- (d) Open areas described in paragraphs (b) and (c) of this Section may be occupied by features, equipment and appurtenances normally found in #public parks# and playgrounds, as listed in Section 37-726 (Permitted obstructions). In addition, gates or fences shall be permitted for open areas described in paragraph (c) of this Section, provided such gates are fully open during business hours, such gates or fences are not higher than five feet, and are a minimum of 65 percent open to permit visibility of the open area. No parking areas shall be permitted in any open area. Driveways in any open area shall lead directly to an enclosed parking or loading facility, except that portes-cocheres are allowed in any open area on #zoning lots# with at least 80,000 square feet of #lot area#. #Building# trash storage facilities and mechanical equipment shall be screened by a wall or planted area sufficient to visually conceal these facilities from the #street# or any public access area. All paved areas shall be accessible to the public during business hours and have lighting with a minimum level of two foot candles. Edges of planters in all landscaped areas shall not be higher than 2 feet, 6 inches above the level of any adjacent paved area.

93-70 - PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES

LAST AMENDED
4/29/2014

Public access shall be provided for special sites as specified in this Section, inclusive. In the event of a conflict between the provisions of this Section, inclusive, and any underlying regulation, the provisions of this Section shall govern.

No building permit shall be issued for any #development# or #enlargement# on such sites other than for an #ERY Culture, Festival and Exhibit Facility# until the Chairperson of the City Planning Commission certifies to the Department of Buildings that the provisions of this Section have been met.

An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of all required public access areas and the location of all proposed #buildings#, and a detailed plan or plans demonstrating compliance with the provisions of this Section. For certifications relating to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, the requirements set forth in paragraph (h) of Section 93-71, shall apply. For certifications relating to 450 West 33rd Street, the requirements set forth in Section 93-722 shall apply. For certifications relating to the Ninth Avenue Rail Yard, the requirements set forth in Section 93-732 shall apply.

Plans for public access areas shall be set forth in an instrument in a form acceptable to the City, and setting forth such provisions as necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification under this Section. The recording information shall be

included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

The Chairperson shall allow for the phased development of public access areas upon certification to the Commissioner of Buildings that a plan has been submitted that provides for the completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase. The completion of the Cultural Facility Plaza shall be deemed integral only to an #ERY Culture, Festival and Exhibit Facility# and to no other #use# or #development# in the Eastern Rail Yard Subarea A1. Where the public use and enjoyment of a public access area is contingent upon #development# on an adjacent #zoning lot# that has not yet occurred, the Chairperson may allow for the future development of such public access area at the time that the adjacent #zoning lot# is #developed#. For the Eastern Rail Yard Subarea A1, such phased development plan may provide for the outdoor plaza described in paragraph (b) of Section 93-71 to be constructed in phases. For 450 West 33rd Street and the Ninth Avenue Rail Yard, such phased development plan shall comply with additional provisions set forth in Sections 93-722 and 93-732, respectively.

For any portion of any #development# or #enlargement# other than an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of any #development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is substantially complete, and the public access area is open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is complete and that all public access requirements of this Section have been met in accordance with the plans for such public access areas. Notwithstanding the foregoing, for #zoning lots# with multiple #buildings# for which the Chairperson has certified that a plan has been submitted that provides for the phased development of public access areas through completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase, such certifications shall be made with respect to substantial completion or completion of the public access areas integral to each such phase, except as provided in paragraph (h) of Section 93-71, and Section 93-732. Issuance of a temporary or permanent certificate of occupancy for any #building#, or portion of a #building#, not occupied by an #ERY Culture, Festival and Exhibit Facility# shall not be conditioned upon the completion, substantial completion or improvement of the Culture Facility Plaza.

For an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for such #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza described in paragraph (j) of Section 93-71 is substantially complete and open to and useable by the public and no permanent certificate of occupancy from the Department of Buildings may be issued for the #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza is complete. If a moveable portion of the #ERY Culture, Festival and Exhibit Facility# is not initially constructed as part of the #ERY Culture, Festival and Exhibit Facility# but is constructed at a later date, any closure of the Culture Facility Plaza necessary for such construction shall not affect the validity of any certificate of occupancy previously issued for the #ERY Culture, Festival and Exhibit Facility#. No temporary certificate of occupancy for the moveable portion that is thereafter constructed, or an amended temporary certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is substantially complete and open to and useable by the public and no permanent certificate of occupancy for the moveable portion that is thereafter constructed, or an amended permanent certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is complete.

Any #development# in the Eastern Rail Yard Subarea A1 shall provide public access areas in accordance with the following requirements:

(a) Amount of public access areas

Public access areas shall be provided in an amount not less than 55 percent of the #lot area# of the #zoning lot#. At least 40 percent of the #lot area# of the #zoning lot# shall be publicly accessible and open to the sky. At least an additional 15 percent of the #lot area# of the #zoning lot# shall be publicly accessible and may be either open or enclosed. Such open or enclosed areas shall be comprised of the types of public access areas listed in paragraphs (b) through (f), and paragraphs (h) and (j), of this Section. For purposes of determining compliance with such 55 percent and 40 percent requirements, the Culture Facility Plaza, any portion of the connection to the High Line allowed to be covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility# pursuant to paragraph (f), and any portion of the connection to the High Line that is not required to have a clear height of 60 feet pursuant to paragraph (f) shall be

deemed publicly accessible and open to the sky at all times, including any time when a moveable portion of an #ERY Culture, Festival and Exhibit Facility# extends over the Culture Facility Plaza or the connection to the High Line. Open areas may also include the area of the sidewalk widening along Eleventh Avenue required pursuant to Section 93-61 and, at the option of the owner, the #Tenth Avenue Spur#. If the Cultural Facility Plaza is closed during the construction of the moveable portion of the #ERY Culture, Festival and Exhibit Facility#, the amount of publicly accessible open space shall not be considered reduced during such period.

All public access areas listed in this Section, other than the #ERY High Line# and the #Tenth Avenue Spur#, shall be accessible to the public, as follows:

- (1) unenclosed public access areas shall be accessible between the hours of 6:00 a.m. and 1:00 a.m., except that any portions of the outdoor plaza, as described in paragraph (b) of this Section, designed and constructed for purposes of vehicular use, shall be accessible at all times, except as necessary to perform maintenance and repairs or address hazardous or emergency conditions;
- (2) enclosed portions of the through block connection and connection to the public plaza, described in paragraphs (d) and (e) of this Section, shall be accessible to the public between the hours of 8:00 a.m. and 10:00 p.m.; and

All public access areas, other than the #ERY High Line# and the #Tenth Avenue Spur#, shall include public space signage erected at conspicuous locations. Such signs shall include the statement "Open to the Public," followed by the hours of operation specified in this paragraph (a). The public space signage for the Culture Facility Plaza may include additional information, consistent with the provisions of paragraph (j) of this Section.

