11-33 - Building Permits for Minor or Major Development or Other Construction Issued Before Effective Date of Amendment

LAST AMENDED
12/5/1991

The provisions of this Section shall apply to minor developments, major developments or other construction authorized by building permits lawfully issued before the effective date of an applicable amendment of this Resolution except as specifically provided elsewhere in this Resolution.

11-331 - Right to construct if foundations completed

LAST AMENDED
2/2/2011

If, before the effective date of an applicable amendment of this Resolution, a building permit has been lawfully issued, as set forth in paragraph (a) of Section 11-31, to a person with a possessory interest in a #zoning lot#, authorizing a minor development or a major development, such construction, if lawful in other respects, may be continued provided that:

- (a) in the case of a minor development, all work on foundations had been completed prior to such effective date; or
- (b) in the case of a major development, the foundations for at least one #building# had been completed prior to such effective date.

In the event that such required foundations have been commenced but not completed before such effective date, the building permit shall automatically lapse on the effective date and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew the building permit and authorize an extension of time limited to one term of not more than six months to permit the completion of the required foundations, provided that the Board finds that, on the date the building permit lapsed, excavation had been completed and substantial progress made on foundations.

11-332 - Extension of period to complete construction

LAST AMENDED
6/29/1994

- (a) In the event that the construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefor within two years after the effective date of any applicable amendment, or for other construction if construction has not been completed on the effective date of any applicable amendment, the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development or three terms of not more than two years each for a major development or one term of not more than three months for other construction. In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit.
- (b) However, in the event that construction has not been completed at the expiration of the extended terms specified in paragraph (a) of this Section, or in Sections 11-333 (Residential developments with building permits issued on or before June 30, 1989) or 11-334 (Building permits issued prior to June 29, 1994), such building permit may be renewed by the Board for terms of one year each upon the following findings:
 - (1) that the applicant has been prevented from completing such construction by hardship or circumstances beyond the applicant's control;
 - (2) that the applicant has not recovered all or substantially all of the financial expenditures incurred in construction, nor is the applicant able to recover substantially all of the financial expenditures incurred through development that conforms and complies with any applicable amendment to this Resolution; and
 - (3) that there are no considerations of public safety, health and welfare that have become apparent since the issuance of the permit that indicate an overriding benefit to the public in enforcement of the applicable

amendment to this Resolution.

- (c) The rights or obligations that accrue or are created by this Section shall commence on December 5, 1991.
- (d) If judicial proceedings affecting the validity of the building permit have been instituted, the rights or obligations that accrue or are created by this Section shall commence upon the date of entry of the final order in such proceedings, including all appeals.

11-333 - Residential developments with building permits issued on or before June 30, 1989

LAST AMENDED

Applications to continue construction under this Section must be filed with the Commissioner of Buildings within 90 days of December 5, 1991. If the Commissioner of Buildings has granted the right to continue construction of a major or minor development pursuant to this Section, the Board of Standards and Appeals may not grant the right to continue construction pursuant to paragraph (a) of Section 11-332.
