Chapter 5 - Special Natural Area District (NA-1), (NA-2), (NA-3), (NA-4)

105-00 - GENERAL PURPOSES

LAST AMENDED

2/2/2005

The "Special Natural Area District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) to guide development in areas of outstanding natural beauty in order to protect, maintain and enhance the natural features of such areas;
- (b) to preserve land having qualities of exceptional recreational or educational value to the public;
- (c) to protect aquatic, biologic, botanic, geologic and topographic features having ecological and conservation values and functions;
- (d) to reduce hillside erosion, landslides and excessive storm water runoff associated with development by conserving vegetation and protecting natural terrain;
- (e) to preserve hillsides having unique aesthetic value to the public; and
- (f) to promote the most desirable use of land and the direction of building development in accordance with a well-considered plan, to promote stability of residential development, to promote the character of the district and its peculiar suitability for particular uses, to conserve the value of land and buildings and thereby protect the City's tax revenues.

105-01 - Definitions

LAST AMENDED

2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section [12-10](#) (DEFINITIONS).

Area of no disturbance

An "area of no disturbance" is an area designated on the site plan that is protected from all types of intrusion, including: **site alteration**, operation of construction equipment, storage of

construction materials, excavation or regrading, tunneling for utilities, removal of trees, **topsoil** or any living vegetation, or construction of driveways, **private roads**, parking areas, patios, decks, swimming pools, walkways or other impervious surfaces. **Areas of no disturbance** shall include **steep slopes**, **steep slope buffers** and the **critical root zone** of each tree proposed for preservation.

Average percent of slope

The "average percent of slope" of a **zoning lot** is the average slope of all portions of a **zoning lot** excluding **steep slopes** and shall be determined according to the following equation:

$$S = \frac{IL}{A} \times 100$$

Where: S - **average percent of slope**

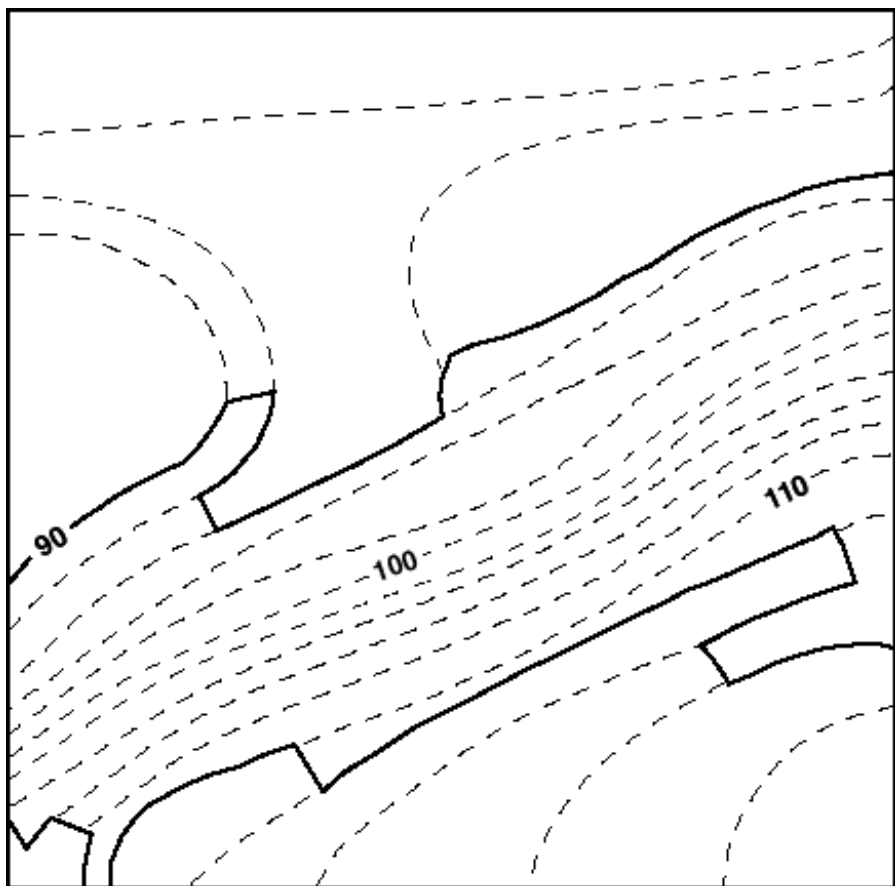

I - contour interval in feet

L - combined length of contour lines in feet, excluding those portions bordering or lying within areas having a slope of 25 percent or greater and meeting the definition of **steep slope**

A - gross area in square feet of the **zoning lot**, excluding those portions of the **zoning lot** having a slope of 25 percent or greater and meeting the definition of **steep slope**. For a proposed **site alteration** on a tract of land not within a **zoning lot**, the portion of such tract of land owned by the applicant shall be considered to be part of the **zoning lot**

100 - factor which yields slope as a percentage

CALCULATING AREAS HAVING A SLOPE EQUAL TO OR GREATER THAN 25 PERCENT (ILLUSTRATIVE EXAMPLE)

Example:

$$X = \frac{\text{Contour interval in feet}}{0.25} = \frac{2}{0.25} = 8.0 \text{ feet}$$

Where: X - distance between contour lines which indicates a slope of 25 percent

In order to calculate the area having a slope equal to or greater than 25 percent, one can use a map with two-foot contour intervals and a scale of one inch equals 20 feet, as shown in the map in this Section. A 25 percent slope, on a map with two-foot contour intervals, is indicated by contour lines that are 8.0 feet apart, rounded to the nearest tenth (0.1) of a foot. On a map whose scale is one inch to 20 feet, 8.0 feet is represented by 0.4 of an inch, rounded to the nearest tenth (0.1) of an inch. Identify where the contour lines are 0.4 of an inch or less apart. Connect these contour lines (as indicated by the heavy lines on the map) and calculate the area.

Caliper (of a tree)

"Caliper" of a tree is the diameter of a tree trunk measured 4 feet, 6 inches from the ground. If a tree splits into multiple trunks below 4 feet, 6 inches from the ground, the trunk is measured at its most narrow point beneath the split.

Critical root zone

The "critical root zone" of a tree is the area containing the roots of a tree that must be maintained and protected to ensure the tree's survival. The area of the **critical root zone** is measured as one radial foot for every **caliper** inch of the tree, with a required minimum of four radial feet and maximum of 22 radial feet, measured from the surface of the tree trunk at grade.

Hillside

A "hillside" is ground where the ratio of change in elevation to horizontal distance results in a 10 percent or greater slope or **average percent of slope**.

Natural feature

A "natural feature" is a specific natural feature belonging to one of the types listed in Section [105-10](#) (NATURAL FEATURES) and existing within a **Special Natural Area District**.

Site alteration

A "site alteration" is an alteration on any vacant tract of land, **land with minor improvements** or any tract of land containing **buildings or other structures** which includes land contour work, topographic modifications, removal of **topsoil**, vegetation, excavating, filling, dumping, changes in existing drainage systems, improvements in public rights-of-way, relocation of erratic boulders or modification of any other **natural features**, whether or not a permit is required from the Department of Buildings, the Department of Transportation or other public agencies.

Staging area

A "staging area" is any area on a **zoning lot** used during the construction of a **development, enlargement or site alteration** for the purposes of stockpiling soil or construction materials; storing, cleaning or servicing construction equipment, vehicles or tools; or storing leachable construction products, gases or other materials used to clean or service vehicles, equipment or tools.

Steep slope

A "steep slope" is a portion of a **zoning lot** with an incline of 25 percent or greater. However, a portion of a **zoning lot** with an incline of 25 percent or greater shall not be considered a **steep slope** if it occupies an area of less than 200 square feet or has a dimension of less than 10 feet, measured along the horizontal plane, unless such portions in the aggregate equal 10 percent or more of the area of the **zoning lot**.

Steep slope buffer

A "steep slope buffer" is a 15-foot wide area having a slope of less than 25 percent that adjoins the entire length of the crest of a **steep slope**.

Tier I site

A "Tier I site" is a **zoning lot** or other tract of land having an **average percent of slope** of less than 10 percent.

Tier II site

A "Tier II site" is a **zoning lot** or other tract of land having an **average percent of slope** equal to or greater than 10 percent.

Topsoil

"Topsoil" is soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth and is generally the top six inches of soil.

Tree credit

A "tree credit" is a credit for preserving an existing tree of six-inch **caliper** or more that is counted towards a tree preservation requirement or a credit for a newly planted tree of three-inch **caliper** or more that is counted towards a tree planting requirement.

Tree protection plan

A "tree protection plan" is a plan that modifies the **area of no disturbance** around a tree proposed for preservation while protecting and preserving the tree during construction. A **tree protection plan** is prepared by an arborist certified by the International Society of

Arboriculturists (ISA) or equivalent professional organization that includes:

- (a) a survey of the current condition and health of such trees of six-inch **caliper** or more;
- (b) methods for tree protection and preservation based on best management practices, including the prevention of damage due to compaction, grade and drainage pattern changes and tunneling for utilities;
- (c) a schedule for site monitoring during construction;
- (d) a procedure to communicate protection measures to contractor and workers; and
- (e) post-construction treatment.

105-02 - General Provisions

LAST AMENDED
2/2/2005

105-023 - Relationship to public improvement projects

LAST AMENDED
2/2/2005

In all cases, the City Planning Commission shall deny an application, whenever the **development**, **enlargement** or **site alteration** will interfere with a public improvement project (including highways, public **buildings** or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) that has been approved by the City Council or the City Planning Commission.

105-10 - NATURAL FEATURES

LAST AMENDED
12/19/1974

105-11 - Description of Natural Features

LAST AMENDED
2/2/2005

All **natural features** shall be significant in terms of age, size, composition, function, structure, history, association, location, ecological value or educational interest.

The protection of one **natural feature** may require the protection of another which is closely linked to it. The preservation of **natural features** may also be necessary to avoid such adverse conditions as flooding, erosion or hazards to private property. All vegetation is part of a botanic

environment or part of an aquatic feature and shall be considered as a ***natural feature*** protected by the regulations of this District. For the purposes of this Chapter, vegetation includes all forms of plant material, including, but not limited to, trees, shrubs, vines, ferns, grasses, herbs and other plant life.

All ***natural features*** defined in this Section and further described in Appendix B of this Chapter shall be protected by the provisions of this Chapter.

(a) Geologic features

(1) Rock outcrop

A rock outcrop is the portion of a rock formation which appears at the surface of the earth.

(2) Geologic deposit

A geologic deposit is a mass of material which has been placed, shaped or created by the actions of wind, water, ice, gravity, vulcanism, pressure or temperature, either alone or in combination. Such deposits are to include erratic boulders, glacial formations, mineral deposits or semi-precious stones.

(b) Topographic features

(1) ***Steep slope***

(2) Existing natural topography

Existing natural topography is the ground elevation of land.

(3) ***Topsoil***

Topsoil is generally the top six inches of soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth.

(c) Aquatic features

Wetlands, including, but not limited to State and Federal, mapped or designated, freshwater or tidal wetlands:

(1) Laminarian zone

A laminarian zone is that land under the surface of salt water from the mean low tide mark to the depth of 15 fathoms. The portion of laminarian zone to be protected by the provisions of this Special District extends to the pierhead line or to the shore line where no pierhead line has been established.

(2) Beach

A beach is a tract of relatively flat, sandy or gravelly land, without visible vegetation, forming the shore of a large body of water.

(3) Tidal wetland and saltwater littoral zone

A tidal wetland or saltwater littoral zone is that land which is regularly covered by tidal waters and its spray.

(4) Swamp

A swamp is a wet woodland, the soil of which is typically waterlogged or often covered with water.

(5) Marsh

A marsh is a wet prairie that has waterlogged soil during the growing season (from last spring frost to first fall frost) and is often covered with shallow water.

(6) Bog

A bog is a tract of waterlogged land without natural drainage.

(7) Meadow

A meadow is a tract of land that is waterlogged to within a few inches of the surface and may have temporary ponds during the non-growing season (between the first fall frost and first spring frost).

(8) Creek, stream or brook

A creek, stream or brook is a free flowing fresh watercourse on soil, gravel or rock that drains a watershed.

(9) Lake or pond

A lake or pond is a body of fresh or salt water standing year round.

(10) Natural spring

A natural spring is a point source of water exiting from the surface of the earth or rock.

(d) Botanic environments

(1) Primary succession community area

A primary succession community area is a tract of land characterized by species that can tolerate extreme environmental conditions and provide initial protection for less tolerant forms of life. These species are usually annuals and herbaceous.

(2) Secondary succession community area

A secondary succession community area is a tract of land characterized by short-lived trees and shrubs as well as grasses and herbaceous material. These species are less tolerant than primary succession community species but provide a greater diversity and range of protection from the sun, wind and rain.

(3) Climax community area

A climax community area is a stable association of plants and animals that will perpetuate itself indefinitely with minor variation in the group of associated plants. The climax community area in New York City is the glaciated oak-chestnut association, which is part of the eastern hardwood deciduous forest.

(4) Dune or heathland

A dune or heathland is a tract of windblown and wind- or water-shaped sandy land with such characteristic species as beach grass and beach heather.

(5) Wild grassland

A wild grassland is an area whose vegetation is primarily of wild grass species.

The ***natural features*** defined in this Section are described in Appendix B of this Chapter.

105-20 - PROTECTION OF NATURAL FEATURES

LAST AMENDED
2/2/2005

All ***natural features*** within a ***Special Natural Area District*** shall be protected by the regulations of this Chapter in accordance with the provisions set forth in Sections [105-02](#) (General Provisions), [105-30](#) (PRESERVATION OF NATURAL FEATURES) and [105-50](#) (REGULATIONS FOR PROTECTION OF NATURAL FEATURES).

Except for any existing ***natural feature*** that is unsafe and the removal of which is required by the Department of Buildings to eliminate hazardous conditions, no ***natural features*** described in Section [105-11](#) (Description of Natural Features) shall be removed, destroyed or altered unless permitted by certification, authorization or special permit of the City Planning

Commission, pursuant to Section [105-40](#) (SPECIAL REVIEW PROVISIONS), or allowed pursuant to Section [105-021](#) (Actions not requiring special review).

105-30 - PRESERVATION OF NATURAL FEATURES

LAST AMENDED
2/2/2005

The provisions of this Section are applicable to all **developments**, **enlargements** and **site alterations** within the **Special Natural Area District**, pursuant to Section [105-02](#) (General Provisions). When pursuant to Sections [105-41](#) (Certification) or [105-021](#) (Actions not requiring special review), it is not necessary for an applicant for a **development**, **enlargement** or a **site alteration** to apply for an authorization or special permit, such **development**, **enlargement** or **site alteration** shall nonetheless comply with the **natural feature** preservation requirements of this Section, inclusive.

105-31 - Botanic Environment and Tree Preservation Requirements

LAST AMENDED
2/2/2005

To the maximum extent possible, existing trees and vegetation shall be retained. Trees of six-inch **caliper** or more and vegetation may only be removed or destroyed as a result of a **development**, **enlargement** or **site alteration**, provided that:

- (a) such trees or vegetation are located in areas to be occupied by **buildings**, **private roads**, driveways, areas for required **accessory** parking, or within a distance of 15 feet of the exterior walls of such **building**, provided that it is not possible to avoid such removal by adjustments in the arrangement of such **buildings**, driveways or required parking areas;
- (b) the continued presence of such tree would create special hazards or dangers to persons or property, which would not be possible or practical to eliminate by pruning;
- (c) the continued presence of such tree would interfere with the growth or health of another tree of six-inch **caliper** or more, designated for preservation and belonging to a species listed in Appendix D (Tree Selection List for On-site Trees) of this Chapter; or
- (d) an authorization pursuant to Section [105-425](#) (Modification of botanic environment and tree preservation and planting requirements) has been granted by the City Planning Commission approving the removal of such trees or vegetation.

Any tree of six-inch **caliper** or more that cannot be preserved as a result of a proposed **development**, **enlargement** or **site alteration** shall be replaced pursuant to the provisions of Section [105-32](#) (Botanic Environment and Tree Planting Requirements).

105-32 - Botanic Environment and Tree Planting Requirements

LAST AMENDED
2/2/2005

Any vegetation that cannot be saved as a result of **site alteration**, **enlargement** or **development** shall be replaced with alternative vegetation to be approved by the City Planning Commission. All **developments**, **enlargements** and **site alterations** shall comply with the tree planting requirements set forth in this Section, whether or not existing trees are removed as a result of such **development**, **enlargement** or **site alteration**.

The replanting of elements of vegetation that are parts of an association or community shall be such as to reestablish, as rapidly as is reasonable, the vigor and character of the association. When necessary to establish ecological balance, the Commission may also require additional vegetation to be planted.

(a) Tree planting

For the purposes of this Section, the following minimum standard shall apply for tree planting:

- (1) For any **development**, **enlargement** or **site alteration** within a **Special Natural Area District**, trees of at least three-inch **caliper**, pre-existing or newly planted, shall be provided on the **zoning lot** at the rate of one tree for each 1,000 square feet of **lot area** or portion thereof or shall equal a total of 51 percent of all **tree credits** for trees originally on site, whichever is greater.
- (2) For any existing tree of at least six-inch **caliper** that is preserved, credit for one tree shall be given for the first six inches of **caliper** and, for each additional four inches of **caliper**, credit for an additional tree shall be given.

Single-trunk trees, newly planted to meet this requirement, shall be of at least three-inch **caliper** at the time of planting. Multiple-trunk trees and low-branching coniferous evergreens shall be at least 10 feet in height at the time of planting. Trees newly planted to meet this requirement shall be of a species selected from Appendix D of this Chapter, and acceptable from the standpoint of hardiness, appearance and habit of growth suitable to the site.

The Commission may grant a waiver of the tree planting requirements by certification to the Department of Buildings, where the Commission finds that the ecology of the site is such that the substitution of other plant material would be more appropriate than the tree planting requirements and a detailed plan for planting has been filed with the Commission for its approval.

(b) Botanic Environment Planting

For the purposes of this Section, the following minimum standard shall apply for the planting of vegetation.

Any vegetation or **topsoil** that cannot be preserved as a result of a proposed **development, enlargement** or **site alteration** and is not permitted to be removed pursuant to the regulations of Sections [105-31](#) (Botanic Environment and Tree Preservation Requirements) or [105-425](#) (Modification of botanic environment and tree preservation and planting requirements), shall be replaced as follows: for every square foot of **lot area** of removed vegetation or **topsoil**, plantings shall be provided of the size and number indicated in paragraphs (b)(1), (b)(2), (b)(3) and (b)(4) of this Section. The area of removed vegetation shall be measured so as to include any portions of the **zoning lot** that were located within the **critical root zone** of a removed tree of six-inch **caliper** or more. Species of ground cover and shrubs shall be selected from Appendix C (Selection List for Ground Covers and Shrubs) of this Chapter. Species of on-site trees shall be selected from Appendix D (Tree Selection List for On-site Trees) of this Chapter.

- (1) Ground cover shall be planted one at one-foot-on-center and at the rate of one plant for every square foot of **lot area** of removed vegetation; and
- (2) Large trees shall be planted at the rate of one three-inch **caliper** tree for every 500 square feet of **lot area** of removed vegetation; or
- (3) Small trees shall be planted at a rate of one eight-foot high tree for every 100 square feet of **lot area** of removed vegetation; or
- (4) **Shrubs** shall be planted at a rate of one gallon container-grown material for every 25 square feet of **lot area** of removed vegetation.

The planting of species shall not be limited to woody plant materials, but shall include trees, shrubs, vines, ferns, grasses, herbs, annuals, biennials, perennials, mosses and other associated vegetation. All vegetation to be planted shall be either of the species which characterized the area's biological community prior to **site alteration, enlargement** or **development**, or of an alternative biologic community found in the area. Species selection shall give particular attention to the relationship of the species to each other and to the surrounding plant community and to the quality of the soil and the vertebrate and invertebrate populations associated with and dependent upon the proposed plants.

LAST AMENDED
2/2/2011

The provisions set forth in this Section and Section [105-34](#) (Grading Controls for Tier II Sites) shall apply to driveways and to **private roads** that provide access to **buildings developed** after February 2, 2005. The provisions for **private roads** set forth in Article II, Chapter 6, shall not apply.

(a) Driveways

- (1) The maximum grade of a driveway shall not exceed 10 percent.

- (2) The width of the graded section beyond the curb back or edge of pavement of a **private road** shall extend no more than three feet beyond the curb back or edge of pavement on both the cut and the fill sides of the roadway. If a sidewalk is to be installed parallel to the roadway, the graded section shall be increased by the width of the sidewalk plus no more than one foot beyond the curb back.
- (3) The paved width of a **private road** shall not exceed 34 feet.
- (4) Curbs shall be provided along each side of the entire length of a **private road** and **accessory** parking spaces may be located between the required roadbed and curb.

Such approval may include the modification of **private road** width as set forth in paragraph (b)(3) of this Section.

The City Planning Commission may by authorization pursuant to Section [105-434](#) (Modification of requirements for private roads and driveways), allow modifications to, or waivers of, the requirements of this Section. The prior approval of the Fire Department regarding the adequacy of vehicular access to and within the **development** for fire safety shall be a condition for any modification or waiver.

105-36 - Controls During Construction

LAST AMENDED
2/2/2005

The following requirements must be met during construction and identified on the construction plan:

- (a) No construction equipment of any kind shall operate beyond 15 feet of the perimeter of a **building** foundation except those vehicles engaged in the construction of **private roads**, driveways or required **accessory** parking areas. This provision may be waived by the Commissioner of Buildings should it be determined that the particular conditions of the site make a 15-foot limit infeasible or impractical.
- (b) Construction fences shall be erected around all vegetation proposed for preservation and all **areas of no disturbance**, and those portions of the fence that are downhill from the construction site shall have hay bales placed adjacent to them.
- (c) Excavating for fill shall be prohibited unless the material is obtained from a cut permitted under an approved grading plan obtained for some purpose other than to produce fill material, or imported from outside the **Special Natural Area District**.
- (d) The **staging area** shall be located in an area that would most minimize destruction of the **natural features** of the landscape. Such area shall be as close to the construction area on the **zoning lot** as practical, and shall be either on the flattest portion of the **zoning lot** or behind a containment wall where it will not erode any **area of no disturbance** or endanger any tree designated for preservation.
- (e) **Topsoil** shall be used in the area to be replanted as soon as construction is complete.
- (f) Any exposed earth area shall have straw, jute matting or geotextiles placed on it within

two days of exposure and be seeded with annual rye grass during construction.

105-37 - Special Erosion and Sedimentation Prevention Requirements for Authorizations for Tier II Sites

LAST AMENDED
2/2/2011

Any **development, enlargement** or **site alteration** that is on a **Tier II site** and requires an authorization shall be subject to the provisions of this Section. The requirements of this Section shall supplement any other requirements set forth in Section [105-40](#) (SPECIAL REVIEW PROVISIONS) that also must be met.

Prior to construction, at least one of the erosion and sedimentation control measures described in paragraphs (a) through (e) of this Section shall be selected. A plan describing how the selected erosion and sedimentation control measure will be implemented and justifying its selection on the basis of the particular conditions of the site shall be prepared by a professional engineer or landscape architect and submitted to the City Planning Commission.

(a) Benches and berms

These are level terraces or ledges constructed across sloping land to provide a relatively flat construction site or reduce the length and grade of the slope. Benches and berms reduce runoff and erosion hazards by slowing down the velocity of water and providing greater intake opportunity.

(b) Diversion channels

These are earth channels with a supporting ridge on the lower side constructed across the slope lengths to break up concentration of runoff and move water to stable outlets at a non-erosive velocity.

(c) Debris or sediment basins

These consist of a dam or embankment, a pipe outlet and an emergency spillway situated at the low corner of the site to provide a temporary means of trapping and storing sediment while releasing the water. They protect property below the installation from damage by excessive sedimentation and debris.

(d) Retention ponds

These are impoundment-type ponds that temporarily store runoff water and release it at rates that minimize erosion and prevent flooding. They may be located above the site to trap water before it enters the area or within the site to protect properties below the site.

- (e) Grassed waterways or outlets

These are natural or excavated channels to dispose of excess runoff water from diversions, berms, benches and other areas at non-erosive velocities. Waterways or outlets are shaped or graded and established in suitable vegetation as needed, depending on the supplemental measure used to slow the velocity of runoff.

105-38 - Special Submission Requirements for Authorizations on Tier II Sites

LAST AMENDED
2/2/2011

When a **development**, **enlargement** or **site alteration** is on a **Tier II site**, an application to the City Planning Commission for an authorization shall include the following submission requirements. These requirements shall be in addition to the requirements set forth in Section [105-40](#) (SPECIAL REVIEW PROVISIONS).

- (a) A drainage plan and soil report prepared by a professional engineer to protect **natural features**. The drainage plan shall describe the temporary (during construction) and permanent measures to collect, direct and discharge stormwater drainage from the site, indicating the direction of drainage flow and providing detailed plans and locations of all surface and subsurface drainage devices, walls, dams, sediment basins, stormwater storage (detention and retention) facilities, and other drainage facilities and protective devices. Such report shall include an estimate of runoff from the site after completion of proposed **developments**, **enlargements** or **site alterations** and provide a description with supporting information of the manner in which the proposed **development**, **enlargement** or **site alteration** complies with the requirements of Local Law 103 of 1989.
- (b) An erosion and sedimentation plan as described in Section [105-37](#) (Special Erosion and Sedimentation Prevention Requirements for Authorizations for Tier II Sites).
- (c) For any **development** or **site alteration** on a tract of land 40,000 square feet or greater, a landscape plan prepared by a registered landscape architect that shows the location and species of all new plantings of trees, shrubs and ground covers and the proposed method of preserving existing trees, shrubs and ground covers.
- (d) Any other information the Commission may deem necessary to evaluate the request.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

105-40 - SPECIAL REVIEW PROVISIONS

LAST AMENDED

2/2/2011

The provisions of this Section shall apply to all **developments, enlargements or site alterations** located within a **Special Natural Area District**.

Prior to the issuance by the Department of Buildings of any permit for a **development, enlargement or site alteration** within a **Special Natural Area District**, the City Planning Commission shall certify to the Department of Buildings that the **development, enlargement or site alteration** is approved pursuant to Sections [105-41](#), [105-42](#), [105-43](#) or [105-44](#), inclusive.

The provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-scale Residential Developments), shall apply to a **large-scale residential development**, as modified by the provisions of Section [105-701](#) (Applicability of large-scale residential development regulations).

105-41 - Certification

LAST AMENDED
2/2/2005

When it is not necessary for the applicant for a **development, enlargement or site alteration** to apply for an authorization or special permit, the City Planning Commission shall certify to the Department of Buildings that such **development, enlargement or site alteration** complies with the regulations of this Chapter, and that no authorization or special permit is required pursuant to this Chapter.

Where **natural features** are to be protected and maintained under Section [105-60](#) (MAINTENANCE OF NATURAL FEATURES), the Commission shall indicate in the certification specific conditions and safeguards appropriate to the designated area.

105-42 - Authorizations to Alter Natural Features

LAST AMENDED
2/2/2005

For a **development, enlargement or site alteration** located within the **Special Natural Area District**, the City Planning Commission may authorize:

- (a) modification of topographic features including existing natural topography and **topsoil** pursuant to Section [105-421](#) (Modification of topographic features on Tier I sites) and modification of **steep slopes** pursuant to Section [105-422](#) (Authorization of a development, enlargement or site alteration on a Tier II site or portion of a zoning lot having a steep slope or steep slope buffer);
- (b) modification of geologic features including the relocation of erratic boulders, and the

alteration of rock outcrops pursuant to Sections [105-423](#) and [105-424](#);

- (c) modification of botanic environment, pursuant to Section [105-425](#);
- (d) alteration of aquatic features, pursuant to Section [105-426](#) in NA-1, NA-2 and NA-3 Districts.

The Commission may prescribe appropriate additional conditions and safeguards to protect the character of the ***Special Natural Area District***.

105-421 - Modification of topographic features on Tier I sites

LAST AMENDED
2/2/2005

The topographic features, including natural topography and ***topsoil***, existing at the time of designation of a ***Special Natural Area District*** may be modified by the City Planning Commission, provided that the Commission finds that:

- (a) ***development, enlargement*** and ***site alteration*** is not feasible without such modification, or that the requested modification will permit a ***development, enlargement*** or ***site alteration*** that satisfies the purposes of this Chapter;
- (b) such modification, including any removal of ***topsoil***, will not disturb the drainage pattern and soil conditions in the area;
- (c) such modification of topography has minimal impact on the existing topographic features of the surrounding area and blends harmoniously with it;
- (d) such modification is the least modification required to achieve the purpose for which it is granted; and
- (e) the ***development, enlargement*** or ***site alteration*** takes advantage of the natural characteristics of the site.

Where permits are required from a City agency, the Commission shall request a report from such agency, and the provisions of Section [105-93](#) (Inter-agency Coordination) shall apply.

105-422 - Authorization of a development, enlargement or site alteration on a Tier II site or portion of a zoning lot having a steep slope or steep slope buffer

LAST AMENDED
2/2/2011

The City Planning Commission may authorize ***developments, enlargements*** and ***site alterations*** on a ***Tier II site*** or on portions of a ***zoning lot*** having a ***steep slope*** or ***steep***

slope buffer.

In order to grant such authorizations, the Commission shall find that:

- (a) the ***development, enlargement or site alteration*** is not feasible without such modification, or that the modification will permit a ***development, enlargement or site alteration*** that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the modification will not disturb the drainage patterns and soil conditions of the area; and
- (e) the ***development, enlargement or site alteration*** takes advantage of the natural characteristics of the site.

The ***lot coverage*** regulations of Table II of Section [105-33](#) (Residential Lot Coverage Regulations on Tier II Sites or on Sites Granted an Authorization Pursuant to Section [105-422](#)) shall apply to any ***residential development, enlargement or site alteration*** granted an authorization pursuant to this Section.

Any ***development, enlargement or site alteration*** requiring an authorization pursuant to this Section shall be subject to all the requirements of this Chapter for which an authorization or special permit has not been obtained.

105-423 - Relocation of erratic boulders

LAST AMENDED
2/2/2005

No erratic boulder with a diameter at any point of six feet or more may be moved from its location at the time of designation of a ***Special Natural Area District*** to another location within the Special District during ***development, enlargement or site alteration*** except in compliance with the provisions of this Section.

Prior to the moving of an erratic boulder from its present location to a location elsewhere within the ***Special Natural Area District***, an application shall be filed with the City Planning Commission showing the present location and the proposed location. Moving of an erratic boulder will be permitted only by authorization of the Commission under the following circumstances:

- (a) where such a boulder is located in an area to be occupied by ***buildings***, driveways, parking areas or recreation areas and it is not possible to avoid such location by minor

adjustments in the arrangement of such **buildings**, driveways, parking areas or recreation areas on the site;

- (b) where the boulder's continued existence in its present location would create hazards or dangers; or
- (c) where authorizations granted by the Commission under the provisions of this Chapter require or clearly contemplate the boulder's relocation from its present position.