(b) Outdoor plaza

A publicly accessible space, open to the sky (hereinafter referred to as the "outdoor plaza"), shall be located within the area bounded by West 33rd Street, the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East, a line 250 feet north of and parallel to West 30th Street, Eleventh Avenue, a line 220 feet south of and parallel to West 33rd Street, and the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West. Such open area may extend beyond such boundaries and have necessary grade changes, and up to 10 percent of the area of such outdoor plaza may be covered by a #building# or other structure#

In addition, a #building# containing eating or drinking places and #uses# listed in Use Groups 6A and 6C may be located within the outdoor plaza (but shall not be included as public access area pursuant to paragraph (a) of Section 93-71), provided that any such #building#:

- (1) is located within the area west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and within 400 feet of West 30th Street;
- (2) covers no more than 3,600 square feet of the #zoning lot# at the level of the outdoor plaza and above;
- (3) contains no more than 7,200 square feet of #floor area# at the level of the outdoor plaza and above, and no more than 3,600 square feet of #floor area# below the level of the outdoor plaza;
- (4) has a maximum north-south dimension of 85 feet at the level of the outdoor plaza and above;
- (5) is located such that the maximum east-west dimension measured along a line 355 feet from West 30th Street is 40 feet at the level of the outdoor plaza and above. For portions of the #building# located north or south of such line, the maximum east-west dimension shall increase at a rate of one foot in the east-west dimension for every four feet in the north-south dimension from such line, up to a maximum east-west dimension of 60 feet; and
- (6) has a maximum perimeter wall height of 24 feet, and a maximum #building# height of 30 feet. Above a height of 24 feet, no portion of a #building# may penetrate a #sky exposure plane# that begins at a height of 24 feet above the perimeter walls and rises over the #building# at a slope of 2.5 feet of horizontal distance for each foot of vertical distance. Such heights shall be measured from the highest level of the adjoining portions of the outdoor plaza.

No #building# location or setback requirements shall apply to any #building# walls facing the northern, eastern or southern boundaries of the outdoor plaza.

#Building# walls fronting upon the western boundary of the outdoor plaza shall extend along at least 70 percent of the length of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and shall rise to a

minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, a setback at least 20 feet in depth is required from such prolongation line. However, such #building# wall may rise without setback at such prolongation line, provided the aggregate width of such #building# wall does not exceed 50 percent of the width of such line and provided all other portions of the #building# that exceed a height of 120 feet are set back at least 20 feet from such prolongation line at a height not lower than 90 feet.

The retail and glazing requirements of Section 93-14 (Ground Floor Level Requirements) shall apply to at least 70 percent of the length of all #building# walls facing each side of the outdoor plaza, except that such retail requirements shall not apply to any #building#, or portion of a #building#, located west of the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East and within 220 feet of West 30th Street containing #uses# in Use Group 3 or 4 or an #ERY Culture, Festival and Exhibit Facility#.

(c) Public plaza

A publicly accessible space, (hereinafter referred to as a “public plaza”), shall be provided at the intersection of Tenth Avenue and West 30th Street. Such public plaza shall have a minimum area of 12,000 square feet with a minimum frontage of 180 feet along Tenth Avenue and a minimum frontage of 60 feet along West 30th Street. Such public plaza shall be open to the sky except that such space may be covered by the #ERY High Line# structure, including any connections to the #ERY High Line# or other design features, as well as a #building# or portion of a #building# as allowed pursuant to Section 93-514, paragraph (a)(4), except that no #building# or portion of a #building# may encroach within the area that is within 60 feet of Tenth Avenue and 180 feet of West 30th Street. In addition, no more than 50 percent of the public plaza shall be covered by the permitted obstructions described in Section 37-726, paragraph (a), as well as any vents or shafts that are placed by the Department of Environmental Protection within the portion of the public plaza that is subject to an access easement.

Such public plaza shall contain the following amenities:

- (1) no less than 120 linear feet of fixed seating;
- (2) no less than 12 moveable tables and 48 moveable chairs; and
- (3) no less than four trees or multi-stemmed equivalents measuring at least four inches in caliper at the time of planting, which trees or multi-stemmed equivalents may be planted in a planting bed. In addition, such public plaza shall contain at least two of the following additional amenities:
 - (i) artwork;
 - (ii) water features; or
 - (iii) food service located in a retail space directly accessible from the public plaza.

The glazing requirements of Section 93-14, paragraph (c), shall apply to at least 70 percent of the length of all #building# walls, other than the #building# walls of any facility operated by the Long Island Rail Road, or its successor, facing each side of the public plaza. In addition, at least 25 percent of the frontage of all #building# walls facing the portion of the public plaza that is within 60 feet of Tenth Avenue and 180 feet of West 30th Street shall be occupied by #uses# listed in Use Groups 6A and 6C or the connection to the public plaza described in paragraph (e) of this Section.

(d) Through block connection

A publicly accessible through block connection shall be provided connecting the outdoor plaza with the Tenth Avenue sidewalk within 50 feet or anywhere north of the center line of West 32nd Street. Public access shall also be provided between such through block connection and the Tenth Avenue bridge at the time such bridge is constructed pursuant to paragraph (g) of this Section, and may connect to other public access areas or sidewalks. Such through block connection may be open to the sky or enclosed, need not be linear and may have necessary grade changes.

Such through block connection shall have a minimum width of 30 feet and any enclosed portion shall have a minimum height of 30 feet. As an alternative, if an enclosed atrium space adjacent to the outdoor plaza is provided as part of the through block connection that meets all the following dimensional requirements: (1) comprises no less than 4,000 square feet with a minimum height of 60 feet and a minimum depth of 50 feet as measured by a line parallel from the #building# wall facing the outdoor plaza; (2) is free of #building# structural obstructions other than vertical circulation and other elements occupying no more than 500 square feet in the aggregate; and (3) contains interior walls facing such area that comply with the ground floor retail #use# requirements of Section 93-14, paragraph (a), then such through block connection may: (i) have a minimum width of 24 feet; and (ii) have a minimum height of 34 feet for at least 70 percent of the aggregate enclosed area of the through block connection (including the atrium), provided that no portion of the through block connection shall have a minimum height less than 17 feet.

The retail and glazing requirements of Section 93-14 shall apply to at least 50 percent of the length of all #building# walls facing each side of the through block connection (or, if enclosed, the interior walls facing the through block connection). The through block connection may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the through block connection, and a single path of travel no less than 24 feet in width is maintained. Vertical circulation elements traversing the grade changes of the through block connection shall be considered a part of the through block connection and not an obstruction.

(e) Connection to public plaza

A public way, open or enclosed, shall be provided connecting the outdoor plaza or the through block connection with the public plaza. Such connection need not be linear and may have necessary grade changes. The retail and glazing requirements of Section 93-14 shall apply to at least 50 percent of the length of all #building# walls facing each side of such connection (or, if enclosed, the interior walls facing the connection). The minimum clear width of such public way shall be 20 feet. For any portions that are enclosed, the minimum clear height shall be 34 feet within at least 50 percent of the enclosed area of the connection to the public plaza, provided that no portion of the connection to the public plaza shall have a minimum height less than 17 feet. The connection to the public plaza may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the connection to the public plaza and a single path of travel no less than 20 feet in width is maintained. Vertical circulation elements traversing the grade changes of the connection to the public plaza shall be considered a part of the connection to the public plaza and not an obstruction.

