133-22 - Lot Coverage

LAST AMENDED
12/5/2024

The maximum #lot coverage# requirements of Section 23-36 (Maximum Lot Coverage) shall not apply. In lieu thereof, all #buildings# shall comply with the following aggregate #lot coverage# requirements:

(a) The maximum #lot coverage# from the #base plane# to a height that is 20 feet above the #base plane# shall be 70 percent.

(b) The maximum #lot coverage# from a height that is more than 20 feet above the #base plane# to a height that is 60 feet above the #base plane# shall be 60 percent.

(c) The maximum #lot coverage# from a height that is more than 60 feet above the #base plane# to a height that is 180 feet above the #base plane# shall be 45 percent.

(d) The maximum #lot coverage# above a height of 180 feet above the #base plane# shall be 25 percent.

The City Planning Commission may authorize an increase in the maximum #lot coverage# as set forth in paragraph (c) of this Section to up to 55 percent, upon finding that such increase is necessary to achieve the programmatic requirements of the development, and will not unduly restrict access of light and air to publicly accessible areas and #streets#.