In issuing an authorization under this Section, the Commission shall require an appropriate relocation site, visible, if possible, from a public **street**, park, or public place, preferably on the **zoning lot** or elsewhere within the **Special Natural Area District**. The Commission may prescribe appropriate conditions to enhance the setting of the relocated boulder.

105-424 - Alteration of rock outcrops

LAST AMENDED
2/2/2005

The City Planning Commission may authorize the alteration of a rock outcrop, provided that:

- (a) the **development** or **enlargement** is not feasible without such alteration, or that the requested alteration will permit a **development** or **enlargement** that satisfies the purposes of this Chapter; or
- (b) such alteration is necessary to protect the health and safety of the site occupants; and
- (c) such **development** or **enlargement**, as authorized, will result in the minimum **natural feature** interference that must be permitted in order to allow reasonable **development** or **enlargement** and **bulk** distribution under the regulations of the underlying district.

The Commission shall impose appropriate conditions and safeguards to assure protection of the portions of the area to be preserved in their natural state.

105-425 - Modification of botanic environment and tree preservation and planting requirements

LAST AMENDED
2/2/2005

The City Planning Commission may authorize modifications to the provisions of Sections [105-31](#) (Botanic Environment and Tree Preservation Requirements), [105-32](#) (Botanic Environment and Tree Planting Requirements) and paragraph (b)(8) of Section [105-35](#) (Tier II Requirements for Driveways and Private Roads).

In order to grant such authorizations, the Commission shall find that:

- (a) the **development, enlargement** or **site alteration** is not feasible without such modifications, or that the requested modification will permit a **development, enlargement** or **site alteration** that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the ecology and soil conditions of the site are such that the substitution of other plant material would be as appropriate as the botanic preservation or planting requirements being modified; and
- (d) in order to modify requirements relating to tree preservation, planting or removal, the Commission shall also find that:
 - (1) such tree is located in areas which require excessive cut or fill of land deemed inimical to plant survival; or
 - (2) the continued presence of such tree would create hazards or dangers (such as an area affected by storm or plant disease) to persons, property or other plant material which it would not be possible or practical to eliminate by pruning.

Where on-site replanting of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the **Special Natural Area District**. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

105-426 - Alteration of aquatic features

LAST AMENDED

No portion of an aquatic feature shall be altered or land operations affecting aquatic features undertaken by or on behalf of present or future applicants for permits except in compliance with the provisions of this Section. The City Planning Commission may permit the alteration of aquatic features, provided that:

- (a) the **development** or **enlargement** is not feasible without such alteration or where such alteration will permit a **development** or **enlargement** that satisfies the purposes of this Chapter; or
- (b) such alteration is necessary to protect the health and safety of the site occupants; and
- (c) such **development** or **enlargement**, as authorized, will result in the minimum **natural feature** interference that must be permitted in order to allow reasonable **development** or **enlargement** and **bulk** distribution under the regulations of the underlying district; and

- (d) such modification shall not disturb the drainage patterns in the area.

The Commission shall impose appropriate conditions and safeguards to assure protection of the portions of the area to be preserved in their natural state.

Where permits are required from a City agency for any work affecting **natural features**, the Commission shall request a report from such agency and the provisions of Section [105-93](#) (Inter-agency Coordination) shall apply.

In the event alteration of an aquatic feature is found inappropriate, the Commission may treat an application under this Section as an application for modification of **yard** and height and setback regulations under Section 105-432.

105-43 - Authorizations to Modify Bulk, Parking, Grading and Private Roads Regulations

LAST AMENDED
2/2/2011

For a **development**, **enlargement** or **site alteration** located within the **Special Natural Area District**, the City Planning Commission may authorize:

- (a) modification of **lot coverage** controls in accordance with the provisions of Section [105-431](#);
- (b) modification of underlying district regulations relating to **bulk** or **parking** in accordance with the provisions of Section [105-432](#) (Modification of yard, height and setback regulations, and parking location regulations);
- (c) modification of grading controls in accordance with the provisions of Section [105-433](#); and
- (d) modification of requirements for driveways and private roads on **Tier I sites** and **Tier II sites** in accordance with the provisions of Section 105-434.

105-431 - Modification of lot coverage controls

LAST AMENDED
2/2/2011

For any **development** or **enlargement** on a **Tier II site** or within a **steep slope** or a **steep slope buffer** on a **Tier I site**, the City Planning Commission may authorize variations in the **lot coverage** controls set forth in Section [105-33](#).

In order to grant such authorization, the Commission shall find that:

- (a) the **development** or **enlargement** is not feasible without such modification, or that the

requested modification will permit a **development** or **enlargement** that satisfies the purpose of this Chapter;

- (b) by allowing the permitted **floor area** in a **building** or **buildings** of lower height to cover more land, the preservation of **hillsides** having aesthetic value to the public would be assured, and that such preservation would not be possible by careful siting of a higher **building** containing the same permitted **floor area** on less land;
- (c) such modification is the least modification required to achieve the purpose for which it is granted;
- (d) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (e) the modification will not disturb the drainage pattern and soil conditions of the area; and
- (f) the modification does not impair the essential character of the surrounding area.

105-432 - Modification of yard, height and setback regulations, and parking location regulations

LAST AMENDED
2/2/2011

For any **development** or **enlargement** that does not qualify under provisions of Section [105-701](#) (Applicability of large-scale residential development regulations), the City Planning Commission may authorize variations in required **front, rear or side yards**, parking lot landscaping or maneuverability requirements, location of parking, driveways or curb cuts and required space between **buildings** on the same **zoning lot**, and may modify height and setback regulations for the purpose of preserving **natural features**, provided the Commission finds that:

- (a) the proposed placement of **buildings** and arrangement of **open space** will not have significant adverse effects upon the light, air and privacy for existing **buildings** in adjacent areas or the opportunities therefore in future **development**; and
- (b) will preserve significant **natural features**.

The Commission may condition such authorizations upon the joint submission of acceptable plans for **development** or **enlargement** of two or more adjacent **zoning lots** by the owners thereof.

105-433 - Modification of grading controls

LAST AMENDED
2/2/2011

For any **development, enlargement** or **site alteration** on a **Tier II site**, the City Planning Commission may authorize variations in the grading controls set forth in Section [105-34](#).

In order to grant such authorization, the Commission shall find that:

- (a) the **development, enlargement** or **site alteration** is not feasible without such modifications, or that the modifications will permit a **development, enlargement** or **site alteration** that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the modification will not disturb the drainage pattern and soil conditions of the area;
- (e) the modification does not impair the essential character of the surrounding area; and
- (f) the benefits to the surrounding area from the modification outweigh any disadvantages that may be incurred thereby in the area.

105-434 - Modification of requirements for private roads and driveways

LAST AMENDED
1/19/2016

For any **development, enlargement** or **site alteration**:

- (a) the City Planning Commission may authorize variations in the requirements for **private roads** and driveways on any **Tier II site** as set forth in Section [105-35](#) (Tier II Site Requirements for Driveways and Private Roads), as well as the requirements of Sections [25-621](#) (Location of parking spaces in certain districts) and [25-631](#) (Location and width of curb cuts in certain districts) provided that:
 - (1) the **development** or **enlargement** is not feasible without such modification, or that the requested modification will permit a **development, enlargement** or **site alteration** that satisfies the purposes of this Chapter;
 - (2) such modification is the least modification required to achieve the purpose for which it is granted;
 - (3) the modification will not disturb the drainage pattern and soil conditions of the area;
 - (4) the modification has minimal impact on the existing natural topography and

vegetation and blends harmoniously with it; and

(5) such modification will enhance the quality of the design of the **development**, **enlargement** or **site alteration**; or

(b) located on a **zoning lot** containing historic buildings designated by the Landmarks Preservation Commission within the New York City Farm Colony-Seaview Hospital Historic District, as shown on Map 2 in Appendix A of this Chapter, the City Planning Commission may authorize modifications or waivers of the requirements for **private roads** as set forth in Section [26-20](#) (SPECIAL REQUIREMENTS FOR LOTS WITH PRIVATE ROADS) through Section [26-27](#) (Waiver of Bulk Regulations Within Unimproved Streets), inclusive, and Section [26-30](#) (SPECIAL REQUIREMENTS FOR LOTS WITH PRIVATE ROADS IN LOWER DENSITY GROWTH MANAGEMENT AREAS) through [26-35](#) (Screening), inclusive, provided that such modification or waiver:

- (1) results in greater environmental conservation or preservation of existing natural features;
- (2) results in a superior site and landscape plan that will not unduly disturb the drainage pattern and soil conditions of the area;
- (3) results in greater preservation of historic **buildings** or other architectural elements of the Historic District designated by the Landmarks Preservation Commission;
- (4) enhances vehicular and pedestrian connections between **buildings** on the site and the surrounding neighborhood;
- (5) will not impair the essential character of the Historic District and the surrounding area;
- (6) is the least required to achieve the purpose for which it is granted; and
- (7) will not reduce the required minimum width of the **private road** to a width less than 34 feet unless the Fire Department has approved such reduction and determined that emergency vehicles can adequately access and move within the site.

105-44 - Special Permit

LAST AMENDED
2/2/2005

For any **development**, **enlargement** or **site alteration** within the **Special Natural Area District**, the City Planning Commission may grant special permits for modification of the underlying district regulations in accordance with the provisions of Sections [105-441](#) and 105-

105-441 - Modification of use regulations

LAST AMENDED
2/2/2011

In addition to any **use** modifications which may be granted under the provisions of Section [105-701](#) (Applicability of large-scale residential development regulations), the City Planning Commission may permit **semi-detached** or **attached single-family residences** in R2 Districts and **attached single-** or **two-family residences** in R3-1 Districts.

Furthermore, except in the **Special Natural Area District-1** (NA-1), the Commission may permit **semi-detached** or **attached single-family residences** in R1-2 Districts provided that the **development** or **enlargement** is on a tract of land of at least four acres, and provided the Commission finds that:

- (a) the preservation of **natural features** requires the permitted **development** to be concentrated to the extent feasible in the remaining portion of the tract;
- (b) for such concentration of **development**, better standards of privacy and usable **open space** can be and are achieved under the development plan by inclusion of the proposed **residential building** types;
- (c) the change of housing type constitutes the most effective method of preserving **natural features**;
- (d) the **aggregate width of street walls** of a number of **residential buildings** separated by party walls shall not exceed 100 feet;
- (e) the proposed **street** system for the tract of land to be **developed** is so located as to draw a minimum of vehicular traffic to and through **streets** in the adjacent area; and
- (f) the existing topography, vegetation and proposed planting effectively screen all **attached single-family residences** from the **lot lines** along the perimeter of the tract of land to be **developed**.

105-442 - Natural area dedicated for public use

LAST AMENDED
2/2/2005

Where commonly or separately owned areas containing **natural features** of exceptional recreational, cultural or educational value to the public are dedicated to the City, without any cost to the City, pursuant to Section [105-701](#) (Applicability of large-scale residential development regulations), the City Planning Commission may by special permit allow, where

appropriate, such portion of the **zoning lot** to be included in the zoning computation for **floor area**, **open space**, **lot coverage** and density regulations and other **bulk** computations.

105-45 - Certification of Restoration Plans

LAST AMENDED
2/2/2005

On any **zoning lot** to which the provisions of Section [105-02](#) (General Provisions) apply, no **natural features** as described in Section [105-11](#) (Description of Natural Features) or any other vegetation shall be removed, altered, relocated or replaced without prior approval by the City Planning Commission, as set forth in Section [105-40](#) (SPECIAL REVIEW PROVISIONS).

In the event that any such features are removed, altered, relocated or replaced from a **zoning lot** without prior approval by the Commission, the Commission may specify the manner of their replacement or restoration. If trees are to be planted, the Commission may require that they be three inches in **caliper**.

A copy of the restoration plan certified by the Commission specifying requirements for the replacement or restoration of the **natural features** shall be issued to the owner of the **zoning lot** containing such violations and to the Department of Buildings.

Upon receipt of the Commission's certified restoration requirements, the Department of Buildings shall require the owner of the **zoning lot** to remove the violations in accordance with the requirements set forth by the Commission. If such violations have not ceased within 90 days of receipt of the Commission's requirements, the Department of Buildings shall institute such action as may be necessary to terminate the violations. For compliance with new planting requirements to remove violations, the Department of Buildings may allow an additional 90 days.

No building permit or certificate of occupancy shall be issued by the Department of Buildings for any **development**, **enlargement**, **site alteration** or **use** on such **zoning lot** until the violations are removed from the **zoning lot** in accordance with the restoration plan certified by the Commission.

105-50 - REGULATIONS FOR PROTECTION OF NATURAL FEATURES

LAST AMENDED
2/2/2011

The provisions of this Section establish regulations for City Planning Commission review of **development**, **enlargement** or **site alteration** plans from the standpoint of the adequacy of protection for **natural features** within a **Special Natural Area District**. Plans that are deficient in this regard may be rejected or required to be modified, even though they comply with all other applicable regulations of this Chapter.

These regulations are to be used by the Commission in reaching a determination whether to approve **development**, **enlargement** or **site alteration** plans filed pursuant to Sections [105-41](#) (Certification), [105-42](#) (Authorizations to Alter Natural Features), [105-43](#) (Authorizations to Modify Bulk, Parking, Grading and Private Roads Regulations) or [105-44](#) (Special Permits).

The Commission, where appropriate, shall be guided by the reports from other city agencies involved in land contour work, storm water drainage systems and similar operations affecting **natural features**.

In determining the necessary alteration of **natural features** or extent of modifications involved in a **development**, **enlargement** or **site alteration**, the Commission shall be guided by the effect of any alteration of a **natural feature** on the total ecological process of the surrounding natural environment including the following: the effect of such alteration on the existing topography, soil conditions, erosion, natural flow of water and drainage, water quality, and animal, plant and marine life.

Further guidelines for the protection of **natural features** are:

- (a) No **natural feature** shall be moved, removed, covered, diminished, broken or disfigured, unless permitted pursuant to the provisions of Sections [105-30](#) (PRESERVATION OF NATURAL FEATURES) and [105-40](#) (SPECIAL REVIEW PROVISIONS). Furthermore, **topsoil** shall neither be removed from the surface of any **zoning lot** nor covered with inferior material unless permitted pursuant to Section [105-40](#). Where existing topography is altered without prior authorization of the Commission, the Commission may require new grading or other topographical modifications or surface improvement to reestablish the viability and function of the soil as a growing medium, and as a drainage surface, in order to permit the site to blend harmoniously with the surrounding area of the Special District.
- (b) Filling, excavating, draining, dredging, grading and contouring shall be staged and controlled so as to minimally impair the function, composition, vitality and existence of **natural features**. When and where possible, such operations shall be done in a manner so as to maintain or improve the biological system and individual features on the site.
- (c) All filling, excavating, draining, dredging, grading and contouring shall avoid creation of **steep slopes** or conditions causing erosion, loss of fertility of soil, health or safety hazards, and shall be done in conformance with the limits and nature of the soil involved.
- (d) All land operations including filling, excavating, draining, dredging, grading and contouring shall be limited to those operations which maintain or restore natural drainage, cause a minimum disturbance of the **natural features** and their setting while providing for the **development**, **enlargement** or **site alteration** or permitted **uses**.
- (e) No **development**, **enlargement** or **site alteration** shall be such as to impede or change the quality, turbidity, temperature or chemical composition of natural drainage

or aquatic features.

- (f) A **development, enlargement or site alteration** shall be permitted only in areas sufficiently removed from the **natural features** to avoid impairment of their existence, functions or beauty.
- (g) There shall be maximum preservation of all natural vegetation in and adjacent to the **natural features** found on the site. Plant communities which have been substantially reduced in area or composition as a result of a **development, enlargement or site alteration** shall be restored, extended or replaced by alternative plant materials with an adequate maintenance program. In no case shall the site be allowed to be denuded and without vegetational cover upon completion of the **development, enlargement or site alteration**.
- (h) Replacement of any **natural feature** and planting of new vegetation on a site in the Special District shall be such as to extend, reinforce, increase the diversity, function and vitality of an association or community in the area. Special attention shall be given to symbiotic relationships between plants and the relationship between vegetation to be planted and animal populations which are dependent upon or related to the proposed vegetation. Where appropriate, planting shall include trees, shrubs, vines, ferns, grasses, herbs, annuals, biennials, perennials, mosses, and other associated vegetation.
- (i) Adequate provision shall be made for proper management and maintenance of **natural features** and their immediate surroundings to avoid pollution, loss of vigor, reduction in composition or function or other ecological damage.
- (j) Where appropriate, when a portion of a **natural feature** or its function must be altered, such alteration shall not only reinforce the function, vitality and existence of the remaining portion of the **natural feature** but also improve conditions for other **natural features**. This shall apply particularly but not exclusively to the removal and replanting of plant materials.
- (k) Where appropriate, a **development, enlargement or site alteration** shall be such as to leave **natural features** intact in their natural setting and, where feasible, visible from public **streets** or places.
- (l) For a **steep slope**, these additional requirements apply:
 - (1) In all **Residence Districts**, for **residential developments** on individual **zoning lots** substantially within a **steep slope** area, the **lot area per dwelling unit** requirement shall not be less than 12,500 square feet. Except in R1 Districts located in **Special Natural Area District-1 (NA-1)**, the Commission may, for a tract of land of at least four acres substantially within the **steep slope** area, modify, by authorization, the **lot area per dwelling unit** requirement set forth in this paragraph, (l)(1), for the **steep slope** area, and may allow **development** to be concentrated in clusters to preserve the **steep slope**

areas in their natural state, provided that such clusters are located to the extent feasible in areas of comparatively flat topography and will not require unnecessary grading on adjacent slopes or the creation of new **steep slopes**.

- (2) In no event shall the **lot area per dwelling unit** requirement be less than the amount required by the underlying district regulations.
- (3) Existing vegetational cover in steep areas shall not be removed, destroyed or damaged except pursuant to development and grading plans approved by the Commission. An objective of such plans shall be to fit **street** layouts and **building** designs to the natural terrain, limit grading to a practical minimum and provide for maximum preservation of the natural terrain and vegetational cover.

105-60 - MAINTENANCE OF NATURAL FEATURES

LAST AMENDED
2/2/2005

For any **development, enlargement** or **site alteration** on a tract of land within a **Special Natural Area District**, the City Planning Commission may require a maintenance plan for a **natural feature**. Where a maintenance plan is required, approval of the development plan and the granting of any certification, authorization or special permit shall be conditioned upon the Commission's approval of the maintenance plan.

The maintenance plan shall specify what the maintenance is to consist of and whose responsibility it will be, and shall provide assurance that maintenance will be satisfactorily executed. The Commission, in considering the maintenance needs of a particular **natural feature** and the content of an acceptable maintenance plan shall, where appropriate, refer all relevant plans to the Landmarks Preservation Commission, Department of Parks or other City agency with primary responsibilities in natural areas conservation, for its report thereon. The Commission shall, in its determination, give due consideration to any such report submitted within one month from the date of referral. If such City agency does not report within one month, the Commission may make a final determination without reference thereto.

For **natural features** for which the Commission determines that specialized maintenance and regulated public **use** are appropriate, the maintenance plan may provide for dedication of the **natural feature** to the City or an approved private conservation organization for responsible maintenance in the public interest.

105-70 - SPECIAL REGULATIONS FOR RESIDENTIAL DEVELOPMENT

LAST AMENDED
2/2/2011

In order to carry out the purposes of this Chapter, all **zoning lots developed** predominantly for

residential use may be subject to the provisions of this Section.

105-701 - Applicability of large-scale residential development regulations

LAST AMENDED
2/2/2011

The provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-Scale Residential Developments), shall apply except as modified by the provisions of this Section.

Any **zoning lots developed**, used predominantly for **residential uses**, may be treated as a **large-scale residential development** and authorizations or special permits for such **zoning lot** may be granted in accordance with the provisions of Article VII, Chapter 8, as modified herein or in Section [105-80](#) (JOINT APPLICATIONS), regardless of whether such **zoning lot** will have the area, number of **buildings** or number of **dwelling units** specified in the definition of **large-scale residential development**, as set forth in Section [12-10](#) (DEFINITIONS).

However, in R1 Districts located in the **Special Natural Area District-1** (NA-1), no modification of minimum required **lot area** as set forth in Section [23-32](#) (Minimum Lot Area or Lot Width for Residences) shall be allowed for any **development** pursuant to paragraph (c) of Section [78-311](#) (Authorizations by the City Planning Commission) or Section [78-32](#) (Bonus for Good Site Plan) but modifications of required **front** or **rear yards** and height and setback regulations on the periphery of such **zoning lot**, pursuant to paragraphs (c) and (d) of Section [78-312](#) (Special permits by the City Planning Commission), shall apply. Modification of **side yards** of all **zoning lots**, including **zoning lots** in R1 Districts, shall be subject to the provisions of Section [105-432](#) (Modification of yard, height and setback regulations, and parking location regulations).

Bonuses which may be granted for **large-scale residential developments**, pursuant to Section [78-32](#) through Section [78-35](#) (Special Bonus Provisions), may not be granted for **zoning lots** which have less than 10 acres and less than the number of **buildings** or number of **dwelling units** required by the definitions of a **large-scale residential development**.

Commonly or separately owned areas containing **natural features** may qualify as common **open space** for purposes of satisfying **open space** requirements.

Approval by the Commission of a development plan incorporating **natural features** as common **open space** shall be conditioned upon the findings required in Sections [78-313](#) (Findings) and [78-52](#) (Common Open Space) with respect to the qualification of areas as common **open space** and upon additional findings that appropriate safeguards are provided for the protection and preservation of such **natural features**. In the case of **natural features** that are determined to have qualities of exceptional recreational, cultural or educational value to the public and that are directly accessible to the public from a public right-of-way, the applicant may request the City to take title or a less than fee interest in the property occupied by such a **natural feature** without any cost to the City or its designee for **use** and enjoyment

by the public subject to the provisions of Section [105-60](#) (MAINTENANCE OF NATURAL FEATURES).

LAST AMENDED
12/19/1974

Notwithstanding the provisions of Section [78-06](#) (Ownership), a tract of land which is the subject of an application for authorizations or special permits under the provisions of this Chapter may include adjacent property in more than one ownership, provided that the application is filed jointly by the owners of all property included. Any subdivision of the tract reflecting ownerships at the time of application or creating new ownerships before, during or after **development** shall be subject to the provisions of Section [78-51](#) (General Provisions).

105-90 - FUTURE SUBDIVISION

LAST AMENDED
2/2/2011

Within a **Special Natural Area District**, any **zoning lot** existing on the effective date of the Special District designation may be subdivided into two or more **zoning lots**, provided that **natural features** are preserved to the greatest extent possible under future development options.

A plan for such subdivision shall be filed with the City Planning Commission and the Commission shall certify that such subdivision complies with this objective. The subdivision

plan shall include a survey map indicating existing topography and other ***natural features*** within this area. When a ***zoning lot***, existing on the effective date of the Special District designation, is more than 10 acres and is intended to be subdivided, an area plan of the entire ***zoning lot*** shall be filed with the Commission. The area plan shall include the proposed ***street*** system within the area, ***block*** layouts and any other information required by the Commission.

When any ***zoning lot*** is subdivided into two or more ***zoning lots***, all resulting ***zoning lots*** that lie substantially within a ***steep slope*** area existing as of December 19, 1974, shall be subject to the ***steep slope*** provisions of Section [105-50](#) (REGULATIONS FOR PROTECTION OF NATURAL FEATURES) and all other provisions of this Chapter, as applicable.

In the event that ***natural features*** on any ***zoning lot*** subject to the provisions of Section [105-02](#) (General Provisions) proposed for subdivision have been removed, altered, relocated or replaced from the ***zoning lot*** without prior approval by the Commission, as set forth in Section [105-40](#) (SPECIAL REVIEW PROVISIONS), the Commission shall not approve the subdivision until violations are removed from the ***zoning lot*** in accordance with the Commission's requirements under Section [105-45](#) (Certification of Restoration Plans).

105-91 - Special District Designation on Public Parks

LAST AMENDED
2/2/2005

When a ***Special Natural Area District*** is designated on a ***public park*** or portion thereof, any ***natural features*** existing on December 19, 1974, within such area shall not be removed, destroyed or altered unless authorized by the City Planning Commission. As a condition for granting such authorization, the Commission shall find that any alteration of ***natural features*** is the least alteration required to achieve the purpose intended and such authorization is consistent with the intent of the ***Special Natural Area District***.

105-92 - Special Provisions for City-owned Land

LAST AMENDED
2/2/2011

The provisions of Section [105-40](#) (SPECIAL REVIEW PROVISIONS) shall apply on City-owned land, except that modifications permitted under Section [105-44](#) (Special Permits) may be approved by the City Planning Commission.

Furthermore, provisions of Section [105-93](#) (Inter-agency Coordination) shall apply on City-owned land. However, the provisions of this Chapter shall not apply to any public improvement project approved by the Board of Estimate prior to the effective date of the Special District designation.

105-93 - Inter-agency Coordination

LAST AMENDED
2/2/2005

Where an authorization or permit is required from the City Planning Commission pursuant to this Chapter and where a permit is required from the Departments of Transportation or Buildings for land contour work, by the Department of Environmental Protection for storm water drainage systems for **buildings** or adjacent areas or where construction of a public improvement project is undertaken by a City agency, the Department of City Planning and the agencies involved shall jointly determine the conditions under which such proposed **development, enlargement or site alteration** within a **Special Natural Area District** will best meet the purposes of the Special District. Applications for any required permit or authorizations shall be filed simultaneously with each agency requiring a permit.

105-94 - Special Natural Area Districts Specified

LAST AMENDED

105-941 - Special Natural Area District-1:

LAST AMENDED
6/23/1977

Emerson Hill, Dongan Hills, Todt Hill, Lighthouse Hill and the Central Wetlands Area of Staten Island

The central, serpentine, hilly spine of Staten Island is composed of Emerson Hill, Dongan Hills, Todt Hill and Lighthouse Hill. These hills are richly endowed with steep slopes, rock outcrops, erratic boulders and ponds, lakes, swamps, creeks and many trees of the glaciated Oak-Chestnut association.

To the south and west of the serpentine hills are tidal wetlands, a habitat for marine life and water fowl. The wetlands include parts of Latourette Park, Fresh Kills Park and New Springville Park. The high and low wetlands of Latourette Park and New Springville Park and most of the low wetlands of Fresh Kills Park remain in their natural state. The purpose of this **Special Natural Area District** is to preserve and protect the aforementioned **natural features** pursuant to the provisions of this Chapter.

105-942 - Special Natural Area District-2:

LAST AMENDED
5/21/1975

Riverdale, Spuyten Duyvil and Fieldston, The Bronx

The Riverdale Ridge of The Bronx is composed of part of Riverdale, Spuyten Duyvil and

Fieldston. This ridge contains steep slopes, rock outcrops, ponds, brooks, swampy areas and mature trees.

The western foot of the ridge contains marshes, feeding areas for water fowl. The shore line of the Hudson River estuary contains the aquatic food web necessary to sustain marine life.

The marshes and most of the Hudson River shore line are included in Riverdale Park. Much of the Riverdale Ridge and Riverdale Park are in their natural state. The purpose of this ***Special Natural Area District*** is to preserve and protect the aforementioned ***natural features*** pursuant to the provisions of this Chapter.

105-943 - Special Natural Area District-3:

LAST AMENDED
12/1/1977

Shore Acres Area of Staten Island

The Shore Acres area of Staten Island owes its unique character to Shore Acres Pond, which is fed predominantly by springs percolating from an underground aquifer through Pleistocene strata of sand and gravel.

The Pond is a resting place for migratory and local fowl as well as a watering hole for opossums which are abundant along the wooded cliffs of the Narrows. The Pond has shaped its built environment, including the street layout, landscaping and orientation of neighboring homes. The surrounding area is distinguished by rolling topography with orientation of the northeastern edge toward Lower New York Bay and the Narrows.

The natural drainage area is in need of protection to ensure survival and maintenance of the Pond which in turn is essential to the preservation of this special area.

105-944 - Special Fort Totten Natural Area District-4

LAST AMENDED
2/2/2011

(a) General purposes

The "Special Fort Totten Natural Area District"-4 (hereinafter referred to as the Special District), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following general purposes:

- (1) to preserve, protect and enhance the combination of historically significant buildings and other structures, public open spaces, outstanding scenic views and pedestrian and vehicular circulation system which by their siting create a

unique balance between buildings and open spaces and which, together with the harmonious scale of development and landscaping, add to the quality of life in the area;

- (2) to protect aquatic, biologic, geologic, topographic and other natural features having ecological and conservation values and functions;
- (3) to improve the quality of new development in the area by fostering the provision of specified public amenities and recreational facilities in appropriate locations and by making these facilities directly accessible to the public; and
- (4) to promote the desirable use of land improvements in accordance with the District Plan and in conformance with the character of the Fort Totten area and thus conserve the value of land and buildings and thereby protect the City's tax revenue.

(b) Definitions

- (1) Designated open space

The "designated open space" is an **open space** as shown on the District Plan.

- (2) Street

For the purpose of this Section, a "street" is a way existing within the **Special Fort Totten Natural Area District-4** as shown on the District Plan (Appendix A) complying with the definition of **street** in Section [12-10](#), except that the **street** width shall be limited to existing dimensions. No modification of existing dimensions shall be permitted without prior certification of the City Planning Commission.

(c) General requirements

- (1) Requirements for applications

An application to the Commission for any **development** within the Special District shall be subject to the requirements of Section [105-021](#) (Actions not requiring special review). In addition, an application for **development** within Area B shall include the existing and proposed site plan showing the location and the scale of the existing and proposed **buildings or other structures**, the location of all vehicular entrances and exits and off-street parking facilities, the changes that will be made in the location and size of the **open space**, and such other information as may be required by the Commission. The submission shall include a landscaping plan, **building** sections and elevation and an appropriate model of the planned community.

The Commission shall require, where relevant, a subdivision plan and, in the case of a site plan providing for common **open space** or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

(2) Pier **development**

The Commission may permit, by special permit, pier **development**, only upon finding that the proposed **development** shall have no significant adverse impact on the Special District or surrounding environment. The Commission may prescribe appropriate conditions and safeguards to minimize possible adverse effects on the surrounding area.

(d) Special regulations

(1) Demolition

Except in Area E, no demolition permit or alteration permit for alterations which may affect the character or design of the facade of a **building or other structure** shall be issued by the Department of Buildings, except as permitted by the Commission, unless it is an unsafe **building or other structure** and demolition or alteration is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8, or its successor, of the New York City Administrative Code. An applicant for any such permit shall notify the Landmarks Preservation Commission of the application.

The Commission, by special permit, may allow:

- (i) the alteration of such **building or other structure**, provided that such alteration treatment of the facade relates harmoniously to the character and materials of the original facade and to the adjoining **buildings or other structures**; or
- (ii) the demolition of such **buildings or other structures**, other than those deemed unsafe as defined by the Department of Buildings, provided that the Commission finds that the existing **building or other structures** are not suitable for rehabilitation.

Where a **building or other structure** has been demolished pursuant to this Section, the Commission may, by special permit, allow the replacement of the demolished structure provided that the design of the new structure in terms of scale, **lot coverage**, **building** height and exterior treatment of the facade shall replicate as nearly as possible the design and site plan of the original **building**.

