(b) for such concentration of #development#, better standards of privacy and usable #open space# can be and are achieved under the development plan by inclusion of the proposed #residential building# types;

(c) the change of housing type constitutes the most effective method of preserving #natural features#;

(d) the #aggregate width of street walls# of a number of #residential buildings# separated by party walls shall not exceed 100 feet;

(e) the proposed #street# system for the tract of land to be #developed# is so located as to draw a minimum of vehicular traffic to and through #streets# in the adjacent area; and
