## 81-671 - Special street wall requirements

---

LAST AMENDED

8/9/2017

The requirements of Section [81-43](#) (Street Wall Continuity Along Designated Streets) shall be applicable within the Subdistrict, except as modified in this Section.

#Buildings# with frontage on Park, Lexington, Madison and Vanderbilt Avenues, or Depew Place in the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, shall have a #street wall# within 10 feet of the #street line# of such #streets#. On 42nd Street, the #street wall# shall be at the #street line#. The width of the required #street wall# shall be at least 80 percent of the length of the #front lot line#.

The minimum height of such #street walls# without any setback shall be 120 feet above #curb level# or the height of the #building#, whichever is less, and the maximum height shall not exceed 150 feet above #curb level#. Where a #zoning lot# is bounded by the intersection of Park Avenue, Lexington Avenue, Madison Avenue, Vanderbilt Avenue, 42nd Street or Depew Place and any other #street#, these #street wall# height regulations shall apply along the full length of the #zoning lot# along the other #street# or to a distance of 125 feet from the intersection, whichever is less.

However, for #developments# or, where permitted, #enlargements# on #qualifying sites# within an area bounded by East 43rd Street, Second Avenue, East 42nd Street and a line 200 feet east of Third Avenue, such #street wall# location requirements shall not apply to the portion of the frontage where an open publicly accessible space is provided in accordance with paragraph (b) of Section [81-681](#) (Mandatory requirements for qualifying sites).

Beyond 125 feet of the intersection, the maximum height of the #street wall# above #curb level# shall not exceed 120 feet. For such #buildings#, the provisions of Section [81-262](#) (Maximum height of front wall at the street line) shall not be applicable.

However, the ten-foot setback requirement of paragraph (a) of Section [81-263](#) (Standard setback requirements) shall apply only to those portions of the #building# above 120 feet.