(f) Connection to High Line

A publicly accessible connection between the High Line and the outdoor plaza (hereinafter referred to as the "connection") shall be provided that has a minimum width, measured parallel to the High Line, of 60 feet and is located east of the Culture Facility Plaza. For a width of 60 feet measured parallel to the High Line, the clear height of the connection shall be at least 60 feet. Above such height, overhangs of the 60 foot width dimension of the connection shall be permitted by the movable portion of the #ERY Culture, Festival and Exhibit Facility#, provided that the angle of such overhang is a maximum of 14 degrees east of the vertical extension of the western edge of such 60 foot width, as measured from the intersection of such vertical extension with the 60 foot clear height of the connection. Additionally, such overhang shall project over no more than 16 feet of the 60 foot width dimension. Any portion of the connection east of the minimum 60 foot width shall, if covered, have a minimum clear height of 60 feet. The movable portion of the #ERY Culture, Festival and Exhibit Facility# shall be permitted to overhang any portion of the connection west of such minimum 60 foot width, provided that the angle of such overhanging portion is a maximum of 14 degrees measured at the western edge of the connection at its ground level. The glazing requirements of Section 93-14, paragraph (c), shall apply to at least 50 percent of the length of all #building# walls facing the connection.

(g) Tenth Avenue bridge

A publicly accessible pedestrian bridge shall be provided over Tenth Avenue linking the through block connections required pursuant to paragraph (d) of this Section and paragraph (a) of Section 93-72 (Public Access Areas at 450 West 33rd Street). Such bridge need not be constructed until the 450 West 33rd Street through block connection has been completed. Such bridge may be open or enclosed, have a minimum clear width of 30 feet and, if enclosed, have a minimum clear height of 15 feet. Such bridge shall be located within 10 feet of the center line of West 32nd Street and be at the same elevation as the through block connection required pursuant to paragraph (a) of Section 93-72.

(h) #ERY High Line# and #Tenth Avenue Spur#

The #ERY High Line# shall be provided as a publicly accessible open area. The #Tenth Avenue Spur# may, at the option of the owner, also be provided as a publicly accessible open area.

(1) In order to meet the public access area requirements of Section 93-71, paragraph (a), and this paragraph (h), the following shall be provided for the #ERY High Line#, and shall, if the owner has elected to include the #Tenth Avenue Spur# as a public access area, be further provided for the #Tenth Avenue Spur#:

- (i) Payment of the #High Line Rehabilitation Deposit#; or subject to entry into construction-related agreements with the City or its designee, completion of the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, not later than March 31, 2013, subject to a determination of force majeure by the City in accordance with the terms thereof. If the owner has elected to perform the rehabilitation work, then all such work shall be completed in accordance with plans and specifications prepared by or on behalf of the City;
- (ii) Payment of the #High Line Landscape Improvement Deposit#;

- (iii) Provision of #High Line Maintenance Funding#;
- (iv) An easement agreement allowing use of the #ERY High Line# for public space in accordance with the requirements of this paragraph (h), as well as for use and access for rehabilitation, improvement, maintenance and repair purposes, acceptable to the City.

Such requirements shall be set forth in agreements or instruments in a form acceptable to the City, including such provisions as are necessary to ensure compliance with the provisions of this Section. The execution of such agreements by the owner, and mortgagees and parties in interest of the owner, and, where appropriate, the filing and recordation of such instruments in the Borough Office of the City Register of the City of New York, indexed against the property, shall be a precondition to the Chairperson's certification to the Department of Buildings for a building permit under Section 93-70. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

- (2) No certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 shall be permitted unless the #ERY High Line# is included as a public access area for the initial phase in accordance with the provisions of this paragraph (h).
- (3) No crane permit shall be granted for construction of a #development# or #enlargement# in such initial phase until the Chairperson certifies to the Department of Buildings that: (i) either the #High Line Rehabilitation Deposit# has been made or all construction documents and instruments necessary for accomplishment of the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, in accordance with paragraph (h)(1)(i) of this Section, have been executed and delivered; and (ii) the #High Line Landscape Improvement Deposit# has been made.
- (4) No temporary or permanent certificate of occupancy for a #development# or #enlargement# in such initial phase shall be granted unless the Chairperson certifies to the Department of Buildings that (i) either the #High Line Rehabilitation Deposit# has been previously furnished or the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been completed in accordance with the construction documents and instruments; (ii) the initial installment of #High Line Maintenance Funding# has been delivered, provided and to the extent that the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been substantially completed and are open for use by the public; and (iii) the easement agreement described in paragraph (h)(1)(iv) of this Section, is in effect for the #ERY High Line#. The requirement for a certification of substantial completion of public access areas before the granting of a temporary certificate of occupancy for the #development# or #enlargement# within such phase pursuant to Section 93-70 shall not apply with respect to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#.
- (5) Nothing herein shall be construed to affect any obligation of the owner to make the #High Line Rehabilitation Deposit# at an earlier date, in accordance with the terms of agreements or instruments entered into by the parties, or to complete rehabilitation work for the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, by March 31, 2013, subject to a determination of force majeure by the City in accordance with the terms of such agreements.
- (6) Use by the City of the #High Line Landscape Improvement Deposit# for improvement of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, shall be subject to approval by the Chairperson, based upon a determination that the design and location of access points to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been arranged such that public use thereof will not result in any significant adverse impacts with respect to transit or pedestrians.

(i) Certifications for phased development pursuant to Section 93-70 granted before May 31, 2012

If a certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 was granted before May 31, 2012, such certification shall expire 45 days following such date and shall thereupon no longer be in force and effect. Within said 45-day period, a new application for certification pursuant to Section 93-70 and Section 93-71, paragraph (h), shall be filed by the owner which shall include the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, as public access areas associated with the initial phase, in addition to any other public access areas previously so certified. The expiration of any certification under Section 93-70 granted before May 31, 2012, shall not affect the validity of any permit issued by the Department of Buildings prior to the expiration of such 45-day period, provided the new application under Section 93-70 and Section 93-71, paragraph (h), is made within such 45-day period.

In the event that a certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 was granted before May 31, 2012, and a crane permit for the construction of a #development# or #enlargement# within such initial phase was granted prior to 45 days after May 31, 2012, the preconditions to issuance of a crane permit set forth in Section 93-71, paragraph (h), shall be prerequisites for the grant of any new certification for phased development made under this paragraph (i).

(j) Culture Facility Plaza

A publicly accessible space located east of and #abutting# the non-moveable portion of an #ERY Culture, Festival and Exhibit Facility#, and bounded to the north by the outdoor plaza and to the south by the #ERY High Line# shall be provided. During times when the Culture Facility Plaza is not covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility#, the Culture Facility Plaza may be used for purposes of outdoor events related to an #ERY Culture, Festival and Exhibit Facility#. Outdoor installations for such events, including seating, shall be restricted to the Culture Facility Plaza. All such events shall be open and accessible to the general public free of admission charge, provided that ticketed events with tickets available on a first come, first served, or timed basis, shall be permitted. During all times when the Culture Facility Plaza is not used for an #ERY Culture, Festival and Exhibit Facility# event or covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility#, the Culture Facility Plaza shall be open and accessible to the public between the hours of 6:00 a.m. and 1:00 a.m. Notwithstanding any other provision, the Culture Facility Plaza may be closed to the public not more than 12 days each calendar year for an event related to the #ERY Culture, Festival and Exhibit Facility#, provided that not less than five days prior to any such closing, notice is given to the applicable community board and is posted at conspicuous locations at such plaza. No #building# or portion of a #building# that is not used for an #ERY Culture, Festival and Exhibit Facility# shall have any obligation to comply with the requirements of paragraph (a), or this paragraph (j), of this Section related to the Culture Facility Plaza.

