## **101-744 - Special permit for public parking garages or public parking lots**

---

LAST AMENDED

12/5/2024

The City Planning Commission may grant a special permit for #public parking garages# or #public parking lots# with a capacity of not more than 100 spaces, provided that the regulations set forth in Sections [36-53](#) (Width of Curb Cuts and Location of Access to the Street), [36-54](#) (Surfacing) and [36-55](#) (Screening), are met and that no roof parking is permitted. The Commission may permit floor space on one or more #stories#, and up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# set forth in Section [12-10](#) (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

- (a) such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (b) such #use# has adequate reservoir space at the vehicular entrance to accommodate a minimum of 10 automobiles or 20 percent of the spaces so provided, whichever amount is less; and
- (c) where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.
