

Zoning Resolution

THE CITY OF NEW YORK

Eric Adams, Mayor

CITY PLANNING COMMISSION

Daniel R. Garodnick, Chair

107-20 - DISTRICT PLAN ELEMENTS

File generated by <https://zr.planning.nyc.gov> on 3/31/2025

107-20 - DISTRICT PLAN ELEMENTS

LAST AMENDED

11/2/2023

All land in the #open space network# as shown on the District Plan (Map 3 in Appendix A), except #public parks#, and all #zoning lots# along an #arterial# as shown on the District Plan (Map 2 in Appendix A), are subject to the provisions of this Section, inclusive.

107-21 - Modification of Designated Open Space

LAST AMENDED

8/18/1983

The City Planning Commission may adjust the boundaries of a #designated open space# on a #zoning lot# provided that such adjustment will not place the new boundary closer than 60 feet to a watercourse. As a condition for such adjustment in the boundaries, the Commission shall find that:

- (a) such adjustment shall:
 - (1) result in a substantial improvement in the quality and usefulness of the #designated open space#; and
 - (2) permit #development# which better satisfies the purpose of this Chapter and include new features in the #designated open space# which will be at least equal in quality to those which are displaced from it; and
 - (3) provide an equivalent area replacement for the area removed from the #designated open space#; or
- (b) such adjustment shall:
 - (1) be permitted to exclude:
 - (i) a #zoning lot# which is contiguous to exempted #zoning lots# along at least two #lot lines#; or
 - (ii) a #zoning lot# which would otherwise be contiguous to exempted #zoning lots# along at least two #lot lines# but for the separation by a #street#; or
 - (iii) #streets# #abutting# exempted #zoning lots#; and
 - (2) not substantially alter the utility and quality of the #designated open space#; or
- (c) such adjustment shall:
 - (1) be in conjunction with a public improvement project approved by the City prior to September 11, 1975, for funding to exclude in whole or in part the bed of a mapped #street# and/or adjacent #zoning lots# or portions thereof; and
 - (2) not substantially alter the utility and quality of the #open space network#; or
- (d) such adjustment shall:
 - (1) exclude, in whole or in part, private property contiguous with a #public park# which has been mapped since September 11, 1975; and

- (2) not preclude the continuity to the #designated open space# or the public pedestrian way or the #waterfront esplanade#; and
- (3) not substantially alter the utility and quality of the #designated open space#.

107-22 - Designated Open Space

LAST AMENDED

11/2/2023

Any #development# or #site alteration# on a #zoning lot# which contains #designated open space# as shown on the District Plan (Map 3 in Appendix A), shall require certification by the City Planning Commission that:

- (a) such #designated open space# shall be preserved in its natural state by the owner of the #zoning lot#; and
- (b) where required by the Commission, the applicant has complied with the provisions of Section [107-222](#) (Public pedestrian ways); and
- (c) where required by the Commission, as indicated on the District Plan, that the applicant has complied with Section [107-23](#) (Waterfront Esplanade).

Within any #designated open space#, removal of trees, alteration of topography, #development# or #enlargement# of active recreational facilities, or the establishment of utility easements may be undertaken only in accordance with the provisions of this Section and Section [107-30](#) (NATURAL FEATURE REGULATIONS).

Planting, landscaping or provision of footpaths or sitting areas are permitted in any part of #designated open space#, provided that such improvements do not involve removal of trees or alteration of existing topography, and do not obstruct pedestrian movement within the public pedestrian ways.

107-221 - Active recreational facilities

LAST AMENDED

11/2/2023

#Designated open space# may be used for active recreational facilities provided that the City Planning Commission certifies that such #uses# are compatible with the purposes of the #open space network # and have minimal impact on tree removal, topographic alterations or drainage conditions.

Active recreational facilities may include swimming pools, tennis courts or facilities and equipment normally found in playgrounds, and shall comply with the #use# regulations of the underlying district.

In the development of active recreational facilities, no individual trees of six-inch #caliper# or more shall be removed except by special authorization of the Commission in accordance with the provisions of Section [107-65](#) (Modification of Natural Feature Regulations). Active recreational facilities shall not be allowed within 60 feet of any watercourse in #designated open space# unless the Commission certifies that a location closer to such watercourse will not adversely affect the natural character of the watercourse or its drainage function. The Commission, where appropriate, shall be guided by the reports from other City agencies involved in land contour work, storm water drainage systems or similar operations.

If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# for satisfying #lot area# requirements, #yard#

requirements, #floor area# or #lot coverage# restrictions or #open space# requirements as provided in Section [107-224](#) (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-222 - Public pedestrian ways

LAST AMENDED

11/2/2023

For any #site alteration#, #development#, or #enlargement# on a #zoning lot# which contains #designated open space#, the City Planning Commission shall certify whether or not the applicant shall be required to provide a public pedestrian way through a portion of the #designated open space#.

When a public pedestrian way is required, it shall be built and maintained by the owner of the #zoning lot# and shall be accessible to the public at all times. The public pedestrian way shall be improved at the time the #site alteration#, #enlargement#, or #development# takes place.

