor area# bonus accorded to an #arcade#.

The basic #floor area# bonus may be increased by providing one or more of the following additional amenities:

(a) An escalator, providing pedestrian access from sidewalk level to any floor level containing #uses# specified in paragraph (c) of Section 74-852 (Design requirements for covered pedestrian spaces). Such escalator may be either within or directly accessible from the #covered pedestrian space#. The basic #floor area# bonus may be increased by 1.5 square feet per

square foot of #covered pedestrian space# for each floor level connected by such escalator. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such escalator shall not exceed the allowable maximum set forth in the table.

- (b) Where the height over at least one-third of the #covered pedestrian space# in one location is increased by more than one #story# of the #building# above the required height, the basic #floor area# bonus for that portion may be increased by 1.5 square feet per square foot of such raised portion for each such #story#. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such additional height shall not exceed the allowable maximum set forth in the table.
- (c) Where direct access from the #covered pedestrian space# to a subway station mezzanine or concourse is provided and such connection is major, necessary, and kept open to the general public for the same hours as the #covered pedestrian space# or as specified by the Commission, an additional bonus of two square feet of #floor area# per square foot of #covered pedestrian space# may be permitted over the amount specified in the table.

74-852 - Design requirements for covered pedestrian spaces

LAST AMENDED 12/5/2024

In order to qualify for a #floor area# bonus, a #covered pedestrian space# shall be directly accessible to the public from the adjoining #street#, #arcade#, #through block arcade#, #publicly accessible open area#, #court#, #yard#, #pedestrian mall# or other #covered pedestrian space# which is a part of the public pedestrian circulation system, and shall:

- (a) have an area of at least 3,000 square feet and a minimum width, at any point, of 20 feet. For spaces between 100 feet and 150 feet in length, the minimum width shall be 25 feet. For spaces longer than 150 feet, the average width shall be at least 30 feet;
- (b) have a height of at least 30 feet;
- (c) have appropriate #uses# permitted in the district, such as, but not limited to, small stores and cafes, occupying the maximum feasible frontage along those bounding walls of the #covered pedestrian space# which do not abut #lot lines# or #street lines#. At least 50 percent of such frontage shall be comprised of individual #uses#, each of which has a frontage not exceeding 25 feet, and the frontage of any other single #use# may not exceed 40 feet. In no event may banks, loan offices, insurance offices or similar office type #uses# occupy any portion of the frontage of the #covered pedestrian space#. Access to other #uses# within a #building# may be provided from the #covered pedestrian space# if such #uses# are not located at the same #story# as the pedestrian space;
- (d) be adequately illuminated, utilizing natural daylight wherever possible; and
- (e) be suitably maintained and kept open to the public between 7:00 a.m. and 12 midnight or on a schedule suitable to meet the public need.

Obstructions such as awnings, canopies, pedestrian bridges, escalators, stairs, balconies or other architectural elements above the floor level of the #covered pedestrian space# are prohibited unless it can be clearly demonstrated that they will enhance design or pedestrian circulation. In any event, horizontal projection of balconies into any #covered pedestrian space# shall not exceed five feet.

Planting, landscaping, ornamental fountains, statuary, outdoor furniture, kiosks, works of art, light wells and other features may be permitted in a portion of the pedestrian space, but not to the extent of impeding pedestrian movement.

Columns or similar elements may be permitted within a #covered pedestrian space#, but the aggregate area of such elements may not exceed two percent of the total pedestrian space. The clear span along the main path of pedestrian traffic shall not be less than the figure indicated for minimum dimensions of pedestrian space in paragraph (a) of this Section. However, when two or more pedestrian paths are provided, the minimum clear span widths of such paths may be reduced by five feet.

Where multiple access to the #covered pedestrian space# is provided from an #arcade#, the minimum clear spacing between columns at the face of the #building# may be reduced to 18 feet, provided the height of the #arcade# is not less than 30 feet.