(2) Special height regulations

In order to preserve the unique character of the Special District and to protect the views of and to the water within the Special District, Section [23-631](#) (General provisions) shall apply except that the maximum height for any **development** or **enlargement** shall be 32 feet or three **stories**, whichever is less.

(3) Location of zoning district boundaries at the shore line

Zoning district boundary lines shall coincide with the shore line lawfully existing on April 28, 1983, or any natural or lawful alteration thereof.

A zoning district boundary line which intersects the shore line lawfully existing on April 28, 1983 shall be prolonged, in a straight line, to such naturally or lawfully altered shore line. Lawfully approved piers or other lawfully approved structural extensions of the shore line, as may be so altered, shall not generate development rights.

(4) Designated open space

Any **development** or **site alteration** on a **zoning lot** which contains **designated open space** as shown on the District Plan, shall require certification by the Commission that such **designated open space** shall not be reduced in size or altered in shape and shall be preserved in its natural state by the owner of the **zoning lot**.

Planting, landscaping or provision of footpaths or sitting areas are permitted in any part of **designated open space**, provided that such improvements do not involve removal of trees or alteration of existing topography, and do not obstruct pedestrian movement within the public pedestrian ways.

Designated open space may be used for active recreational facilities provided that the Commission certifies that such **uses** have minimal impact on tree removal, topographic alteration or drainage conditions.

All **designated open spaces** shall be directly accessible to the public from public rights-of-way between dawn and dusk. A prominent plaque or other permanent **sign** shall be displayed on all **designated open spaces** in a prominent location, designated by the Commission, visible from the adjacent public right-of-way. Such plaque or permanent **sign** shall have a **surface area** of not less than three nor more than six square feet, and shall contain the following statement:

"This area is open to the public between sunrise and sunset."

(5) District plan

The District Map for the ***Special Fort Totten Natural Area District-4*** identifies specific areas comprising the District Plan in which special zoning regulations carry out the general purposes of the ***Special Fort Totten Natural Area District-4***. The District Plan is set forth in Appendix A and is made an integral part hereof. These areas and the specific paragraphs of this Section which contain regulations pertaining thereto are as follows:

Area A - Historic Fort Area, paragraph (d)(6)

Area B - Planned Community Area, paragraph (d)(7)

Area C – Water Related Area, paragraph (d)(8)

Area D - Bay Area, paragraph (d)(9)

Area E - Development Area, paragraph (d)(10)

(6) Historic Fort Area (Area A)

Within Area A (Fort Area) there shall be no ***development*** nor ***enlargement*** of existing ***buildings or other structures*** except that the Commission may authorize necessary renovation to protect existing structures. In all cases the Commission shall refer all applications to the Landmarks Preservation Commission and Department of Parks and Recreation or other City agencies with primary responsibilities in the conservation area, for its report thereon.

(7) Planned Community Area (Area B)

In order to protect the unique scale, character and design relationships between the existing ***buildings*** and public ***open spaces*** and parade grounds, no ***development, enlargement*** nor alteration of landscaping or topography shall be permitted, except as set forth herein and as provided by paragraph (d) (1) of this Section.

(i) Special permit

For any ***development, enlargement*** or alteration of landscaping or topography, the Commission may, by special permit, allow:

- (a) the unused total ***floor area, dwelling units or rooming units*** permitted by the applicable district regulations for all ***zoning lots*** within the development to be distributed without regard for ***zoning lot lines***;
- (b) the total ***open space*** or ***lot coverage*** required by the applicable district regulations for any ***zoning lot*** within the development to be distributed without regard for ***zoning lot***

lines;

- (c) minor variations in the **yard** and **court** regulations required by the applicable district regulations;
- (d) minor variations in the height and setback regulations required by the applicable district regulations;
- (e) modifications of the minimum spacing requirements consistent with the intent of the provisions of Section [23-71](#) (Minimum Distance Between Buildings on a Single Zoning Lot);
- (f) permitted or required **accessory** off-street parking spaces to be located anywhere within the **development** without regard to **zoning lot lines**, or the provisions of Sections [25-621](#) (Location of parking spaces in certain districts) and [25-631](#) (Location and width of curb cuts in certain districts), subject to findings of Section [78-41](#) (Location of Accessory Parking Spaces), or where such requirement substantially injures the functioning of the existing area, authorize waiver of all or part of the required parking.

(ii) Findings

As a condition precedent to the granting of a special permit under the provisions of paragraph (d)(7)(i) of this Section, the Commission shall make the following findings:

- (a) that the **development, enlargement** or said alteration is related to the existing **buildings or other structures** in the Planned Community Area (Area B) in scale and design, and that the **development** will not seriously alter the scenic amenity and the environmental quality of the area;
- (b) that the **development or enlargement** be sited in such a manner as to preserve the greatest amount of **open space** and landscaping that presently exists, consistent with the scale and design of the existing **buildings** and the landscaping surrounding the new landscaping arrangement and conditions of the community;
- (c) that the **development or enlargement** is sited such that it will not require at the same time, or in the foreseeable future, new access roads or exits, off-street parking or public parking facilities that will disrupt or eliminate major portions of **open space** and landscaping or will generate large volumes of traffic which will diminish the environmental quality of the

community;

- (d) that minimal landscaping is to be removed during construction and such areas will be fully restored upon completion of construction.

The Commission may prescribe appropriate conditions and safeguards, including covenants running with the land which shall permit public or private enforcement reflecting terms, conditions, and limitations of any special permit hereunder to minimize adverse effects on the character and quality of the community.

(iii) Parade ground

Unless ownership is retained in a governmental agency, the parade ground **designated open space** shall be commonly owned with a **zoning lot** within Area B or Area E and the maintenance of the parade ground shall be the collective responsibility of said owner or owners. The parade ground shall be used for open recreational **uses** and may contain minor **accessory** structures to said **use**. The parade ground shall be directly accessible from the adjoining **streets** along its entire perimeter. There shall be no fences nor walls around or within the parade ground.

(8) Water Related Area (Area C)

In order to protect the unique aquatic and botanic characteristics of the area, there shall be no **development** in Area C except as provided by paragraph (d) (1) of this Section.

(9) Bay area (Area D)

In order to promote waterfront related activities, only the following **uses** of the C3 District shall be permitted in Area D:

- (i) **residential uses**, which **uses** are permitted only above the ground floor of those **buildings** existing prior to April 28, 1983;
- (ii) all **uses** of Use Group 14, except for boat showrooms or sales, and the storage, repair, or painting of boats other than crew sculls used for intercollegiate competition;
- (iii) all retail or service establishment **uses** of Use Group 6, except automobile supply stores.

(10) Development area (Area E)

Any ***zoning lot developed*** predominantly for ***residential uses*** may be considered a ***large-scale residential development***, and authorizations or special permits for such ***zoning lot*** may be granted in accordance with the provisions of Article VII, Chapter 8, except that the ***accessory uses*** of [78-22](#) (Accessory Uses in Large-Scale Residential Developments) shall not apply.

Any ***zoning lot developed*** predominantly for ***community facility uses*** may be treated as a ***large-scale community facility development***, and authorizations or special permits for such ***zoning lot*** may be granted in accordance with the provisions of Article VII, Chapter 9.

In Area E, the Commission may authorize clustering of ***single-family*** and ***two-family residences*** and a modification of housing types in order to maximize the preservation of existing ***natural features*** in the area, and to provide adequate view protection, and to relate these new structures with the existing structures in the general vicinity. Clustering shall be limited to a maximum ***street wall*** of 100 feet.

Any and all bonuses permitted in Sections [78-32](#) through [78-353](#), inclusive, shall not apply to ***development*** in Area E.

[History](#)

Part I:

Certain botanic terms referred to in the text and Part II of this Appendix are explained below:

A "tree" is any woody plant with one trunk rising out of the earth and root system, from which branches then spring, usually at some distance from the earth. A tree may be deciduous or coniferous.

A "shrub" is a woody plant that has one or more trunks rising from the same root system instead of a single trunk. These trunks or stems may or may not branch at some distance from the earth. A shrub may be deciduous or coniferous.

A "herb" is a non-woody plant with a fleshy stem which dies back to the earth level at the end of the growing season. It may be annual, biennial, or perennial.

A "vine" is a woody plant whose trunk or stem must be supported by the general environment or other plants. It is unable to stand on its own.

A "grass" is a family of herbaceous plants, rarely woody, with hollow round stems.

An "annual" is a plant which completes its life cycle in the space of one growing season, that is, it goes from seed to full plant and flower and sets seed in a single season.

A "biannual" is a plant which requires two years to grow from seed to mature plant capable of producing seed and then dies.

A "perennial" is a plant which lives more than one or two years and usually produces seeds for more than a few years.

A "fern" is a perennial, flowerless plant which reproduces by spores.

An "association" is a grouping of many plant species over a wide area sharing a common habitat and similar geographic conditions.

A "community" is a series of plants, animals, algae, fungi, grasses, trees, shrubs, herbs and other life forms which characteristically grow and live together in harmony, creating a balanced biological environment.

Part II:

Description of Natural Features defined in Section [105-10](#) (NATURAL FEATURES):

For such certification, the applicant shall submit to the Commission a site plan and drawings depicting the proposed **buildings** and location of off-street parking facilities, curb cuts and pedestrian walkways. For **residential uses** within Area K, the **bulk** and parking regulations of R3-2 Districts, as modified by this Chapter, shall apply.

107-05 - Relationship to Public Improvement Projects

LAST AMENDED
9/11/1975

In all cases, the City Planning Commission shall deny a special permit, authorization or certification application whenever a **development** will interfere with a public improvement project (including, without limitation, housing, highways, public **buildings** or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate, City Planning Commission or Site Selection Board.

107-08 - Future Subdivision

LAST AMENDED
2/2/2011

Within the Special District, any **zoning lot** existing on September 11, 1975, may be subdivided into two or more **zoning lots** provided that the existing topography, all individual trees of six inch caliper or more and all land located within a **designated open space**, to the greatest extent possible, are preserved under future **development** options. Any subdivision that is proposed to take place within the Special District after September 11, 1975, shall be filed with the City Planning Commission, and the Commission shall certify that such subdivision complies with the approved South Richmond Plan and the above objective. In the case of a subdivision of a tract of land containing **designated open space**, a site plan indicating the distribution of **bulk** for the individual **zoning lots** shall be submitted to the Commission. Such approved subdivision

shall then be recorded in the land records and indexed against all **zoning lots**. The subdivision plan shall include a survey map indicating existing topography at two foot contour intervals, all individual trees of six inch caliper or more, and the location of **designated open space** within the area. When a **zoning lot** existing on September 11, 1975, is more than five acres and is intended to be subdivided, an area plan of the entire subdivision shall be filed with the Commission. The area plan shall include the proposed vehicular circulation system within the area, **block** and lot layouts and any other information required by the Commission.

107-09 - Applicability of Article VI, Chapter 2

LAST AMENDED
4/22/2009

The Chairperson of the City Planning Commission may, by certification, modify or waive a required **visual corridor**, as defined in Section [62-11](#), with respect to **developments**, including minor modifications thereto, that contain **designated open space** and a portion of the **waterfront esplanade**, where such **development** is conditioned upon a restrictive declaration that includes a site plan for such **development**, including provisions for public access to such **designated open space** and **waterfront esplanade**, provided that at least one required **visual corridor** continues to be provided pursuant to the restrictive declaration.

107-10 - GENERAL REQUIREMENTS

LAST AMENDED
9/11/1975

107-11 - Special Requirements for Application

LAST AMENDED
9/11/1975

Prior to the approval of any application to the Department of Buildings for a **site alteration** or a **development**, the applicant shall file applications with the appropriate City agency requesting the certifications required in Section [107-12](#) (Public Facilities).

Any application to the Department of Buildings for a **site alteration** or **development** shall include a survey map or maps prepared by a licensed land surveyor showing, for the site, existing topography at two foot contour intervals and the locations, names and calipers of all existing trees of six inch caliper or more and; for any **development**, the application shall also include certifications from the appropriate City agencies as required by Section [107-12](#).

However, the requirements of a survey map at two foot contour intervals shall not apply to **zoning lots** 4,000 square feet or less owned separately and individually from all other adjoining **zoning lots** on September 11, 1975, and on the date of filing such application.

However, when a **zoning lot** which was owned separately and individually from all other

adjoining **zoning lots** existing prior to January 2, 1975, is proposed to be **developed** with one **single- or two-family detached residence**, the certification reports of Section [107-12](#) shall not be required, but the provisions of local laws shall apply. When a permit for land contour work, storm water drainage systems or other **site alteration** work is required from the Department of Transportation or Department of Environmental Protection or when a public agency requires a **site alteration** on either privately or City-owned land, the public agency involved shall, prior to initiating or issuing a permit for such site work, notify the Department of Buildings.

The Department of Buildings and the public agency involved shall jointly determine that the proposed **site alteration** work is consistent with the provisions of Sections [107-31](#) (Topographic Regulations), [107-32](#) (Tree Regulations) and [107-25](#) (Special Regulations along Certain Streets and Railroads). In case of non-agreement, the provisions of Section [107-91](#) (Inter-agency Coordination) shall apply.

107-12 - Public Facilities

LAST AMENDED
9/11/1975

107-121 - Public schools

LAST AMENDED
2/2/2011

For any **development** containing **residential uses**, the Department of Buildings shall be in receipt of a certification from the Chairperson of the City Planning Commission which certifies that sufficient **school** capacity exists to accommodate the anticipated primary and intermediate public school children of the **development**. All applications for certification pursuant to this Section shall be referred by the Chairperson of the Commission to the Board of Education.

The Board of Education shall issue a report concerning the availability of **school** capacity within 60 days after receipt of the application. The Chairperson of the Commission shall respond within 90 days after receipt of an application. The report shall specify the following:

- (a) whether or not **school** space is available;
- (b) if **school** space is not available, the report shall include:
 - (1) the number of seats required;
 - (2) the grade organization;
 - (3) the location of the **school**;
 - (4) the size of **school** (sq. ft. per pupil); and
 - (5) the proposed financing mechanism.

For the purposes of this Section, sufficient ***school*** capacity shall be deemed to exist if:

- (1) such capacity is available in existing ***schools***; or
- (2) construction funds have been authorized in the Capital Budget to accommodate anticipated primary and intermediate public school children from the ***development*** upon its completion or within three years from the date of the Chairperson's certification; or
- (3) sufficient ***school*** space is to be provided by the applicant under a plan jointly approved by the Chairperson of the Commission and Board of Education.

After approval of the Chairperson of the Commission and Board of Education of the applicant's plan to provide the ***school building***, the certification may be granted either upon approval of a financial agreement by the Board of Estimate or such guarantee of construction with provision for future ***school*** occupancy as may be accepted by the Board of Education and the Chairperson of the Commission.

However, the Chairperson of the Commission may grant such certification if capacity is not currently available and the Board of Education after consulting with the Community School Board determines that the impact from the ***development*** will have a minimal effect on the concerned ***schools*** and includes such statement in their report.

A certification by the Chairperson of the Commission that sufficient capacity will be available in the public ***schools***, as set forth in the above circumstances, shall automatically lapse if substantial construction of the foundations of the ***development*** in accordance with approved plans has not been completed within one year from the date of such certification.

No certification concerning the availability of ***school*** capacity shall be required for any ***development*** within a predominantly built up area or within an area for which ***drainage schemes*** were approved prior to January 1, 1975. For the purposes of this Chapter, a "predominantly built up area" is a ***block*** having a maximum of four acres which is ***developed*** with ***buildings*** on ***zoning lots*** comprising 75 percent or more of the area of the ***block***. All such ***buildings*** shall have a certificate of occupancy or other evidence acceptable to the Commissioner of Buildings issued not less than three years prior to the date of application for a building permit.

107-20 - DISTRICT PLAN ELEMENTS

LAST AMENDED
8/18/1983

All land in the ***open space network*** as shown on the District Plan (Map 3 in Appendix A), except ***public parks***, is subject to the provisions of this Section.

107-21 - Modification of Designated Open Space

The City Planning Commission may adjust the boundaries of a **designated open space** on a **zoning lot** provided that such adjustment will not place the new boundary closer than 60 feet to a watercourse. As a condition for such adjustment in the boundaries, the Commission shall find that:

(a) such adjustment shall:

- (1) result in a substantial improvement in the quality and usefulness of the **designated open space**; and
- (2) permit **development** which better satisfies the purpose of this Chapter and include new features in the **designated open space** which will be at least equal in quality to those which are displaced from it; and
- (3) provide an equivalent area replacement for the area removed from the **designated open space**; or

(b) such adjustment shall:

- (1) be permitted to exclude:
 - (i) a **zoning lot** which is contiguous to exempted **zoning lots** along at least two **lot lines**; or
 - (ii) a **zoning lot** which would otherwise be contiguous to exempted **zoning lots** along at least two **lot lines** but for the separation by a **street**; or
 - (iii) **streets abutting** exempted **zoning lots**; and
- (2) not substantially alter the utility and quality of the **designated open space**; or

(c) such adjustment shall:

- (1) be in conjunction with a public improvement project approved by the City prior to September 11, 1975, for funding to exclude in whole or in part the bed of a mapped **street** and/or adjacent **zoning lots** or portions thereof; and
- (2) not substantially alter the utility and quality of the **open space network**; or

(d) such adjustment shall:

- (1) exclude, in whole or in part, private property contiguous with a **public park** which has been mapped since September 11, 1975; and
- (2) not preclude the continuity to the **designated open space** or the public pedestrian way or the **waterfront esplanade**; and

- (3) not substantially alter the utility and quality of the ***designated open space***.

107-22 - Designated Open Space

LAST AMENDED
9/11/1975

Any ***development*** or ***site alteration*** on a ***zoning lot*** which contains ***designated open space*** as shown on the District Plan (Map 3 in Appendix A), shall require certification by the City Planning Commission that:

- (a) such ***designated open space*** shall be preserved in its natural state by the owner of the ***zoning lot***; and
- (b) where required by the Commission, the applicant has complied with the provisions of Section [107-222](#) (Public pedestrian ways); and
- (c) where required by the Commission, as indicated on the District Plan, that the applicant has complied with Section [107-23](#) (Waterfront Esplanade).

Within any ***designated open space***, removal of trees, alteration of topography, ***development*** of active recreational facilities or utility easements may be undertaken only in accordance with the provisions of this Section and Section [107-30](#) (TOPOGRAPHIC AND TREE REGULATIONS).

Planting, landscaping or provision of footpaths or sitting areas are permitted in any part of ***designated open space***, provided that such improvements do not involve removal of trees or alteration of existing topography, and do not obstruct pedestrian movement within the public pedestrian ways.

107-221 - Active recreational facilities

LAST AMENDED
2/2/2011

Designated open space may be used for active recreational facilities provided that the City Planning Commission certifies that such ***uses*** are compatible with the purposes of the network ***open space*** and have minimal impact on tree removal, topographic alterations or drainage conditions.

Active recreational facilities may include swimming pools, tennis courts or facilities and equipment normally found in playgrounds, and shall comply with the ***use*** regulations of the underlying district.

In the development of active recreational facilities, no individual trees of six-inch caliper or more shall be removed except by special authorization of the Commission in accordance with the provisions of Sections [107-64](#) (Removal of Trees) or [107-65](#) (Modification of Existing Topography). Active recreational facilities shall not be allowed within 60 feet of any watercourse

in **designated open space** unless the Commission certifies that a location closer to such watercourse will not adversely affect the natural character of the watercourse or its drainage function. The Commission, where appropriate, shall be guided by the reports from other City agencies involved in land contour work, storm water drainage systems or similar operations.

If the City of New York acquires an easement for public access to any **designated open space** on which a **building** has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the **designated open space** for satisfying **lot area** requirements, **yard** requirements, **floor area** or **lot coverage** restrictions or **open space** requirements as provided in Section [107-224](#) (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a **non-compliance**.

107-222 - Public pedestrian ways

LAST AMENDED
2/2/2011

For any **site alteration** or **development** on a **zoning lot** which contains **designated open space**, the City Planning Commission shall certify whether or not the applicant shall be required to provide a public pedestrian way through a portion of the **designated open space**.

When a public pedestrian way is required, it shall be built and maintained by the owner of the **zoning lot** and shall be accessible to the public at all times. The public pedestrian way shall be improved at the time the **site alteration** or **development** takes place, except that for **site alterations** or **developments** on a tract of land less than 1.5 acres, the Commission may allow the applicant to delay the construction of the public pedestrian way if the applicant complies with Section [107-24](#) (Performance Bond).

The location and dimension of such pedestrian way shall be determined by the Commission. The owner of the **zoning lot** may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any **designated open space** on which a **building** has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the **designated open space** requirements as provided in Section [107-224](#) (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a **non-compliance**.

107-223 - Permitted obstruction in designated open space

LAST AMENDED
4/30/2012

The following shall not be considered as obstructions when located in **designated open space**:

- (a) Awnings and other sun control devices, pursuant to Section [23-44](#) (Permitted Obstructions);
- (b) Balconies, unenclosed, subject to the provisions of Section [23-13](#);
- (c) Eaves, gutters or downspouts projecting into such **designated open space** not more than 16 inches;
- (d) Fences or walls, conditioned upon certification by the City Planning Commission that:
 - (1) such fences or walls will not obstruct or preclude public access or circulation of pedestrians, cyclists or horseback riders through the public easement within **designated open space**; and
 - (2) the location, size, design and materials of such fences or walls are appropriate to the character of the **designated open space**;
- (e) Exterior wall thickness, pursuant to Section [23-44](#);
- (f) Solar energy systems on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the **building** wall (as viewed in elevation) from which it projects.

No **accessory** off-street parking facilities shall be permitted in **designated open space**. No **building or other structure** shall be erected in **designated open space** except as permitted by the provisions of Section [107-221](#) (Active recreational facilities). Any existing **building or other structure** located within the **designated open space** on September 11, 1975, and not complying with the provisions of this Section or the other Sections specified in the preceding paragraph, shall not be **enlarged** but may be continued as a **non-conforming use** or **non-complying building** subject to the applicable provisions of Article V (Non-conforming Uses and Non-complying Buildings) in accordance with the underlying district regulations.

107-224 - Qualification of designated open space as lot area for bulk computations

LAST AMENDED
2/2/2011

Designated open space on a **zoning lot** may count as **lot area** for the purposes of the applicable regulations on **yards, floor area ratio, open space ratio, open space, lot coverage, lot area** or density, provided that the area of the **designated open space** claimed as **lot area** does not exceed the area of the **zoning lot** located outside the designated space. For a **single-family residence**, any portion of a **zoning lot** occupied by **designated open space** shall count as **lot area** for the purposes of satisfying minimum density requirements only pursuant to this Section.

Where the area of the **designated open space** claimed as **lot area** exceeds the above permitted amount, the provisions of Section [107-72](#) (Qualification of Designated Open Space as

Lot Area) shall apply.

Any **designated open space**, or portion thereof, claimed as required **open space** or used to satisfy the **lot coverage** restrictions for a **development** containing **residences** shall be accessible to and usable by all residents of the **zoning lot**.

In the case of a **large-scale residential development**, any **designated open space**, or portion thereof, that qualifies as **lot area** may be used as common space.

107-225 - Special bulk regulations for developments containing designated open space

LAST AMENDED
2/2/2011

This section shall apply to any tract of land containing **designated open space** that is **developed** as a unit in single ownership and where the area of the **designated open space** claimed as **lot area** for zoning computation does not exceed the area of that portion of the tract of land not located within **designated open space**. Such a tract of land may contain a single **zoning lot** or two or more **zoning lots** which are contiguous or would be contiguous except for their separation by a **street**.

In all **Residence Districts**, except R1-1 Districts, for all permitted **residential uses** on such tract of land, the total **floor area** or **dwelling units** generated by that portion of the **designated open space** claimed as **lot area** by the applicable district regulations may be distributed without regard for **zoning lot lines**, for all **zoning lots** wholly within such tract of land. The total **open space** required or **lot coverage** permitted for such tract of land may be located anywhere within the tract of land without regard for **zoning lot lines**.

No transfer of **floor area** or **dwelling units** shall be permitted from a **zoning lot** not containing any **designated open space**.

The site plan and **bulk** distribution for the entire tract of land shall be recorded in the land records and indexed against all **zoning lots** in such tract of land.

Furthermore, the minimum **lot area** and **lot width** regulations, **yards** and spacing between **buildings** regulations shall not apply along portions of **streets** or **lot lines** wholly within such tract of land, provided that:

- (a) the maximum **lot coverage** on any **zoning lot** shall not exceed 50 percent of the **lot area**;

107-226 - Zoning lots entirely or substantially within designated open space

LAST AMENDED
2/2/2011

When a ***zoning lot*** owned separately or individually from all adjoining ***zoning lots*** prior to January 2, 1975, is located entirely or substantially within ***designated open space*** and no reasonable development is possible on the ***zoning lot***, the owner may request the City to provide, in exchange, a City-owned ***zoning lot***.

The ***zoning lots*** may be exchanged only after an appraisal made by a body consisting of the following:

- (a) one independent fee appraiser appointed by the City;
- (b) one independent fee appraiser appointed by the private property owner, which appraiser may be the same as in paragraph (a) of this Section; and
- (c) if needed to resolve a disagreement between the two appraisers appointed in paragraphs (a) and (b), one independent fee appraiser chosen by mutual agreement between the two individually appointed appraisers.

Such requests for exchange shall be filed by the owner of the ***zoning lot*** with the City Planning Commission.

If such exchange of ***zoning lots*** is not feasible under this Section or Section 384-7.0 of the New York City Administrative Code, the City may either acquire such ***zoning lot*** or permit development to proceed thereon with the minimal modification of the ***designated open space*** necessary to permit ***development*** containing ***residences***.

107-23 - Waterfront Esplanade

LAST AMENDED
2/2/2011

When a ***zoning lot*** containing a portion of the ***waterfront esplanade***, as shown on the District Plan (Map 3 in Appendix A) is ***developed***, the location and design of the ***waterfront esplanade*** shall be certified by the City Planning Commission and such ***waterfront esplanade*** shall conform to the guidelines and standards established by the Department of City Planning in consultation with the Department of Transportation and the Department of Parks and Recreation.

The ***waterfront esplanade*** shall be built and maintained by the owner of a ***zoning lot*** on which the esplanade is shown on the District Plan, except where such ***zoning lot*** has been ***developed*** prior to September 11, 1975. Where such ***waterfront esplanade*** is not accessible to the public, the Commission may require the owner of the ***zoning lot*** to provide public access to

such a **waterfront esplanade** from a public right-of-way through the **zoning lot**.

The **waterfront esplanade** shall be either built at the same time that the **zoning lot** is **developed** or the Commission may allow the owner to comply with Section [107-24](#) (Performance Bond).

The owner of a **zoning lot** may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any **designated open space** on which a **building** has been, is being or could be in the future constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the **designated open space** for satisfying **lot area** requirements, **yard** requirements, **floor area** or **lot coverage** restrictions or **open space** requirements as provided in Section [107-224](#) (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a **non-compliance**.

107-24 - Performance Bond

LAST AMENDED
2/2/2011

When the provision of the required improvement is to be delayed for a period not to exceed five years from the date of the City Planning Commission certification, the owner of the **zoning lot** shall, prior to obtaining any certificate of occupancy, provide to the Comptroller of the City of New York a performance bond or City securities to ensure the future provision of either the **waterfront esplanade** or the public pedestrian way.

When the required improvement has been constructed, the Comptroller of the City of New York may release the bond or City securities posted to ensure such construction, provided an amount of the bond or City securities to ensure maintenance of the improvement, as set forth in the paragraph above, remains with the Comptroller.

The value of the bond or City securities tendered to ensure the future provision of the improvement shall be at the rate of \$400 per 100 square feet of **waterfront esplanade** and at \$200 per 100 square feet of public pedestrian way, if such bond or securities are tendered prior to January 1, 1980.

At five year intervals after January 1, 1980, the Commission, with the approval of the Board of Estimate, shall establish the new rates for the future provision (and maintenance) of the improvement.

LAST AMENDED
2/2/2011

Along those **streets** designated as **arterials**, the following regulations shall apply:

- (a) Access restrictions

Curb cuts are not permitted along an **arterial street** on **zoning lots** with access to a non-**arterial street**. For **zoning lots** with access only to an **arterial street**, one curb cut is permitted along such **arterial street**. For purposes of this Section, adjoining **zoning lots** in the same ownership shall be treated as one **zoning lot**. Such access restrictions with regard to curb cuts shall not apply to **schools**, hospitals and related facilities, police stations or fire stations.

For **zoning lots** with access only to a **arterial street**, the City Planning Commission may, by certification, approve additional curb cuts for access to such **arterial street** when necessary to avoid adverse effects on the traffic flow of the **arterial**.

For **zoning lots** with access to both **arterial** and non-**arterial streets**, the Commission may authorize one or more curb cuts on the **arterial street**, pursuant to the provisions of Section [107-68](#) (Modification of Group Parking Facility and Access Regulations).

(b) **Building** setback

Along portions of the **arterials**, as indicated on the District Plan, a 20 foot **building** setback shall be provided for the full length of the **front lot line abutting** such **arterial**. The front **building** setback area shall be unobstructed from its lowest level to the sky except as permitted by this Section. Where a front **building** setback area at least 35 feet in depth is provided, such setback area may be used for required **accessory** off-street parking or loading facilities. No portion of such required setback area may be used for open storage.

In the case of the service roads of the West Shore Expressway, a 30 foot **building** setback shall be provided and required off-street parking and loading facilities are permitted within such setback. Within the required front **building** setback, there shall be provided one tree of three-inch caliper or more, pre-existing or newly planted, for each 400 square feet of such front open area. The trees shall be selected in accordance with the table set forth in Appendix B.

107-252 - Special provisions for park streets

LAST AMENDED
2/2/2011

For those **streets** designated as **park streets**, the following regulations shall apply:

(a) Access restrictions

No curb cuts are permitted on such **streets** except that one curb cut is permitted for any **residential, community facility** or **commercial use** whose **zoning lot** has frontage only on a **park street**. For purposes of this Section, adjoining **zoning lots** in the same ownership shall be treated as one **zoning lot**.

For **zoning lots** with access to both **park streets** and non-**park streets**, the City Planning Commission may authorize one or more curb cuts on the **park street**, pursuant to the provisions of Section [107-68](#) (Modification of Group Parking Facility and Access Regulations).

(b) Landscaping

One tree of at least three inch caliper, pre-existing or newly planted, shall be provided for each 400 square feet of area of the **street** sidewalk area. Trees shall be selected in accordance with the table set forth in Appendix B and shall be planted in the **street** sidewalk area.

(c) Development and maintenance responsibility

The owner of each **development** abutting a **park street** shall have responsibility for landscaping and maintenance of that portion of the **park street** located between the **front lot line** and the curb.

Alternatively, maintenance responsibility may be vested in a properly constituted Home Association or other organization established for this purpose. Those segments of a **park street** which are abutted by land **developed** prior to the effective date of the Special District designation shall be **developed**, landscaped and maintained by the City of New York.