Such cost estimate shall be based upon construction documents prepared by a registered architect and submitted with the application for certification pursuant to this Section, and shall be subject to review and acceptance by the City; and

The Chairperson may, no more frequently than annually, require the submission of an updated or new letter of credit in an amount that reflects changes in costs over time, and such updated or new letter of credit shall be subject to the requirements and procedures of paragraph (b) of this Section, until such letter of credit is released based upon substantial completion.

Notwithstanding the foregoing, in the event that a temporary public access area plan is approved pursuant to Section 93-734 (Certification to temporarily modify public access areas for construction staging), no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with a phase of #development#, is substantially complete and in accordance with such temporary public access area plan, and the public access area, or portions thereof, are open and useable by the public. 93-823 - Parking permitted by special permit

LAST AMENDED

5/8/2013

When a #reservoir deficit# exists, the City Planning Commission may allow, by special permit, Use Group 6B offices to exceed the number of #accessory# off-street parking spaces permitted by Section 93-822, provided that:

- (a) within the vicinity of the site, there are insufficient parking spaces available;
- (b) the facility will not create or contribute to serious traffic congestion nor unduly inhibit vehicular and pedestrian movement;
- (c) the facility is so located as to draw a minimum of vehicular traffic to and through local #residential streets#; and
- (d) adequate reservoir space is provided at the vehicular entrance to accommodate vehicles equivalent in number to 20 percent of the total number of parking spaces, up to 50 parking spaces, and five percent of any spaces in excess of 200 parking spaces, but in no event shall such reservoir spaces be required for more than 50 vehicles. However, in the case of a facility with a capacity of 10 vehicles or less, the Commission may waive this condition.

In addition, the Commission shall find that the number of #accessory# off-street parking spaces in excess of the number permitted by Section 93-821, proposed to be added by the #development# or #enlargement# that is the subject of the application under review, does not exceed the #reservoir deficit#; and that such additional #accessory# off-street parking spaces, when added to the sum of the parking spaces specified in paragraphs (e)(2)(i), (e)(2)(ii) and (e)(2)(iii) of Section 93-821 do not exceed 5,905 spaces, except insofar as the limit of 5,905 spaces set forth in paragraph (e)(2) has been adjusted pursuant to the provisions of paragraph (e)(3) of Section 93-821. In making such finding, the Commission shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution.

The City Planning Commission may authorize parking facilities that do not comply with the provisions of paragraph (b) of Section 93-83 (Use and Location of Parking Facilities) and may authorize floor space used for parking and located above a height of 23 feet to be exempt from the definition of #floor area#, provided that:

- (a) below-grade parking has been provided to the fullest extent feasible, and such above-grade facility is necessary due to subsurface conditions such as the presence of bedrock, railroad rights-of-way or other conditions that impose practical difficulties for the construction of below-grade parking facilities;
- (b) the scale of the parking facility is compatible with the scale of #buildings# in the surrounding area;
- (c) the materials and articulation of the #street wall# of the parking facility are compatible with #buildings# in the surrounding area;
- (d) the ground floor level of such parking facilities that front upon #streets# is occupied by #commercial#, #community facility# or #residential uses# that activate all such adjoining #streets#, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from adjoining #streets# or public access areas with a densely planted buffer strip at least 10 feet deep. Where such screening is not desirable, such ground floor wall of the parking facility shall be articulated in a manner that provides visual interest;
- (e) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential floor area#, to minimize the visibility of the parking facility from adjoining #streets# or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;
- (f) for portions of parking facilities that are visible from #streets#, publicly accessible open areas or nearby properties, interior lighting and vehicular headlights are shielded to minimize glare on such #streets#, public access areas or properties; and

 - (b) to encourage the provision of housing with appropriate amenities in areas suitable for residential development;
 - (c) to improve vehicular and pedestrian circulation patterns by requiring limited curb cuts and uniform sidewalk widening, and encouraging the provision of public open space and other amenities as a related part of new development;
 - (d) to provide an incentive for redevelopment of the area in a manner consistent with the foregoing objectives which are integral elements of the Comprehensive Plan of the City of New York; and
 - (e) to promote the most desirable use of land in this area and thus to conserve the value of land and thereby protect the City's tax revenues.

In Area C, the maximum #floor area ratio# for any #residential# or #community facility use# on a #zoning lot# shall in no event be more than 1.25 and for #commercial use# be more than 1.50. The maximum #floor area# in a #mixed building# within the Special District shall be the maximum #floor area# permitted for either the #residential# portion, the #community facility# portion or the #commercial# portion of such a #building#, whichever permits the greatest amount of #floor area#.

LAST AMENDED
10/4/1973

#Development rights# from a #granting lot# may be conveyed, or otherwise disposed of:

- (a) directly to a #receiving lot#; or
- (b) to a #person# for subsequent disposition to a #receiving lot# all in accordance with the provisions of this Special District. Any #person# may convey interest in all or any portion of such #development rights# to another #person#, but such #development rights# may only be used for a #development# on a #receiving lot#.

In transferring #development rights# from #granting lots#, such bonus #floor area# shall not exceed 40 percent of the basic #floor area ratio# in Areas A, C and E, and shall not exceed 60 percent of the basic #floor area ratio# in Area D, as permitted on such #granting lots# by Section 94-09 (Special Bulk Regulations), inclusive.

94-094 - Authorization provisions for transfer of development rights to receiving lots

LAST AMENDED
2/2/2011

The City Planning Commission, on application after public notice and hearing, may authorize the addition of all or any portion of the #development rights# from a #granting lot# to the permitted #floor area# of a #receiving lot#, provided that:

- (a) the maximum #floor area# for any #development# on a #receiving lot# does not exceed the maximum #floor area# permitted by Section 94-092 (Maximum floor area ratio);
- (b) the #development# shall aid in achieving the general purposes and intent of this Chapter as set forth in Section 94-00 (GENERAL PURPOSES);
- (c) the design of the #development# shall not impair the character of the surrounding area or its future development;
- (d) the distribution of the #bulk# on the #receiving lot# permits adequate access of light and air to surrounding #streets# and properties;
- (e) the traffic created by the #development# will not create or contribute to serious traffic congestion and will make adequate provisions for unconstrained pedestrian circulation; and

- (f) the requirements set forth in Sections 94-093 (Transfer of development rights from granting lots), 94-12 (Recordation) and 94-13 (Certification) are satisfied.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

94-095 - Open space ratio

LAST AMENDED
10/4/1973

For the purposes of this Section, the minimum required #open space ratio# for a #building# on a #zoning lot# shall be 40.0. However, if a #zoning lot# is #developed# pursuant to Sections 94-08 (Special Floor Area Bonus Provisions) or 94-094 (Authorization provisions for transfer of development rights to receiving lots), then the minimum #open space ratio# may be modified as set forth in this Section. For every 0.10 increase in permitted #floor area ratio# on a #zoning lot#, the corresponding required #open space ratio# may be decreased by not more than 2.0. In no event shall the required #open space ratio# on a #zoning lot# be less than 25.0.

