74-745 - Modifications of parking and loading regulations

†

LAST AMENDED

11/22/2022

For a #large-scale general development# the City Planning Commission may permit:

(a) Modification of location requirements

When a #large-scale general development# includes two or more #zoning lots#, the Commission may permit required or permitted #accessory# off-street parking spaces, bicycle parking spaces or loading berths to be located anywhere within a #large-scale general development# without regard for #zoning lot# #lines#, provided that the Commission shall find:

- (1) such off-street parking spaces, bicycle parking spaces and loading berths will be conveniently located in relation to the #use# to which such spaces or berths are #accessory#;
- (2) such location of off-street parking spaces, bicycle parking spaces and loading berths will result in a better site plan; and
- (3) such location of off-street parking spaces, bicycle parking spaces and loading berths will not unduly increase the number of spaces in any single #block#, draw excessive traffic through local #streets#, or otherwise adversely affect traffic conditions in the surrounding area.

Whenever required off-street parking spaces, bicycle parking spaces and loading berths are permitted to be located without regard for #zoning# #lot lines# in accordance with the provisions of this Section, the number of spaces required for each #building# shall be kept available for such #building# throughout its life.

(b) Waiver or reduction of loading berth requirements

For #zoning lots# in a #large-scale general development#, located either within a #Special Mixed Use District# in Community District 2 in the Borough of The Bronx, or within a waterfront area pursuant to paragraph (b) of Section [62-132](#), in Community District 1 in the Borough of Brooklyn, where such #zoning lots# in the waterfront area contain one or more retail or service #uses# listed in Use Group 6A, 6C, 7B, 8B, 9A, 10A, 12B, 14A or 16A, and where no single such establishment in the waterfront area exceeds 8,500 square feet in #floor area#, or for #zoning lots# located in #large-scale general developments# within #Special Mixed Use District# 24 in Community District 1 in the Borough of Queens, the Commission may waive or reduce the number of required loading berths, provided that:

- (1) curbside deliveries will not create or contribute to serious traffic congestion or unduly inhibit vehicular or pedestrian movement and will not interfere with the efficient functioning of nearby #uses#;
- (2) an efficient goods receiving system will be implemented within the #commercial# establishment to expedite the movement of goods from the curb to areas within the establishment;
- (3) such modification allows for a better relationship between the #street walls# of the #building# containing such establishment and the adjacent sidewalk and surrounding area; and
- (4) such modification will not impair or adversely affect the development of the surrounding area.

(c) Reduction of parking requirements

For #buildings# on #zoning lots# in a #large-scale general development#, within R7-2 Districts in Community District 1 in the Borough of the Bronx, that contain an #affordable independent residence for seniors#, the Commission may waive or reduce the number of required #accessory# off-street parking spaces, including any spaces previously required for an existing #building#, provided that the Commission finds that:

- (1) the anticipated automobile ownership patterns for residents of such #affordable independent residence for seniors# are minimal and that such waiver or reduction is warranted;
- (2) such waiver or reduction of parking spaces will not have undue adverse impacts on the residents, businesses or community facilities in the surrounding area; and
- (3) such waiver or reduction of parking spaces will result in a better site plan with better quality open areas.

In determining the amount of parking spaces to waive or reduce, the Commission may take into account current automobile ownership patterns for an existing #affordable independent residence for seniors# on the #zoning lot#, as applicable.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the surrounding area.
