## 117-344 - Towers

---

LAST AMENDED

11/12/2025

In #Residence Districts# without a letter suffix, and in M1 Districts paired with #Residence Districts# without a letter suffix, any portion of a #building# that exceeds the maximum transition height shall be subject to the following tower regulations:

- (a) For #residential# #stories#, each tower footprint shall not exceed a gross area of 10,000 square feet, exclusive of the square footage contained in any permitted dormers.
- (b) The provisions for maximum width of towers facing a #shoreline# set forth in paragraph (d)(1) of Section [62-343](#) (Height and setback regulations in other medium- and high-density districts) shall apply, except that:
  - (1) beyond 200 feet east of 5th Street, north of Anable Basin, such maximum widths need not apply;
  - (2) for towers that face a single #shoreline#, the following modifications shall apply:
    - (i) where such #shoreline# is the northerly portion of Anable Basin, the maximum width of such tower face may be increased to 115 feet;
    - (ii) where no setbacks are required pursuant to Section [117-342](#) (Base heights, minimum setbacks and articulation), the maximum width of such tower may be increased to 130 feet; and
    - (iii) where such #shoreline# extends between the prolongation of 44th Road and 44th Drive, the maximum width of such tower may be increased to 130 feet.

For the purposes of this Section, wherever a tower faces a #shoreline# but there is a separate #building# located between such tower face and the #shoreline#, such tower face shall not be considered to be facing the #shoreline# along that frontage.

- (c) The minimum distance between any two towers on the same or an adjoining #zoning lot# shall be as follows:
  - (1) for towers facing the northerly or southerly #shoreline# of Anable Basin east of 5th Street, or the prolongation thereof, there shall be a minimum of 100 feet between any two towers; and
  - (2) in other locations, the regulations governing underlying distance between #buildings# shall apply, except that the maximum length of overlap between any two tower faces that are located within 100 feet of another tower face on the same or an adjacent #zoning lot#, as measured perpendicular to each tower face, shall not exceed:
    - (i) 100 feet, at or below a height of 500 feet; or
    - (ii) 75 feet, for portions of towers that exceed a height of 500 feet.
- (d) Tower heights shall be subject to the following limitations:
  - (1) in M1 Districts paired with R8 Districts, tower heights and locations shall be limited in the following locations:
    - (i) where located north of Anable Basin, the maximum tower height south of 44th Drive shall not exceed 500 feet; and
    - (ii) where located south of Anable Basin, towers shall only be permitted within 100 feet of 5th Street, and the

maximum tower height shall not exceed 500 feet;

- (2) in all other locations, no maximum height limits shall apply to towers. However, for towers that exceed a height of 500 feet, the gross area of any #story# within the highest 15 percent of the #building# shall not exceed 90 percent of the gross area of that #story# located directly below the highest 15 percent of the #building#;
- (3) there shall be at least 50 feet in height difference between any two immediately adjacent towers on the same or an adjacent #zoning lot#. For #zoning lots# separated by Anable Basin, this provision shall apply only to immediately adjacent towers on the same upland portion of the Basin; and
- (4) the penthouse allowances set forth in paragraph (c)(1) of Section [62-34](#) (Height and Setback Regulations on Waterfront Blocks) shall not apply.
