16-342 - Reduction in the number of required existing parking spaces

LAST AMENDED
12/5/2024

For off-street parking facilities built prior to October 25, 1995, the City Planning Commission may authorize a reduction in the number of required #accessory# off-street parking spaces where the Commission finds that such reduction will not have undue adverse effects on residents, businesses or community facilities in the surrounding area, as applicable.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
