64-722 - Single- and two-family residences in required front yards

LAST AMENDED
10/10/2013

The provisions of Article V, Chapter 4, shall be modified in order to accommodate stair access in a #front yard#. #Single-# and #two-family residences# with #non-complying front yards# existing on October 28, 2012, may be relocated or reconstructed in a location further from the #front lot line# on the same #zoning lot#, and thereby create or increase an encroachment in a #side yard#, #rear yard# or #rear yard equivalent#, provided that:

- (a) any encroachment or further encroachment into a required #side# or #rear yard# or #rear yard equivalent# at the rear of the original #building# location is limited to a depth equal to the reduction of encroachment of the #building#, excluding stairs in the #front yard#;
- (b) a distance of at least eight feet shall be maintained between the rear wall of the #building# and all other #residences# on the same or adjoining #zoning lots#; and
- (c) at least four feet of a #rear yard# shall be free of any encroachment, measured perpendicular

to the #rear lot line#, or, in a #rear yard equivalent#, at least eight feet shall be free of encroachment.

64-723 - Non-complying single- and two-family residences

LAST AMENDED

10/10/2013

- (a) The provisions of Article V, Chapter 4, shall be modified to permit #single-# and #two-family residences# that are #non-complying# and existing on October 28, 2012, to be vertically elevated, or reconstructed to a higher elevation in order to raise the lowest horizontal structural member supporting the lowest floor containing habitable space that was located at or above the adjoining grade as of October 28, 2012, to #flood-resistant construction elevation#.

Such vertical elevation or reconstruction may create a new #non-compliance# as to height and setback, or increase any existing #non-compliances# as to height and setback, required #open space# and #yard# regulations to the extent that such lowest floor level is elevated or reconstructed to #flood-resistant construction elevation#. However, all other provisions of Article V, Chapter 4, shall apply without modification.

This Section shall not preclude the construction of complying #enlargements# or other complying #buildings or other structures# on the #zoning lot#.

Furthermore, the provisions of Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) shall not apply to such elevated, relocated or reconstructed #buildings#.

Construction pursuant to such approval may continue until a date 10 years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

LAST AMENDED

10/10/2013

#Non-complying buildings# may be elevated or reconstructed to an increased height, which at all

points does not exceed the difference between #flood-resistant construction elevation# and the applicable datum from which height is measured pursuant to the underlying regulations. Such elevation or reconstruction may create a new #non-compliance# or increase the degree of an existing #non-compliance#.
