15-21 - Use Regulations — Transfer of Preservation Obligations and Conversion Rights
In C6-2M, C6-4M, M1-5M and M1-6M Districts, the conversion of floor area to residences in existing buildings, or portions thereof, is permitted subject to the certification by the Chairperson of the City Planning Commission that floor area has been preserved for commercial or manufacturing uses in accordance with the provisions of this Section. For the purposes of this Section only, the following mixed-use areas are defined:

Southeast Chelsea — All C6-2M, C6-4M, M1-5M and M1-6M Districts between 13th Street and 23rd Street, and between Park Avenue and Eighth Avenue.

Garment Center East — The C6-4M District located between West 34th Street and West 35th Street, and between Seventh Avenue and Eighth Avenue.

The amount or configuration of floor area to be preserved may be modified in accordance with the provisions of Section 15-215 (Modification for existing dwelling units).

The amount of floor area to be preserved for permitted commercial or permitted manufacturing uses shall be in accordance with Table I of this Section, if the floor area to be converted is located in a C6-2M or C6-4M District, and in accordance with Table II of this Section, if the floor area to be converted is located in an M1-5M or M1-6M District, unless modified by the City Planning Commission pursuant to Section 15-51. Such floor area shall be comparable to the floor area to be converted, as required by Section 15-213.

Such floor area may be preserved in the building to be converted, or in any other building within the same mixed-use area, as defined in Section 15-21.

Except as provided in Section 15-215, floor area may not be preserved on portions of floors. If the floor area which must be preserved includes a fraction of a floor, the next highest number of full floors must be preserved for permitted commercial or permitted manufacturing uses. Floor area used for home occupations may not be used to meet the requirements of floor area and stories which must be preserved for commercial or manufacturing use. No accessory living or sleeping accommodations shall be permitted in the floor area preserved for permitted commercial or permitted manufacturing uses.

All requirements for preservation of floor area shall be determined by the entire lot area of the zoning lot, and by the total floor area of the building to be converted, regardless of the amount of floor area being converted within the building. For the purposes of this Section, any portion of the building to be converted that has a residential certificate of occupancy shall be excluded from the building's total floor area.

Any building that has been partially converted pursuant to Section 15-21 and has complied with the preservation requirements of such Section, shall not be required to preserve additional floor area for any subsequent conversion.

* All requirements for preservation of floor area shall be determined by the entire lot area of the zoning lot, and by the total floor area of the building to be converted, regardless of the amount of floor area being converted within the building.

15-212 - Reduced floor area preservation

LAST AMENDED
Notwithstanding the provisions of Section 15-211, Table I as set forth in this Section may be substituted for Table I in Section 15-211, and Table II in this Section may be substituted for Table II in Section 15-211 governing the amount of #floor area# to be preserved, provided that such preserved #floor area# will be occupied by a #commercial# or #manufacturing use# that has been in occupancy for two years prior to the application for a certification under the provisions of Section 15-21 or by a #use# listed in Section 15-60 (REFERENCED COMMERCIAL AND MANUFACTURING USES), and subject to the following conditions:

(a) Where the preserved #floor area# is occupied by an existing #commercial# or #manufacturing use# for two years immediately preceding the date of application for a certification under Section 15-21, or where the preserved #floor area# is occupied by a #use# listed in Section 15-60, the landlord shall present a lease, signed by both the landlord and such tenant, and certified as recorded by the Office of the City Register of New York County.

Such lease shall:

1. be for a period of not less than three years from the date of application for such certification with provision for two years renewal at the tenant’s option; and
2. not be subject to cancellation by the landlord.

(b) Where the preserved #floor area# is occupied by any such #use# for two years immediately preceding the date of application under Section 15-21, and such occupant is the owner of said #floor area#, the Chairperson of the City Planning Commission shall require that the certificate of occupancy designate the preserved #floor area# for a #use# listed in Section 15-60 for a period of five years from the date of such certification.

(c) Where the preserved #floor area# will be occupied by a #use# listed in Section 15-60 but no such tenant is yet occupying the #floor area#, the owner shall covenant to preserve such #floor area# for a #use# listed in Section 15-60, in the legal commitment required pursuant to Section 15-214.

* All requirements for preservation of #floor area# shall be determined by the entire #lot area# of the #zoning lot#, and by the total #floor area# of the #building# to be #converted#, regardless of the amount of #floor area# being #converted# within the #building#.

15-213 - Comparability

LAST AMENDED
2/2/2011

Where the #floor area# to be preserved is not located within the #building# to be #converted#, such #floor area# must be comparable to #floor area# in the #building# to be #converted#. Comparability, shown by an affidavit from a professional engineer or a registered architect, licensed under the laws of the State of New York, shall exist where the #floor area# to be preserved meets the following criteria:

(a) Elevators: load and number

The load and number requirements of this paragraph shall not apply when the #floor area# to be preserved is located on
the ground floor or has level access to a #street# or loading facility.