94-096 - Special permit for floor area, location within buildings, building height and related parking modifications within Area G

LAST AMENDED
3/22/2016

For #enlargements# to #buildings# in Area G, on #zoning lots# with a #lot area# of at least 10,000 square feet and existing on March 22, 2016, the City Planning Commission may:

- (a) modify the provisions of Section 94-092 (Maximum floor area ratio) to increase the permitted #floor area ratio# for #commercial use# to 2.0 provided that such #enlargement#:
 - (1) is designed so as not to impair the character of the surrounding area or its future development; and
 - (2) will not cause undue congestion on local #streets# or impair pedestrian circulation;
- (b) modify the height provisions of paragraph (a) of Section 33-431 (In C1 or C2 Districts with bulk governed by surrounding Residence District) relating to the requirements in Section 32-42 for location of #uses# within #buildings#, to allow a #commercial building# or portion thereof to exceed 30 feet in height or two #stories#, provided that such #building# shall not exceed a maximum height of 35 feet or three #stories#, whichever is less; and provided that the distribution of the #bulk# permits adequate access of light and air to surrounding #streets# and properties, and does not impair the view of the Bay; and
- (c) waive or reduce the number of #accessory# off-street parking spaces required by Section 36-21 (General Provisions) for such #use#, provided that the applicant has demonstrated that the number of #accessory# off-street parking spaces supplied is sufficient to meet the parking needs of such #use#.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

94-10 - SPECIAL REQUIREMENTS FOR BUILDING HEIGHT AND SETBACKS

LAST AMENDED
2/2/2011

The height and setback regulations set forth in Sections 23-631 (General provisions), 34-24 (Modification of Height and Setback Regulations) and 35-62 (Commercial Districts With an R1 Through R5 Residential Equivalent), shall not apply to #buildings# in the #Special Sheepshead Bay District#. Beyond the #initial setback distance# of 75 feet in Areas E and F, the #building# shall not exceed six #stories# or 75 feet, whichever is fewer.

In Areas G and H, a #building# shall not exceed three #stories# or 35 feet, whichever is fewer. However, the City Planning Commission may, by a special permit, modify such height restrictions, provided that:

- (a) the distribution of the #bulk# permits adequate access of light and air to surrounding #streets# and properties, and does not impair the view of the Bay; and
- (b) the height of such #building# does not exceed five #stories# or 50 feet, whichever is fewer.

The Commission may prescribe appropriate conditions and safeguards to protect the view of the Bay and to minimize the adverse effects on the character of the surrounding areas.

Chapter 5 - Special Transit Land Use District (TA)

95-00 - GENERAL PURPOSES

LAST AMENDED
11/7/1974

The "Special Transit Land Use District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include the following specific purposes:

- (a) to minimize the conflict between normal pedestrian movements on public sidewalks and access to underground transit systems, by requiring developments within the Special District to provide access to underground transit or other subway amenities;
- (b) to reduce congestion on city streets in the vicinity of transportation nodes, by encouraging the provision of adequate underground pedestrian circulation systems;
- (c) to require adequate access of light and air to the subway mezzanines or station areas of the underground transit system and other related facilities in order to provide greater visibility and safety to below ground spaces;
- (d) to encourage development that reinforces and preserves the character of the existing communities within the area, by promoting needed pedestrian amenities;
- (e) to coordinate the present and future relationship of land uses within the Special District including weather protected public access to the underground transit system; and
- (f) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

95-01 - Definitions

LAST AMENDED
2/2/2011

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS).

95-02 - General Provisions

LAST AMENDED
2/2/2011

#Special Transit Land Use Districts# are mapped in the vicinity of existing or proposed subway stations. Except as modified by the express provisions of this Chapter, the regulations of the underlying district remain in effect.

Whenever this Special District overlaps another Special District and imposes contradictory regulations, the provisions of the #Special Transit Land Use District# shall apply. Nothing contained in this regulation shall be understood to supersede Landmark or Historic District designations of the New York City Landmarks Preservation Commission.

95-03 - Transit Easement

LAST AMENDED
11/30/2017

Any #development# or #enlargement# involving ground level construction within the #Special Transit Land Use District# shall provide an easement on the #zoning lot# for subway-related use and public access to the subway mezzanine or station when required pursuant to the provisions of Section 95-04.

The issuance by the Department of Buildings of an excavation permit for any #zoning lot# located within the Special District shall be dependent upon prior compliance with the provisions of this Chapter.

The transit easement required on a #zoning lot# shall permit the realization of one or more of the following planning objectives:

- (a) the integration and relating of subway station design to surrounding development;
- (b) the introduction of light and air to: stations; mezzanines; and other related facilities constructed pursuant to the provisions of Section 95-032 (Determination of transit easements at other stations);
- (c) the reduction of conflict between pedestrian movements and station facilities on the #street# level;
- (d) the provision of weather protection for subway entrances;
- (e) the relation of subway entrances to #commercial# and other transit facilities;
- (f) the provision of maximum visual exposure of subway entrances from public areas; and
- (g) the elimination or reduction of adverse environmental impact accompanying subway development.

In no event, however, may the easement area be used temporarily or permanently for any other purpose not immediately related to pedestrian amenity, except as hereinafter provided.

95-031 - Selection of transit easement at certain stations

LAST AMENDED
11/30/2017

At the stations specified below, the transit easement required on a #zoning lot# shall constitute a volume whose dimensions above and below #curb level# shall comply with the requirements as set forth in Table A or Table B of this Section, depending on the depth of the proposed subway mezzanine below #curb level#, as established by the Metropolitan Transportation Authority.

Six possible types of transit easements are listed in Table A and in Table B. The applicant for a #development# or an #enlargement# involving ground level construction shall, in consultation with the Metropolitan Transportation Authority and the City Planning Commission, select the easement type that is most appropriate for the location.

(95-031.1)

Type 2 is appropriate on any size #zoning lot# for providing direct access to the subway mezzanine level by a "straight run" stairway and/or escalator.

