126-32 - Loading Regulations

LAST AMENDED
6/6/2024

(a) Off-street loading berths shall not be permitted between a #street wall# and a #street line#. However, the City Planning Commission may authorize off-street loading berths located between a #street wall# and a #street line#, provided that the Commission finds that such loading berths can not be located elsewhere on the #zoning lot# and that such loading berths shall be enclosed or screened to the greatest extent practicable.

(b) All open off-street loading berths shall be screened from all adjoining #zoning lots# pursuant to the standards of Section 44-565 (Screening).