(1) Load

Each elevator shall have a minimum load of 2,000 pounds. The total load of all elevators servicing the #floor area# to be preserved shall be in accordance with the following ratio:

<table>
<thead>
<tr>
<th>Total load</th>
<th>is greater than or equal to 80% of</th>
<th>Total load</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gross #floor area# of #building# to be preserved</td>
<td></td>
<td>Gross #floor area# of #building# to be #converted#</td>
</tr>
</tbody>
</table>

(2) Number

There shall be a minimum of two elevators. The number of elevators servicing the #floor area# to be preserved shall be in accordance with the following ratio:

<table>
<thead>
<tr>
<th>Number of elevators</th>
<th>is greater than or equal to 80% of</th>
<th>Number of elevators</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gross #floor area# of #building# to be preserved</td>
<td></td>
<td>Gross #floor area# of #building# to be #converted#</td>
</tr>
</tbody>
</table>

Notwithstanding the above, where there is only one elevator servicing the #floor area# to be #converted#, there may be one elevator servicing the #floor area# to be preserved if the following exist:

(i) the #floor area# to be serviced by the elevator in the #building# to be preserved does not exceed the #floor area# serviced by the elevator in the #building# to be #converted# by more than 10 percent; and

(ii) the ratio of the volume of the elevator servicing the #floor area# to be preserved to the #floor area# to be preserved is at least 90 percent of the ratio of the volume of the elevator servicing the #floor area# to be #converted# to the #floor area# to be #converted#.

If the number of elevators required pursuant to the above ratio includes a fraction of an elevator, this fraction shall be rounded to the nearest whole number.

(b) Floor load

The floors shall have a minimum live load capacity of 100 pounds per square foot (100 psf).

(c) Size of floors

(1) The #floor area# shall be located on floors of not less than 3,000 square feet or 50 percent of the size of the floors in the #building# to be #converted#, whichever is greater.

(2) #Floor area# may not be preserved on portions of floors.
(d) Loading facilities

The loading facilities shall be at least equal in number to those in the #building# to be #converted#. In addition, if such #building# has an off-street loading dock, the #building# containing the #floor area# to be preserved must have such off-street loading facilities.

(e) Column spacing

There shall be a minimum distance between columns of 15 feet, measured on center. In addition, the average distance between columns shall not be less than 90 percent of the average distance between columns in the #building# to be #converted#.

(f) Height of #stories#

The #stories# shall have an average minimum height of 10 feet.

The Chairperson of the City Planning Commission may authorize a modification of the requirements listed in paragraphs (a), (c)(1) or (d) of this Section, pursuant to the regulations of paragraph (c) of Section 15-30 (MINOR MODIFICATIONS).

15-214 - Certification and other requirements of preservation and conversion

LAST AMENDED
2/2/2011

(a) Prior to the issuance of an alteration permit for the #conversion# of #floor area# to #residential use#, the Chairperson of the City Planning Commission shall certify compliance with the requirements of Section 15-21 upon proof of a legal commitment to preserve and maintain the required #floor area# for permitted #commercial# or permitted #manufacturing use#. Such legal commitment shall be executed by all parties having any interest in the #floor area# to be preserved as shown by a certificate issued by a title insurance company licensed to do business in the State of New York showing all such parties in interest.

A "party in interest" in the tract of land shall include only (W) the fee owner thereof, (X) the holder of any enforceable recorded interest superior to that of the fee owner and which could result in such holder obtaining possession of all or substantially all of such tract of land, (Y) the holder of any enforceable recorded interest in all or substantially all of such tract of land which would be adversely affected by the preservation as required herein, and (Z) the holder of any unrecorded interest in all or substantially all of such tract of land which would be superior to and adversely affected by the preservation required herein and which would be disclosed by a physical inspection of the tract of land.

A copy of the legal commitment required herein shall be recorded in the Conveyances Section of the Office of the City Register of New York County upon certification.

(b) The #floor area# to be preserved shall not already have been preserved by a legal commitment under the provisions of Section 15-21, as evidenced by the report from the title company issued pursuant to (a) above.

(c) When preservation obligations pursuant to Section 15-211 or 15-212 are transferred between #buildings#, the amount of #floor area# required to be preserved shall not be reduced by the existence of a previously issued legal commitment for preservation on a portion of the #floor area# in the #building#.

(d) Any #building# that has been partially #converted# pursuant to Section 15-21 and has complied with the preservation requirements of such Section, shall not be required to preserve additional #floor area# for any subsequent #conversion#.
The requirements of Section 15-211 or 15-212 regarding the amount or configuration of floor area to be preserved for permitted commercial or permitted manufacturing uses may be modified by the Chairperson of the City Planning Commission provided that:

(a) such floor area has a residential certificate of occupancy, or consists of registered Interim Multiple Dwellings, or is found covered by the New York City Loft Board pursuant to Article 7C of the New York State Multiple Dwelling Law, or was occupied as dwelling units as of September 1, 1980, and a complete application for determination of occupancy has been filed with the Department of City Planning by the owner of the building or the occupant of a dwelling unit in the building not later than June 21, 1983. For the purposes of Article 7C of the New York State Multiple Dwelling Law, such a determination of residential occupancy shall be deemed to permit residential use as of-right for such floor area; and

(b) as a result of such residential occupancy, the remaining amount of floor area in the building is less than the amount required to be preserved for permitted commercial or manufacturing uses pursuant to Section 15-211 or 15-212, or consists of portions of floors.

Such modification of the preservation requirement shall be the minimum necessary in order to permit the legalization of existing dwelling units for which a determination of occupancy has been made.

Notwithstanding the above, the Chairperson of the City Planning Commission shall not issue a certification pursuant to Section 15-21 until an application for such certification and modification is submitted by the owner of the building.