The location and dimension of such pedestrian way shall be determined by the Commission. The owner of the #zoning lot# may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# requirements as provided in Section [107-224](#) (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-223 - Permitted obstruction in designated open space

LAST AMENDED

12/5/2024

The following shall not be considered as obstructions when located in #designated open space#:

- (a) Awnings and other sun control devices, pursuant to Section [23-311](#) (Permitted obstructions in all yards, courts and open areas);
- (b) Balconies, unenclosed, subject to the provisions of Section [23-62](#);
- (c) Eaves, gutters or downspouts projecting into such #designated open space# not more than 16 inches;
- (d) Fences or walls, conditioned upon certification by the City Planning Commission that:
 - (1) such fences or walls will not obstruct or preclude public access or circulation of pedestrians, cyclists or horseback riders through the public easement within #designated open space#; and
 - (2) the location, size, design and materials of such fences or walls are appropriate to the character of the #designated open space#;
- (e) #Qualifying exterior wall thickness#, pursuant to Section [23-311](#);
- (f) Solar energy systems on walls pursuant to Section [23-311](#).

No #accessory# off-street parking facilities shall be permitted in #designated open space#. No #building or other structure# shall be erected in #designated open space# except as permitted by the provisions of Section [107-221](#) (Active recreational facilities). Any existing #building or other structure# located within the #designated open space# on November 2, 2023, and not

complying with the provisions of this Section or the other Sections specified in the preceding paragraph, shall not be #enlarged# but may be continued as a #non-conforming# #use# or #non-complying# #building# subject to the applicable provisions of Article V (Non-conforming Uses and Non-complying Buildings) in accordance with the underlying district regulations.

107-224 - Qualification of designated open space as lot area for bulk computations

LAST AMENDED

2/2/2011

#Designated open space# on a #zoning lot# may count as #lot area# for the purposes of the applicable regulations on #yards#, #floor area ratio#, #open space ratio#, #open space#, #lot coverage#, #lot area# or density, provided that the area of the #designated open space# claimed as #lot area# does not exceed the area of the #zoning lot# located outside the designated space. For a #single-family residence#, any portion of a #zoning lot# occupied by #designated open space# shall count as #lot area# for the purposes of satisfying minimum density requirements only pursuant to this Section.

Where the area of the #designated open space# claimed as #lot area# exceeds the above permitted amount, the provisions of Section [107-72](#) (Qualification of Designated Open Space as Lot Area) shall apply.

Any #designated open space#, or portion thereof, claimed as required #open space# or used to satisfy the #lot coverage# restrictions for a #development# containing #residences# shall be accessible to and usable by all residents of the #zoning lot#.

In the case of a #large-scale residential development#, any #designated open space#, or portion thereof, that qualifies as #lot area# may be used as common space.

107-225 - Special bulk regulations for developments containing designated open space

LAST AMENDED

2/2/2011

This section shall apply to any tract of land containing #designated open space# that is #developed# as a unit in single ownership and where the area of the #designated open space# claimed as #lot area# for zoning computation does not exceed the area of that portion of the tract of land not located within #designated open space#. Such a tract of land may contain a single #zoning lot# or two or more #zoning lots# which are contiguous or would be contiguous except for their separation by a #street#.

In all #Residence Districts#, except R1-1 Districts, for all permitted #residential uses# on such tract of land, the total #floor area# or #dwelling units# generated by that portion of the #designated open space# claimed as #lot area# by the applicable district regulations may be distributed without regard for #zoning# #lot lines#, for all #zoning lots# wholly within such tract of land. The total #open space# required or #lot coverage# permitted for such tract of land may be located anywhere within the tract of land without regard for #zoning lot# #lines#.

No transfer of #floor area# or #dwelling units# shall be permitted from a #zoning lot# not containing any #designated open space#.

The site plan and #bulk# distribution for the entire tract of land shall be recorded in the land records and indexed against all #zoning lots# in such tract of land.

Furthermore, the minimum #lot area# and #lot width# regulations, #yards# and spacing between #buildings# regulations shall not apply along portions of #streets# or #lot lines# wholly within such tract of land, provided that:

- (a) the maximum #lot coverage# on any #zoning lot# shall not exceed 50 percent of the #lot area#;

- (b) the minimum distance between #buildings# on the same or adjacent #zoning lots# across a common #side lot line# is not less than 10 feet; and
- (c) the minimum distance between #buildings# on adjacent #zoning lots# across a common #rear lot line# shall not be less than 40 feet.

107-23 - Waterfront Esplanade

LAST AMENDED

12/5/2024

When a #zoning lot# containing a portion of the #waterfront esplanade#, as shown on the District Plan (Map 3 in Appendix A) is #developed#, the location and design of the #waterfront esplanade# shall be certified by the City Planning Commission and such #waterfront esplanade# shall conform to the guidelines and standards established by the Department of City Planning in consultation with the Department of Transportation and the Department of Parks and Recreation.

