For all #zoning lots# containing #residences#, the minimum #lot area# and #lot width# requirements set forth in the table in this Section shall apply, which shall vary by #building# height. Where two or more #buildings# that are #single-# or #two-family# #detached# or #semi-detached residences# are located on a #zoning lot#, the applicable minimum #lot area# requirement shall be multiplied by the number of such #buildings# on the #zoning lot#.

The #lot width# requirements set forth in this Section shall be applied as set forth in the definition of #lot width# in Section 12-10 (DEFINITIONS), provided that the applicable #lot width#, in feet, set forth in the table shall be met along at least one #street line# of the #zoning lot# or, for #corner lots#, along each intersecting #street line#. No #residence#, or portion thereof, shall be permitted between opposing #side lot lines# where such #lot lines# would be nearer to one another at any point where such #residence# is located than the applicable minimum lot width, in feet, set forth in the table.

However, one #single-family# #detached residence# or, where permitted, one #single# or #two-family residence#, may be built upon a #zoning lot# consisting entirely of a tract of land, that:

- (b) was owned separately and individually from all other adjoining tracts of land, both on December 8, 2005, and on the date of application for a building permit.

In all cases, the density regulations of the applicable district shall remain in effect, except that the factor for determining the maximum number of #dwelling units# shall be 1,000 in R3A and R4A Districts, 1,140 in R3X Districts, and 685 for #semi-detached residences# in R3-1 and R3-2 Districts.