For all **developments** on **zoning lots** immediately adjacent or directly opposite to the Staten Island Rapid Transit right-of-way, a **building** setback of at least 20 feet in depth, unobstructed from its lowest level to the sky, except as permitted herein, shall be provided along the **lot line** adjacent to or directly opposite the right-of-way of such railroad. Such **building** setback shall be measured perpendicular to such **lot line**, as indicated on the District Map. Within such **building** setback area, there shall be provided one tree of three-inch caliper or more, pre-existing or newly planted, for each 400 square feet of such open area. The trees shall be selected in accordance with the table set forth in Appendix B.

107-31 - Topographic Regulations

LAST AMENDED
9/11/1975

107-311 - Areas within designated open space

LAST AMENDED
9/11/1975

Within **designated open space** on a **zoning lot**, any **site alteration** shall be permitted only by authorization of the City Planning Commission pursuant to Section [107-65](#) (Modifications of Existing Topography).

107-312 - Areas not within designated open space

LAST AMENDED
2/2/2011

On any portion of a **zoning lot** not within **designated open space**, alteration of topography shall be permitted only in accordance with the provisions of this Section.

The ground elevation of land existing on September 11, 1975, may be modified by up to two feet of cut or fill, provided that such modification shall not result in the destruction of trees of six-inch caliper or more, unless authorized pursuant to other provisions of this Chapter. Modification of topography to a greater extent is permitted:

- (a) in an area designated for **building** foundations, driveways or utilities for a proposed **building or other structure** whose location is approved by the Department of Buildings in accordance with the provisions of this Chapter; and
- (b) in order to meet the legal mapped grades of a **street**, the existing topography of that portion of the **zoning lot** abutting such **street** may be modified to create a slope on the **zoning lot** of not less than one foot vertical to each two feet horizontal provided the slope is landscaped to prevent erosion.

Topographic modifications not permitted by the provisions of this Section may be permitted only by authorization of the City Planning Commission, pursuant to the provisions of Section [107-65](#).

107-32 - Tree Regulations

LAST AMENDED
4/5/1979

The following regulations in Sections [107-321](#) through [107-323](#), inclusive, shall not apply to

existing trees which are unsafe and the removal of which is required by the Department of Buildings.

107-321 - Tree preservation

LAST AMENDED
2/2/2011

No trees of six-inch caliper or more shall be removed, or land operations affecting their survival undertaken, in connection with any **site alteration** or **development**, except in compliance with the provisions of this Section.

Prior to any such removal or land operations, plans shall be filed with the Department of Buildings showing the locations of all trees of six-inch caliper or more on the **zoning lot** and in the public sidewalk area of the **street** or **streets** adjacent thereto, and identifying those which are proposed to be removed. Removal of live trees of six-inch caliper or more will be permitted only under the following circumstances:

- (a) where such trees are located in areas to be occupied by **buildings**, driveways, areas for required **accessory** parking, or within a distance of eight feet of the exterior walls of such **building**, provided that it is not possible to avoid such removal by adjustments in the arrangement of such **buildings**, driveways or required parking areas;
- (b) where the continued presence of such trees would create special hazards or dangers to persons or property, which it would not be possible or practical to eliminate by pruning;
- (c) where continued presence of the trees would interfere with another tree of six-inch caliper or more designated for preservation and belonging to a species listed in Appendix B (Tree Selection Tables); or
- (d) where authorizations granted by the City Planning Commission under the provisions of this Chapter require or clearly contemplate the removal of such trees.

If an existing tree of six-inch caliper or more identified for preservation is removed without prior approval by the Department of Buildings or the City Planning Commission, any permit issued by the Department of Buildings for a **site alteration**, **development** or any **use** on the **zoning lot** shall be revoked.

In order to remove such violations, the owner of the **zoning lot** shall request the Commission to specify the tree restoration requirements and to certify such requirements to the Department of Buildings.

No building permit, reinstatement of such permit or issuance of a certificate of occupancy shall occur until the owner of the **zoning lot** either posts with the Comptroller of the City of New York a landscaping performance bond in an amount determined by the Commission or completes the replanting in accordance with the requirements set forth by the Commission in order to correct the planting violations.

Replacement trees to be planted shall be of a caliper no less than three inches and be of a species listed in Appendix B and the sum of whose calipers shall be at least equivalent to that of the trees removed.

In addition, the Commission may require a restrictive declaration specifying the terms of implementing the restoration plan.

Where on-site planting of such replacement trees would result in over crowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more replacement trees on adjoining public sidewalks or in a nearby public area or substituting other planting material pursuant to Section 107-323.

107-322 - Tree requirements

LAST AMENDED
2/2/2011

New trees shall be provided in accordance with the table set forth in Appendix B. For any existing tree of at least six-inch caliper which is preserved, credit for one tree shall be given for the first six inches of caliper and, for each additional four inches of caliper, credit for an additional tree shall be given.

(a) On site

In connection with any **development**, **site alteration** or **enlargement** involving the addition of at least 1,000 square feet of **floor area**, trees of at least three-inch caliper, pre-existing or newly planted, shall be provided on the **zoning lot** at the rate of one tree for each 1,000 square feet of **lot area** or portion thereof.

(b) Planting for open parking areas

Any **development** with open off-street parking areas with 10 spaces or more shall be subject to the tree planting and screening requirements of Section 107-483.

107-323 - Substitution of other plant materials

LAST AMENDED
9/9/1999

For any **development**, **site alteration** or **enlargement** which is required to provide trees in accordance with the provisions of paragraph (a) of Section [107-322](#), the City Planning Commission may allow the substitution of other plant material for such required trees, provided a detailed landscaping plan is filed with the Commission for approval and certification. A copy of such approved landscaping plan shall be filed with the Department of Buildings by the Commission.

107-33 - Preservation of Natural Features

LAST AMENDED
8/12/2004

For any **development** or **enlargement**, the Chairperson of the City Planning Commission may modify the applicable regulations governing the location of required parking spaces, driveways and curb cuts where the Chairperson certifies to the Commissioner of Buildings that such modifications are necessary so as to avoid the destruction of existing topography and trees of six-inch caliper or more.

- (b) was owned separately and individually from all other adjoining tracts of land, both on December 8, 2005, and on the date of application for a building permit.

In all cases, the density regulations of the applicable district shall remain in effect, except that the factor for determining the maximum number of **dwelling units** shall be 1,000 in R3A and R4A Districts, 1,140 in R3X Districts, and 685 for **semi-detached residences** in R3-1 and R3-2 Districts.

* In Area LL, as shown on the District Plan (Map 4 in Appendix A) of this Chapter, two ***side yards*** with a total width of at least 16 feet shall be required for all ***residences***, and each ***side yard*** shall have a minimum width of eight feet. However, the minimum ***side yard*** widths set forth in this table shall apply to any ***development*** on a ***zoning lot*** having an area of at least 1.5 acres for which applications for certifications pursuant to Sections [107-08](#) (Future Subdivision) and [107-121](#) (Public schools) have been filed prior to March 1, 2003

In R1 Districts, the ***side yard*** regulations of Section [23-46](#) shall apply.

107-463 - Side yard regulations for other residential buildings

2/2/2011

For all ***residential buildings*** other than ***single-*** or ***two-family detached*** or ***semi-detached residences***, the provisions of Section [23-462](#) (Side yards for all other residential buildings) shall apply, except that no ***side yard*** shall have a width less than 10 feet.

Furthermore, for ***attached residences*** that ***abut*** an ***attached building*** on a separate ***zoning lot*** on one side and are bounded by open area on the other side, one ***side yard*** with a minimum width of nine feet shall be required for such one or two ***story residences***, and one ***side yard*** with a minimum width of 15 feet shall be required for such three or four ***story residences***.

For ***community facility buildings*** or other ***buildings*** used for permitted non-***residential uses*** in ***Residence Districts***, the provisions of Section [24-35](#) (Minimum Required Side Yards) shall apply to such ***community facility buildings*** or the provisions of Section [23-464](#) (Side yards for buildings used for permitted non-residential uses) shall apply to such other ***non-residential buildings***, except that no ***side yard*** shall have a width less than 10 feet and, in the case of ***buildings*** more than three ***stories*** in height, the required total width of both ***side yards*** shall not

be less than 25 feet.

Where greater widths of **side yards** are required by the provisions of Sections [23-464](#) or [24-35](#) than by the provisions of this Section, such requirement of greater width shall apply.

107-465 - Modifications of special yard regulations for certain zoning lots

LAST AMENDED
8/12/2004

On application, the City Planning Commission may, by certification, modify the underlying **rear yard** regulations and thereby allow **single-** or **two-family residences** to be built on the **side** or **rear lot line**, provided the following conditions are satisfied:

- (a) When a **building** is located on the **side lot line**, the entire required **side yard** equivalent shall be provided along the other **side lot line** of the same **zoning lot**. On the adjacent **zoning lot** there shall be a **side yard** of at least 10 feet, **abutting** the **building** wall which is located on the **side lot line**.
- (b) When a **single-** or **two-family residence** is located on the **rear lot line**, the **zoning lots abutting** the entire **rear lot line** shall provide a **rear yard** of at least 40 feet. If the **building** on either **zoning lot** has a height greater than two **stories**, then such **building** shall have a 10-foot rear setback above the height of the second **story**.
- (c) When **single-** or **two-family residences** share a party wall along the **rear lot line**, if at any level either **building** is set back from the **rear lot line**, each **building** shall have a setback at the same height and such rear setback shall be at least 20 feet in depth.

The Commission shall also find that:

- (1) such modifications of **side** or **rear yards** or equivalents blend harmoniously with the entire development;
- (2) there is no adverse effect with regard to adequate light and air to the **residences**;
- (3) such modification results in the maximum preservation of trees;
- (4) there is an agreement which provides access for maintenance of the **building** wall located on the **lot line**; and
- (5) a condition to the grant of any certification shall be that the requirements of Section [107-92](#) (Recordation) have been satisfied.

107-466 - Court regulations

LAST AMENDED
2/2/2011

For any **building** containing **residences** not more than one **story** in height, the area of an **inner court** shall not be less than 225 square feet and the minimum dimension of such **inner court** shall not be less than 15 feet.

For any **building** containing **residences** more than one **story** in height, the area of an **inner court** shall not be less than 400 square feet and the minimum dimension of such **inner court** shall not be less than 20 feet.

107-481 - Planting provisions along Residence District boundaries

LAST AMENDED
2/2/2011

For any **commercial** or **manufacturing development** on a **zoning lot** adjoining a **Residence District** boundary, there shall be in the open area required by the provisions of Sections [33-29](#) and [43-30](#) (SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES) along the **lot line** adjoining the **Residence District**, a strip at least four feet wide, densely planted with evergreen shrubs at least four feet high at the time of planting and complying with the provisions applicable to screening for parking areas as set forth in Section [107-483](#) (Planting and screening for open parking areas).

107-482 - Landscaped buffer for manufacturing development adjacent to residences

Where an existing **residential use** is located adjacent to a proposed **manufacturing** or **commercial development**, the developer shall plant along that part of the **side** or **rear lot line** adjacent to a **residential use**, a row of evergreen shrubs at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years, or trees selected from Appendix B and spaced at 10 feet on center. Such screening shall be maintained in good condition at all times.

107-483 - Planting and screening for open parking areas

LAST AMENDED
6/10/2009

(a) Tree planting requirements

One tree, of three inch caliper or more, pre-existing or newly planted, shall be provided for each four parking spaces. Such trees may be located in the perimeter landscaped area of the parking area or in planting islands within the parking area.

However, where 30 or more parking spaces are provided, at least 50 percent of the required trees shall be located within planting islands within the parking area. Such planting islands shall have a minimum area of 150 square feet of pervious surface and comply with the requirements of paragraphs (a), (b) and (c) of Section [37-922](#) (Interior landscaping).

For open parking areas with at least 36 parking spaces, the total number of trees required pursuant to Section [37-922](#) (Interior landscaping) shall be superseded by the

number of trees required pursuant to this Section.

(b) Screening requirements

The parking area shall be screened from all adjoining **zoning lots** by a landscaped area at least four feet in width, densely planted with shrubs maintained at a maximum height of three feet. Such parking area shall also be screened from all adjoining **streets** by a perimeter landscaped area at least seven feet in width. Such perimeter landscaped area may be interrupted only by vehicular entrances and exits. Sidewalks that provide a direct connection between the public sidewalk and a pedestrian circulation route within the parking area may also interrupt a perimeter landscaped area.

In addition, such screening shall be maintained in good condition at all times and may be interrupted by normal entrances and exits.

(c) Planting Waiver

Tree planting and screening requirements may be waived if the Commissioner of Buildings certifies that planting is unfeasible due to:

- (1) unique geological conditions, such as excessive subsurface rock conditions or high water table;
- (2) underground municipal infrastructure; or
- (3) a City, State or Federal mandated brownfield remediation that requires the site to be capped.

Such waiver shall be based on a report prepared by a licensed engineer that such conditions exist.

For **developments** in **Residential Districts**, trees provided in accordance with the provisions of this Section may be counted for the purposes of meeting the requirements of Section [107-322](#), paragraph (a). Furthermore, for **developments** in **Commercial** or **Manufacturing Districts** which provide trees in accordance with the provisions of this Section, the requirements of Section [107-322](#), paragraph (a), shall not apply.

- (b) **Residential extensions** shall be subject to all of the R3X District regulations and the applicable Special District regulations except that an existing **detached building** may contain non-**residential uses** in addition to not more than two **dwelling units**.
- (c) Non-**residential uses** shall be located below the lowest **story** occupied in whole or in part by **residential uses**.
- (d) **Floor area** in a **building** originally designed as one or more **dwelling units** that has been continuously vacant for two or more years prior to the date of filing an alteration application, may be re-occupied for **residential use**.

- (f) **Residential developments**, and **residential enlargements** where there is a disturbance of the soil, shall be subject to the provisions of Section [107-69](#) (Residential Uses in Area M).

107-492 - Special bulk regulations

LAST AMENDED
8/17/1995

The maximum **floor area ratio** for two or more **uses** on a **zoning lot** shall be determined by the **use** that is permitted the greatest **floor area ratio** in Area M (Map 4 in Appendix A), provided that the **floor area** occupied by each **use** does not exceed the amount permitted by the **floor area ratio** for that **use** in Area M.

107-50 - CERTIFICATIONS

LAST AMENDED
9/11/1975

Administrative certifications from the City Planning Commission are required, as set forth in

various sections of this Chapter, in any one of the following circumstances:

- (a) when a tract of land is subdivided, as set forth in Section [107-08](#) (Future Subdivision);
- (b) when a **development** contains **residential uses**, as set forth in Section [107-121](#) (Public schools);
- (c) when a **zoning lot** contains **designated open space**, as set forth in Section [107-22](#) (Designated Open Space);
- (d) where required **yards** or equivalents are to be modified as set forth in Section [107-465](#) (Modifications of special yard regulations for certain zoning lots);
- (e) where a **zoning lot** along an **arterial** requests more than one curb cut, as set forth in Section [107-251](#) (Special provisions for arterials);
- (f) where plant material is substituted for required trees as set forth in Section [107-323](#) (Substitution of other plant materials);

- (h) when a **zoning lot** contains a portion of the proposed **waterfront esplanade**, as set forth in Section [107-23](#) (Waterfront Esplanade).

107-60 - AUTHORIZATIONS

LAST AMENDED
9/11/1975

107-61 - General Provisions

LAST AMENDED
11/15/2006

On application, the City Planning Commission may grant authorizations for modifications of specified regulations of this Chapter or of the underlying districts in accordance with the provisions of Sections [107-62](#) to [107-69](#), inclusive, relating to authorizations.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorizations.

107-62 - Yard, Court and Parking Regulations

LAST AMENDED
2/2/2011

For any **zoning lots**, the City Planning Commission may authorize variations in the **yard** or **court** regulations as set forth in Section [107-46](#) or in the location of parking, driveway or curb cut regulations as set forth in Sections [23-44](#) (Permitted Obstructions in Required Yards or Rear Yard Equivalents), [25-621](#) (Location of parking spaces in certain districts), [25-622](#) (Location of parking spaces in lower density growth management areas) and [25-631](#) (Location and width of curb cuts in certain districts) for the purpose of allowing proper arrangements of **buildings**, driveways or required parking areas so as to avoid the destruction of existing topography and individual trees of six-inch caliper or more. **Rear yard**, **side yard** or **side yard** equivalent variations shall not be authorized on the periphery of a **development** unless acceptable agreements are jointly submitted for **development** of two or more adjacent **zoning lots** by the owners thereof, incorporating the proposed **yard** or **side yard** equivalent variations along their common **lot lines**.

As a condition for granting such authorizations, the Commission shall find that the proposed placement of **buildings** and arrangement of **open spaces** will not have adverse effects upon light, air and privacy on adjacent **zoning lots**.

107-63 - Minimum Distance Between Buildings

LAST AMENDED
2/2/2011

For any **development** containing **residences**, the City Planning Commission may authorize the location of **buildings**, on a single **zoning lot** without regard for spacing between **buildings** regulations, provided that the resultant spacing will not be reduced beyond an amount considered appropriate by the Commission and in no case by more than 15 percent of that required by Section [23-71](#) (Minimum Distance Between Buildings on a Single Zoning Lot).

107-64 - Removal of Trees

LAST AMENDED
9/11/1975

For any **development**, the City Planning Commission may authorize the removal of trees of six-inch caliper or more whose removal would otherwise be prohibited under the provisions of Section [107-32](#) (Tree Regulations), provided that the Commission makes one or more of the following findings:

- (a) that the tree's retention would cause serious disadvantage in the arrangement of open areas on the lot, impairing the usefulness of such areas;
- (b) that such tree is located in an area where more than two feet of cut or fill is required and measures for saving the tree would be extremely difficult and impractical; or
- (c) that provision of a segment of the **waterfront esplanade** is not feasible without such tree's removal.

107-65 - Modifications of Existing Topography

LAST AMENDED
2/2/2011

For any **development** or **site alteration**, the City Planning Commission may authorize modifications of the natural topography existing on September 11, 1975, beyond the amount specified in Section [107-31](#) (Topographic Regulations), provided that the Commission finds that:

- (a) **development** on the **zoning lot** is not feasible without such modifications;
- (b) such modification of topography is necessary to accommodate public amenities, such as public pedestrian ways, the **waterfront esplanade** or active recreational facilities within a **designated open space** as required under the provisions of this Chapter;
- (c) such modification will not cause unnecessary disturbance of the drainage pattern in the area; and
- (d) such modified topography will have minimal impact on the existing natural topography of the surrounding area and will blend harmoniously with it.

Where a permit for land contour work or topographic modification is required from the Department of Transportation or the Department of Buildings, the City Planning Commission and other such agencies shall jointly determine the conditions under which such topographic modification may be permitted so as best to serve the purposes of the Special District, in accordance with the provisions of Section [107-91](#) (Inter-agency Coordination).

107-66 - Developments Partly Within Designated Open Space

LAST AMENDED
9/11/1975

107-661 - Modification of permitted obstructions

LAST AMENDED
2/2/2011

For **developments** containing **residences** on **zoning lots** partly within **designated open space**, the City Planning Commission, on application, may modify the requirements of Section [107-45](#) (Required Open Space for Residences) to permit more than 50 percent of the required **open space**, not within the **designated open space**, to be occupied by driveways, private streets, open **accessory** off-street parking spaces or open **accessory** off-street loading berths, if the Commission finds that such facilities are so arranged and landscaped as to afford an acceptable standard of amenity for the **development** and its surroundings.

107-662 - Modification of required yards of building setbacks

LAST AMENDED
2/2/2011

On application, the City Planning Commission may grant an authorization modifying the **building** setback requirements of Section [107-251](#) (Special provisions for arterials), provided that the Commission finds that:

- (a) the area of that portion of the **zoning lot** which is designated as **designated open space** on the District Plan in Appendix A of this Chapter, is at least equal to the area of the required **building** setback **front yard** or **yards**, or portion thereof, which is waived;
- (b) along any **front lot line** abutting an **arterial**, a front setback shall be provided having a depth to be determined by the Commission and which shall be improved in accordance with a landscape plan approved by the Commission; and
- (c) **building** placement leaves adequate spaces for the provision of **street** trees.

107-67 - Uses and Bulk Permitted in Certain Areas

LAST AMENDED
11/15/2006

107-671 - In Areas F and K

LAST AMENDED
2/2/2011

In Areas F and K, as shown in the District Plan (Map 4 in Appendix A), the City Planning Commission may authorize one or more **uses** in the Use Groups specified in this Section not permitted by the underlying district regulations.

As a condition for such authorization, the Commission shall find that:

- (a) such **uses** are so located as not to impair the essential character of the surrounding area for its future development;
- (b) the minimum **lot area** of a **zoning lot** on which such **uses** are located is at least 20 acres;
- (c) vehicular access and egress for such proposed **uses** are located and arranged so as to draw a minimum of vehicular traffic to and through local **streets** in nearby residential areas; and
- (d) where vehicular access and egress are located on an **arterial**, such location affords the best means for controlling the flow of traffic generated by such proposed **uses** to and

from such **arterial**.

In each case the Commission may prescribe additional conditions and safeguards, including requirements for adequate screening, planting or landscaping.

107-672 - In Area SH

LAST AMENDED
2/2/2011

The City Planning Commission may authorize **developments** that will result in more than 250 **dwelling units** of **affordable independent residences for seniors** in Area SH, as shown on the District Plan (Map 4 in Appendix A), provided such **developments** comply with the **use** and **bulk** regulations of R3-2 Districts, except that the maximum **floor area ratio**, maximum **lot coverage** and minimum required **open space** shall be as set forth for R3-2 Districts in Section [23-142](#) (Open space and floor area regulations in R1 and R2 Districts with a letter suffix and R3 through R5 Districts), as modified by this Chapter. The provisions of Section [23-144](#) (Affordable independent residences for seniors) shall not apply.

In order to grant such authorization, the Commission shall find that:

- (a) such **developments** are part of a superior site plan;
- (b) such **residences** are compatible with the character of the surrounding area; and
- (c) the **streets** providing access to such **residences** are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

107-68 - Modification of Group Parking Facility and Access Regulations

LAST AMENDED
2/2/2011

For a permitted **commercial**, **community facility** or **manufacturing use**, the City Planning Commission may authorize more than 30 **accessory** off-street parking spaces, and for any **use**, may modify access restrictions with regard to curb cuts as set forth in paragraph (a) of Section

[107-251](#) (Special provisions for arterials) or paragraph (a) of Section [107-252](#) (Special provisions for park streets). In order to grant such authorization, the Commission, upon a review of the site plan, shall find that:

- (a) vehicular access and egress are located and arranged so as to draw a minimum of vehicular traffic to and through local **streets** in nearby residential areas;
- (b) where vehicular access and egress are located on an **arterial** or **park street**, such location affords the best means for controlling the flow of traffic generated by such **use** to and from such **arterial** or **park street**, and does not unduly interfere with pedestrian traffic; and
- (c) the location of such vehicular access and egress permits better site planning.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and may, in appropriate cases, condition its authorization upon compliance with an approved site and landscaping plan. The Commission may also permit modifications to parking lot landscaping and maneuverability requirements only if such modifications preserve vegetation and natural topography.

107-69 - Residential Uses in Area M

LAST AMENDED
8/17/1995

- (a) The City Planning Commission may authorize **developments**, or **enlargements** of **residential uses** in excess of 500 square feet, or in any case where there would be a disturbance of the soil, for the following:
 - (1) **zoning lots** with **residential** or **community facility uses** existing on August 17, 1995; or
 - (2) **zoning lots** that have been vacant or **land with minor improvements** for at least two years immediately prior to the date of application for the authorization.
- (b) No **building** shall be constructed for occupancy by both **residential** and **manufacturing uses**. All **residential uses** shall comply with the R3X District regulations and all **commercial uses** shall comply with the M1-1 District regulations. All **developments** or **enlargements** shall comply with the applicable Special District regulations:
- (c) In authorizing new **residential uses** and **residential enlargements**, the Commission shall find that:
 - (1) the **residential use** will not be exposed to excessive noise, smoke, dust, noxious odor, toxic metals, safety hazards, or other adverse impacts from **commercial** or **manufacturing uses**;
 - (2) there are no open **uses** listed in Use Group 18 within 400 feet of the **zoning lot**;

- (3) the ***residential use*** shall not adversely affect ***commercial*** or ***manufacturing uses*** in the Special District; and
- (4) the authorization shall not alter the essential character of the neighborhood or district in which the ***use*** is located, nor impair the future ***use*** or ***development*** of ***commercial*** and ***manufacturing uses*** on nearby ***zoning lots***.

In granting such authorization, the Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

107-70 - SPECIAL PERMITS

LAST AMENDED
9/11/1975

107-71 - General Provisions

LAST AMENDED
9/11/1975

On application, the City Planning Commission, may grant special permits for modifications of specified regulations of this Chapter or of the underlying districts in accordance with the provisions of Sections [107-72](#) to [107-78](#), inclusive, relating to Special Permits.

107-72 - Qualification of Designated Open Space as Lot Area

LAST AMENDED
2/2/2011

For any ***development*** containing ***designated open space***, the City Planning Commission may allow the amount of ***designated open space*** to be counted as ***lot area*** for ***bulk*** computations to exceed the amount permitted under Section 107-224.

As a condition for granting a permit for such modifications, the Commission shall find that:

- (a) that for the occupants of the site itself, the ill effects of concentration of ***buildings*** or ***accessory*** off-street parking are avoided or overcome by the manner in which the ***buildings*** are sited and ***yards*** and other open areas arranged; and
- (b) that the concentration of ***buildings*** or activities will not adversely affect any other ***zoning lot*** outside the development by restricting access of light and air, impairing privacy or creating traffic congestion.

107-73 - Exceptions to Height Regulations

LAST AMENDED

6/29/1989

For any **development**, the City Planning Commission may grant a special permit to modify the height regulations as set forth in Section [23-631](#), paragraphs (b), (c) and (d) and Section [107-43](#), provided that the Commission finds that:

- (a) such **development** is so located as not to impair the essential character of the surrounding area;
- (b) by concentrating permitted **floor area** in a **building** or **buildings** of greater height covering less land, the preservation of existing topography, **designated open space** or the protection of an outstanding view from a public space, will be assured, and that such preservation would not be possible by careful siting of lower **buildings** containing the same permitted **floor area** and covering more land; and
- (c) that the **development's** design proposals take full advantage of all special characteristics of the site.

107-74 - Modification of Permitted Use Regulations

LAST AMENDED
2/2/2011

For any **development**, the City Planning Commission may grant special permits to allow **semi-detached** or **attached single-family residences** in R2 Districts and **attached single-** or **two-family residences** in R3-1 Districts. As a condition for granting such special permits, the Commission shall find that:

- (a) only by modifying the **residential building** type, the preservation of trees over six-inch caliper and of existing topography can be assured;
- (b) by inclusion of the proposed **residential building** types, better standards of privacy and usable **open space** can be achieved; and
- (c) if the **zoning lot** is located in the **designated open space**, the prohibition of **development** on the **designated open space** requires the permitted **development** to be concentrated in the remaining portion of the tract.

107-75 - Modification of Underlying R1-1 District Regulations

LAST AMENDED
2/2/2011

For any **development**, the City Planning Commission may grant special permits for the modifications of underlying R1-1 District regulations on **yards** or **courts** where such modifications are appropriate in order to:

- (a) permit siting of a **building** or driveway so as to avoid destruction of a valuable tree of six-

inch caliper or more; or

- (b) allow a **building** to be arranged on a **zoning lot** that includes **designated open space** without encroaching on such **designated open space**.

As a condition for granting such modifications, the Commission shall find that:

- (1) the siting of the **building** will not adversely affect adjacent properties by impairing privacy or access of light and air;
- (2) the benefits to the surrounding area from the proposed arrangement of **buildings** and **open spaces** outweigh any disadvantages which may be incurred thereby in the area; and
- (3) such modification is the least modification required to achieve the purpose for which it is granted.

The Commission may impose appropriate conditions or safeguards, such as special landscaping requirements, to minimize any adverse effects on the character of the surrounding area.

107-76 - Boundary Adjustments in Designated Open Space

LAST AMENDED
9/11/1975

The City Planning Commission may grant special permits to allow adjustments in the boundaries of the **designated open space** on a **zoning lot** provided that such adjustment will not place the new boundary closer than 60 feet to a watercourse. As a condition for such adjustment in the boundaries, the Commission shall find that such adjustment will:

- (a) result in a substantial improvement in the quality and usefulness of the **designated open space**; or
- (b) permit **development** which better satisfies the purposes of this Chapter and that the new features which will be added to the **designated open space** will be at least equal in quality to those which are displaced from it; and
- (c) provide an equivalent area replacement for the area removed from the **designated open space**.

107-77 - Community Facility Buildings or Treatment Plants Permitted in Designated Open Space

LAST AMENDED
2/2/2011

The City Planning Commission may grant special permits for the construction of sewage

disposal plants or pumping stations or **community facility uses** listed in Section [78-352](#) (Bonus for community facility space) in **designated open space** where such **uses** are permitted by the underlying district regulations provided the Commission finds that:

- (a) an amount of open area outside the boundary of the **designated open space**, at least equal to the coverage of any **building or other structure** permitted under this Section, shall be added to the **designated open space**, and action shall be taken to change the boundary of the **designated open space** pursuant to Section [107-76](#) (Boundary Adjustments in Designated Open Space);
- (b) such added open area forms a continuous part of the **open space network**, and does not interrupt or foreclose the continuity of a public pedestrian way;
- (c) such added open area shall contain natural (aquatic, botanic, geologic or topographic) features that are equal or better in quality to those displaced by the **development**; and
- (d) such sewage disposal plants and sewage pumping stations meet the requirements of Section [74-73](#), inclusive.

The City Planning Commission may prescribe appropriate conditions and safeguards to enhance the character of the **designated open space**.

107-78 - Other Buildings Permitted in Designated Open Space

Chapter 9 - Special Hillside Preservation District (HS)

119-00 - GENERAL PURPOSES

LAST AMENDED
6/30/1987

The "Special Hillside Preservation District" (hereinafter also referred to as the "Special District") established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following special purposes:

- (a) to reduce hillside erosion, landslides and excessive storm water runoff associated with development by conserving vegetation and protecting natural terrain;
- (b) to preserve hillsides having unique aesthetic value to the public;
- (c) to guide development in areas of outstanding natural beauty in order to protect, maintain and enhance the natural features of such areas; and
- (d) to promote the most desirable use of land and to guide future development in accordance with a comprehensive development plan, and to protect the neighborhood character of the district.

119-01 - Definitions

LAST AMENDED
2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section [12-10](#) (DEFINITIONS).

Area of no disturbance

An "area of no disturbance" is an area designated on the site plan that is protected from all types of intrusion, including: **site alteration**, operation of construction equipment, storage of construction materials, excavation or regrading, tunneling for utilities, removal of trees, **topsoil** or any living vegetation, or construction of driveways, **private roads**, parking areas, patios, decks, swimming pools, walkways or other impervious surfaces. **Areas of no disturbance** shall include **steep slopes**, **steep slope buffers** and the **critical root zone** of each tree proposed for preservation.

