## 36-571 - Special parking regulations for certain community facility uses in the Borough of Staten Island and Community District 10 in the Borough of the Bronx

---

LAST AMENDED  
12/5/2024

C1 C2 C4

- (a) In C1, C2 and C4 Districts in the Borough of Staten Island or in Community District 10 in the Borough of the Bronx, all #zoning lots# containing #buildings# with the following #uses# shall be subject to the provisions of paragraph (b) of this Section:
- (1) ambulatory diagnostic or treatment health care facilities listed under Use Group III(B), except where such #zoning lot# contains #buildings# used for hospitals, as defined in the New York State Hospital Code, or #long-term care facilities#; or
  - (2) child care services as listed under the definition of #school# in Section [12-10](#) (DEFINITIONS), except where such #zoning lot# contains #buildings# used for houses of worship or, for #zoning lots# that do not contain #buildings# used for houses of worship, where the amount of #floor area# used for child care services is equal to 25 percent or less of the amount of #floor area# permitted for #community facility# #use# on the #zoning lot#.
- (b) All #zoning lots# that meet the conditions of paragraph (a) of this Section shall comply with the following provisions:
- (1) Notwithstanding the applicability provisions of paragraph (a) of Section [36-58](#) (Parking Lot Maneuverability and Curb Cut Regulations), the maneuverability provisions of paragraph (b) and the curb cut provisions of paragraph (c) of such Section shall apply to all #group parking facilities#, open or enclosed. No tandem parking or attended parking shall be permitted.
  - (2) In addition to the screening requirements for open parking areas in Section [36-56](#), any parking area covered by a roof shall be screened from adjoining #zoning lots# in #Residence Districts# and from adjacent #streets# in accordance with the following provisions:
    - (i) Screening shall consist of a wall or barrier or uniformly painted fence of fire resistant material at least six feet high above finished grade and may be interrupted by normal entrances or exits;
    - (ii) Such wall, barrier or fence may be opaque or perforated, provided that not more than 50 percent of the surface is open. No chain link fencing shall be permitted. Such screening shall be maintained in good condition at all times;
    - (iii) Where the exterior wall of a parking facility facing a #street# has an opaque area with a width greater than 40 feet and a height greater than six feet, such area shall be treated with a decorative element or material or shall be screened with planting so as to provide visual relief. Such screening or decorative treatment shall be applied to a minimum height of 15 feet above adjoining grade or the height of the wall, whichever is less;
    - (iv) For parking areas covered by a roof, where at least half of the surface area of such roof serves as children’s play space for #buildings# containing child care services as listed under the definition of #school# in Section [12-10](#) (DEFINITIONS), such covered parking area shall not be considered an “open parking area” for the purposes of Section [37-90](#) (PARKING LOTS), inclusive, and shall therefore not require perimeter or interior landscaping pursuant to such Section. In lieu thereof, such covered parking area shall be screened in accordance with paragraph (b)(2) of this Section.
