

Zoning Resolution

THE CITY OF NEW YORK

Eric Adams, Mayor

CITY PLANNING COMMISSION

Daniel R. Garodnick, Chair

74-53 - Accessory Group Parking Facilities for Uses in Large-Scale Residential Developments or Large-Scale Community Facility Developments or Large-Scale General Developments

File generated by <https://zr.planning.nyc.gov> on 3/2/2024

74-53 - Accessory Group Parking Facilities for Uses in Large-Scale Residential Developments or Large-Scale Community Facility Developments or Large-Scale General Developments

LAST AMENDED
5/8/2013

74-531 - Additional parking spaces or roof parking for accessory group parking facilities

LAST AMENDED 3/22/2016

The City Planning Commission may permit #group parking facilities# #accessory# to #uses# in #large-scale residential developments# or #large-scale community facility developments# or #large-scale general developments# with more than the prescribed maximum number of parking spaces set forth in Sections [25-12](#), [36-12](#) and [44-12](#) (Maximum Size of Accessory Group Parking Facilities) or may permit modifications of the applicable provisions of Sections [25-11](#), [36-11](#) and [44-11](#) (General Provisions) so as to permit off-street parking spaces #accessory# to such #uses# to be located on the roof of a #building#.

As a condition of permitting such exceptions or modifications, the Commission shall make the following findings:

- (a) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas;
- (b) that such #use# has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent of the total parking spaces provided by the #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles;
- (c) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby; and
- (d) that where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, or to the #Long Island City area#, as defined in Section [16-02](#) (Definitions), where the regulations set forth in Article I, Chapter 6, shall apply.

74-532 - Reduction or waiver of parking requirements for accessory group parking facilities

LAST AMENDED 3/22/2016

The City Planning Commission may, in conjunction with an application for a #large-scale residential development# or #large-scale general development# in the #Transit Zone# seeking a #bulk# modification, reduce or waive the number of required #accessory# #residential# off-street parking spaces, including any spaces previously required for an existing #building# on the #zoning lot#, provided the Commission finds that:

- (a) where the applicant is seeking a reduction of parking spaces required by Section [25-23](#) (Requirements Where Group Parking Facilities Are Provided), such reduction will facilitate the creation or preservation of #income-restricted housing

units# in such #large-scale residential development# or #large-scale general development#. Such finding shall be made upon consultation with the Department of Housing Preservation and Development;

- (b) the anticipated rates of automobile ownership for residents of such #large-scale residential development# or #large-scale general development# are minimal and that such reduction or waiver is warranted;
- (c) such reduction of parking spaces will not have undue adverse impacts on the residents, businesses or #community facilities# in the surrounding area, including the availability of parking spaces for such #uses#; and
- (d) such reduction of parking spaces will result in a better site plan.

In determining the amount of parking spaces to reduce or waive, the Commission may take into account current automobile ownership patterns for an existing #building# containing #residences# on the #zoning lot#, as applicable.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the surrounding area.

74-533 - Reduction of parking spaces to facilitate affordable housing

LAST AMENDED 3/22/2016

In all districts in the #Transit Zone#, the City Planning Commission may permit a waiver of, or a reduction in, the number of required #accessory# off-street parking spaces for #dwelling units# in a #development# or #enlargement# that includes at least 20 percent of all #dwelling units# as #income-restricted housing units# as defined in Section [12-10](#) (DEFINITIONS), provided the Commission finds that such waiver or reduction:

- (a) will facilitate such #development# or #enlargement#. Such finding shall be made upon consultation with the Department of Housing Preservation and Development;
- (b) will not cause traffic congestion; and
- (c) will not have undue adverse effects on residents, businesses or #community facilities# in the surrounding area, as applicable, including the availability of parking spaces for such #uses#.

The Commission may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
