16-34 - Authorizations

LAST AMENDED
5/8/2013

16-341 - Limited increase in parking spaces for existing buildings

LAST AMENDED
12/5/2024

The City Planning Commission may, by authorization, allow an increase in the number of parking spaces in an existing parking facility or the creation of a new parking facility associated with an existing #building# #developed# without parking, provided that the limitations of paragraph (a) and the findings of paragraph (b) of this Section are met.

(a) Limitations

The total number of parking spaces in a parking facility, inclusive of any existing spaces, where applicable, shall not exceed what would be permitted if such facility were #developed# in accordance with the provisions of Section 16-10 (PERMITTED OFF-STREET PARKING IN THE LONG ISLAND CITY AREA). However, in no event shall the number of additional spaces authorized pursuant to this Section exceed 15 spaces.

(b) Findings

The Commission shall find that:

(1) the location of the vehicular entrances and exits to the parking facility will not unduly interrupt the flow of pedestrian traffic associated with #uses# or public facilities, including access points to mass transit facilities in close proximity thereto, or result in any undue conflict between pedestrian and vehicular movements, due to the entering and leaving movement of vehicles;

(2) the location of the vehicular entrances and exits to such parking facility will not interfere with the efficient functioning of #streets#, including any lanes designated for specific types of users or vehicles, due to the entering and leaving movement of vehicles;

(3) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(4) such parking facility will not be inconsistent with the character of the existing streetscape.

16-342 - Reduction in the number of required existing parking spaces

LAST AMENDED
12/5/2024

For off-street parking facilities built prior to October 25, 1995, the City Planning Commission may authorize a reduction in the number of required #accessory# off-street parking spaces where the Commission finds that such reduction will not have undue adverse effects on residents, businesses or community facilities in the surrounding area, as applicable.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

16-343 - Public parking lots

LAST AMENDED
12/5/2024

The City Planning Commission may authorize #public parking lots# with a capacity of not more than 150 spaces in the #Long Island City area#, provided that the otherwise applicable regulations set forth in Sections 36-54 or 44-44 (Surfacing), and Sections 36-55 or 44-45 (Screening) are met.

As a condition for authorizing any such #public parking lots#, the Commission shall make the following findings:

(a) such #use# will not be incompatible with, or adversely affect, the growth and development of #uses# comprising vital and essential functions in the general area within which such #use# is to be located;

(b) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit vehicular and pedestrian movement;

(c) such #use# is so located as to draw a minimum of vehicular traffic to and through local #residential# #streets#; and

(d) the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs#, or requirements for shielding of floodlights and for locations of entrances and exits.

16-344 - Curb cuts

LAST AMENDED
12/5/2024

The City Planning Commission may authorize curb cuts located on a #street# designated in Section 16-23 (Curb Cut Restrictions), provided the Commission finds that a curb cut at such location:

(a) is not hazardous to traffic safety;

(b) will not create or contribute to serious traffic congestion or unduly inhibit vehicular movement;

(c) will not adversely affect pedestrian movement;

(d) will not interfere with the efficient functioning of bus lanes, specially designated #streets# and public transit facilities; and

(e) will not be inconsistent with the character of the existing streetscape.
