

Zoning Resolution

THE CITY OF NEW YORK
Bill de Blasio, Mayor

CITY PLANNING COMMISSION
Marisa Lago, Chair

64-90 - SPECIAL APPROVALS

File generated by <https://zr.planning.nyc.gov> on 5/26/2020

64-90 - SPECIAL APPROVALS

LAST AMENDED
10/10/2013

64-91 - Modification of Certain Certification Requirements in the Special South Richmond Development District

LAST AMENDED
10/10/2013

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

In the #Special South Richmond Development District#, Sections 107-22 (Designated Open Space), inclusive, and 107-23 (Waterfront Esplanade) shall not apply to the reconstruction or repair of #buildings# that were damaged due to the effects of #Hurricane Sandy#, provided that:

- (a) the dimensions of the #building# footprint are no greater than the footprint that existed on October 28, 2012; and
- (b) there is no increase in impervious surfaces on the #zoning lot#.

In addition, the provisions of Section 107-22, inclusive, shall not apply to a #site alteration# that is not a #development# or #enlargement# where the Commissioner of Buildings determines it is the minimum necessary to enable the reconstruction of a #building#.

These provisions shall not affect the terms of a certification previously made by the City Planning Commission. The provisions of this Section shall apply to #buildings# that are the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than one year after the adoption of new final Flood Insurance Rate Maps that supersede the maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

64-92 - Special Permit for Modification of Certain Zoning Regulations

LAST AMENDED
10/10/2013

In order to allow for the alteration of existing #buildings# in compliance with #flood-resistant construction standards# and for #developments# and #enlargements# in compliance with #flood-

resistant construction standards#, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the #bulk# regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable #bulk# regulations of the Zoning Resolution, except #floor area ratio# regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with #flood-resistant construction standards# without such modifications, and that such modifications are the minimum necessary to allow for an appropriate #building# in compliance with #flood-resistant construction standards#;
- (b) that any modification of #bulk# regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from #flood-resistant construction elevation#, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the #building# is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with #flood-resistant construction standards#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
