95-042 - For substantially vacant existing zoning lots

LAST AMENDED

2/2/2011

When a #zoning lot# located within the #Special Transit Land Use District# is substantially vacant and appropriate for a transit easement, the Metropolitan Transportation Authority may request the City Planning Commission to certify that a portion of such #zoning lot# is necessary for a transit easement.

As a condition for securing a transit easement on such #zoning lot#, the Commission shall make the following findings:

- (a) that such transit easement is required by the Metropolitan Transportation Authority to provide public access to a subway mezzanine or to a public passageway leading to a subway mezzanine or platform;
- (b) that such transit easement is located on a vacant portion of a #zoning lot#;
- (c) that the use of the transit easement will not reduce development potential on the #zoning lot# under the applicable district regulations; and
- (d) that the Metropolitan Transportation Authority and the owner agree that the construction within the easement volume will be integrated with the total development.

At such time as an existing vacant #zoning lot# on which a transit easement volume provided pursuant to the provisions of this Section, is #developed#, it shall be subject to all regulations of this Chapter.