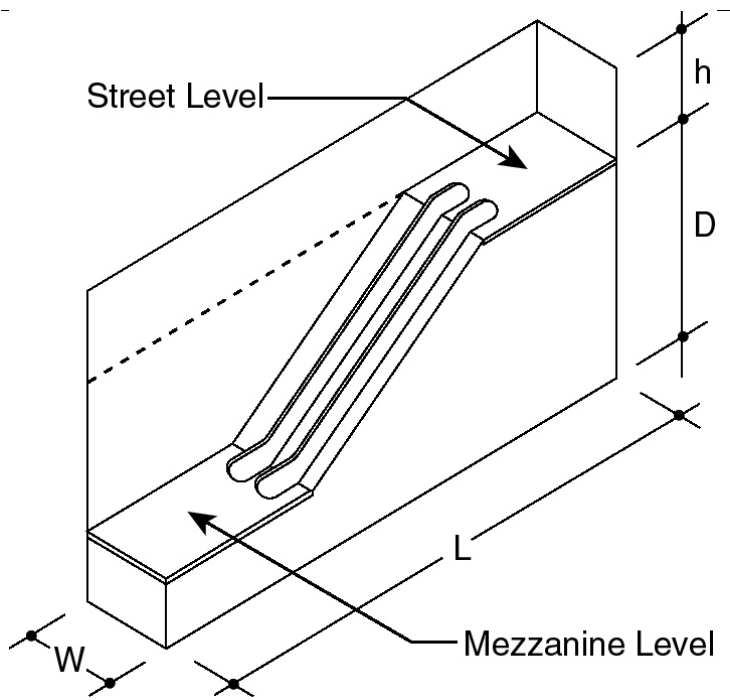

(95-031.2)

Type 3 is applicable to #zoning lots# of 10,000 square feet or more for providing a "turn around" arrangement of stairs.

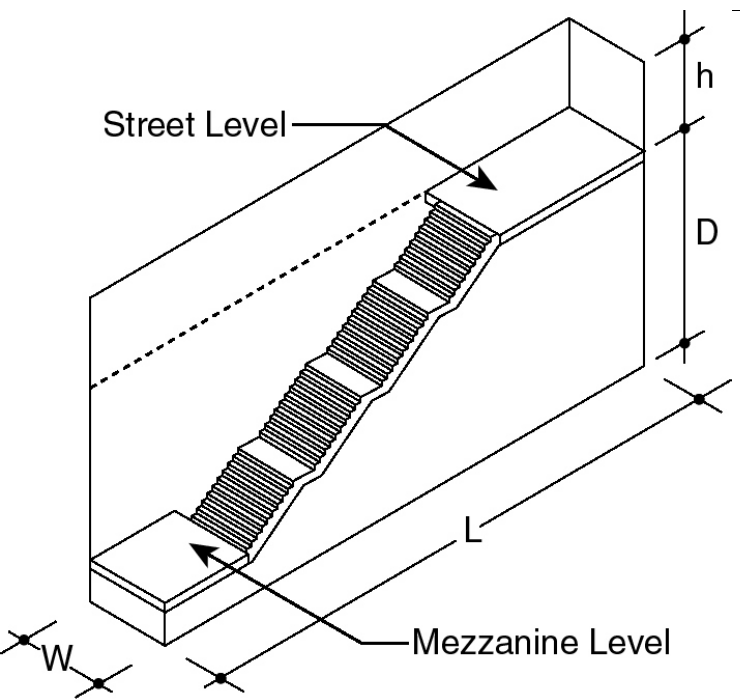

(95-031.3)

The Metropolitan Transportation Authority and the Commission, in consultation with the applicant, may make minor modifications of the dimensions of the easement volume type required on the applicant's site and the spacing of #building# columns permitted within the easement volume to facilitate the design and construction of circulation facilities appropriate for the area.

95-032 - Determination of transit easement at other stations

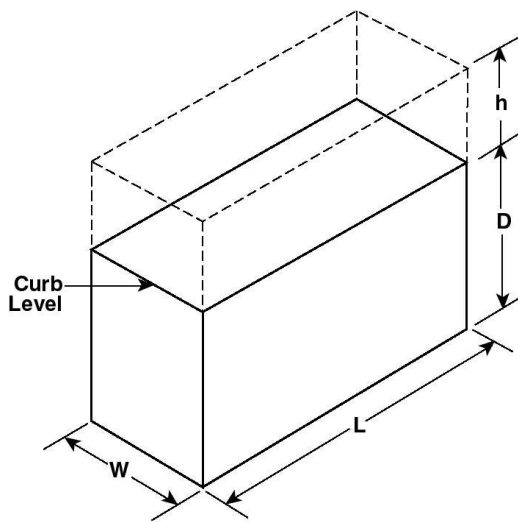

LAST AMENDED
11/30/2017

At the 106th Street, 116th Street and 125th Street stations, a transit easement shall be provided to accommodate, whether singly or in any combination, light wells, stairs, ramps, escalators, elevators, passageways, or ancillary facilities required to support the functioning of subway station or rail mass transit facilities, including, but not limited to, emergency egress or ventilation structures, the Metropolitan Transportation Authority shall, in consultation with the owner of the #zoning lot# and the City Planning Commission, determine the appropriate type of transit easement and reasonable dimensions for such transit easement volume.

95-04 - Certification of Transit Easement Volume

LAST AMENDED
12/20/1979

95-041 - For developments or enlargements

LAST AMENDED
2/2/2011

Prior to filing any applications with the Department of Buildings for an excavation permit or building permit for a #development# or #enlargement# within the #Special Transit Land Use District#, the owner of the #zoning lot# shall file an application with the Metropolitan Transportation Authority and the City Planning Commission requesting a certification as to whether or not a transit easement volume is required on the #zoning lot#.

Upon receipt of the completed application, the Commission shall furnish a copy to the affected Community Board.

Within 60 days after receipt of such application, the Metropolitan Transportation Authority and the Commission shall jointly certify whether or not an easement is required on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the Metropolitan Transportation Authority and the Commission indicate that such easement is required, the owner shall submit a site plan indicating the location and type of easement volume that would be most compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the Metropolitan Transportation Authority and the Commission. Copies of such certification shall be forwarded by the City Planning Commission to the Department of Buildings.

Use Group T #uses# shall not be permitted in #Residence Districts# prior to the improvement of a transit easement in accordance with approval and certified plans.

95-042 - For substantially vacant existing zoning lots

LAST AMENDED
2/2/2011

When a #zoning lot# located within the #Special Transit Land Use District# is substantially vacant and appropriate for a transit easement, the Metropolitan Transportation Authority may request the City Planning Commission to certify that a portion of such #zoning lot# is necessary for a transit easement.

As a condition for securing a transit easement on such #zoning lot#, the Commission shall make the following findings:

- (a) that such transit easement is required by the Metropolitan Transportation Authority to provide public access to a subway mezzanine or to a public passageway leading to a subway mezzanine or platform;
- (b) that such transit easement is located on a vacant portion of a #zoning lot#;
- (c) that the use of the transit easement will not reduce development potential on the #zoning lot# under the applicable district regulations; and
- (d) that the Metropolitan Transportation Authority and the owner agree that the construction within the easement volume will be integrated with the total development.

At such time as an existing vacant #zoning lot# on which a transit easement volume provided pursuant to the provisions of this Section, is #developed#, it shall be subject to all regulations of this Chapter.