A portion of the #covered pedestrian space# shall be public sitting areas with appropriate facilities such as cafes or other public seating arrangements.

Entrances to lobbies may be permitted along the boundary of a #covered pedestrian space#. The #floor area# of an entrance lobby shall not be considered as part of the #covered pedestrian space#. Where a #zoning lot# is bounded by more than one #street#, or by the combination of #streets#, #publicly accessible open areas# or other public rights-of-way, the #covered pedestrian space# will provide a connection between at least two such areas.

Where the space is heated or air-conditioned, the standards for heating, ventilating and air-conditioning shall be at least equal to that of the lobby.

For the purpose of ensuring prominent public attention to the #covered pedestrian space#, the openings at the face of the #building# for entrances to the #covered pedestrian space# shall be at least 20 feet wide, 30 feet high and unobstructed for a depth of 30 feet, except, where the #covered pedestrian space# is air-conditioned, the openings at the entrances may be partially enclosed. Such enclosure at the entrances shall be transparent in nature, commence at a height not less than eight feet above the floor level at the entrances, and be set back from the face of the #building# at least 12 feet. Air curtains are permitted but shall be located at a height not less than eight feet. Such entrances are permitted to be fully enclosed only for that portion of the year between October 15 and April 15, provided, however, that such space is readily accessible to the public between 7:00 a.m. and 12 midnight or on a schedule suitable to meet the public need.

An information plaque shall be provided that contains a public space symbol and required text that matches the dimensions and graphic standards provided in the Privately Owned Public Space Signage file from the Required Signage Symbols on the Department of City Planning website. Such symbol and required text shall include the phrase "Open To Public" and shall be provided with a highly contrasting background, in a format that ensures legibility. Additional requirements and review procedures for privately owned public space signage systems are specified in Title 62, Chapter 11, of the Rules of the City of New York.

When a #through block arcade# provides public access to a #covered pedestrian space#, the opening at the point shall be at least 30 feet wide and 30 feet high. The two openings at the face of the #building# to the #through block arcade# shall be at least 20 feet wide and 30 feet high for a depth of 30 feet and shall be unobstructed except for stairs, ramps and escalators. If such space is air-conditioned, only one opening at the face of the #building# need comply with the partial enclosure requirements of the preceding paragraph.

A #covered pedestrian space# located at 12 feet or more below the sidewalk level shall provide direct subway or below grade pedestrian concourse access. For such #covered pedestrian spaces#, the entrance openings at the sidewalk level may be less than 30 feet in height, but not less than 15 feet, provided the entrance opening is unenclosed for its full height and is extended along the face of the #building# for the entire width of the #covered pedestrian space#.

74-853 - Findings for covered pedestrian spaces

LAST AMENDED 12/5/2024

As a condition for permitting such bonus #floor area#, the City Planning Commission shall find that:

- (a) the proposed #covered pedestrian space# will have a useful role in meeting existing needs for sheltered space for the comfort and convenience of the general public;
- (b) the proposed #covered pedestrian space# is located at or close to the principal level of pedestrian circulation in adjacent areas, with prominent and obvious public entrances;
- (c) the public character of the proposed #covered pedestrian space# shall be obvious from the outside of the #building#;
- (d) appropriate #commercial# #uses# including, but not limited to, small stores and cafes fronting on the #covered pedestrian space# are provided;
- (e) the distribution of the #bulk# on the #zoning lot# permits satisfactory access of light and air to surrounding #streets# and properties; and
- (f) the proposed connection to an underground subway station from a #covered pedestrian space# is necessary to ease pedestrian movement and sidewalk congestion in the area and the construction cost of the proposed amenity is substantial enough to justify the granting of additional #floor area ratio# bonus.

The Commission may permit modification of the entrance requirements for #covered pedestrian spaces#, provided that the Commission finds that the entrance is so designed as to ensure prominent public notice and promote public pedestrian circulation through such space.
