23-661 - Street wall location
In the districts indicated, the #street wall# location provisions of paragraphs (a), (b) or (c) of this Section shall apply to all #Quality Housing buildings#, as applicable.

Any #street wall# may be divided into different segments, and located at varying depths from the #street line#, to allow for #building# recesses, projections, #outer courts# and other forms of articulation, provided that each portion complies with the applicable #street wall# location provisions of paragraphs (a), (b) or (c) of this Section. Recesses, projections and other forms of articulation beyond the #street wall# locations established in paragraphs (a), (b) or (c) are permitted only in accordance with paragraph (d) of this Section.

(a) In the districts indicated, for all #buildings#, and for #Quality Housing buildings# on #wide streets# in R6 or R7 Districts without a letter suffix, the following shall apply:

(1) The #street wall# shall be located no closer to the #street line# than the closest #street wall#, or portion thereof, of an existing adjacent #building# on the same or an adjoining #zoning lot# located on the same #street# frontage, that is both within 10 feet of the #street line# and within 25 feet of such #Quality Housing building#. Where such existing adjacent #building#, or portion thereof, has #street walls# located at varying depths, the #street wall# shall not be located closer to the #street line# than the furthest portion of such existing adjacent #street wall# that is at least five feet in width.

(2) On #corner lots#, the #street wall# location provisions of paragraph (a)(1) shall apply along only one #street line#.

(b) In the districts indicated, for all #buildings#, and for #Quality Housing buildings# on #narrow streets# in R6 and R7 Districts without a letter suffix, the following shall apply:

(1) On #zoning lots# with at least 50 feet of frontage along a #street line#, the #street wall# shall be located no closer to the #street line# than the closest #street wall#, or portion thereof, of an existing adjacent #building# on the same or an adjoining #zoning lot# located on the same #street# frontage, that is both within 15 feet of the #street line# and within 25 feet of such #Quality Housing building#. Where such existing adjacent #building#, or portion thereof, has #street walls# located at varying depths, the #street wall# shall not be located closer to the #street line# than the furthest portion of such existing adjacent #street wall# that is at least five feet in width.

(2) On #zoning lots# with less than 50 feet of frontage along a #street line#, the #street wall# shall be located no closer to the #street line# than the closest #street wall#, or portion thereof, nor further from the #street line# than the furthest #street wall#, or portion thereof, of an existing adjacent #building# on the same or an adjoining #zoning lot# located on the same #street# frontage that is both within 15 feet of the #street line# and within 25 feet of such #Quality Housing building#. Where such existing adjacent #buildings#, or portion thereof, has #street walls# located at varying depths, the #street wall# shall not be located closer to the #street line# than the furthest portion of such existing adjacent #street wall# that is at least five feet in width.

(3) On #corner lots#, the #street wall# regulations of (b)(1) or (b)(2), as applicable, shall apply along both #street# frontages, except that along one #street line# the #street wall# need not be located farther from the #street line#
than five feet.

(c) In the districts indicated, for all buildings, and for Quality Housing buildings in R8 or R9 Districts without a letter suffix, and in other R10 Districts, the following shall apply:

(1) Along wide streets and along narrow streets within 50 feet of their intersection with a wide street the street wall shall extend along the entire street frontage of a zoning lot. At least 70 percent of the aggregate width of street walls shall be located within eight feet of the street line and extend to at least the minimum base height specified in Section 23-662 (Maximum height of buildings and setback regulations), or the height of the building, whichever is less. Up to 30 percent of the aggregate width of street walls may be recessed beyond eight feet of the street line, provided that any such recesses deeper than 10 feet along a wide street or 15 feet along a narrow street are located within an outer court.

(2) Along narrow streets beyond 50 feet of their intersection with a wide street, at least 70 percent of the street wall shall be located within 15 feet of the street line.

(d) Street wall articulation, including, but not limited to, window recesses and structural expression on the building facade, shall be permitted to project or recess beyond the street wall locations established in paragraphs (a), (b) or (c) of this Section, provided such articulation does not exceed a depth or projection of 12 inches. In addition, to accommodate other forms of street wall articulation, such as bay windows, and facade recesses, up to 50 percent of the aggregate width of street wall, at any level, may recess or project beyond such street wall location provisions of this Section, provided that no such recess or projection exceeds a depth of three feet, as measured perpendicular to the street wall, or portion thereof. No projection shall extend beyond the street line, except where encroachments into the public right-of-way are permitted by the New York City Administrative Code.