95-05 - Terms and Conditions for Permitted Uses and Construction Within Transit Easement Volume

LAST AMENDED

11/30/2017

The transit easement volume shall be used as an entrance/exit for public access to the subway and/or to provide better access of light and air to the subway station mezzanine, and for related uses. Illustrative of such purposes are light wells, stairs, ramps, escalators, elevators or, for #zoning lots# subject to the provisions of Section 95-032 (Determination of transit easements at other stations), ancillary facilities required to support the functioning of subways, including, but not limited to, emergency egress or ventilation structures.

No #floor area# bonus shall be allowed for any transit easement provided on a #zoning lot#. When a transit easement volume required on a #zoning lot# is located within a #building#, any floor spaces occupied by such transit easement volume shall not count as #floor area#. Any portion of the #lot area# of a #zoning lot# occupied by a transit easement and weather protected by an overhang or roofed area, shall be considered as a #public plaza# in the districts that allow such #public plaza# bonuses.

The transit easement volume, any construction allowed therein or any weather protection provided thereon by an overhang or roofed area pursuant to Section 95-053, shall be considered permitted obstructions within required #yards#, #open space# or in a #public plaza# area.

95-051 - Development of transit access facilities

LAST AMENDED
11/30/2017

All access facilities, including any light wells or sky lights required within a transit easement volume established pursuant to the provisions of Section 95-031 (Selection of transit easement at certain stations), or access and ancillary facilities required pursuant to the provisions of Section 95-032 (Determination of transit easement at other stations), shall be constructed and maintained by the Metropolitan Transportation Authority except for any #building# columns, footings or any other permitted obstructions allowed therein.

The subway entrance within the transit easement volume and any adjoining #public plaza# shall be at the same elevation as the adjoining sidewalk and shall be directly accessible to the public at all times. When such entrance is not located at the #street line#, it shall be visually prominent and directly accessible from a #street# by a paved pedestrian walk at least 20 feet in width and at the same elevation as the adjoining sidewalk. Such privately owned pedestrian walk shall be maintained by the owner. In order to provide natural light to the subway mezzanine level, at least 10 percent of the transit easement area at #curb level# shall be provided with light wells and skylights.

95-052 - Special access facilities for persons with disabilities at certain stations

LAST AMENDED
2/2/2011

For #zoning lots# subject to the provisions of Section 95-031 (Selection of transit easement at certain stations), special elevators for persons with disabilities may locate within a transit easement volume, provided stair and/or escalator access to the subway mezzanine are located within the same easement and in no event located within the public sidewalk adjacent to the #zoning lot#.

Such special elevators shall be designed by the Metropolitan Transportation Authority in consultation with the owner of the #zoning lot# and shall be integrated architecturally, including color and material, with the #buildings# on the #zoning lot# and with adjoining #public plaza# area. Design concept for such elevators shall be submitted to the City Planning Commission for certification.

95-053 - Weather protection

LAST AMENDED
2/2/2011

The stairs or escalators providing pedestrian access to the subway mezzanine, which are not covered at the entrance level, shall be weather protected by the #building# or portion thereof including an overhang, or by a roofed area provided by the owner of the #zoning lot# in accordance with the Metropolitan Transportation Authority requirements. Such overhang or roofed area shall cover either or both the stairway and the escalator which are uncovered at the ground level. Any overhang or roofed area shall be sufficient to cover the access facilities within the easement volume and may not otherwise obstruct the #public plaza#.

When the subway entrance is within an open #public plaza# area, a roof area shall be provided with either a glazed or translucent material for at least 50 percent of its surface area. The roofed area shall be no more than 15 feet above #curb level# and shall blend harmoniously with the #buildings# on the #zoning lot# and any adjoining #public plaza# or open area.

95-054 - Permitted uses and other constructions

LAST AMENDED
2/2/2011

Areas within the easement volume not used for circulation purposes may be developed only with newsstands, cigar stands, flower stands or similar stands, in accordance with the Metropolitan Transportation Authority specifications, provided they do not interfere with pedestrian circulation and are made of removable structures. In no event shall such permitted #uses# be located within 10 feet of a pedestrian entrance to the subway at #curb level#.

In addition, any portion of the transit easement volume at #curb level# not to be covered for weather protection, may contain trees, benches or any obstructions permitted in a #public plaza# area. However, such elements shall not interfere with the pedestrian movement.

The Metropolitan Transportation Authority and the City Planning Commission may permit penetration of the transit easement volume above #curb level# by a #building# lobby, including #building# columns, where such lobby space serves as a part of the pedestrian circulation system and provides from it direct public access to the subway entrance within the easement volume.

Where construction within a transit easement volume is more than five feet in height above #curb level#, such construction proposal shall be submitted to the Commission for a review and certification to ensure that such construction relates harmoniously to the total development. When a transit easement volume is located within a #building#, it shall be open to the general public for the same hours of operation as the subway station.

#Building# columns or footings are permitted inside the transit easement volume, provided that the minimum clear distance between any columns is 12 feet and between the columns and any bounding walls of the transit easement volume is 10 feet. Where the width of an easement is greater than 20 feet, location of columns within the easement volume shall be established in consultation with the Metropolitan Transportation Authority. In all cases, the depth of columns or footings within the easement area or adjoining area shall be established in consultation with the Metropolitan Transportation Authority. Furthermore, vertical space between such columns shall be open and unobstructed from its base except for any construction permitted under the provisions of this Chapter.

95-055 - Knockout panel

LAST AMENDED
2/2/2011

Any underground walls constructed along the #front lot line# of a #zoning lot# in which transit easement volume is required by the Metropolitan Transportation Authority shall

contain a knockout panel, not less than 12 feet wide, below #curb level# down to the bottom of the easement. The actual location and size of such knockout panel shall be indicated by the Metropolitan Transportation Authority.

95-06 - Temporary Use of the Easement Area

LAST AMENDED
2/2/2011

Any easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of the #zoning lot# for any permitted #uses# until such time as required by the Metropolitan Transportation Authority or by its designee for subway purposes.

Temporary #use# of the transit easement volume above #curb level# in a #public plaza# or #open space# area shall be limited to #use# as a landscaped open area that may contain obstructions permitted in a #public plaza#. Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #zoning lot# prior to the time at which public #use# of the easement area is required. A minimum notice of six months in writing shall be given by the Metropolitan Transportation Authority to the owner of the #zoning lot# in order to vacate the tenants of such temporary #uses#.

95-07 - Special Provisions for an Increase in Zoning Tower Coverage on Zoning Lots Containing Transit Easements

LAST AMENDED

Chapter 6 - Special Clinton District (CL)

96-00 - GENERAL PURPOSES

LAST AMENDED
1/19/2005

The "Special Clinton District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. Because of the unique geographical location of the Clinton community, situated between the waterfront on the west and a growing central business district on the east, it is necessary to provide specific programs and regulations which will assure realization of community and citywide goals.

