74-873 - Findings for covered pedestrian spaces

LAST AMENDED

2/2/2011

As a condition for permitting such bonus #floor area#, the City Planning Commission shall find that:

- (a) the proposed #covered pedestrian space# will have a useful role in meeting existing needs for sheltered space for the comfort and convenience of the general public;
- (b) the proposed #covered pedestrian space# is located at or close to the principal level of pedestrian circulation in adjacent areas, with prominent and obvious public entrances;
- (c) the public character of the proposed #covered pedestrian space# shall be obvious from the outside of the #building#;
- (d) appropriate #commercial# #uses# including, but not limited to, small stores and cafes fronting on the #covered pedestrian space# are provided;
- (e) the distribution of the #bulk# on the #zoning lot# permits satisfactory access of light and air to surrounding #streets# and properties; and
- (f) the proposed connection to an underground subway station from a #covered pedestrian space# is necessary to ease pedestrian movement and sidewalk congestion in the area and the construction cost of the proposed amenity is substantial enough to justify the granting of additional #floor area ratio# bonus.

The Commission may permit modification of the entrance requirements for #covered pedestrian spaces#, provided that the Commission finds that the entrance is so designed as to ensure prominent public notice and promote public pedestrian circulation through such space.
