74-733 - Municipal sewage disposal plants

LAST AMENDED

2/2/2011

In all #Residence Districts#, #Commercial Districts# and M1 and M2 Districts, the City Planning Commission may permit municipal sewage disposal plants, provided that there are serious difficulties in locating it in a district where it is permitted as-of-right. The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including safety devices and the concealment of such #use# with fences, buffer zones, barriers or other screening devices and landscaping.

As a condition of granting a special permit for a municipal sewage disposal plant, the Commission shall find:

- (a) the proposed plant will be adequate for anticipated development in the area to be served; and
- (b) that the proposal promotes and protects the public health, safety and general welfare.
