# 81-675 - Curb cut restrictions and loading berth requirements

File generated by https://zr.planning.nyc.gov on 12/27/2025

### 81-675 - Curb cut restrictions and loading berth requirements

LAST AMENDED 8/9/2017

For #developments# or #enlargements# within the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, in addition to the provisions of Sections 81-30 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS), inclusive, and 81-44 (Curb Cut Restrictions), the following shall apply:

#### (a) Loading berth provisions

For #through lots#, the required loading berth shall be arranged so as to permit head-in and head-out truck movements to and from the #zoning lot#.

However, the Commissioner of Buildings may waive such head-in and head-out requirements, provided that:

- (1) the #zoning lot# has frontage along a #street# where curb cuts accessing a loading berth are permitted, but there is no access to such #zoning lot# from the #street# due to the presence of:
  - (i) a #building# existing on August 9, 2017, containing #residences#;
  - (ii) a #non-residential building# existing on August 9, 2017, that is three or more #stories# in height; or
  - (iii) a #building# designated as a landmark or considered a contributing #building# in an Historic District designated by the Landmarks Preservation Commission; or
- (2) there are subsurface conditions, ventilation requirements from below-grade infrastructure or other site planning constraints that would make accommodating such loading berths infeasible.

#### (b) Curb cut provisions

The maximum width of any curb cut (including splays) shall be 15 feet for one-way traffic and 25 feet for two-way traffic. Curb cuts shall not be permitted on 47th Street between Park and Madison Avenues or on 45th Street between Depew Place and Madison Avenue.