Average percent of slope

The "average percent of slope" of a **zoning lot** is the average slope of all portions of a **zoning lot** excluding **steep slopes** and shall be determined according to the following equation:

$$S = \frac{IL}{A} \times 100$$

Where:

S - average percent of slope

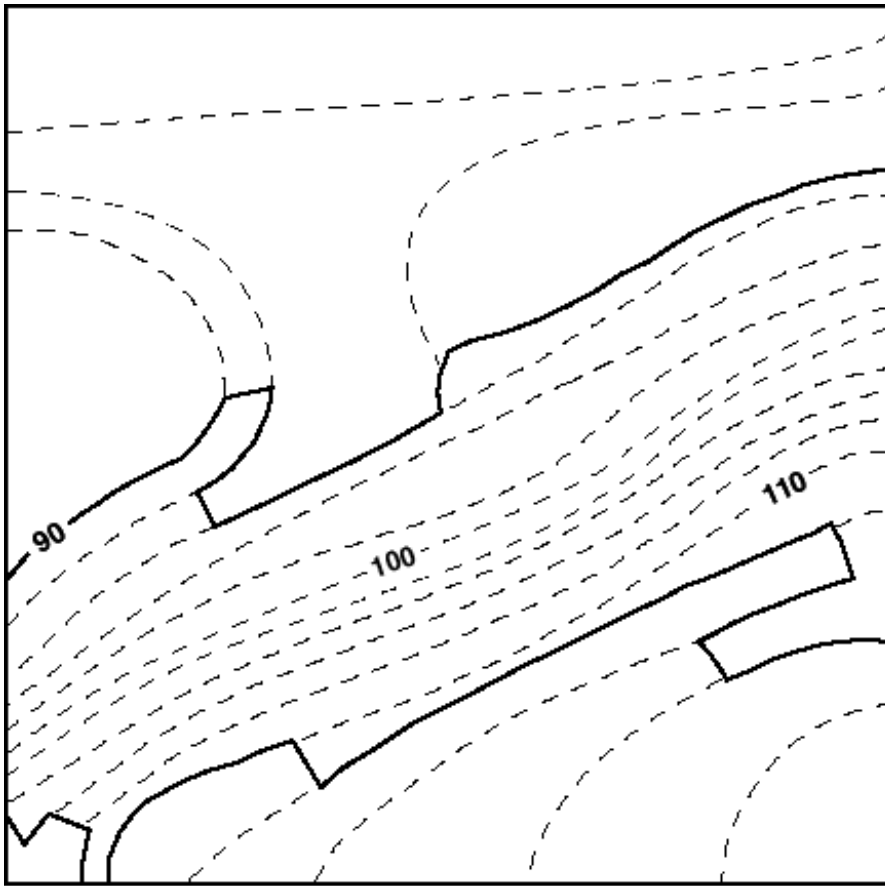

I - contour interval in feet

L - combined length of contour lines in feet, excluding those portions bordering or lying within areas having a slope of 25 percent or greater and meeting the definition of **steep slope**

A - gross area in square feet of the **zoning lot**, excluding those portions of the **zoning lot** having a slope of 25 percent or greater and meeting the definition of **steep slope**. For a proposed **site alteration** on a tract of land not within a **zoning lot**, the portion of such tract of land owned by the applicant shall be considered to be part of the **zoning lot**.

100 - factor which yields slope as a percentage

CALCULATING AREAS HAVING A SLOPE EQUAL TO OR GREATER THAN 25 PERCENT (illustrative example)

Example:

X	=	$\frac{\text{contour interval in feet}}{0.25}$	=	$\frac{2}{0.25}$	=	8.0 feet
---	---	--	---	------------------	---	----------

Where:

X - distance between contour lines which indicates a slope of 25 percent

In order to calculate the area having a slope equal to or greater than 25 percent, one can use a map with two-foot contour intervals and a scale of one inch equals 20 feet, such as the map pictured above. A 25 percent slope, on a map with two-foot contour intervals, is indicated by contour lines which are 8.0 feet apart, rounded to the nearest tenth (0.1) of a foot. On a map whose scale is one inch to 20 feet, 8.0 feet is represented by 0.4 of an inch, rounded to the nearest tenth (0.1) of an inch.

Identify where the contour lines are 0.4 of an inch or less apart. Connect these contour lines (as indicated by the heavy lines on the map) and calculate the area.

Buildable area

A "buildable area" is a portion of a **zoning lot** excluding **steep slopes**.

Caliper (of a tree)

"Caliper" of a tree is the diameter of a tree trunk measured 4 feet, 6 inches from the ground. If a tree splits into multiple trunks below 4 feet, 6 inches from the ground, the trunk is measured at its most narrow point beneath the split.

Critical root zone

The "critical root zone" of a tree is the area containing the roots of a tree that must be maintained and protected to ensure the tree's survival. The area of the **critical root zone** is measured as one radial foot for every **caliper** inch of the tree, with a required minimum of four radial feet and maximum of 22 radial feet, measured from the surface of the tree trunk at grade.

Hillside

A "hillside" is defined as ground where the ratio of change in elevation to horizontal distance results in a 10 percent or greater slope or **average percent of slope**.

Site alteration

For the purposes of this Chapter, a "site alteration" is an alteration on any vacant tract of land, **land with minor improvements** or any tract of land containing **buildings or other structures**. **Site alterations** shall include the following:

- (a) removal of **topsoil**;
- (b) excavating, filling, land contour work and other topographic modifications where the ground elevation of the land existing on June 30, 1987, is modified by two feet or more;
- (c) dumping, changes in existing drainage systems and changes in grade, alignment or width of public rights-of-way; or
- (d) removal of vegetation beyond 15 feet of the foundation of an existing **building**, except when the plant materials' continued presence would create hazards or dangers (such as an area affected by storm or plant disease) to persons, property or other plant material which it would not be possible or practical to eliminate by pruning or routine maintenance.

Staging area

A "staging area" is any area on a **zoning lot** or other tract of land used during the construction of a **development, enlargement** or **site alteration** for the purposes of stockpiling soil or construction materials; storing, cleaning or servicing construction equipment, vehicles or tools; or storing leachable construction products, gases or other materials used to clean or service vehicles, equipment or tools.

Steep slope

A "steep slope" is a portion of a **zoning lot** or other tract of land with an incline of 25 percent or greater. However, a portion of a **zoning lot** or other tract of land with an incline of 25 percent or greater shall not be considered a **steep slope** if it occupies an area of less than 200 square feet or has a dimension of less than 10 feet, measured along the horizontal plane, unless such portions in the aggregate equal 10 percent or more of the area of the **zoning lot**.

Steep slope buffer

A "steep slope buffer" is a 15-foot wide area having a slope of less than 25 percent that adjoins the entire length of the crest of a **steep slope**.

Tier I site

A "Tier I site" is a **zoning lot** or other tract of land having an **average percent of slope** of less than 10 percent.

Tier II site

A "Tier II site" is a **zoning lot** or other tract of land having an **average percent of slope** equal to or greater than 10 percent.

Topsoil

"Topsoil" is soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth and is generally the top six inches of soil.

Tree credit

A "tree credit" is a credit for preserving an existing tree of six-inch **caliper** or more which is counted toward a tree preservation requirement, or a credit for a newly planted tree of three-inch **caliper** or more which is counted toward a tree planting requirement.

Tree protection plan

A "tree protection plan" is a plan that modifies the **area of no disturbance** around a tree proposed for preservation while protecting and preserving the tree during construction. A **tree protection plan** is prepared by an arborist certified by the International Society of Arboriculturists (ISA) or equivalent professional organization that includes:

- (a) a survey of the current condition and health of such trees of six-inch **caliper** or more;
- (b) methods for tree protection and preservation based on best management practices, including the prevention of damage due to compaction, grade and drainage pattern changes and tunneling for utilities;
- (c) a schedule for site monitoring during construction;
- (d) a procedure to communicate protection measures to contractor and workers; and
- (e) post-construction treatment.

LAST AMENDED
2/2/2011

In harmony with the general purpose and intent of this Resolution and the general purposes of the **Special Hillside Preservation District**, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect.

Any **development, enlargement** or **site alteration** on the **buildable area** of a **zoning lot** where the **average percent of slope** is less than 10 percent shall be regulated by the provisions set forth in Section [119-10](#) (PROVISIONS REGULATING TIER I SITES). Any **development, enlargement** or **site alteration** on the **buildable area** of a **zoning lot** having an **average percent of slope** equal to or greater than 10 percent shall be governed by the provisions set forth in Section [119-20](#) (PROVISIONS REGULATING TIER II SITES).

No **development, enlargement** or **site alteration** is permitted within any **area of no disturbance** on a **zoning lot** or other tract of land. **Areas of no disturbance** shall remain in their natural state, except:

- (a) for **steep slopes** or **steep slope buffers**, an authorization may be granted by the City Planning Commission, pursuant to Section [119-30](#) (SPECIAL REVIEW PROVISIONS);
- (b) vegetation and **topsoil** may be removed from a **steep slope buffer** during construction on a **Tier I site**, provided that the **development, enlargement** or **site alteration** complies with the requirements of Sections [119-215](#) (Landscaping controls to preserve trees, shrubs and ground cover), [119-217](#) (Tier II controls during construction) and [119-22](#) (Tier II Submission Requirements); or
- (c) in accordance with a **tree protection plan**.

Those portions of a **zoning lot** having **areas of no disturbance**, however, may count as **lot area** for the purposes of the applicable regulations on **yards, floor area ratio, open space ratio** or maximum number of **dwelling units** or **rooming units**.

The following **uses**, including **enlargements** to such **uses**, shall not be permitted within the **Special Hillside Preservation District** unless an authorization is granted by the Commission pursuant to Section [119-30](#): **community facility uses, group parking facilities** of 30 cars or more, whether or not they are necessary to satisfy parking requirements.

When the **Special Hillside Preservation District** is designated on a **public park**, or portion thereof, **site alterations**, the construction of new park-related facilities such as, but not limited to, roadways, parking lots, comfort stations, storage facilities, swimming pools, eating establishments, tennis courts, amphitheaters and stadiums, and improvements to existing park-related facilities, shall not be subject to the provisions of Sections [119-10](#) or [119-20](#) but shall require an authorization from the Commission, pursuant to Section [119-31](#) (Authorizations).

119-03 - Applicability of Large-scale Residential Development Regulations

LAST AMENDED
6/30/1987

Any **development** on a **zoning lot** having an **average percent of slope** of 10 percent or greater, which is used predominantly for **residential use**, may be treated as a **large-scale residential development** and special authorizations or special permits for such **developments** may be granted in accordance with the provisions of Article VII, Chapter 8, as modified herein, regardless of whether such **development** will have the area, number of **buildings** or number of **dwelling units** specified in the definition of **large-scale residential developments** as set forth in Section [12-10](#) (DEFINITIONS). However, bonuses that may be granted for **large-scale residential developments** under the provisions of Sections [78-32](#) (Bonus for Good Site Plan), [78-33](#) (Bonus for Common Open Space) or [78-35](#) (Special Bonus Provisions) may not be granted for **developments** that have less than the minimum area, number of **buildings** or number of **dwelling units** required by the definition of a **large-scale**

residential development.

Notwithstanding the provisions of Section [78-06](#) (Ownership), a ***zoning lot*** having an ***average percent of slope*** of 10 percent or greater that is the subject of an application under this Section may include adjacent properties in more than one ownership, provided that the application is filed jointly by the owners of all the properties included. Any subdivision of the tract before, during or after ***development*** shall be subject to the provisions of Section [78-51](#) (General Provisions).

119-04 - Future Subdivision

LAST AMENDED
2/2/2011

Within the ***Special Hillside Preservation District***, no ***zoning lot*** existing on June 30, 1987, may be subdivided without certification by the City Planning Commission that the proposed subdivision complies with the regulations of the ***Special Hillside Preservation District*** and that all ***hillside***s are preserved to the greatest extent possible under future ***development*** options.

A plan for such subdivision shall be filed with the Commission and shall include a survey map indicating existing topography at two-foot contour intervals and all individual trees of six-inch ***caliper*** or more.

When a ***zoning lot*** existing on June 30, 1987, is intended to be subdivided and is more than five acres, a site plan of the entire subdivision shall be filed with the Commission. The site plan shall include the proposed vehicular circulation system within the area, ***block*** and ***zoning lot*** layouts and any other information required by the Commission.

In the event that any ***zoning lot*** proposed for subdivision contains a ***development***, ***enlargement*** or ***site alteration*** that has been undertaken contrary to the provisions of this Chapter, the Commission shall not approve the subdivision until violations are removed from the ***zoning lot***, in accordance with the Commission's requirements under Section [119-40](#) (COMPLIANCE).

119-05 - Applicability of Parking Location Regulations

LAST AMENDED
2/2/2011

119-111 - Tier I tree preservation requirements

LAST AMENDED
12/7/1999

To the maximum extent possible, existing trees shall be retained. Trees of six-inch **caliper** or more may only be removed or destroyed as a result of a **development, enlargement or site alteration**, provided that:

- (a) such trees are located in areas to be occupied by **buildings, private roads**, driveways, areas for required **accessory** parking, or within a distance of 15 feet of the exterior walls of such **building**, provided that it is not possible to avoid such removal by adjustments in the arrangement of such **buildings**, driveways or required parking areas;
- (b) the continued presence of such tree would create special hazards or dangers to persons or property, which would not be possible or practical to eliminate by pruning;
- (c) the continued presence of such tree would interfere with the growth or health of another tree of six-inch **caliper** or more designated for preservation and belonging to a species listed in Appendix B (Selection List for On-site Trees); or
- (d) an authorization pursuant to Section [119-313](#) (Modification of landscaping, tree preservation and tree planting requirements) has been granted by the City Planning Commission approving the removal of such trees.

Any tree of six-inch **caliper** or more that cannot be preserved as a result of a proposed **development, enlargement or site alteration** shall be replaced pursuant to the provisions of Section [119-112](#) (Tier I tree planting requirements).

119-112 - Tier I tree planting requirements

LAST AMENDED
2/2/2011

All **developments, enlargements** and **site alterations** on **Tier I sites** shall comply with the

tree planting requirements set forth in this Section, whether or not existing trees are removed as a result of such **development**, **enlargement** or **site alteration**. However, the requirements set forth herein shall not apply to any **enlargement** of an existing **building**, provided that such **enlargement** does not increase the **lot coverage** of said **building**.

On-site trees, pre-existing or newly planted, shall be provided on the **zoning lot** at the rate of one tree for each 1,000 square feet of **lot area**, or portion thereof, or shall equal a total of 51 percent of all **tree credits** for trees originally on site, whichever is greater.

For any existing tree of at least six-inch **caliper** that is preserved, credit for one tree shall be given for the first six inches of **caliper** and, for each additional four inches of **caliper**, credit for an additional tree shall be given.

Single-trunk trees, newly planted to meet this requirement, shall be of at least three-inch **caliper** at the time of planting. Multiple-trunk trees and low-branching coniferous evergreens shall be at least 10 feet in height at the time of planting. On-site trees shall be of a species selected from Appendix B (Selection List for On-site Trees).

119-113 - Tier I controls during construction

LAST AMENDED
12/7/1999

The following requirements must be met during construction:

- (a) Construction fences shall be erected around all **areas of no disturbance**.

A **tree protection plan** is required to modify the **area of no disturbance** around trees proposed for preservation.
- (b) The **staging area** shall be located in an area that would most minimize destruction of the natural features of the landscape. Such area shall be as close to the construction area on the **zoning lot** as practical, and shall be either on the flattest portion of the **zoning lot** or behind a containment wall where it will not erode any **area of no disturbance** or endanger any tree designated for preservation.
- (c) **Topsoil** shall be used in the area to be revegetated as soon as construction is complete.
- (d) Any exposed earth area shall have straw, jute matting or geotextiles placed on it within two days of exposure and be seeded with annual rye grass during construction.

119-12 - Tier I Submission Requirements

LAST AMENDED
2/2/2011

For all **developments, enlargements** or **site alterations** on **Tier I sites**, the following materials shall be submitted to the Department of Buildings. However, the submission requirements set forth herein shall not apply to an **enlargement** of an existing **residential building**, provided that such **enlargement** does not increase the **lot coverage** of said **building**. No building permit shall be issued until the Department of Buildings determines that the requirements of the **Special Hillside Preservation District** have been met.

- (a) A survey map prepared by a licensed surveyor showing topography at two-foot contour intervals and indicating the existing slope of the land, as it occurs, in categories of 10–14 percent, 15–19 percent, 20–24 percent, 25 percent and greater; the location of existing **buildings or other structures**, patios, decks, swimming pools, walkways, driveways and **private roads**, including sidewalks and other impervious surfaces; and the location, **caliper** and species of all trees of six-inch **caliper** or more on the **zoning lot** and in the sidewalk area of the adjacent **streets**.

landscaping, tree preservation and tree planting requirements).

- (b) To the maximum extent possible, existing trees, shrubs and ground cover shall be retained. Vegetation may only be removed or destroyed as a result of a **development**, **enlargement** or **site alteration**, provided that:
- (1) it is located in areas to be occupied by **buildings**, **private roads**, driveways, areas for required **accessory** parking or within a distance of 15 feet of a **building** foundation and, provided that it is not practical to avoid such removal by adjustments in the arrangement of such **buildings**, **private roads**, driveways or required parking areas;

All **developments**, **enlargements** and **site alterations** on **Tier II sites** shall comply with the following tree planting requirements, whether or not existing vegetation is removed as a result of such **development**, **enlargement** or **site alteration**. However, the requirements set forth herein shall not apply to an **enlargement** of an existing **building**, provided that such **enlargement** does not increase the **lot coverage** of said **building**.

On-site trees, pre-existing or newly-planted, shall be provided on the **zoning lot** at the rate of one tree for each 1,000 square feet of **lot area**, or portion thereof, or shall equal a total of 51 percent of all **tree credits** for trees originally on site, whichever is greater.

For any existing tree of at least six-inch **caliper** that is preserved, credit for one tree shall be given for the first six inches of **caliper** and, for each additional four inches of caliper, credit for an additional tree shall be given.

119-217 - Tier II controls during construction

LAST AMENDED
2/2/2011

The following requirements must be met during construction:

- (a) No construction equipment of any kind shall operate beyond 15 feet of the perimeter of a **building** foundation except those vehicles engaged in the construction of **private roads**, driveways or required **accessory** parking areas. This provision may be waived by the Commissioner of Buildings should it be determined that the particular conditions of the site make a 15 foot limit infeasible or impractical.
- (b) Construction fences shall be erected around all vegetation proposed for preservation and all **areas of no disturbance**, and those portions of the fence that are downhill from the construction site shall have hay bales placed adjacent to them.
- (c) Excavating for fill shall be prohibited unless the material is obtained from a cut permitted under an approved grading plan obtained for some purpose other than to produce fill material, or imported from outside the **Special Hillside Preservation District**.
- (d) The **staging area** shall be located in an area that would most minimize destruction of the natural features of the landscape. Such area shall be as close to the construction

area on the **zoning lot** as practical, and shall be either on the flattest portion of the **zoning lot** or behind a containment wall where it will not erode any **area of no disturbance** or endanger any tree designated for preservation.

- (e) **Topsoil** shall be used in the area to be revegetated as soon as construction is complete.
- (f) Any exposed earth area shall have straw, jute matting or geotextiles placed on it within two days of exposure and be seeded with annual rye grass during construction.

119-22 - Tier II Submission Requirements

LAST AMENDED
2/2/2011

For all **developments, enlargements** or **site alterations** on **Tier II sites**, the following materials shall be submitted to the Department of Buildings. However, the submission requirements set forth herein shall not apply to an **enlargement** of an existing **building**, provided that such **enlargement** does not increase the **lot coverage** of said **building**. No building permit shall be issued until the Department of Buildings determines that the requirements of the **Special Hillside Preservation District** have been met.

- (a) A survey map prepared by a licensed surveyor showing topography at two-foot contour intervals and indicating the existing slope of the land as it occurs in categories of 10–14 percent, 15–19 percent, 20–24 percent, 25 percent and greater; the location of existing **buildings or other structures**, patios, decks, swimming pools, walkways, driveways and **private roads**, including sidewalks and other impervious surfaces; and the location, **caliper** and species of all trees of six-inch **caliper** or more on the **zoning lot** and in the sidewalk area of the adjacent **streets**.
- (b) A site plan prepared by a registered architect or professional engineer indicating the location of all existing **buildings or other structures**; the location of all proposed **buildings or other structures**; the location of existing and proposed patios, decks, swimming pools, walkways, driveways and **private roads**, including sidewalks and other impervious surfaces; the location of all understory, including shrubs and ground cover; and the location, **caliper** and species of individual trees of six-inch **caliper** or more on the **zoning lot** and in the sidewalk area of the adjacent **streets**. The site plan shall identify those trees proposed to be removed and those trees proposed to be preserved, indicating for the latter the **critical root zone**, the location of any other **area of no disturbance** and the location of the **staging area**.
- (c) A grading plan that will show all existing and proposed contours at two-foot intervals, critical spot elevations, tops and bottoms of proposed slopes over 10 percent gradient and will indicate at least one longitudinal and one latitudinal cross-section showing both the original and proposed final ground surfaces, with grades, slopes and elevations noted.

- ## 119-23 - Administration of Tier II Requirements

All **developments**, **enlargements** or **site alterations** that are subject to the requirements of Section [119-22](#) (Tier II Submission Requirements) shall file directly with the Department of Buildings.

No permanent certificate of occupancy shall be granted unless an inspection report, verifying that the requirements of Section [119-20](#) have been met, is filed with the Department of Buildings by a registered landscape architect, registered architect, licensed surveyor or professional engineer.

119-30 - SPECIAL REVIEW PROVISIONS

LAST AMENDED
6/30/1987

119-31 - Authorizations

LAST AMENDED
2/2/2011

Upon application, the City Planning Commission may grant authorizations for modifications of specified regulations of this Chapter and for the underlying district regulations in accordance with the provisions of Sections [119-311](#) (Authorization of a development, enlargement or site alteration on a steep slope or steep slope buffer) through [119-319](#) (Authorization to allow site alterations, the construction of new park-related facilities and improvements to existing park-related facilities within public parks), inclusive.

In addition, all **developments**, **enlargements** and **site alterations** that require an authorization pursuant to Sections [119-311](#) through [119-318](#), inclusive, shall be subject to the provisions of Sections [119-33](#) (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits) and [119-34](#) (Special Submission Requirements for Certain Authorizations and Special Permits).

The Commission may prescribe appropriate conditions and safeguards, including covenants running with the land which shall permit public or private enforcement reflecting terms, conditions and limitations, of any authorizations hereunder, to minimize adverse effects on the **hillsides** and the character and quality of the community.

119-311 - Authorization of a development, enlargement or site alteration on a steep slope or steep slope buffer

LAST AMENDED
2/2/2011

The City Planning Commission may authorize **developments**, **enlargements** and **site alterations** on a **steep slope** or **steep slope buffer**.

In order to grant such authorizations, the Commission shall find that:

- (a) the ***development, enlargement or site alteration*** is not feasible without such modification, or that the requested modification will permit a ***development, enlargement or site alteration*** that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification requested has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the requested modification will not disturb the drainage patterns and soil conditions of the area; and
- (e) the ***development, enlargement or site alteration*** takes advantage of the natural characteristics of the site.

Any ***development, enlargement or site alteration*** requiring an authorization pursuant to this Section shall be subject to all the requirements of Section [119-20](#) (PROVISIONS REGULATING TIER II SITES) for which an authorization or special permit has not been obtained.

119-312 - Authorization of certain uses within the Special Hillside Preservation District

LAST AMENDED
2/2/2011

Any ***group parking facility*** with 30 cars or more and, in ***Residence Districts***, any ***community facility use or enlargement*** thereof, shall be allowed only by authorization of the City Planning Commission. In order to grant such authorizations, the Commission, upon review of a site plan, shall find that:

- (a) the proposed ***development, enlargement or site alteration*** will not adversely affect the drainage pattern and soil conditions of the area;
- (b) the proposed ***development, enlargement or site alteration*** has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (c) such ***development, enlargement or site alteration*** is so located as not to impair the essential character of the surrounding area;
- (d) the design of such ***development, enlargement or site alteration*** takes full advantage of all special characteristics of the site;
- (e) vehicular access and egress for such ***development, enlargement or site alteration*** is located and arranged so as to draw a minimum of vehicular traffic to and through local

streets in nearby residential areas; and

- (f) where vehicular access and egress is located on an arterial, such location affords the best means for controlling the flow of traffic generated by such development to and from such arterial.

The Commission may permit modifications to parking lot landscaping and maneuverability requirements for applications for such authorizations of **group parking facilities** for over 30 cars or for **enlargements** to **group parking facilities**, if such modifications preserve vegetation and natural topography.

119-313 - Modification of landscaping, tree preservation and tree planting requirements

LAST AMENDED
12/7/1999

The City Planning Commission may authorize modifications to Sections [119-111](#) (Tier I tree preservation requirements), [119-112](#) (Tier I tree planting requirements), paragraph (b)(8) of Section [119-214](#) (Tier II requirements for driveways and private roads), [119-215](#) (Landscaping controls to preserve trees, shrubs and ground cover) and [119-216](#) (Tier II tree planting requirements).

In order to grant such authorizations, the Commission shall find that:

- (a) the **development**, **enlargement** or **site alteration** is not feasible without such modifications, or that the requested modification will permit a **development**, **enlargement** or **site alteration** that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted; and
- (c) the ecology and soil conditions of the site are such that the substitution of other plant material would be as appropriate as the tree preservation or planting requirements being modified.

Where on-site restoration of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the **Special Hillside Preservation District**. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

119-314 - Modification of lot coverage controls

For any **development** or **enlargement** subject to Section [119-211](#) (Lot coverage, floor area and density regulations), the City Planning Commission may authorize variations in the **lot coverage** controls.

In order to grant such authorization, the Commission shall find that:

- (a) the **development** or **enlargement** is not feasible without such modification, or that the requested modification will permit a **development** or **enlargement** that satisfies the purpose of this Chapter;
- (b) by allowing the permitted **floor area** in a **building** or **buildings** of lower height to cover more land, the preservation of **hillsides** having aesthetic value to the public would be assured, and that such preservation would not be possible by careful siting of a higher **building** containing the same permitted **floor area** on less land;
- (c) such modification is the least modification required to achieve the purpose for which it is granted;
- (d) the modification requested has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (e) the requested modification will not disturb the drainage pattern and soil conditions of the area; and
- (f) the proposed modification does not impair the essential character of the surrounding area.

119-315 - Modification of height and setback regulations

LAST AMENDED

- (a) the **development** or **enlargement** is not feasible without such modification, or that the requested modification will permit a **development** or **enlargement** that satisfies the purpose of this Chapter;
- (b) by concentrating permitted **floor area** in a **building** or **buildings** of greater height covering less land, the preservation of existing topography and vegetation and the preservation of **hillsides** having aesthetic value to the public will be assured, and that such preservation would not be possible by careful siting of lower **buildings** containing the same permitted **floor area** and covering more land;

- (c) such modification is the least modification required to achieve the purpose for which it is granted;
- (d) the requested modification will not disturb the soil conditions of the area;
- (e) the proposed modification does not impair the essential character of the surrounding area; and
- (f) the proposed modification will not have adverse effects upon light, air and privacy of adjacent properties.

For any **development** or **enlargement** subject to Section [119-20](#) (PROVISIONS REGULATING TIER II SITES), the City Planning Commission may authorize variations in required **front**, **rear** or **side yards**, variations in required space between **buildings** on the same **zoning lot** and modifications in the underlying district height and setback regulations.

In order to grant such authorizations, the Commission shall find that:

- (a) **development** is not feasible without such modification, or that the requested modification will permit a **development**, **enlargement** or **site alteration** that better satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted; and
- (c) the proposed **bulk** and placement of **buildings** and the proposed arrangement of **open spaces** will not have significant adverse effects upon the light, air and privacy for existing development in adjacent areas or the opportunities therefor in future development.

- (b) will have minimal impact on the drainage pattern and soil conditions in the area;
- (c) will preserve to the greatest extent possible the trees and vegetation within the park; and
- (d) is compatible with the neighborhood character of the area.

An application to the Commission for an authorization pursuant to this Section shall include the following:

- (1) a survey map prepared by a licensed surveyor showing existing topography at the two-foot contour intervals;
- (2) a site plan prepared by a registered architect, registered landscape architect or professional engineer indicating the location of all existing **buildings or other structures**, the location of all proposed **buildings or other structures**, the location of all understory including shrubs and ground cover, and the **caliper** and species of all individual trees of six-inch **caliper** or more; and
- (3) any other information necessary to evaluate the request.

LAST AMENDED
12/7/1999

The City Planning Commission may grant special permits for modification of the underlying

The City Planning Commission may grant special permits for modification of the underlying district regulations in accordance with the provisions of Section [119-321](#) (Modification of use regulations).

119-321 - Modification of use regulations

LAST AMENDED
2/2/2011

For any ***Tier II site***, the City Planning Commission may grant special permits to allow ***single-family semi-detached residences*** in R1 and R2 Districts, ***single-family attached residences*** in R1, R2 and R3-1 Districts or ***two-family attached residences*** in R3-1 Districts.

As a condition for granting such special permits, the minimum required ***lot area*** of the underlying district shall not be reduced, and the ***aggregate width of street walls*** of a ***building***, or a number of ***buildings*** separated by party walls, shall not exceed 100 feet.

In order to grant such special permits, the Commission shall find that:

- (a) ***development*** is not feasible without such modifications, or that the requested modification will permit a ***development, enlargement or site alteration*** that better satisfies the purposes of this Chapter;
- (b) the change of housing type requested constitutes the most effective method of preserving the existing topography and vegetation;
- (c) the preservation of existing topography and vegetation requires the permitted development to be concentrated, to the extent feasible, in the remaining portion of the tract;
- (d) for such concentration of development, better standards of privacy and usable ***open space*** can be and are achieved under the development plan by inclusion of the proposed ***building*** type;
- (e) such modification is the least modification required to achieve the purpose for which it is granted;
- (f) the proposed ***street or private road*** system for the development is so located as to draw a minimum of vehicular traffic to and through ***streets*** in the adjacent area;
- (g) the siting of the ***building or buildings*** will not adversely affect adjacent properties by impairing privacy or access of light and air; and
- (h) the existing topography and vegetation and the proposed planting effectively screen all ***attached one-family residences*** from the ***lot lines*** along the development perimeter.

The Commission may impose appropriate conditions or safeguards, such as special landscaping requirements, to minimize any adverse effects on the character of the surrounding

area.

All ***developments, enlargements*** or ***site alterations*** that require a special permit pursuant to this Section shall also be subject to the provisions of Sections [119-33](#) (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits) and [119-34](#) (Special Submission Requirements for Certain Authorizations and Special Permits).

119-33 - Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits

LAST AMENDED
2/2/2011

Any ***development, enlargement*** or ***site alteration*** that requires an authorization or special permit and that is subject to the provisions of Section [119-20](#) (PROVISIONS REGULATING TIER II SITES), shall be subject to the provisions of this Section. The requirements of this Section shall supplement any other requirements that also must be met.

