For #zoning lots# or portions thereof within 150 feet of Bronxdale Avenue, modifications to maximum permitted #building# height shall not apply.

For #zoning lots# or portions thereof beyond 150 feet of Bronxdale Avenue, the maximum permitted #building# height may be modified provided that such modification does not result in an increase that exceeds 13 percent of the maximum #building# height, as set forth in paragraph (b) of Section [145-23](#) (Height and Setback Regulations).

(b) Application requirements

Applications for an authorization for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications.

(c) Findings

The Commission shall find that:

- (1) such distribution of #floor area#, #lot coverage#, #dwelling units#, or #rooming units# will result in a better site plan, and will not:
 - (i) unduly increase the #bulk# of #buildings# to the detriment of the occupants of #buildings# in the #block# or nearby #blocks#; or
 - (ii) adversely affect any other #zoning lots# outside of the Subdistrict, by restricting access to light and air; and
- (2) modifications to other #bulk# regulations will not unduly obstruct the access of light and air to surrounding #streets# and properties nor adversely affect the character of the surrounding area, and will result in an improved distribution of #bulk# that is harmonious with the surrounding area.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
