116-632 - Waterfront Public Access Area

LAST AMENDED
7/20/2017

The provisions of Section 62-52 (Applicability of Waterfront Public Access Area Requirements) shall apply, except that no #supplemental public access area#, as set forth in Section 62-57 (Requirements for Supplemental Public Access Areas), shall be required. However, a #shore public walkway# and an #upland connection# must be provided as modified in this Section and shown on Maps 1, 5 and 6 in Appendix A of this Chapter.

(a) #Shore public walkway#

The provisions of paragraph (a)(3) of Section 62-53 (Requirements for Shore Public Walkways) shall apply, except that the minimum width of a #shore public walkway# on shallow portions of a #zoning lot# set forth on such Section shall be modified to be no less than 35 feet.

If there is an existing #building or other structure# to remain on the #zoning lot#, the entire area between such existing #building# and the shoreline shall be entirely occupied by the #shore public walkway#, with a required circulation path of at least eight feet.

(b) #Upland connections#

The requirement for a "transition area" within a Type 2 #upland connection# in paragraph (b)(2) of Section 62561 (Types of upland connections) shall not apply. In addition, the minimum width requirement of 10 feet for the #upland connection# abutting such turnaround shall be modified to five feet, provided that the entire area of the vehicular turnaround is paved with the same paving material as the #upland connection#.