Prior to construction, at least one of the erosion and sedimentation control measures described in paragraphs (a) through (e) of the Section shall be selected. A plan describing how the selected erosion and sedimentation control measure will be implemented and justifying its selection on the basis of the particular conditions of the site shall be prepared by a professional engineer and submitted to the City Planning Commission.

(a) Benches and berms

These are level terraces or ledges constructed across sloping land to provide a relatively flat construction site or to reduce the length and grade of the slope. Benches and berms reduce runoff and erosion hazards by slowing down the velocity of water and providing greater intake opportunity.

(b) Diversion channels

These are earth channels with a supporting ridge on the lower side constructed across the slope lengths to break up concentration of runoff and move water to stable outlets at a non-erosive velocity.

(c) Debris or sediment basins

These consist of a dam or embankment, a pipe outlet and an emergency spillway situated at the low corner of the site to provide a temporary means of trapping and storing sediment while releasing the water. They protect property below the installation from damage by excessive sedimentation and debris.

(d) Retention ponds

These are impoundment-type ponds that temporarily store runoff water and release it at rates that minimize erosion and prevent flooding. They may be located above the site to trap water before it enters the area or within the site to protect properties below the site.

(e) Grassed waterways or outlets

These are natural or excavated channels to dispose of excess runoff water from diversions, berms, benches and other areas at non-erosive velocities. Waterways or outlets are shaped or graded and established in suitable vegetation as needed, depending on the supplemental measure used to slow the velocity of runoff.

119-34 - Special Submission Requirements for Certain Authorizations and Special Permits

LAST AMENDED
2/2/2011

When a **development**, **enlargement** or **site alteration** is subject to the provisions of Section [119-20](#) (PROVISIONS REGULATING TIER II SITES), an application to the City Planning Commission for an authorization or special permit shall include the following submission requirements. These requirements shall be in addition to the requirements set forth in Section [119-22](#) (Tier II Submission Requirements).

- (a) A drainage plan and soil report prepared by a professional engineer to protect natural features. The drainage plan shall describe the temporary (during construction) and permanent measures to collect, direct and discharge stormwater drainage from the site, indicating the direction of drainage flow and providing detailed plans and locations of all surface and subsurface drainage devices, walls, dams, sediment basins, stormwater storage (detention and retention) facilities, and other drainage facilities and protective devices. Such report shall include an estimate of runoff from the site after completion of proposed **developments**, **enlargements** or **site alterations** and provide a description with supporting information of the manner in which the proposed **development**, **enlargement** or **site alteration** complies with the requirements of Local Law 103 of 1989.
- (b) An erosion and sedimentation plan as described in Section [119-33](#) (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits).
- (c) For any **development** or **site alteration** on a tract of land 40,000 square feet or greater, a landscape plan prepared by a registered landscape architect that shows the location and species of all new plantings of trees, shrubs and ground covers and the proposed method of preserving existing trees, shrubs and ground covers.
- (d) Any other information the Commission may deem necessary to evaluate the request.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

119-35 - Administration of Special Review Provisions

LAST AMENDED
2/2/2011

Where a permit other than a building permit is required for a ***development, enlargement or site alteration*** within the ***Special Hillside Preservation District*** from any City agency, an application for such permit shall be filed simultaneously with such agency and the City Planning Commission.

No permanent certificate of occupancy shall be granted unless an inspection report, verifying that the requirements of Sections [119-20](#) (PROVISIONS REGULATING TIER II SITES) and [119-30](#) (SPECIAL REVIEW PROVISIONS) have been met, is filed with the Department of Buildings by a registered landscape architect, licensed surveyor or professional engineer.

119-40 - COMPLIANCE

LAST AMENDED
6/30/1987

In the event that a ***development, enlargement or site alteration*** is undertaken, or has been undertaken, contrary to the provisions of this Chapter, any permit issued by the Department of Buildings for any ***use, development, enlargement or site alteration*** on the affected ***zoning lot*** shall be revoked.

No building permit or permanent certificate of occupancy shall be issued by the Department of Buildings for any ***use, development, enlargement or site alteration*** on such ***zoning lot*** until the violations are removed from the ***zoning lot***, pursuant to a restoration plan certified by the City Planning Commission.

If such violations have not ceased within 90 days of receipt of the Commission's requirements, the Department of Buildings shall institute such action as may be necessary to prosecute the violations. For compliance with restoration requirements to remove violations, the Department of Buildings may allow an additional 90 days.

Where on-site restoration of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the ***Special Hillside Preservation District***. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

- (3) Along **residential streets**, at least 70 percent of the **aggregate width of street walls** shall be located within eight feet of the **street line** or public access area and shall extend without setback to a minimum base height of 40 feet or the height of the **building**, whichever is less. The maximum height of a **building or other structure** before setback shall be 85 feet. The **building** may project into the required setback area, provided that:
 - (i) any such projection does not exceed 20 feet in width;

- (ii) any such projection does not exceed 25 feet in height;
 - (iii) the aggregate width of all such projections at the level of any **story** shall not exceed 50 percent of the width of the **street wall** of the **building**; and

- (4) Along Northern Boulevard, no portion of a **street wall** shall be located closer to Northern Boulevard than eight feet. At least 70 percent of the **aggregate width of street walls** shall be located between eight and 15 feet of the Northern Boulevard **street line** and shall extend without setback to a minimum base height of 60 feet or the height of the **building**, whichever is less. The maximum height of a **building or other structure** before setback shall be 85 feet.
- (5) Wherever an open area is provided between the **street wall** of a **building** and the **street line**, such area shall be planted, except at entrances to and exits from the **building**, and except where non-**residential uses** are provided at the ground floor level of the **building**.

(b) Required setbacks and maximum **building** height

Except as provided in paragraph (c)(6) of this Section, setbacks are required for all portions of **buildings or other structures** that exceed a height of 85 feet. Such setbacks shall be provided at a height not lower than 60 feet. The depth of the required setback shall be at least 10 feet measured from any required **street wall** fronting on a **wide street**, and at least 15 feet from any required **street wall** fronting on a **narrow street**. Where portions of **buildings or other structures** that exceed a height of 85 feet are not located above a required **street wall**, such portions shall be set back at least 10 feet from a **wide street line** and at least 15 feet from a **narrow street line**. However, dormers may penetrate a height of 85 feet in accordance with the provisions of paragraph (c) of Section [23-621](#) (Permitted obstructions in certain districts). Within the area limited to 232 feet above mean sea level, as shown on Map 3 in the Appendix to this Chapter, no portion of a **building or other structure** shall exceed a height of 120 feet except in accordance with the tower provisions of paragraph (c) of this Section.

(c) Towers

Within the area limited to 232 feet above mean sea level, as shown on Map 3, any **story** of a **building** located above a height of 120 feet shall comply with the provisions of this paragraph (c). Such portions of a **building** are hereinafter referred to as “towers.”

(1) Maximum tower size

Each **residential story** of a tower located entirely above a height of 120 feet shall not exceed a gross area of 11,000 square feet.

(2) Maximum tower length

The maximum length of any **residential story** located entirely above a height of 120 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each **story** entirely above a height of 120 feet. No side of such rectangle shall exceed a length of 170 feet.

(3) Orientation

The length of any **residential story** located entirely above a height of 120 feet shall be at least 1.5 times its width and oriented so that the long side of such tower faces within 25 degrees of geographical south. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each **story** entirely above a height of 120 feet. The orientation provisions of this paragraph, (c)(3) need not apply if at least 75 percent of all towers in the **Special Willets Point District** for which building permits have been issued comply with such provisions.

(4) Tower top articulation

For towers containing **residences**, the highest three **stories**, or as many **stories** as are located entirely above a height of 120 feet, whichever is less, shall have a **lot coverage** of at least 50 percent of the **story** immediately below such **stories**, and a maximum **lot coverage** of 80 percent of the **story** immediately below such **stories**. Such reduced **lot coverage** shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph (c)(4), each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest **story** not subject to the reduced **lot coverage** provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the **building** facing each tower face. Required setback areas may overlap.

(5) Distance between towers

The minimum distance between all towers shall be 60 feet.

(6) Tower walls without setbacks

To permit a **building** to rise from grade to a tower portion without setback, the

setback provisions of paragraph (b) of this Section shall not apply to any portion of a **building** located within the tower wall location areas shown on Map 4 in the Appendix to this Chapter, provided that this exception from paragraph (b) of this Section shall not apply to more than one tower for each **block**.

(d) Maximum total height

Notwithstanding any other provisions of this Chapter, no **building or other structure** shall exceed the height limits depicted on Map 3. The height limits established in Map 3 include reference points for two airport approach surface areas that are continuous planes, and one area with a maximum height limitation of 232 feet above mean sea level (AMSL). The coordinates of the points are:

Point 1	73°50'42.9"W	40°45'38.1"N
Point 2	73°50'36.8"W	40°45'45.6"N
Point 3	73°50'26.6"W	40°45'39.3"N
Point 4	73°50'33.6"W	40°45'30.7"N

The height limits hereby established supersede the height limits described in Article VI, Chapter 1 (SPECIAL REGULATIONS APPLYING AROUND MAJOR AIRPORTS). Application may be made to the Board of Standards and Appeals pursuant to Section [73-66](#) (Height Regulations Around Airports) for a permit to construct a **building or other structure** in excess of what is permitted pursuant to this paragraph (d), provided that such application is also referred to the Port Authority of New York and New Jersey.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

In C4-2 Districts within the Upland Subdistrict, such **street walls** shall rise without setback to the minimum height specified on Map 3 (Minimum and Maximum Base Heights) in the Appendix to this Chapter, or the height of the **building**, whichever is less. When a **building** fronts on two intersecting **streets** for which different minimum base heights apply, the higher base height may wrap around to the **street** with the lower base height, for a distance of up to 100 feet.

128-33 - Maximum Base Height

LAST AMENDED
2/2/2011

The maximum height of a **building or other structure** before setback shall be as specified on Map 3 (Minimum and Maximum Base Heights) in the Appendix to this Chapter. Where a maximum base height of 65 feet applies as shown on Map 3, such maximum base height shall be reduced to 40 feet for **zoning lots developed or enlarged** pursuant to the tower provisions of Section [128-35](#). When a **building** fronts on two intersecting **streets** for which different maximum base heights apply, the higher base height may wrap around to the **street** with the lower base height for a distance of up to 100 feet. All portions of **buildings or other structures** above such maximum base heights shall provide a setback at least 10 feet in depth measured from any **street wall** facing a **wide street** and 15 feet in depth from any **street wall** facing a **narrow street**.

In C4-2 Districts within the Upland Subdistrict, dormers may exceed the maximum base height in accordance with the provisions of paragraph (c) of Section [23-621](#) (Permitted obstructions in certain districts). However, on any **zoning lot** that includes a tower **developed or enlarged** pursuant to Section [128-35](#), dormers shall not be permitted.

128-34 - Maximum Building Height

Separate maximum **building** heights are set forth within such Section for **developments** or **enlargements** with **qualifying ground floors** and for those with **non-qualifying ground floors**. However, on Bay Street where there is a maximum base height of 85 feet, the maximum height of a **building or other structure** also shall be 85 feet.

In C4-2 Districts within the Upland Subdistrict for **buildings** that are **developed** or **enlarged** pursuant to the tower provisions of Section [128-35](#), the maximum height of the tower portion of a **building** shall be 200 feet, and the height of all other portions of the **building** shall not exceed the applicable maximum base height. Where a maximum base height of 65 feet applies as shown on Map 3 in the Appendix to this Chapter, such maximum base height shall be reduced to 40 feet for **zoning lots developed** or **enlarged** pursuant to the tower provisions of Section [128-35](#).

128-35 - Towers

LAST AMENDED
2/2/2011

The tower provisions of this Section shall apply, as an option, to any **zoning lot** with a **lot area** of at least 10,000 square feet. Any portion of a **building developed** or **enlarged** on such **zoning lots** that exceeds the applicable maximum base height shall be constructed as either a point tower or a broad tower, as follows:

(a) Point tower

(1) Tower **lot coverage** and maximum length

Each **story** located entirely above a height of 75 feet shall not exceed a gross area of 6,800 square feet. The outermost walls of each **story** shall be inscribed within a rectangle, and the maximum length of any side of such rectangle shall be 85 feet.

(2) Tower top articulation

The highest three **stories**, or as many **stories** as are located entirely above a height of 75 feet, whichever is less, shall have a **lot coverage** of at least 50

percent of the **story** immediately below such **stories**, and a maximum **lot coverage** of 80 percent of the **story** immediately below such **stories**. Such reduced **lot coverage** shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph (a)(2), each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest **story** not subject to the reduced **lot coverage** provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the **building** facing each tower face. Required setback areas may overlap.

(b) Broad tower

Each **story** located entirely above a height of 75 feet shall not exceed a gross area of 8,800 square feet. The outermost walls of each such **story** shall be inscribed within a rectangle, and the maximum length of any side of such rectangle shall be 135 feet. The upper **stories** shall provide setbacks with a minimum depth of 15 feet measured from the east facing wall of the **story** immediately below. Such setbacks shall be provided at the level of three different **stories**, or as many **stories** as are located entirely above a height of 75 feet, whichever is less. For towers with at least six **stories** located entirely above a height of 75 feet, the lowest level at which such setbacks may be provided is 100 feet, and the highest **story** shall be located entirely within the western half of the tower.

(c) Orientation of all towers

The maximum length of the outermost walls of any side of each **story** of a **building** facing the **shoreline** that is entirely above a height of 75 feet shall not exceed 80 feet. For the purposes of this Section, the **street line** of St. Marks Place shall be considered to be a line parallel to the **shoreline**, and any side of such rectangle facing St. Marks Place from which lines perpendicular to the **street line** of St Marks Place may be drawn, regardless of intervening structures, properties or **streets**, shall not exceed 80 feet.

(d) Location of all towers

Any portion of a **building** that exceeds a height of 70 feet shall be no closer to a **side lot line** than eight feet, and any **story** of a **building** that is entirely above a height of 70 feet shall be located within 25 feet of a **street line** or sidewalk widening line, where applicable.

(e) Maximum tower height

The maximum height of any **building** utilizing the tower provisions of this Section shall be 200 feet. The height of the tower portion of the **building** shall be measured from the

base plane.

(f) Tower and base integration

All portions of a ***building*** that exceed the applicable maximum base height set forth in Section [128-33](#) shall be set back at least 10 feet from the ***street wall*** of a ***building*** facing a ***wide street*** and at least 15 feet from the ***street wall*** of a ***building*** facing a ***narrow street***. However, up to 50 percent of the ***street wall*** of the portion of the ***building*** located above a height of 75 feet need not be set back from the ***street wall*** of the ***building***, and may rise without setback from grade, provided such portion of the ***building*** is set back at least 10 feet from a ***wide street line*** or sidewalk widening line, where applicable, and at least 15 feet from a ***narrow street line*** or sidewalk widening line, where applicable.

(g) Tower exclusion areas

No ***building or other structure*** may exceed a height of 75 feet within the areas designated on Map 4 (Tower Restriction Areas) in the Appendix to this Chapter.

In locations where the width of the sidewalk within the ***street*** is less than 12 feet, a sidewalk widening shall be provided on the ***zoning lot*** so that the combined width of the sidewalk within the ***street*** and the sidewalk widening equals 12 feet. However, existing ***buildings*** to remain on the ***zoning lot*** need not be removed in order to comply with this requirement. All sidewalk widenings shall be improved to Department of Transportation standards for sidewalks, shall be at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times.

128-42 - Planting Areas

LAST AMENDED
2/2/2011

The entire area of the ***zoning lot*** between the ***street line*** or sidewalk widening line, where applicable, and all ***street walls*** of the ***building*** and their prolongations, shall be planted at

ground level, or in raised planting beds that are permanently affixed to the ground, except that such plantings shall not be required at the entrances to, and exits from, the **building**, within driveways accessing off-street parking spaces located within, to the side, or rear of such **building**, or between **commercial uses** and the **street line**. No **zoning lot** shall be altered in any way that will either create a new non-compliance or increase the degree of non-compliance with the provisions of this Section.

128-43 - Visual Corridors in the North Waterfront Subdistrict

LAST AMENDED
10/30/2013

The designated locations for **visual corridors**, as defined in Article VI, Chapter 2, are shown on Map 5 in the Appendix to this Chapter. Such **visual corridors** shall be provided in accordance with the standards of Sections [62-512](#) (Dimensions of visual corridors) and [62-513](#) (Permitted obstructions in visual corridors), except that:

- (a) lighting fixtures in **visual corridors** shall be considered permitted obstructions; and
- (b) within the **visual corridor** provided through Parcel 2 to the Pierhead line within the flexible location zone indicated on Map 5, a portion of a **building** shall be a permitted obstruction, provided that such obstruction is located no more than 14 feet above the reference plane of the **visual corridor**, and that such obstruction occupies no more than 185,000 cubic feet in total above the reference plane of the **visual corridor**.

128-60 - SPECIAL APPROVALS

LAST AMENDED
10/30/2013

The special permit for North Waterfront sites set forth in Section [128-61](#) is established in order to guide and encourage appropriate **use** and **development** in a unique location within the **Special St. George District** that serves as a gateway between Staten Island and Manhattan for both visitors and daily commuters. Redevelopment of the North Waterfront sites pursuant to this special permit provides an appropriate means to address the special characteristics of these sites, while accommodating their continuing transportation function, as part of their transformation into a regional destination that will contribute to the revitalization of the **Special St. George District** and surrounding area.

- (1) establish appropriate requirements for the height and setback of **buildings or other structures**, permitted obstructions in **yards**, off-street parking and loading; and
- (2) permit **floor area** to be distributed within the North Waterfront Subdistrict without regard for **zoning lot lines**, provided that if distribution is made to a **zoning lot**, subject to a special permit granted under this Section, from a **zoning lot** not subject to such special permit, Notices of Restriction in a form acceptable to the Department of City Planning shall be filed against such **zoning lots** setting forth the increase and decrease in the **floor area** on such **zoning lots**, respectively.

(f) The Commission shall find that the Proposed Plans:

- (1) include **uses** that are appropriate, considering the unique location of the site in relation to the Staten Island Ferry Terminal, the Staten Island Rail Road, and the land **uses** in and around the **Special St. George District** ;
- (2) provide a distribution of **floor area**, locations and heights of **buildings or other structures**, primary business entrances and open areas, that will result in a superior site plan, providing a well-designed relationship between **buildings and other structures** and open areas on the **zoning lot**, and shall also provide a well-designed relationship between the site and adjacent **streets**, surrounding **buildings**, adjacent off-site open areas and **shorelines** and will thus benefit the users of the site, the neighborhood and the City as a whole;
- (3) provide a distribution of **floor area** and locations and heights of **buildings or other structures** that will not unduly increase the **bulk** of **buildings or other structures** in the North Waterfront Subdistrict or unduly obstruct access of light and air to the detriment of the users of the site or nearby **blocks** or of people using the public **streets**, and that will provide waterfront vistas from nearby **streets** and properties on nearby **blocks** ;
- (4) provide useful and attractive publicly accessible open space, with sufficient public amenities, including but not limited to seating, landscaping and lighting, that results in a superior relationship with surrounding neighborhood

destinations, **streets**, **buildings**, open areas, public facilities and the waterfront;

- (5) improve public access to the waterfront;
- (6) improve, as applicable, the publicly accessible waterfront open space sufficiently to ensure that emergency vehicles will have adequate access to the waterfront and adjacent **developments** ;

- (8) provide adequate parking and loading to meet the demand for all users during peak utilization;
- (9) provide adequate parking for commuters at locations convenient and accessible to the Staten Island Ferry Terminal at all times and during all phases of construction;
- (10) provide signage and lighting that are compatible with the scenic and historic character of the harbor and that will not adversely affect the character of the surrounding neighborhood;
- (11) for a **public parking garage** with more than 150 parking spaces, will ensure that:
 - (i) entrances are proposed in locations and with design features that minimize traffic congestion and conflicts with pedestrians;
 - (ii) adequate reservoir space has been provided at the vehicular entrances; and
 - (iii) the **streets** providing access to such **use** will be adequate to handle the traffic generated thereby; and
- (12) for a **development** located partially or entirely within a railroad or transit right-of-way or yard and/or in **railroad or transit air space**, that:
 - (i) the distribution of **floor area** does not adversely affect the character of the surrounding area by being unduly concentrated in any portion of such **development**, including any portion of the **development** located beyond the boundaries of such railroad or transit right-of-way or yard; and
 - (ii) if such railroad or transit right-of-way or yard is deemed appropriate for future transportation **use**, the site plan and structural design of the

development do not preclude future use of, or improvements to, the right-of-way for such transportation **use**.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. In addition, for a **development** located partially or entirely within a railroad or transit right-of-way or yard, or in **railroad or transit air space**, the Commission may require that the structural design of such **development** makes due allowance for changes within the layout of tracks or other structures within any **railroad or transit air space** or railroad or transit right-of-way or yard which may be deemed necessary in connection with future development or improvement of the transportation system.

Prior to granting a special permit, the Commission shall request the Metropolitan Transportation Authority to indicate whether said agency has any plan to use that portion of any **railroad or transit air space** or railroad or transit right-of-way or yard where the railroad or transit **use** has been discontinued.

The execution and recordation of a restrictive declaration acceptable to the Commission, binding the owners, successors and assigns to maintain such **developments, enlargements**, alterations, changes of **use**, and any temporary parking facilities, in accordance with the approved Proposed Plans, and in a manner consistent with any additional conditions and safeguards prescribed by the Commission, shall be a condition to exercise of the special permit. Such restrictive declaration shall be recorded in the Office of the County Clerk. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a **development, enlargement** or change of **use**.

131-60 - SPECIAL PERMIT FOR AUDITORIUMS

LAST AMENDED
12/19/2013

The special permit set forth in this Section is established to allow outdoor entertainment **uses** on a limited-term basis in a unique beachfront location within the **Special Coney Island District**. The development of such **uses** on a temporary basis pursuant to this special permit provides for the opportunity for a valuable public amenity to exist within an area that, while approved for future **residential development** pursuant to the **Special Coney Island District** plan, is currently underutilized and does not exhibit the characteristics of a well-developed **residential** neighborhood. Any special permit granted under this Section shall be subject to a term of years, in order to ensure that such **uses** are consistent with, and do not impede, the goal of long-term revitalization of the surrounding area, pursuant to the **Special Coney Island District** plan.

In the Coney West Subdistrict, for Parcels B and G, the City Planning Commission may approve, by special permit, open-air auditoriums with greater than 2,000 seats, for a term no greater than 10 years from the date a certificate of occupancy, including a temporary certificate of occupancy, has been issued, provided that the proposed auditorium meets the conditions of paragraph (a) and the findings of paragraph (b) of this Section, in addition to the **sign** provisions of paragraph (c) and parking provisions of paragraph (d) of this Section.

For any application for such special permit, the applicant shall provide plans to the Commission including, but not limited to, a site plan, signage plan, parking and loading plan, lighting plan and an operations plan (the "Proposed Plans").

- (a) The Commission may permit open-air auditoriums with a maximum of 5,100 seats, provided the Proposed Plans demonstrate that:
 - (1) at all times when Riegelmann Boardwalk is open to the public, all publicly accessible space, as shown on the Proposed Plans, will remain accessible to the public, except that access may be restricted as necessary during scheduled events, for the setup and takedown for such events, and in connection with maintenance activities. Any barriers erected for the purpose of restricting access or visibility during such events shall be completely removed at all other times;
 - (2) the height of all structures, temporary or fixed, does not exceed 70 feet in height, as measured from the level of Riegelmann Boardwalk;
 - (3) any roof or structural canopy above the open-air auditorium seating area will be

removed prior to the month of November and shall remain removed during the entire off-season period between November through April, as well as in advance of severe weather events;

- (4) the signage plan and parking and loading plan comply with the provisions of paragraphs (c) and (d) of this Section, respectively; and
- (5) the City and applicant will enter into an agreement under which Parcel G will be returned to the City as of the expiration of the term of the special permit in a condition set forth in such agreement appropriate for **use** as a **public park**.

(b) In granting such permit, the Commission shall find that:

- (1) such open-air auditorium will not unduly impair the essential character or the future **use** or **development** of the surrounding area, pursuant to the goals and objectives of the **Special Coney Island District** plan;
- (2) the outdoor lighting for such open-air auditorium is located and arranged so as to minimize any negative effects on nearby **residences** and **community facilities**, and that the Proposed Plans include noise attenuation features and measures which serve to reduce the effect of noise from the open-air auditorium on the surrounding area, including nearby **residences** and **community facilities** ;
- (3) the construction of a stage as part of any **building** on Parcel B, for the purpose of accommodating an open-air auditorium **use**, will:
 - (i) enable the stage area to be closed to the outdoor portion of the open-air auditorium during the off-season when the open-air auditorium is not in use, so as to be operated for indoor entertainment **uses** with an eating and drinking establishment or other **use** permitted on Parcel B; and
 - (ii) allow for such **building** to be operated, subsequent to the expiration of the special permit, for **uses** permitted on Parcel B, such as eating or drinking establishments with entertainment;
- (4) appropriate visual and pedestrian connections are maintained in the general area of the former street bed from the termination of West 22st Street to Riegelmann Boardwalk;
- (5) the portions of the site not dedicated to the stage area or event seating are so designed to serve as a full time park-like resource for the public, and the portions of the site designed for open-air auditorium **use** serve as a high-quality open space resource when not in auditorium use;
- (6) any roof or structural canopy above the open-air auditorium seating area will be visually unobtrusive, and maximize openness and visibility between the site

and Riegelmann Boardwalk;

- (7) the operations plan, which shall include a protocol for queuing for concertgoers, demonstrates that there would be no interference with the public use and enjoyment of adjacent public facilities; and
- (8) the site plan, signage plan and lighting plan incorporate good design, effectively integrate the site with surrounding streets and Riegelmann Boardwalk, and are consistent with the purposes of the ***Special Coney Island District***.

- (c) The Commission may, through approval of the Proposed Plans, permit ***signs*** notwithstanding the applicable ***sign*** regulations, except that ***flashing signs*** shall not be permitted and only ***advertising signs*** that are oriented toward the interior of the open-air auditorium and not visible from Riegelmann Boardwalk or other public area shall be permitted.

In order to permit such ***signs***, the Commission shall find that proposed signage is appropriate in connection with the permitted open-air auditorium ***use***, is not unduly concentrated within one portion of the site, and will not negatively affect the surrounding area.

- (d) The Commission may, through approval of the Proposed Plans, reduce or waive required parking or loading requirements, provided the Commission finds that the open-air auditorium will be adequately served by a combination of surrounding public parking facilities and mass transit. In addition, the Commission shall find that the proposed loading facilities on the site are located so as not to adversely affect the movement of pedestrians or vehicles on the ***streets*** surrounding the auditorium.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. Such conditions and safeguards may include, but are not limited to, restrictions on signage or requirements for soundproofing of auditoriums, shielding of floodlights or screening of open ***uses***.

Upon the first issuance of this permit for an open-air auditorium, the effective period of the permit shall be 10 years from the date a certificate of occupancy, including a temporary certificate of occupancy, has been issued. To establish the term of years for subsequent applications for this special permit, the Commission shall, in determining whether the finding of paragraph (b)(1) of this Section is met, take into account the existing character of the surrounding area, as well as ***residential*** and ***community facility development*** proposed or under construction on surrounding ***blocks***, and shall also consider whether continuation of such auditorium ***use*** within a proposed term of years would be compatible with or may hinder achievement of the goals and objectives of the ***Special Coney Island District*** plan. Subsequent applications for this special permit shall be filed no later than one year prior to expiration of the term of the permit then in effect.

136-321 - Certification

LAST AMENDED
9/7/2017

The requirements of this Section shall apply to **zoning lots** containing **developments** or **enlargements** within the current or former Downtown Far Rockaway Urban Renewal Area.

No building permit shall be issued for any **development** or **enlargement** until the Chairperson of the City Planning Commission certifies to the Department of Buildings that such **development** or **enlargement** complies with the provisions of this Section.

The Chairperson shall certify that:

- (a) all publicly accessible open spaces adjacent to the proposed **development** or **enlargement** comply with the provisions of Section [136-324](#) (Publicly accessible open space requirements);
- (b) the location of private streets adjacent to the proposed **development** or **enlargement** complies with the provisions of Section [136-323](#) (Private streets); and
- (c) for any portion of Subdistrict A outside the area of the proposed **development** or **enlargement** for which a certification pursuant to this Section has not been obtained, the applicant has submitted sufficient documentation showing that the **development** or **enlargement** that is the subject of this certification, and any associated private streets and publicly accessible open spaces required to be constructed in conjunction with such **development** or **enlargement**, shall not preclude such undeveloped portions of Subdistrict A from complying with the provisions of Sections [136-323](#) and [136-324](#) under future certifications pursuant to this Section.

All required private streets and publicly accessible open spaces, once certified in accordance with the provisions of this Section, shall be duly recorded in the form of a signed declaration of restrictions, including provisions for the maintenance and operation of such private streets and publicly accessible open spaces, indexed against the property, binding the owners, successors and assigns to provide and maintain such private streets and publicly accessible open spaces in accordance with the plans certified by the Chairperson. Such declaration, or any maintenance and operation agreement with the City or its designee executed in connection with such declaration, shall require that adequate security be provided to ensure that the private streets and public access areas are maintained in accordance with the declaration and any related maintenance and operation agreement and are closed only at authorized times. The filing of such declaration in the Borough Office of the Register of the City of New York shall be a precondition for the issuance of a building permit.

In addition, the private streets and publicly accessible open spaces integral to the **development** or **enlargement** of a **building**, as indicated in the plans certified by the Chairperson, shall be recorded on the certificate of occupancy for such **building** by the Department of Buildings. The recording information of the declaration of restrictions shall be included on the certificate of occupancy for any **building**, or portion thereof, issued after the recording date.

The property owner shall be responsible for the construction and maintenance of all required private streets and publicly accessible open spaces on the **zoning lot**. No temporary or final certificate of occupancy shall be issued for any **building** adjacent to such private street or publicly accessible open space until all required improvements are completed, except as set forth in a phasing plan that has been incorporated in a signed and duly recorded declaration of

restrictions, and that has provided for interim improvements and access where these do not present conflicts with construction, staging or public safety.

136-322 - Sidewalk widening

LAST AMENDED
9/7/2017

A sidewalk widening is a continuous, paved open area along the **street line** of a **zoning lot**, located within the **zoning lot**. A sidewalk widening shall be provided along **streets** as shown on Map 8, to the extent necessary, so that a minimum sidewalk width of 13 feet or 18 feet, as applicable, is achieved, including portions within and beyond the **zoning lot**. Such depth shall be measured perpendicular to the **street line**. Sidewalk widenings shall be improved as sidewalks to Department of Transportation standards, at the same level as the adjoining public sidewalk and shall be directly accessible to the public at all times. No **enlargement** shall be permitted to decrease the depth of such sidewalk widening to less than such minimum required depth.

Lighting shall be provided with a minimum level of illumination of not less than two horizontal foot candles throughout the entire mandatory sidewalk widening. Lighting fixtures installed by the Department of Transportation within the **street** adjacent to such sidewalk widening shall be included in the calculation of the required level of illumination.

