76-133 - Boundary line parallel to the long dimension of block between streets which are not parallel

File generated by https://zr.planning.nyc.gov on 11/10/2026

76-133 - Boundary line parallel to the long dimension of block between streets which are not parallel

LAST AMENDED
12/15/1961

In case of #streets# which are not parallel, where a boundary line extends parallel to the long dimension of the #block# and no dimension is shown, such boundary line shall be considered as the bisector of the angle formed by prolonging the #street lines# to an intersection.
