91-832 - Plaza improvements

LAST AMENDED

6/21/2016

A #publicly accessible open area# shall be improved in full accordance with the provisions of Section [37-70](#) (PUBLIC PLAZAS) as modified by this Section, and as further modified by Section [91-833](#) (Special regulations for plazas less than 40 feet in depth) for #publicly accessible open areas# with a maximum depth of less than 40 feet, as measured perpendicular to any #street line#. Subsequent design changes to any #publicly accessible open area# improved pursuant to the provisions of such Sections may only be permitted pursuant to Section [91-837](#). The City Planning Commission may authorize a modification of the provisions of this Section and Section [91-833](#) pursuant to Section [91-842](#) (Authorization to modify design requirements).

- (a) For the purposes of applying the provisions of this Section, any portion of the #publicly accessible open area# occupied by a garage entrance, driveway, loading berth or gratings for electrical vaults may be excluded from the calculation of the total area or total #street# frontage of the #publicly accessible open area#. Such area shall remain open and accessible to the public at all times.
- (b) The area dimension requirements of Section [37-712](#), the locational restrictions of Section [37-713](#), the orientation restrictions of Section [37-714](#) and the requirements for major and minor portions of #public plazas# set forth in Sections [37-715](#) and [37-716](#), respectively, shall not apply.
- (c) The #through block public plaza# provisions of Section [37-717](#) that require a setback along any #building# wall or walls that adjoin a #through block public plaza# or through #block# portion of a #publicly accessible open area# shall not apply.
- (d) The sidewalk frontage provisions of Section [37-721](#) shall be modified as follows:
 - (1) the requirements of paragraph (a) may be reduced to the minimum extent necessary to allow existing walls or structures within such area to remain, provided that such walls or structures do not increase in height or length along the #street# frontage, and all portions of the #publicly accessible open area# are accessible from a #street#, #arcade# or other portion of the #publicly accessible open area#.
 - (2) paragraph (b) shall be modified to allow planters with bounding walls that exceed a height of two feet that are permitted by paragraph (g) of this Section to be located in such area.
 - (3) for #corner public plazas#, where there is a change in elevation permitted by paragraph (e) of this Section for the area within 15 feet of the intersection of any two or more #streets# on which the #publicly accessible open area# fronts, such area shall not be required to be at the same elevation as the adjoining public sidewalk, but must be free of obstructions except as may otherwise be provided in paragraph (d)(1) of this Section.
- (e) The provisions of Section [37-722](#) (Level of plaza) shall be modified to permit any elevation of the #publicly accessible open area# existing on June 21, 2016, to remain.
- (f) The provisions of Section [37-726](#) (Permitted obstructions) shall be modified as follows:
 - (1) paragraph (c) shall allow awnings above retail and service establishments that do not project into the #publicly accessible open area# more than three feet when measured perpendicular to the #building# facade. There shall be no limitation on the area or height of an awning, but in no event shall an awning for a retail or service establishment contain vertical supports.
 - (2) paragraph (d) shall allow garage entrances, driveways or loading berths fronting on a #publicly accessible open area# and existing on June 21, 2016, to remain, provided that they are separated from the remainder of the

#publicly accessible open area# by a barrier sufficient to substantially conceal these facilities and any vehicles therein when viewed from any point in the #publicly accessible open area#. A #building# trash storage facility may be accessed or serviced through the portion of a #publicly accessible open area# that is occupied by a garage entrance, driveway or loading berth.

- (g) The provisions of Section [37-742](#) (Planting and trees) may be modified where the Chairperson of the City Planning Commission has been provided with documentation sufficient to establish that subsurface conditions do not allow the required soil depth for shrubs or trees to be provided below-grade or within a planter with bounding walls no higher than 18 inches in height above an adjacent walking surface or the highest adjacent surface where the bounding wall of such planter adjoins two or more walking surfaces with different elevations. A raised planter may be provided with bounding walls up to three feet for shrubs, or 3 feet, 6 inches for trees, provided that fixed seating with backs is integrated into the planter for at least 50 percent of the perimeter of the planter that is adjacent to a walking surface. If such planter, or any portion thereof, is located within ten feet of a #street line#, fixed seating with backs shall be integrated into at least 75 percent of the perimeter of the planter that is adjacent to a walking surface. Where it is demonstrated that no required trees can be planted flush-to-grade or planted at grade within planting beds with no raised curbs or railings, the Chairperson may allow all trees to be planted within raised planters.
- (h) The calculation of the minimum number of entry plaques required by paragraph (a) of Section [37-751](#) (Public space signage systems) may be modified for #publicly accessible open areas# that occupy more than one #street# frontage to alternatively require a minimum of one entry plaque at each #street# frontage of the #publicly accessible open area#, and to further require one additional entry plaque at each #street# frontage that measures 80 feet or more in length.
- (i) The provisions of paragraphs (a) and (d) of Section [37-753](#) (Accessory signs) shall not apply. Each establishment fronting on the #publicly accessible open area# shall be permitted to have one or more #signs# with an aggregate area not to exceed the product of 12 square feet and the length of the establishment along the #publicly accessible open area# in linear feet, divided by 40 linear feet. In no event shall a #sign# exceed 16 square feet in area. #Signs# may be affixed to the #building# wall or to awnings, or may project no more than 18 inches when measured perpendicular to the #building# facade, provided that such #sign# is located a minimum of 10 feet above the level of the #publicly accessible open area#.
- (j) The provisions of paragraphs (a) and (b) of Section [37-76](#) (Mandatory Allocation of Frontages for Permitted Uses) shall not apply. The provisions of Section [91-831](#) (Ground floor requirements) shall apply to all new #building# walls fronting on the #publicly accessible open area#, and the following shall also apply:
 - (1) the #use# requirements of paragraph (b)(1) of Section [91-831](#) shall apply to all new establishments located along existing #building# walls fronting on a #publicly accessible open area#; and
 - (2) the provisions of paragraph (c) of Section [37-76](#) for existing #building# walls that are non-transparent shall apply except for frontage occupied by active loading and parking entrances.
- (k) The provisions of Section [37-78](#) (Compliance) shall be modified as follows:
 - (1) paragraph (a) shall be modified to provide that no permit shall be issued by the Department of Buildings for any change to a #publicly accessible open area# without certification by the Chairperson of the City Planning Commission of compliance with the provisions of this Section and Sections [91-833](#) or [91-837](#), as applicable; and
 - (2) paragraph (b) shall be modified to require that the periodic compliance report shall document compliance with the provisions of Section [37-70](#) as modified by this Section and, as applicable, Section [91-833](#), and that such report shall also be provided to the local Council Member.