The #waterfront esplanade# shall be built and maintained by the owner of a #zoning lot# on which the esplanade is shown on the District Plan, except where such #zoning lot# has been #developed# prior to September 11, 1975. Where such #waterfront esplanade# is not accessible to the public, the Commission may require the owner of the #zoning lot# to provide public access to such a #waterfront esplanade# from a public right-of-way through the #zoning lot#.

The #waterfront esplanade# shall be either built at the same time that the #zoning lot# is #developed# or the Commission may allow the owner to comply with Section [107-24](#) (Special Regulations for Arterials or Railroad Rights of Way).

The owner of a #zoning lot# may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# for satisfying #lot area# requirements, #yard# requirements, #floor area# or #lot coverage# restrictions or #open space# requirements as provided in Section [107-224](#) (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-24 - Special Regulations for Arterials or Railroad Rights of Way

LAST AMENDED

11/2/2023

Along the following #streets# designated as #arterials# or along a designated railroad, special regulations relating to restriction of access and setback of #buildings# apply as set forth in this Section.

Arterials

Hylan Boulevard

Woodrow Road

Amboy Road

Frontage roads for Richmond Parkway

Huguenot Avenue

Page Avenue

Arthur Kill Road

Service roads for West Shore Expressway

Richmond Avenue

Railroads

The Staten Island Rapid Transit right-of-way.

In accordance with the primary function of an #arterial# to accommodate vehicular through traffic, access is restricted to #arterials# pursuant to paragraph (a) of Section [107-241](#) (Special provisions for arterials). In addition, along portions of #arterials# as indicated on Maps 2.1 through 2.4 (Arterial Setback Plan) in Appendix A of this Chapter, the #building# setback provisions of paragraph (b) of Section [107-241](#) apply.

107-241 - Special provisions for arterials

LAST AMENDED

12/5/2024

Along those #streets# designated as #arterials#, the following regulations shall apply:

(a) Access restrictions

Curb cuts are not permitted along an #arterial# #street# on #zoning lots# with frontage on an improved non-#arterial# #street#. For #zoning lots# with frontage only on an improved #arterial# #street#, one curb cut is permitted along such #arterial# #street#. For purposes of this Section, adjoining #zoning lots# in the same ownership or control on November 2, 2023, shall be treated as a single #zoning lot#. For any #zoning lot# which includes an #area plan# approved by the City Planning Commission, no curb cut shall be allowed except where a curb cut is designated on such #area plan#. Such access restrictions with regard to curb cuts shall not apply to #schools#, hospitals and related facilities, police stations, or fire stations.

For a #zoning lot# with no less than 100 feet of frontage on an #arterial# #street#, the Commissioner of Buildings may approve curb cuts that exceed the access restrictions listed above where the Commissioner of Transportation submits a letter certifying that such additional curb cuts are necessary to avoid adverse effects on the traffic operations and safety of the #arterial#, or that such curb cuts will not adversely affect traffic operations and safety on the #arterial# including, but not limited to, all curb cut locations on an #arterial# #street# by either implementing a traffic pattern serving right-turn only movements or the implementation of traffic signalization, or other reasons acceptable to the Commissioner of Transportation.

(b) #Building# setback

In all districts excluding #Commercial Districts#, along portions of the #arterials#, as indicated on the District Plan (Maps 2.1 through 2.4 in Appendix A of this Chapter), a 20 foot #building# setback shall be provided for the full length of the #front lot line# #abutting# such #arterial#. The front #building# setback area shall be unobstructed from its lowest level to the sky except as permitted by this Section. Where a front #building# setback area at least 35 feet in depth is provided, such setback area may be used for required #accessory# off-street parking or loading facilities. No portion of such required setback area may be used for open storage.

In the case of the service roads of the West Shore Expressway, a 30 foot #building# setback shall be provided and required off-street parking and loading facilities are permitted within such setback. Within the required front #building# setback,

there shall be provided one tree of three-inch #caliper# or more, pre-existing or newly planted, for each 400 square feet of such front open area, unless waived pursuant to the provisions of paragraph (c) of Section [107-483](#) (Planting and screening for parking areas). The trees shall be selected in accordance with the provisions of Section [107-32](#) (Tree Requirements).

107-242 - Building setbacks along railroad rights-of-way

LAST AMENDED

11/2/2023

For all #developments# on #zoning lots# immediately adjacent to the Staten Island Rapid Transit right-of-way, a #building# setback of at least 20 feet in depth, unobstructed from its lowest level to the sky, except as permitted herein, shall be provided along the #lot line# immediately adjacent to the right-of-way of such railroad. Such #building# setback shall be measured perpendicular to such #lot line#, as indicated on the District Map. Within such #building# setback area, unless the area is within a #street# or is waived according to the planting waiver provisions of paragraph (c) of Section [107-483](#) (Planting and screening for parking areas), there shall be provided one tree of three-inch caliper or more, pre-existing or newly planted, for each 400 square feet of such open area. Tree species shall be selected in accordance with Section [107-32](#) (Tree Requirements).