Where a continuous sidewalk widening is provided on the **zoning lot**, along the entire **block** frontage of a **street**, the boundary of the sidewalk widening within the **zoning lot** shall be considered to be the **street line** for the purposes of Sections [136-22](#) (Height and Setback Regulations) and [136-31](#) (Special Height and Setback Regulations Within Subdistrict A).

- (1) will aid in achieving the general purposes and intent of this Chapter as set forth in Section [136-00](#) (GENERAL PURPOSES);
- (2) will provide a better distribution of ***bulk*** on the ***zoning lot***, resulting in a superior site plan, in which the ***buildings*** subject to this authorization and any associated open areas will relate harmoniously with one another and with adjacent ***buildings*** and open areas; and
- (3) will not unduly increase the ***bulk*** of any ***building*** or unduly obstruct access of adequate light and air to the detriment of the occupants or users of ***buildings*** on the ***block*** or nearby ***blocks***, or of people using the public ***streets*** and other public spaces.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Chapter 7 - Special Coastal Risk District (CR)

137-00 - GENERAL PURPOSES

LAST AMENDED
9/7/2017

The “Special Coastal Risk District” established in this Resolution is designed to promote and protect public health, safety and general welfare in coastal areas that are currently at exceptional risk from flooding and may face greater risk in the future. These general goals include, among others, the following specific purposes:

- (a) to limit the population in areas that are vulnerable to frequent flooding, including those areas exceptionally at risk from projected future tidal flooding;
- (b) to reduce the potential for property damage and disruption from regular flood events and support the City’s capacity to provide infrastructure and services;
- (c) to promote consistency with planned improvements, neighborhood plans, and other measures to promote drainage, coastal protection, open space and other public purposes;
- (d) provide sound planning in areas that have historically been occupied by wetlands and, where plans exist, for such areas to be maintained as open space; and
- (e) to promote the most desirable use of land and thus conserve the value of land and buildings, and thereby protect the City’s tax revenue.

The maximum **street wall** width of any **story** above the maximum transition height shall not exceed 165 feet and, where two or more non-contiguous portions of a **building** exist at the same level above the maximum transition height, such portions shall provide a minimum distance of 60 feet between facing walls at any point.

141-33 - Special Open Space Provisions

LAST AMENDED
3/22/2018

Along the elevated rail structure on Jerome or River Avenues, where open space is provided between the **street line** of the **zoning lot** and the **street wall** of a **building** facing the elevated rail structure, or in Subdistrict A, for Subareas A1 through A3, where open space is provided between the **street wall** and the corner at a location designated on Maps 2, 3 or 4 in the Appendix to this Chapter, the provisions of Section [28-23](#) (Planting Areas) shall apply to all **buildings**, whether the ground floor is occupied by **residential uses** or non- **residential uses**, subject to the modifications of this Section.

(a) Along the elevated rail structure

Along the elevated rail structure on Jerome or River Avenues, a sidewalk widening, built to Department of Transportation standards, may be provided as an alternative to planting, provided that the area that would otherwise be allocated to planting, measured in square feet, is allocated to streetscape amenities, including, but not limited to, trees, bicycle racks, benches or wall treatment, that are provided along such sidewalk widening, as set forth below.

Where benches are provided as an alternative to such planting, the length of such benches shall not exceed, in the aggregate, 15 feet per every 50 feet of **street wall** frontage. Where bicycle racks are provided, such racks shall be oriented so that the bicycles are placed parallel to the **street wall**, and the width of such bicycle racks shall not exceed, in the aggregate, 10 feet per every 50 feet of **street wall** frontage. Such benches or bicycle racks shall be located entirely within the **zoning lot**, and each bench or bicycle rack so provided shall be equivalent to 15 square feet of planted area.

Where trees, and associated tree pits are provided as an alternative, the minimum depth of any open space between the **street wall** and **street line** shall be eight feet. Each tree provided shall be equivalent to 15 square feet of planted area.

Where a wall treatment is provided as an alternative, it shall be in the form of permitted **signs**, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material along the **street wall**. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and shall have a minimum width of 10 feet, as measured parallel to the **street wall**. The portion of the **street wall** allocated to a wall treatment shall satisfy the planting requirement directly in front of such **street wall**.

Where planting is provided, the minimum depth of open space between the **street line** and the **street wall** shall not be less than three feet.

(b) In Subdistrict A

In Subdistrict A, where open space is provided between the **street wall** and the intersection of two **streets**, pursuant to paragraph (a)(2) of Section [141-23](#), streetscape amenities may be provided as an alternative to planting, provided that the area that would otherwise be allocated to planting, measured in square feet, is allocated to trees, benches, or tables and chairs, as set forth below. However, planting shall not be reduced to less than 20 percent of the area of the open space.

Each bench provided shall be equivalent to 10 square feet of planted area, and each

set of tables and at least two chairs shall be equivalent to 15 square feet of planted area. Seating shall be publicly accessible, unless tables and chairs are associated with an open eating or drinking establishment on the ***zoning lot***. The area under such seating shall be paved with permeable materials and shall either abut the adjoining sidewalk or be connected to such sidewalk by a circulation path at least five feet wide that is also paved with permeable materials.

Each tree and associated tree pits provided shall be equivalent to 15 square feet of planted area, and shall be located at least 10 feet from any ***building wall*** or the adjoining sidewalk.

Where planting is provided, the minimum depth of a planted bed shall not be less than three feet.

In no event shall such volume contribute to the amount of **lot area** of any **zoning lot** for the purposes of generating **floor area**.

142-08 - Shoreline boundary

LAST AMENDED 8/8/2018

For the purposes of this Chapter, the **shoreline** shall be as shown on a survey available on the Department of City Planning website.

142-09 - Off-street Relocation of Subway Station Entrances

LAST AMENDED 8/8/2018

For all **developments** or **enlargements** involving ground floor level construction on a **zoning lot** that is wholly or partially located within a Transit Easement Zone, as shown on Map 3 (Special Inwood District – Transit Easement Zones) in the Appendix to this Chapter, a transit easement volume may be required on such **zoning lot** for public access between the **street** and the adjacent above- or below-grade subway station.

(a) Transit Easement

Prior to filing any application with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit for a **development** or **enlargement**, the owner of the **zoning lot** shall file an application with the Metropolitan Transportation Authority (MTA) and the Chairperson of the City Planning Commission requesting a certification as to whether or not a transit easement volume is required on the **zoning lot**.

Within 60 days of receipt of such application, the MTA and the Chairperson shall jointly certify whether or not a transit easement volume is required on the **zoning lot**. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such **zoning lot**.

When the MTA and the Chairperson indicate that a transit easement volume is required, the MTA shall, in consultation with the owner of the **zoning lot** and the Chairperson, determine the appropriate type of transit easement and reasonable dimensions for such transit easement volume.

The owner shall submit a site plan showing a proposed location of such transit easement volume that would provide access between the **street** and the adjacent subway station and be compatible with the proposed **development** or **enlargement** on the **zoning lot** for joint approval and final certification by the MTA and the Chairperson. The MTA and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the transit easement volume is being finalized. Upon joint approval of a site plan by the MTA and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Department of Buildings.

Legally enforceable instruments, running with the land, creating a transit easement volume, and setting forth the obligations of either the MTA or the owner and developer, their successors and assigns, to design and construct the improvement, shall be executed and recorded in a form acceptable to the MTA and the Chairperson. The execution and recording of such instruments shall be a precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such **development** or **enlargement**.

(b) Construction and Maintenance

Where a transit easement volume is required pursuant to this Section, transit access improvements within such volume shall be constructed and maintained either by the MTA or the owner of the **zoning lot** with the **development** or **enlargement**.

- (1) Where such mass transit improvement is constructed and maintained by the owner of the **development** or **enlargement**:
 - (i) a transit access improvement shall be provided in accordance with standards set forth by the MTA;
 - (ii) such improvement shall be accessible to the public at all times, except as otherwise approved by the MTA;
 - (iii) such improvement shall include **signs** to announce accessibility to the public. Such **signs** shall be exempt from the maximum **surface area**

of non-**illuminated signs** permitted by Section [32-642](#) (Non-illuminated signs); and

- (iv) no temporary certificate of occupancy shall be granted by the Department of Buildings for the **building** until the Chairperson of the City Planning Commission, acting in consultation with the MTA, has certified that the improvement is substantially complete and usable by the public.
- (2) Where such mass transit improvement is constructed and maintained by the MTA:
- (i) Where the construction of the improvement is not contemporaneous with the construction of the **development** or **enlargement**, any underground walls constructed along the **front lot line** adjacent to a below-grade subway station shall include a knockout panel, not less than 12 feet wide, below **curb level** down to the bottom of the easement. The actual location and size of such knockout panel shall be determined through consultation with the MTA.
 - (ii) Temporary construction access shall be granted to the MTA on portions of the **zoning lot** outside of the transit easement volume, as necessary, to enable construction within and connection to the transit easement volume.
 - (iii) In the event that the MTA has approved of obstructions associated with the **development** or **enlargement** within the transit easement volume, such as building columns or footings, such construction and maintenance shall exclude any such obstructions within the transit easement volume.

(c) Additional modifications

Where a transit easement volume is required pursuant to paragraph (a) of this Section, the Chairperson of the City Planning Commission shall certify the following modifications in conjunction with such transit easement volume certification:

- (1) the edge of the transit easement volume facing the **street** shall be considered a **street wall** for the purposes of applying the **street wall** location provisions set forth in Section [142-40](#) (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive, irrespective of whether such volume is incorporated into a **building**;
- (2) for **zoning lots** adjacent to a below-grade subway station, the maximum height for the **building** set forth in Section [142-40](#), inclusive, shall be increased by 10 feet, and the maximum number of **stories**, if applicable, shall be increased by one, except where the provisions of Section [142-48](#) (Special Regulations for Certain Sites in Subdistricts C and F) are being utilized;

- (3) the floor space contained within any transit easement volume required pursuant to this Section shall be excluded from the definition of **floor area**; and
- (4) the street frontage of such transit easement volume shall be excluded for the purpose of applying the provisions of Section [142-14](#) (Ground Floor Level Requirements).

(d) Temporary Use

Any easement volume required on a **zoning lot** pursuant to paragraph (a) of this Section may be temporarily used for any permitted **commercial** or **community facility uses** until such time as required by the MTA for transit access improvements. The floor space allocated to such temporary **uses** within the transit easement volume shall continue to be exempt from the definition of **floor area** and shall not be included for the purpose of calculating **accessory** off-street parking, bicycle parking, or loading berths.

Improvements or construction of a temporary nature within the easement volume for such temporary **uses** shall be removed by the owner of the **building** or portion of the **zoning lot** within which the easement volume is located prior to the time at which public **use** of the easement area is required, except as otherwise specified by the MTA. A minimum notice of six months shall be given, in writing, by the MTA to the owner of the **building** or portion of the **zoning lot** to vacate the easement volume.

(e) Termination of an easement volume

In the event that the MTA and the City Planning Commission jointly notify the Department of Buildings and the owner in writing that a transit easement volume is not required on a **zoning lot** in its final construction plans, the restrictions imposed on such **zoning lot** by the provisions of this Section shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the MTA to the extinguishment of the easement volume.

On any **zoning lot** which has been **developed** or **enlarged** in accordance with the provisions of this Section and on which termination of transit easement has been certified, pursuant to this paragraph, any floor space in a previously required transit easement volume shall continue to be exempt from the definition of **floor area** and shall not be included for the purpose of calculating requirements for **accessory** off-street parking, bicycle parking or loading berths. However, where such previously required volume is located within a **building**, the ground floor space shall be subject to the provisions of Section [142-14](#).

LAST AMENDED8/8/2018

The underlying **use** regulations are modified by the provisions of this Section, inclusive. In M1-4/R7A and M1-4/R9A Districts, the **use** regulations of Article XII, Chapter 3 (Special Mixed Use District) shall apply, except where modified by the provisions of this Section, inclusive.

 - (1) sufficient sites are available in the area to meet the residential development goal; or

- (2) a harmonious mix of **residential** and non-**residential** uses has been established in the area, and the **transient hotel** is consistent with the character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

For the purpose of applying the provisions of this Section, the residential development goal shall be met when at least 3,860 **dwelling units** within the **Special Inwood District** have received temporary or final certificates of occupancy subsequent to August 8, 2018.

In lieu thereof, Section [32-422](#) (Location of floors occupied by commercial uses) shall apply.

In C4 or C6 Districts, the underlying provisions of Section [32-422](#) (Location of floors occupied by commercial uses) shall be modified for **mixed buildings** to permit **dwelling units** on the same **story** as a **commercial use** provided no access exists between such **uses** at any level containing **dwelling units**, and provided no **commercial uses** are located directly over any **dwelling units**. However, such **commercial uses** may be located over **dwelling units** by authorization of the City Planning Commission upon a finding that sufficient separation of **residential uses** from **commercial uses** exists within the **building**.

In Subareas A1, B2 and B3, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, no **uses** listed in Use Group 6A, 6C or 10A shall be permitted above the ground floor level.

LAST AMENDED 8/8/2018

For the purposes of determining requirements for ***waterfront public access areas***, ***lot area*** shall not include any portion of a ***zoning lot*** that is seaward of the ***shoreline***. For the purposes of determining the applicability of ***waterfront public access area*** requirements, pursuant to Section [62-52](#), all ***zoning lots*** with portions located within 40 feet of the ***shoreline*** shall be considered ***waterfront zoning lots***.

On Parcel 1, as shown on Map 4 (Waterfront Access Plan: Parcel Designation) in the Appendix to this Chapter, for the purposes of calculating the total ***waterfront public access area*** requirements on a “granting lot,” as described in Section [142-23](#) (Floor Regulations in Subarea B2 and B3), ***lot area*** shall be the combined ***lot area*** of all “granting lots” and all “receiving lots.”

142-62 - Tip of Manhattan, Subdistrict B

LAST AMENDED 8/8/2018

In Tip of Manhattan Subdistrict B, for Parcels 1 and 2/3, as shown on Map 4 (Waterfront Access Plan: Parcel Designation) in the Appendix to this Chapter, the following regulations shall apply.

- (a) Applicability of ***waterfront public access area requirements*** to Use Group 16

In Subarea B1, as shown on Map 1, ***developments*** of ***buildings*** containing exclusively commercial or public utility vehicle storage, including ***accessory*** fuel

pumps, as listed in Use Group 16C, shall be exempted from **waterfront public access area** requirements.

(b) **Shore public walkways**

On Parcel 1, no **shore public walkway** shall be required.

(c) **Upland connections**

On Parcel 2/3, **upland connections** shall be provided along the shared boundary between Parcels 1 and 2/3, and within the area located between a line parallel to and 20 feet south of the prolongation of the centerline of West 218th Street and a line parallel to and 30 feet north of such centerline.

(d) **Supplemental public access areas**

- (1) on Parcel 1, **supplemental public access area** shall be bounded by Ninth Avenue to the west, the shared boundary of Parcels 1 and 2/3 to the south, and the stabilized shore to the east. Section [62-571](#) (Location and area requirements for supplemental public access areas) shall not apply to such **supplemental public access area**;
- (2) on Parcel 2/3, **supplemental public access area**, if required, shall be located at the intersection of the **upland connection** and the **shore public walkway**. Section [62-571](#) shall be modified to allow the longest side of such **supplemental public access area** to adjoin the **upland connection** provided that the maximum depth measured perpendicular to the **upland connection** does not exceed 1.5 times the width measured parallel to the **upland connection**.

(e) **Visual corridors**

Visual corridors shall be provided at three locations as shown on Map 6 (Waterfront Access Plan: Visual Corridors) in the Appendix to this Chapter:

- (1) within the prolongation of the **street lines** of West 220th Street;
- (2) within the prolongation of the **street lines** of Ninth Avenue;
- (3) within the area located between a line parallel to and 20 feet south of the prolongation of the centerline of West 218th Street and a line parallel to and 30 feet north of such centerline. In the event that such **visual corridor abuts** an open area with a minimum depth of 20 feet along the entire length of such **visual corridor**, and an easement for such open area has been recorded against the property, the minimum dimension of a **visual corridor** set forth in Section [62-512](#) (Dimensions of visual corridors) may be reduced to 30 feet.

142-63 - Sherman Creek Subdistrict A

LAST AMENDED 8/8/2018

In the Sherman Creek Subdistrict A, Parcels 5, 6, 7, 8 and 9, as shown on Map 4 (Waterfront Access Plan: Parcel Designation) in the Appendix to this Chapter, the following regulations shall apply.

(a) ***Shore public walkways***

- (1) ***Waterfront zoning lots*** that have a ***shoreline*** measuring more than 100 feet shall provide a ***shore public walkway*** as required by Section [62-53](#) (Requirements for Shore Public Walkways).
- (2) ***Zoning lots*** within or partially within 40 feet of the ***shoreline*** that do not ***abut*** the ***shoreline***, or that contain a ***shoreline*** measuring 100 feet or less shall provide either:
 - (i) a ***shore public walkway***, located partly on the ***zoning lot*** and partly on an adjoining ***waterfront zoning lot***; or
 - (ii) a ***shore public walkway*** on any portion of the ***zoning lot*** within 40 feet of the ***shoreline***. Such ***shore public walkway*** shall have a minimum width of 14 feet, and its pedestrian circulation path shall connect to and provide access from adjoining public ***streets***, parks or public places. Such ***shore public walkway*** shall extend beyond 40 feet of the ***shoreline*** as necessary to satisfy the minimum dimensional requirements, but the total area of the ***shore public walkway*** need not exceed an area equivalent to that portion of the ***zoning lot*** within 40 feet of the ***shoreline***. The provisions of Section [62-62](#) (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall be modified to allow the circulation path to have a minimum width of 10 feet and to be located entirely beyond 10 feet from the ***shoreline***. In addition, for Parcels 6, 7 or 8, the planting requirements set forth in paragraph (c)(1) of Section [62-62](#) need not apply.

Where the ***zoning lot*** does not include all of the adjacent ***shoreline***, the design of the ***shore public walkway*** shall be compatible with the future improvement of public access areas on the land between the ***zoning lot*** and the ***shoreline***.

- (3) The primary circulation path required pursuant to Section [62-62](#) shall be provided at a minimum elevation of 7.5 feet above the ***shoreline***, except that such requirement need not include portions of a circulation path that slope downward to meet the elevation of an existing publicly accessible sidewalk.

(b) ***Supplemental public access areas***

On Parcel 5, no ***supplemental public access area*** shall be required.

142-64 - Special Regulations on Parcel 5

LAST AMENDED 8/8/2018

- (a) Section [62-811](#) (Waterfront public access and visual corridors) shall not apply to Parcel 5, as shown on Map 4 (Waterfront Access Plan: Parcel Designation) in the Appendix to this Chapter. In lieu thereof, the following regulations shall apply:

Required Certification

No excavation or building permit shall be issued for any ***development*** on Parcel 5 until the Chairperson of the City Planning Commission has certified to the Department of Buildings, that:

- (1) a site plan has been submitted showing compliance with the provisions of Sections [62-50](#) (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) and [62-60](#) (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS) as modified by Section [142-60](#) (INWOOD WATERFRONT ACCESS PLAN);
- (2) the Chairperson has certified that an easement, the requirements for which shall be determined in consultation with the Department of Transportation, has been provided to enlarge the adjoining mapped ***streets***, an instrument creating such easement has been recorded in the Office of the City Register, and a certified copy of such easement has been submitted to the Department of City Planning; and
- (3) an acceptable restrictive declaration is executed and filed pursuant to Section [62-74](#) (Requirements for Recordation).

(b) Buildout of Adjoining ***Streets***

No certificate of occupancy for any ***development*** on Parcel 5 shall be issued until the Department of Buildings has been furnished with a certification by the Department of Transportation that adjoining mapped ***streets*** have been built out to Department of Transportation standards.

Within 45 days of receipt of a complete application, the Chairperson shall either certify that the proposed ***development*** complies with the requirements of this Section or disapprove such application, citing the nature of any failure to comply. Failure to certify or disapprove such application within the 45 day period will release the Department of Buildings or the

Department of Small Business Services from any obligation to withhold the excavation or building permit and authorize such agency to determine compliance with the provisions of this Section.

APPENDIX C, Table 2 — City Environmental Quality Review (CEQR) Environmental Requirements: Environmental Restrictive Declarations

CITY ENVIRONMENTAL QUALITY REVIEW (CEQR) Environmental Requirements

Table 2 – Environmental Restrictive Declarations

The Environmental Restrictive Declarations (ERD) listed below were recorded in connection with a zoning action against the noted Tax Blocks and Tax Lots, or portion thereof, and are available in the property records on file at the Office of the City Register for Bronx, Kings, New York and Queens counties or at the Richmond County Clerk’s office. They contain environmental requirements with respect to hazardous materials, air quality and/or noise in accordance with Section [11-15](#) of this Resolution.

Tax Lot changes that may have occurred since the recordation of an ERD may not be reflected in this table. If the property in question is located on the same **Tax Block** as an ERD, review of the related CEQR documentation is recommended. For an ERD recorded against a condominium, the condominium billing tax lot number is displayed instead of the individual condominium unit tax lot numbers.

Reference No. – refers to the Environmental Restrictive Declaration identification number used for Table 2 reference purposes only.

Application No. – refers to a ULURP or non-ULURP application (containing six numbers followed by a three- or four-letter suffix) for a zoning map or text amendment, special permit, authorization or certification or to a Board of Standards and Appeals application (containing the letters “BZ”) for a special permit or variance.

Recording Reference No. – refers to one of the following: Reel No./Page No., City Register File No., or Land Doc No. For ERDs for properties in boroughs other than Staten Island, use the City Register File No. to locate the ERD online in the Automated City Register Information System (ACRIS) on the NYC Department of Finance’s website. For older ERDs for properties in boroughs other than Staten Island, use the year in **Date Recorded** along with the Reel No./Page No. to locate the ERD in ACRIS. For ERDs for properties in Staten Island, use the Land Doc. No. to locate the ERD via the website of the Office of the Richmond County Clerk.

Lot Remediation Date – refers to the date of the duly issued notice from the NYC Office of Environmental Remediation indicating that no investigative/remedial work is required for any current or future development of the lot.

APPENDIX E

Design Requirements for Plazas, Residential Plazas and Urban Plazas Developed Prior to October 17, 2007

The following text has been relocated from Article II, Chapter 7, and Section 37-04 (Requirements for Urban Plazas). APPENDIX E is intended for reference purposes only and contains design requirements for **plazas**, **residential plazas** and **urban plazas** developed prior to October 17, 2007.

RESIDENTIAL PLAZA STANDARDS

(4/21/77)

E 27 - 00

GENERAL PURPOSES

The purpose of this Chapter is to promote the development of an improved quality of residential plaza for the public.

(8/27/98)

E 27 - 01

Applicability of this Chapter

The provisions of this Chapter shall apply to all **developments** constructed after April 21, 1977 containing a **residential plaza** or **arcade** that qualifies for a **floor area** bonus under the following provisions:

Section [24-14](#) (Floor Area Bonus for a Residential Plaza)

Section [24-15](#) (Floor Area Bonus for an Arcade)

Section [34-223](#) (Floor area bonus for a residential plaza)

Section [35-35](#) (Floor Area Bonus for a Residential Plaza, Urban Plaza or Arcade in Connection with Mixed Buildings)

A **development** that contains a **residential plaza** and that has been granted a special permit by the City Planning Commission prior to February 9, 1994, may be started or continued pursuant to that special permit. However, this Chapter shall not apply within a Special Purpose District except where permitted within such Special Purpose District, nor shall it apply to any **development** pursuant to the Quality Housing Program, except as otherwise set forth therein.

After June 12, 1996, no foundation permit shall be issued by the Department of Buildings for any **development** that includes a **residential plaza** without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the **zoning lot**, a site plan indicating the area and dimensions of the proposed **residential plaza** and the location of the proposed **development** or **enlargement** and all existing **buildings** temporarily or permanently occupying the **zoning lot**, computations of proposed **floor area**, including bonus **floor area**, and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for **residential plazas**, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the **residential plaza** pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any **development** or **enlargement** on the **zoning lot**. The recording information shall be included on the certificate of occupancy for any **building**, or portion thereof, on the **zoning lot** issued after the recording date.

E 27 - 02

Definitions

Words in italics are defined in Section [12-10](#) (DEFINITIONS) or, if applicable exclusively to this Section, in this Section.

Northern plaza

A "northern plaza" is a primary space that has only northern exposure.

Primary space

A "primary space" is the major portion of a **residential plaza** that abuts a **street**, and is accessible to the public for recreational use.

Residual space

A "residual space" is the remaining portion of a **residential plaza** that is not a **primary space**. Such space may be used either for public recreation or as a landscaped visual amenity.

4/21/77

E 27 - 10

PRIMARY SPACE

A **primary space** shall consist of at least 60 percent of the total area of a **residential plaza** and shall be directly accessible to the public from the public sidewalk.

Zoning lots having a maximum **lot area** of 20,000 square feet shall aggregate such **primary space** in one location.

For **zoning lots** having a **lot area** in excess of 20,000 square feet, such **primary space** may be located in more than one location on the **zoning lot** provided that the area of at least one **primary space** is not less than 4,000 square feet.

4/21/77

E 27 - 11

Mandatory Requirements

4/21/77

E 27 - 111

Size and proportions

For **zoning lots** having a **lot area** of 20,000 square feet or more, the minimum dimension of any **primary space** shall be 40 feet measured perpendicular to the perimeter of the **primary space**, except that where a **primary space** has only one **street** frontage, the minimum dimension shall be 50 feet.

For **zoning lots** having a **lot area** less than 20,000 square feet but not less than 12,500 square feet, the minimum dimension of any **primary space** shall be 30 feet, except that where a **primary space** has only one **street** frontage or where the **primary space** links two **streets** which are parallel or within 45 degrees of being parallel to each other, the minimum dimensions shall be 40 feet.

For **zoning lots** having a **lot area** less than 12,500 square feet, the minimum dimension of any **primary space** shall be 30 feet, except that there shall be no minimum dimensional requirements for **primary space** on **corner lots** having a **lot area** less than 12,500 square feet.

For the purpose of dimensional calculations only, a driveway or a vehicular accessway may be counted towards the minimum dimensional requirements of a **primary space**. However, in no case may such driveway or a vehicular accessway be bonused as part of a **residential plaza**. Such driveway or vehicular accessway may be located only alongside a **side lot line** or adjacent to the wall of the **building** of the **development**, and shall not interrupt the continuous area of the **primary space**.

For **zoning lots** having a **lot area** of 12,500 square feet or more, the depth of any **primary space** having only one **street** frontage shall not be greater than twice the width of the **primary space street** frontage. For **zoning lots** having a **lot area** less than 12,500 square feet, the depth of any **primary space** having only one **street** frontage shall not be greater than two and a half times the width of the **primary space street** frontage.

A **primary space** having only one **narrow street** frontage, and a **primary space** that links two **streets** which are parallel or within 45 degrees of being parallel to each other, shall be permitted only when one of the adjacent **buildings** on the **zoning lot** of the **development** or on a **zoning lot** sharing a common **side lot line** with the **zoning lot** of the **development** abutting the **primary space** is not more than 65 feet in height or five floors, whichever is less, before a 10 foot setback is provided. Such restrictions shall be waived for a **primary space** of more than 80 feet in width measured with or without adjoining **residual space**.

4/21/77

E 27 - 112

Orientation

All **developments** shall provide southern exposure where possible to provide maximum sunlight in **primary space**. Other exposures are permitted only when southern exposure is not possible.

Following are the types of orientation of different **primary spaces** based upon the size and location of the **zoning lot**:

- (a) Southern exposure: A **street line** of the **zoning lot** which has exposure to sunlight in any direction from south to west;
- (b) Eastern exposure: A **street line**, 125 feet or more in length, of the **zoning lot** which has exposure to sunlight in any direction from east to south;

- (c) Western exposure: A **street line**, 125 feet or more in length, of the **zoning lot** which has exposure to sunlight in any direction from west to north;
- (d) Northern exposure: A **street line** of the **zoning lot** which has exposure to sunlight in any direction from north to east or a **street line** less than 125 feet in length, of the **zoning lot** which has exposure to sunlight in any direction from east to south or west to north.

In a **development** to which this Chapter applies:

The **primary space** of any **zoning lot** having a **street line** with southern exposure, as defined in this Section, shall abut that **street line**. The **primary space** of any **zoning lot** having a **street line** with eastern, and no southern, exposure, as defined, shall abut that **street line**.

The **primary space** of any **zoning lot** having a **street line** with western, and no southern or eastern, exposure, as defined in this Section, shall abut that **street line**.

The **primary space** of any **zoning lot** having a **street line** with northern, and no southern, eastern or western exposure, as defined in this Section, shall be **developed** as a **northern plaza** pursuant to Section E27-30 (NORTHERN PLAZA).

The orientation requirements may be waived or modified by the City Planning Commission provided the Commission certifies to the Commissioner of Buildings that due to the surrounding area and the site configuration, including the disposition of surrounding **buildings** which may cast a permanent shadow on the **plaza**, a modification will enhance the usability and design of the **primary space** and of the **building**.

4/21/77

E 27 - 113

Access

All **primary spaces** shall be accessible directly from an adjoining public sidewalk along at least 50 percent of the total **street** frontage. Driveways or vehicular accessways included as part of the minimum dimension calculated, may not be counted as providing access.

All **primary spaces** shall be accessible to the public at all times, except that for a **primary space** having only one **narrow street** frontage, or a **primary space** which links two **streets** that are parallel or are within 45 degrees of being parallel, access may be restricted between the hours of 8:00 p.m. or dark whichever is later and 8:00 a.m. Such access may be restricted by the use of horizontal railings and/or vertical bars of a maximum one and 1/2 inch thickness and lockable gates. The railings when placed along the perimeter of the **primary space** shall occupy not more than 50 percent of the **street** frontage of the **primary space**, and shall not be higher than 8 feet, 0 inches. Gates, when placed along the perimeter of the **primary space**, when open during hours of accessibility, shall allow access along at least 50 percent of the **street** frontage of the **primary space** or 40 feet, whichever is less, and shall not be higher than eight feet. Such gates shall remain unlocked between the hours of 8:00 a.m. and 8:00 p.m. or dark whichever is later. In order to allow maximum visibility from the public sidewalk, the bars of any horizontal railing and/or vertical bars and gate shall be at least five inches apart. Spikes, pointed railings or other sharp objects shall not be placed anywhere within the **primary space**, except that such railings as permitted above may be pointed. Enclosures designed without horizontal railings and/or vertical bars may be permitted provided the City Planning Commission certifies to the Commissioner of Buildings that such design will enhance the quality and visual access of the **primary space**.

4/21/77

E 27 - 114

Access for the physically disabled

The following standards shall apply to assure access for disabled persons into and within all **primary spaces**.

There shall be at least one path of travel to major portions of **primary space** which in area total at least 60 percent of the unobstructed **primary space** area, and a path to any building lobby accessible from the **primary space**. All paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

Ramps shall be provided alongside any stairs or steps which provide access to or within **primary spaces**. Ramps shall have a minimum width of 3 feet, 0 inches, a slope of not greater than 1:12, a non-skid surface, and, for open-edged ramps, a two-inch high safety curb. At each end of a ramp there shall be a level area, which may be public sidewalk, at least five feet long.

