28-03 - Quality Housing Program Elements

LAST AMENDED

3/22/2016

The Quality Housing Program consists of four components: #building# interior, recreation space and planting, safety and security, and parking requirements.

The #building# interior component sets forth special refuse storage and disposal systems, and encourages laundry facilities and daylight in corridors.

The recreation and planting component establishes minimum space standards for indoor and outdoor recreation space and requires planting of open areas between the front #building# wall and the #street#.

The safety and security component encourages fewer #dwelling units# per corridor.

The parking component screens #accessory# parking spaces from the public realm.

Each #Quality Housing building# shall comply with the mandatory requirements of this Chapter.
