In all districts, as indicated, all open #accessory# off-street parking spaces or permitted #public parking lots# shall be graded, constructed, surfaced and maintained so as to provide adequate drainage and to prevent the release of dust, in accordance with rules and regulations promulgated by the Commissioner of Buildings.

Any area intended to be used permanently for an open #accessory group parking facility# shall be surfaced with asphaltic or Portland cement concrete, or other hard-surfaced dustless material, at least four inches thick. However, permeable paving materials may be used in open parking areas where the Commissioner of Buildings determines that such materials are appropriate.