All stairs or ramps within such paths shall provide handrails. Handrails shall be 2 feet, 8 inches high, have a midrail not lower than 16 inches and not higher than 22 inches, and shall extend at least 18 inches beyond the stair or ramp ends.

Where stairs are used to affect changes of grade for such paths they shall have closed risers, no projecting nosings, a maximum riser height of seven and 1/2 inches, and a minimum tread width of 11 inches.

4/21/77

E 27 - 115

Elevation

All **primary spaces** shall be located at an elevation not more than three feet above or below the **curb level** of the nearest adjoining sidewalk.

A **primary space** fronting on one **street**, or a **primary space** which links two **streets** which are parallel or within 45 degrees of being parallel to each other, shall be at the same elevation as the adjoining public sidewalk along the **street** frontage providing access, pursuant to Section E27-113 (Access), for a minimum depth of 10 feet measured perpendicular to the **street line**.

When the size of a **primary space** is 8,000 square feet or more, a maximum of 25 percent of its area may be located at an elevation more than three feet above or below the nearest adjoining sidewalk, which area however may not be located within a depth of 10 feet from the sidewalk, measured perpendicular to the **street line**.

When there is a grade change of at least three feet in 100 along the portion of **street** upon which a **primary space** of 4,000 square feet or more fronts, for a distance of at least 100 feet, the level of such **primary space** may be located at an elevation greater than three feet above or below the **curb level**, provided the City Planning Commission certifies to the Commissioner of Buildings that such elevation will enhance the usability and design while maintaining safety and visibility of the **primary space**.

Where an existing subway station entry is located on the sidewalk area abutting a **primary space**, the **primary space** shall be developed at the same elevation as the adjoining sidewalk for a distance of at least 15 feet in all directions from the entry. No obstruction shall be permitted within such portion of the **primary space**.

4/21/77

E 27 - 116

Treatment of adjoining walls

Any exposed blank walls of a **building** which is located at the **lot line** of an adjacent **zoning lot** and which abuts a **primary space** shall be:

- (a) covered with vines or similar planting; or
- (b) contain artwork or be treated so as to enhance the visual quality of the **primary space**.

Plants shall be planted in soil having a depth of not less than two feet, six inches, and a minimum width of 24 inches. If artwork is being used, approval by the New York City Art Commission shall be obtained prior to the Certificate of Occupancy being issued for the **development**.

Whenever an adjoining wall, which is required to be treated in accordance with the provisions of this Section, is in separate ownership the owner of such adjoining wall if it is a party wall shall grant to the party required to treat the wall adjoining the **primary space**, a license to perform such treatment of the wall, however, the owner may in granting such license reserve the right to perform any work necessary for safety or maintenance of the wall.

4/21/77

E 27 - 117

Lighting

All **primary spaces** shall be illuminated at an overall minimum average level of not less than two horizontal foot candles during the hours of darkness.

To minimize the adverse effect on the surrounding **residential buildings**, such lighting shall be shielded.

4/21/77

E 27 - 118

Paving

The **primary space** shall be paved with unit pavers, such as bricks or quarry tiles, and/or poured-in-place materials. If poured-in-place materials are selected, they shall be of decorative color and/or textures, through the use of dyes and/or exposed aggregates. All paving shall have non-skid surface when wet or dry.

4/21/77

E 27 - 12

Mandatory Amenities

All **primary spaces** shall provide amenities as set forth in this Section, which amenities shall be subject to the restrictions for total area occupied by amenities, as set forth in Section E27-14 (Optional Amenities).

4/21/77

E 27 - 121

Seating

All **primary spaces** shall provide a minimum of one linear foot of seating for each 30 square feet of the **primary space**. Such seating shall

have a minimum depth of one foot, four inches. Seating with backs at least one foot high shall have a minimum depth of one foot, two inches. Seating two feet, six inches or more in depth shall count as double provided there is access on both sides.

For the benefit of handicapped persons, a minimum of ten percent of the required seating shall have backs.

Seating higher than three feet or lower than one foot above the level of the adjacent walking surface shall not count towards meeting the seating requirements. Moveable seating or chairs may be credited as two feet, six inches of linear seating per chair. Movable seating shall not exceed 50 percent of the total required. Steps shall not count towards the seating requirements. The top of walls, including but not limited to those which bound planting beds, fountains or pools, may be counted as seating when they conform to the dimensional standards set forth herein.

12/15/77

E 27 - 122

Tree planting

All **primary spaces** shall provide a minimum of one tree per 1,000 square feet of **primary space** area.

Except for an open area as set forth in paragraph (d) of this Section, no portion of such an open area that is bounded on all sides, except for one opening, by either building walls, or building walls and a **side lot line**, shall be considered part of the **plaza**, unless the opening of such portion is at least 50 feet in width.

A **plaza** shall not at any point be more than five feet above, nor more than 12 feet below, the **curb level** of the nearest adjoining **street**, and shall be unobstructed from its lowest level to the sky, except that arbors or trellises, awnings or canopies, railings not less than 50 percent open and not exceeding 3 feet, 8 inches in height, flag poles, open terraces or porches, steps, subway station entrances, ornamental fountains or statuary, or unenclosed balconies subject to the provisions of Section [23-13](#) or [24-165](#) (Balconies in R3 through R10 Districts), shall be considered permitted obstructions in **plazas**.

E 37 - 04

Requirements for Urban Plazas

All **urban plazas** shall comply with the provisions of this Section. These provisions may be modified pursuant to Sections [74-91](#)

(Modification of Urban Plazas) and [81-23](#) (Floor Area Bonus for Urban Plazas).

(a) Area dimensions

An **urban plaza** shall contain an area of not less than 1,600 square feet. In no case may spaces between existing **buildings** remaining on the **zoning lot** qualify as **urban plazas**. In addition, in order to preserve the provisions relating to the boundaries, proportions and obstructions of **urban plazas**, on any one **zoning lot**, an open area which does not qualify for bonus **floor area** may not be located between two **urban plazas**, or between an **urban plaza** and a building wall or **arcade** of the **development**.

(b) Locational restrictions

In other than C5-5 or C6-9 Districts, no **urban plaza**, or portion thereof, is permitted to occupy more than 33 percent of the frontage of the **zoning lot**, or portion thereof, within 175 feet of an existing **plaza**, **urban plaza**, **public park** or urban park that occupies more than 33 percent of its **block** frontage on the same or opposite side of the same **street** and has a depth of at least 12 feet. The distance of 175 feet shall be measured along the **street** on which the existing amenity fronts.

(c) Restrictions on orientation

In other than C5-5 or C6-9 Districts, the following restrictions shall apply to all **urban plazas**:

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" **street line** means a **street line** facing within 27 degrees of the direction indicated. "To front on a **street**" means to be contiguous to the **street line** or to a sidewalk widening along the **street line**.

- (1) Where the major portion of an **urban plaza** fronts on only one **street line**, such major portion is not permitted to front on a north-facing **street line** of a **zoning lot**.
- (2) No major portion of an **urban plaza** shall only front on a west-facing **street line** or an east-facing **street line** if the **zoning lot** also has frontage that is 40 feet or more in length on a south-facing **street line**.
- (3) An **urban plaza** that is located on an intersection of two **streets** must have its major portion, as defined in paragraph (d)(2) of this Section, front on the south-facing **street line**. In the case of a **zoning lot** having frontage on a south-facing **street line** of less than 40 feet, or having its frontage at the intersection of a north-facing **street line** with either an east- or west-facing **street line**, the major portion must front on the east- or west-facing **street line**.

(d) Requirements for major portions of **urban plazas**

- (1) All contiguous **urban plaza** areas on a **zoning lot** shall be considered as one **urban plaza**.
- (2) The shape and dimensions of an **urban plaza** shall be such that for a major portion of the **urban plaza**, comprising at least the percentage of total area specified herein, all points within such major portion shall be visible from all other points therein. For the purposes of this regulation, points that when viewed in plan may be joined by a straight line shall be considered visible one from the other; visibility between points shall not be affected by permitted obstructions or by changes of grade.

The major portion of an **urban plaza** shall be at least 70 percent of the **urban plaza's** total area, except that in the case of a through **block urban plaza** as defined in paragraph (e) of this Section, the major portion shall be at least 50 percent of such **urban plaza's** total area. The major portion of the **urban plaza** shall be subject to the proportional requirements set forth in paragraphs (d)(4) and (d)(5) of this Section.

- (3) The major portion of an **urban plaza** shall have a minimum dimension of 40 feet. The remaining portion of such **urban plaza** shall have a minimum dimension of 20 feet. Dimensions shall be measured parallel and perpendicular to the **street line** on which the **urban plaza** fronts.
- (4) For major portions of **urban plazas** with frontage on two or more intersecting **streets**, the length of the frontage along any one **street** shall not be greater than three times the average depth of the **urban plaza** measured perpendicular to the **street line** of said **street** from the building wall that faces it.
- (5) For major portions of **urban plazas** with frontage on only one **street**, at no point shall the depth from the building wall or rear **lot line** that faces the **street** to the **street line** be less than one-third nor more than three times the length of the frontage of the major portion along such **street line**.

(e) Regulations for through **block urban plazas**

Where an **urban plaza** or portion of an **urban plaza** extends through the **block** connecting two **streets** that are parallel or within 45 degrees of being parallel to each other, and any building wall or walls adjoin such through **block urban plaza** or through **block** portion of an **urban plaza**, no more than 120 feet aggregate length of such walls within 50 feet of the opposite side of the through **block urban plaza** shall exceed 90 feet in height from the surface of the **urban plaza**. In addition to the 20 feet minimum width requirement described in paragraph (d)(3) of this Section, such a through **block urban plaza** shall maintain a straight path at least 15 feet in width, free of any obstructions from **street line** to **street line**.

(f) Circulation and access

- (1) To facilitate access to an **urban plaza**, within 10 feet of a **street line** or sidewalk widening, along at least 50 percent of each **street** frontage of the major portion and the entire **street** frontage of the remaining portion of an **urban plaza**, the surface of the **urban plaza** shall be at the same elevation as the adjoining public sidewalk. Along at least 50 percent of each **street** frontage of the major portion and at least 50 percent of each **street** frontage of the remaining portion of an **urban plaza**, for a depth of at least 20 feet from the **street line**, there shall be no obstruction to public access to the **urban plaza** from a sidewalk or sidewalk widening. For the remaining 50 percent of the frontage and within 20 feet of the **street line**, no walls or other obstructions shall be higher than three feet above the **curb level** of the **street line** in front of the **urban plaza**. However, the City Planning Commission may permit, by authorization, certain obstructions such as light stanchions, flag poles, trash receptacles, public space signage or other features to be located in the **urban plaza** within 20 feet of the **street line**, provided that the Commission finds that:

- (i) such obstructions are desirable or necessary features for the public enjoyment of the **urban plaza**; and
- (ii) sufficient public access additional to the minimum required under the provisions of this paragraph (Circulation and access) is provided to offset any adverse impact on public circulation or access caused by the obstructions or features permitted by such authorization.

The Commission shall furnish a copy of the application for such authorization to the affected Community Board and the local Council Member at the earliest possible stage and will give due consideration to their opinions as to the appropriateness of such obstructions. If the Community Board or local Council Member elects to comment on such application, it must be done within 45 days of such application.

- (2) The level of an **urban plaza** shall not at any point be more than three feet above or below the **curb level** of the nearest adjoining **street** in front of the major portion of the **urban plaza**; however, an **urban plaza** with an area of 10,000 square feet or more may additionally have a maximum of 15 percent of its area at an elevation more than three feet above or below, but not more than five feet above or below **curb level** of the nearest adjoining **street** in front of the major portion of the **urban plaza**.
- (3) Where there is a grade change of at least 2.25 feet in 100 feet along a portion of a **street** fronted upon, for a distance of at least 75 feet, by an **urban plaza** with an area of 10,000 square feet or more, the level of such **urban plaza** may be at any elevation that is not more than five feet above or below the **curb level** of the nearest adjoining **street** in front of the **urban plaza**. Along the length of frontage not required for access, no wall higher than three feet above the level of the adjoining sidewalk may be constructed.
- (4) For areas of **urban plazas** not obstructed by permitted obstructions as set forth in paragraph (f)(1) of this Section, a circulation path shall be provided of at least five feet clear width. A major public path at least eight feet in width shall extend to at least 75 percent of the depth of the major portion of the **urban plaza**, measured from the **street line**.
- (5) Where an entry to a subway station exists in the sidewalk area of a **street** on which an **urban plaza** fronts and such entry is not replaced within the **urban plaza** itself, the **urban plaza** shall be **developed** at the same elevation as the adjacent sidewalk for a distance of at least 15 feet in all directions from the entry superstructure. Such **urban plaza** area around a subway entry shall be free of all obstructions.
- (6) Where an entry to a subway station is provided within the **urban plaza** itself, stairs shall have a minimum width of 10 feet.
- (7) All **urban plazas** shall be accessible to the public at all times, except where the City Planning Commission has authorized a nighttime closing in accordance with Section 37-06 or, within C6-4X Districts, for a **development** or **enlargement** with more than 25 percent of its total **floor area** occupied by **residential use**, where the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that:
 - (i) the enclosure or barrier that limits public access shall not obstruct access to the **urban plaza** or impede pedestrian circulation into, through or along the frontage of the **urban plaza** during hours of public access, and shall allow visibility of the **urban plaza** when the enclosure or barrier is in closed position;
 - (ii) public access to the **urban plaza** will be provided, at a minimum, between the hours of 7:00 a.m. and 8:30 p.m. from May 1 to September 30 and from 7:00 a.m. to 7:00 p.m. from October 1 to April 30, and that the hours of public access to the **urban plaza** shall be prominently displayed on a plaque affixed to the enclosure or barrier at each **street** frontage of the **urban plaza**; and
 - (iii) the **urban plaza** shall be illuminated at night in accordance with paragraph (n) of this Section.

All applications for such certification shall include detailed plans demonstrating compliance with the provisions of this paragraph, (f)(7), inclusive. The plans shall include, but not necessarily be limited to, a site plan and elevation showing location and dimensions of the proposed gates, fences or other enclosure devices, and signage indicating hours of public access to the **urban plaza**. All such plans, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of certification pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the restricted hours of public access of an **urban plaza**. The recording information shall be included on the certificate of occupancy for any **building**, or portion thereof, on the **zoning lot**, issued after the recording date.

(g) Permitted obstructions

- (1) **Urban plazas** shall be unobstructed from their lowest level to the sky except for the following features, equipment and appurtenances normally found in **public parks** and playgrounds: fountains and reflecting pools; waterfalls; sculptures and other works of art; benches; seats; trees planted at grade or in planting beds; bushes and flowers in planters or in planting beds; arbors or trellises over public seating areas; litter receptacles; bicycle racks; outdoor furniture; lights and lighting stanchions; flag poles; public telephones; public toilets; temporary exhibitions; awnings or canopies over the entrances to retail stores fronting on the **urban plaza**; bollards; subway station entrances, which may include escalators; and drinking fountains. If drinking fountains are provided, at least one fountain shall be accessible to wheelchair users by being 30 inches high, hand-and-foot operated, and display the International Symbol of Access. In addition to the obstructions listed in this paragraph, **urban plazas** having an area of 10,000 square feet or more may include an open air amphitheater or an outdoor ice skating rink. However, an area occupied in aggregate by such permitted obstruction shall not exceed the maximum percentage cited in paragraph (g)(2) of this Section.
- (2) Permitted obstructions may occupy a maximum percentage of the area of a **urban plaza**, as follows:

For **urban plazas** less than 5,000 square feet in area: 38 percent

For **urban plazas** at least 5,000 square feet in area and less than 10,000 square feet in area: 40 percent

For **urban plazas** 10,000 square feet or more in area: 50 percent

The area of permitted obstructions shall be measured by outside dimensions. Obstructions that are non-permanent or movable, such as movable chairs, open air cafes, or temporary exhibitions shall be confined within gross areas designated on the site plan, and not measured as individual pieces of furniture.

Trees do not count as obstructions for the purpose of calculating total area occupied by permitted obstructions. Planting beds and their retaining walls for trees count as obstructions.

- (3) Kiosks and open air cafes may be placed within an **urban plaza** upon certification, pursuant to paragraphs (g)(5) and (g)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of paragraph (g).

Where a kiosk is provided, it shall be a one-story structure, predominantly of light-colored materials, such as metal, glass, plastic or fabric as approved by the Department of Buildings in conformance with the Building Code, that, including roofed areas, does not occupy an area in excess of 150 square feet, except that where the **urban plaza** has an area of less than 5,000 square feet, the aggregate area of the kiosks shall not exceed 100 square feet measured by exterior dimensions. The aggregate area occupied by kiosks in an **urban plaza** larger than 5,000 square feet shall not exceed 150 square feet or 1.5 percent of the total area of the **urban plaza**, whichever is greater, provided no one kiosk occupies an area of more than 150 square feet. A kiosk may be freestanding or may be attached on only one side to a wall of the **building** of the **development** or a **building** on the adjacent **zoning lot**. Any area occupied by a kiosk shall be excluded from the definition of **floor area**, and may be occupied by **uses** such as news or magazine stands, candy stands, flower stands or information booths.

Where an open air café is provided, it shall occupy an aggregate area not more than 20 percent of the total area of the **urban plaza**. It shall be a permanently unenclosed restaurant or eating or drinking place, permitted by applicable district regulations, which may have waiter or table service, and shall be open to the sky except that it may have a temporary fabric roof in conformance with the Building Code. An open air café must be accessible from all sides where there is a boundary with the remainder of the **urban plaza**. No kitchen equipment shall be installed within an open air cafe; however, kitchen equipment may be contained in a kiosk adjoining an open air cafe. An open air cafe qualifying as a permitted obstruction shall be excluded from the definition of **floor area**.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or **uses** occupying kiosks may serve customers in an **urban plaza** through open windows. In all cases, only **uses** permitted by the applicable district regulations may occupy **urban plazas** or front on **urban plazas**.

- (4) Open air amphitheaters and open air ice skating rinks that charge admission may be placed within an **urban plaza** upon certification pursuant to paragraphs (g)(5) and (g)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of this paragraph (Permitted obstructions).
- (5) Kiosks and open air cafes that comply with the provisions of paragraph (g)(3) of this Section, and open air amphitheaters or open air ice skating rinks that charge admission may be placed within the area of an **urban plaza** upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, that:
- (i) such **use** promotes public use and enjoyment of the **urban plaza**;
 - (ii) such **use** complements and stabilizes desirable **uses** in the surrounding area;
 - (iii) such **use** is provided in accordance with the requirements set forth in this Section; and
 - (iv) the owners of such **use** will maintain such **use** in accordance with the provisions of paragraph (q) (Maintenance) of this Section.

All applications for the placement of kiosks, open air cafes, open air amphitheaters or open air ice skating rinks that charge admission within an **urban plaza** filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section. All such plans for kiosks, open air cafes, open air amphitheaters or open air ice skating rinks that charge admission, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification for the kiosk, open air café, open air amphitheater or open air ice skating rink that charges admission, pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the placement of the kiosk, open air café, open air amphitheater or open air ice skating rink that charges admission within the **urban plaza**. The recording information shall be included on the certificate of occupancy for any **building**, or portion thereof, on the **zoning lot** issued after the recording date.

- (6) An application for certification shall be filed with the Chairperson of the City Planning Commission, and the Chairperson shall furnish a copy of the application for such certification to the affected Community Board at the earliest possible stage. The Chairperson will give due consideration to the Community Board's opinion as to the appropriateness of such a facility in the area and shall respond to such application for certification within 60 days of the application's receipt.

The Chairperson shall file any such certification with the City Council. The Council, within 20 days of such filing, may resolve by

majority vote to review such certification. If the Council so resolves, within 50 days of the filing of the Chairperson's certification, the Council shall hold a public hearing and may approve or disapprove such certification. If, within the time periods provided for in this Section, the Council fails to act on the Chairperson's certification, the Council shall be deemed to have approved such certification.

Such certification shall be effective for a period of three years but, upon application, may be renewed for a similar period by the Chairperson of the City Planning Commission.

(h) Prohibition of driveways, parking spaces, loading berths, exhaust vents and building trash storage facilities

No driveways, parking spaces, passenger drop offs or loading berths shall be permitted within an **urban plaza**. No building trash storage facilities are permitted within an **urban plaza**, nor shall any building trash storage facility be accessed or serviced through the **urban plaza**. If parking spaces, passenger drop-offs, driveways, loading berths or building trash storage facilities are located near or adjoin an **urban plaza**, they shall be separated from it by a building wall or planted area sufficient to visually conceal these facilities and any vehicles therein from any point in the **urban plaza**.

No exhaust vents are permitted on any **urban plaza** or on the building wall of the **development** fronting upon the **urban plaza**, except where such vents on the building wall are more than 8 feet, 6 inches above the level of the **urban plaza**.

(i) Seating

There shall be a minimum of one linear foot of seating for each 30 square feet of **urban plaza** area, except that for **urban plazas** fronting upon a **street** having a grade change of at least 2.25 feet in 100 feet or for through **block urban plazas**, there shall be a minimum of one linear foot of seating for each 40 square feet of **urban plaza** area.

Not more than 50 percent of the linear seating capacity may be in movable seats that may be stored between the hours of sunset and sunrise.

The following standards shall be met for all required seating:

- (1) Seating shall have a minimum depth of 16 inches; however, seating with backs shall have a minimum depth of 14 inches and a maximum depth of 22 inches and backs shall be at least 12 inches high. Seating 30 inches or more in depth shall count double, provided there is access to both sides.
- (2) At least 75 percent of the required seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent walking surface and at least 50 percent of this seating shall have backs at least 12 inches high. Seating higher than 36 inches or lower than 12 inches above the level of the adjacent walking surface shall not count towards meeting the seating requirements.
- (3) The flat tops of walls including but not limited to those that bound planting beds, fountains and pools may be counted as seating when they conform to the dimensional standards in paragraphs (f)(1) and (f)(2) of this Section, provided that they are made of stone, concrete or similar composite material, wood or plastic with a smooth surface and rounded upper edges with a radius of at least one inch to ensure seating comfort.
- (4) Movable seating or chairs, excluding seating for open air cafes, may be credited as 18 inches of linear seating per chair.
- (5) Steps, seats in outdoor amphitheaters and seating of open air cafes do not count towards meeting the seating requirement.
- (6) Seating for any **use** within an **urban plaza** is subject to applicable articles and amendments of the New York City Building Code.
- (7) For the benefit of persons with disabilities, a minimum of five percent of the required seating shall have backs.

(j) Planting and trees

For an **urban plaza** not exceeding 2,000 square feet in area, four trees are required.

For an **urban plaza** greater than 2,000 square feet in area but not exceeding 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of **urban plaza** area.

For an **urban plaza** greater than 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of **urban plaza** area for the first 6,000 square feet of area and one additional tree is required for every 1,000 square feet, or part thereof, of the remaining **urban plaza** area.

For all **urban plazas**, at least 50 percent of the required plaza trees shall be planted with gratings flush to grade.

Where trees are planted within an **urban plaza**, they shall measure at least four inches in caliper at the time of planting. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surface. Trees shall be planted at a maximum spacing of 25 feet within a single planting bed.

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and 3 feet, 6 inches for trees.

Street trees are required to be planted in the public sidewalk area adjacent to a **zoning lot** that contains bonus **floor area** for **urban plazas**. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire **street** frontage of the **zoning lot**, excluding the frontage occupied by driveways. The length of frontage of the **zoning lot** for the purpose of computing required **street** trees may also be reduced by 50 feet for each **street** intersection fronted by the **zoning lot**. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches.

Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required **street** trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of **streets** on the same **block** as the **zoning lot** to which it has frontage or within the **urban plaza**.

(k) Mandatory allocation of frontages for permitted **uses**

At least 50 percent of the total frontage of building walls of the **development** fronting on an **urban plaza**, or fronting on an **arcade** adjoining an **urban plaza**, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitted. All such **uses** shall be directly accessible from the major portion of the **urban plaza** or adjoining arcade.

The remaining frontage may be occupied by other **uses**, lobby entrances or vertical circulation elements, in accordance with the district regulations.

Frontage on the **urban plaza** that is occupied by a building lobby shall not exceed 75 feet or 40 percent of the total frontage of the **development's** building walls on the major portion of the **urban plaza**, whichever is less.

The building frontage on the major portion of the **urban plaza** shall be treated with clear, untinted transparent material for 50 percent of its surface area below 14 feet above the **urban plaza** level, or the ceiling level of the ground floor of the **building**, whichever is lower.

(l) Paving

The paving of the **urban plaza** shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the **street** sidewalk area adjacent to the **development** may be treated with design patterns and materials sympathetic to that of the paving of the **urban plaza**. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

(m) Standards of accessibility for persons with disabilities to **urban plazas**

- (1) There shall be at least one path of travel conforming to the standards set forth in paragraph (m)(2) of this Section, providing access to each of the following:
 - (i) the major portion of an **urban plaza**;
 - (ii) any building lobby accessible to the **urban plaza**; and
 - (iii) any **use** that may be present on or adjacent to the **urban plaza**.
- (2) The following standards shall apply to assure access for persons with disabilities:
 - (i) Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.
 - (ii) Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than 1:12, a non-skid surface and, for open-edged ramps, a two-inch high safety curb. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet long.
 - (iii) All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.
 - (iv) Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

(n) Lighting and electrical power

Urban plazas shall be illuminated with a minimum level of illumination of not less than two horizontal foot candles (lumens per foot) throughout all walkable and sitting areas and a minimum level of illumination of not less than 0.5 horizontal foot candles (lumens per foot) throughout all other areas. Such level of illumination shall be maintained from sunset to sunrise. A lighting schedule, including fixtures, wattage and their locations and designs together with a diagram of light level distribution shall be part of the required detailed design plans as set forth in this Section. Electrical power shall be supplied by one or more outlets furnishing a total of at least 1,200 watts of power for every 4,000 square feet, or fraction thereof, of the area of an **urban plaza**.

(o) Public space signage systems

The following public space signage systems shall be required for all **urban plazas**:

(1) Entry plaque

The entry plaque shall be located at each **street** frontage or point of pedestrian entry to the **urban plaza**. A maximum of two entry plaques may be provided. The entry plaque shall contain:

- (i) a public space symbol which is at least 14 inches square in dimension; has a white background; has a grid of four (4) straight lines no greater than one-eighth inch wide and green in color; and has a tree-shaped symbol as shown;

- (ii) lettering at least two inches in height stating "OPEN TO PUBLIC." This lettering shall be located within nine inches of the public space symbol; and
- (iii) an International Symbol of Access for persons with disabilities that is at least three inches square.

The entry plaque shall be mounted on a wall or a permanent free-standing post with its center five feet above the elevation of the nearest walkable pavement. It shall be in a position that clearly identifies the entry into the **urban plaza**, and placed so that the entire entry plaque is obvious and directly visible, without any obstruction, along every line of sight from all paths of pedestrian access to the **urban plaza**.

(2) Information plaque

An information plaque, with a surface area of not less than two feet square, constructed from the same permanent materials as the entry plaque and located within the most frequently used area of the **urban plaza**, with clear lettering consisting of:

- (i) the type and quantity of trees, movable seating and permanent artwork;
- (ii) the name of the current owner of the building and the name, address and phone number of the person designated to maintain the **urban plaza** between the hours of 9:00 a.m. and 5:00 p.m.;
- (iii) the statement, "Complaints regarding this urban plaza may be addressed to the Department of City Planning or the Department of Buildings of the City of New York"; and
- (iv) the statement, "This urban plaza is accessible to persons with disabilities."

(p) **Signs**

An **urban plaza** shall be treated as a **street** for the purposes of the applicable **sign** regulations. **Signs**, except for the plaque required by paragraph (o) of this Section, are permitted only as **accessory** to **uses** permitted within the **urban plaza** and **uses** adjoining the **urban plaza**, and are otherwise regulated by the applicable district regulations set forth in Section [32-60](#) (SIGN REGULATIONS).

(q) Maintenance

- (1) The building owner shall be responsible for the maintenance of the **urban plaza** including, but not limited to, the confinement of permitted obstructions, litter control, and the care and replacement of vegetation within the **zoning lot** and in the **street** sidewalk area adjacent to the **zoning lot**.
- (2) Litter receptacles shall be provided with a minimum capacity of one cubic foot for each 2,000 square feet of **urban plaza** area excluding the area of any sidewalk widening. An additional capacity of one cubic foot of litter receptacle shall be provided for each 2,000 square feet of **urban plaza** area in connection with outdoor eating services or other **uses** permitted within **urban plazas** that generate litter.
- (3) Kiosks, open air cafes, open air amphitheaters and open air ice skating rinks permitted in accordance with the provisions of this Section shall be confined within areas designated on building plans as available for occupancy by such **uses**. Encroachment by an **urban plaza use** outside an area so designated shall be a valid ground for complaint and removal.
- (4) Performance bond

Prior to obtaining any certificate of occupancy from the Department of Buildings, the building owner shall post with the Comptroller of the City of New York, a performance bond, City securities or fixed income securities, at the Comptroller's discretion, to ensure the mandatory tree planting, movable seating exclusive of any seating for open air cafes, and the litter-free maintenance of the **urban plaza** including the replacement of such trees and movable furniture during the life of the **development**.

In the event of a failure in the required performance, the Chairperson of the City Planning Commission shall notify the building owner in writing of such failure and shall stipulate the period of time in which the building owner has to correct the failure. If the failure is not corrected in the stipulated time, the Chairperson may declare the building owner in default in the required performance and the City may enforce the obligation by whatever means may be appropriate to the situation, including letting contracts for doing any required planting, installation or maintenance and paying all labor, material and other costs connected with such work from the bond or City securities that the building owner is required to provide.

In the event that the City enforces the aforementioned obligation as provided for in this paragraph (Performance bond), the building owner shall, within 90 days of such enforcement, provide the City with an additional bond or City securities in an amount not less than that which was expended to cure the default.

The value of the bond or City securities if tendered prior to January 1, 1998, shall be at a rate of \$750 per required tree, \$100 per movable chair and \$200 per 1,000 square feet of **urban plaza** for litter removal as set forth in this Section.

Effective January 1, 1989, and at five-year intervals thereafter, the City Planning Commission shall establish new rates for the mandatory tree planting, movable seating and litter-free maintenance of the **urban plaza**.

(r) Penalties for violations

Failure to comply with the conditions or restrictions of the bonused **urban plaza** shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

No foundation permit shall be issued by the Department of Buildings for any **development** that includes an **urban plaza** without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions

of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the **zoning lot**; a site plan indicating the area and dimensions of the proposed **urban plaza** and the location of the proposed **development** or **enlargement** and all existing **buildings** temporarily or permanently occupying the **zoning lot**; computations of proposed **floor area**, including bonus **floor area**; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for **urban plazas**, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the **urban plaza** pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any **development** or **enlargement** on the **zoning lot**. The recording information shall be included on the certificate of occupancy for any **building**, or portion thereof, on the **zoning lot** issued after the recording date.