These goals include, among others, the following:

- (a) to preserve and strengthen the residential character of the community;
- (b) to permit rehabilitation and new construction within the area in character with the existing scale of the community and at rental levels which will not substantially alter the mixture of income groups currently residing in the area;
- (c) to preserve the small-scale character and variety of existing stores and activities and to control new commercial uses in conformity with the existing character of the area;
- (d) to recognize the unique character of the eastern edge of the District as an integral part of the Theater Subdistrict within the Special Midtown District as well as the Special Clinton District;
- (e) to provide an appropriate transition from the mixed-use character along Eighth Avenue to the lower-scale residential character of the Clinton community on the narrow streets;
- (f) to relate the unique character of the 42nd Street Perimeter Area to the adjacent Special Hudson Yards District;
- (g) to provide amenities, such as street trees, to improve the physical environment;
- (h) to restrict demolition of buildings that are suitable for rehabilitation and continued residential use; and
- (i) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

The provision of this Section shall apply to all #developments#, #enlargements#, #extensions# or alterations. All existing #buildings# within the Preservation Area shall be considered complying #buildings# for all purposes including, but not limited to, alterations, #enlargements#, #extensions# or #conversions# to #residential uses#. Any existing #building# which is damaged or destroyed by any means may be reconstructed to its #bulk# prior to such damage or destruction. All existing legal #uses# in enclosed #buildings# shall be considered conforming #uses#. pursuant to Section 81-744 (Transfer of development rights from listed theaters). The basic maximum #floor area ratio# for transfer purposes for such #zoning lots#, or portions thereof, shall be 6.02.

The maximum #floor area# in a #mixed building# shall be the maximum #floor area# permitted for either the #commercial# portion of such #building# or the #community facility# portion of such #building# or the #residential# portion of such #building#, as set forth in this Section, whichever permits the greatest amount of #floor area#.

96-102 - Lot coverage regulations

LAST AMENDED
2/2/2011

Within the Preservation Area, the #open space# requirement of Article II, Chapter 3, and the #lot coverage# provisions of Section 24-11, are not applicable. The #lot coverage# provisions of this Section apply in lieu thereof. In C6-2 Districts, for the purposes of determining #lot coverage#, any part of a #building# that is listed as a permitted obstruction in #open space# or in a #rear yard# shall not be included in #lot coverage#. For #zoning lots#, or portions thereof, located within 100 feet of the #street line# of a #wide street#, the maximum #lot coverage# shall not exceed 70 percent. For all #zoning lots#, or portions thereof, located more than 100 feet from the #street line# of a #wide street#, the maximum #lot coverage# shall not exceed 60 percent.

Any #development# containing #residential uses# shall provide a minimum of 20 percent of the #lot area# of a #zoning lot# as usable, landscaped open area for occupants of #dwelling units# in the #development#.

96-103 - Yard regulations

LAST AMENDED
2/2/2011

The #yard# regulations of this Section apply to any #development# or #enlargement#.

For #zoning lots#, or portions thereof, located within 100 feet of the #street line# of a #wide street#, no #rear yard# shall be required.

For all #zoning lots#, or portions thereof, located more than 100 feet from the #street line# of a #wide street#, a #rear yard# having a minimum depth of 30 feet shall be required.

On a #through lot#, or portion thereof, more than 100 feet from the #street line# of a #wide street#, the #rear yard equivalent# provisions of Section 23-532, paragraph (a), shall apply.

96-104 - Height and setback regulations

LAST AMENDED
12/10/2013

The underlying height and setback regulations shall not apply, except as set forth in Sections 23-62 or 33-42 (Permitted Obstructions), as applicable. In lieu thereof, the height and setback provisions of this Section shall apply. All height shall be measured from #curb level#.

(a) #Street wall# location

For #zoning lots# with #wide street# frontage, #street walls# shall be located on the #wide street line# and extend along the entire #wide street# frontage of the #zoning lot#. For #corner lots# with #narrow street# frontage, #street walls# shall be located on and extend along the #narrow street line# within 50 feet of the #wide street#.

For #zoning lots# with #narrow street# frontage, #street walls# shall be located on the #street line# and extend along the entire #narrow street# frontage of the #zoning lot# beyond 50 feet of a #wide street#. However, where the #street wall# of an adjacent #building# fronting on the same #narrow street line# is located within 10 feet of the #street line#, the #street wall# of the #building# may be aligned with the #street wall# of the adjacent #building# for a distance of not less than 20 feet measured horizontally from the side wall of such #building#. The portion of a #zoning lot# that is located between a #street wall# and the #street line#, pursuant to the optional #street wall# location provisions of this paragraph (a), shall be maintained at the same elevation as the adjoining sidewalk. In addition, such portion of a #zoning lot# shall be planted, except at the entrances to and exits from the #building#, or adjacent to #commercial uses# fronting on the #street#.

(b) Permitted recesses

Ground floor recesses up to three feet deep shall be permitted for access to #building# entrances. Above a height of 12 feet, up to 30 percent of the #aggregate width of street walls# may be recessed, provided no such recesses are within 30 feet of the intersection of two #street lines#.

(c) #Building# height

Within 100 feet of a #wide street#, the #street wall# of a #building or other structure# shall rise without setback to a minimum height of 50 feet or the height of the #building#, whichever is less, and a maximum height of 66 feet. A setback shall be provided for all portions of #buildings# that exceed a height of 66 feet. Such setbacks shall be provided at a height not lower than 50 feet and not higher than 66 feet, and shall have a minimum depth of 10 feet, measured from any #street wall# facing a #wide street#, and a minimum depth of 15 feet, measured from any #street wall# facing a #narrow street#. No #building or other structure# shall exceed a height of 85 feet. Beyond 100 feet of a #wide street#, no #building or other structure# shall exceed a height of seven #stories# or 66 feet, whichever is less.

However, the City Planning Commission, by special permit, may modify the special height and setback regulations set forth in this Section. In order to grant such special permit, the Commission shall find that the distribution of #bulk# permits adequate access of light and air to surrounding #streets# and properties and that the maximum height does not exceed 99 feet beyond 100 feet of a #wide street#, and 115 feet within 100 feet of a #wide street#.

The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding area.

96-105 - Dwelling unit regulations

LAST AMENDED
2/2/2011

(a) #Dwelling unit# distribution

For #developments#, #enlargements#, #extensions# or #conversions# of an existing #building# to a #residential use#, the density requirements of the underlying districts shall be inapplicable. In lieu thereof, the required #lot area per dwelling unit# of a #development#, #enlargement#, #extension# or #conversion# of an existing #building# to a #residential use# shall not be less than 168 square feet and the number of two-bedroom units on a #zoning lot# shall not be less than 20 percent.

In addition, the minimum density requirement and the 20 percent, two-bedroom unit requirement set forth in this Section shall apply to any alteration that creates additional #dwelling units# or additional zero-bedroom units. Alterations that reduce the percentage of apartments that contain two bedrooms are not permitted unless the resulting #building# meets the 20 percent, two-bedroom requirement.

However, notwithstanding any provision to the contrary contained in this Section, the minimum density requirement and the 20 percent, two-bedroom unit requirement shall not apply to alterations which add a code-complying bathroom, pursuant to Section 27-2063 of the Housing Maintenance Code of the City of New York, to a #dwelling unit# which is publicly assisted (exclusive of any tax abatement or tax exemption program), and which is administered by a not-for-profit agent.

The City Planning Commission, by special permit, may modify the two-bedroom unit distribution requirement and the density requirement of this Section for an #affordable independent residence for seniors# or for a #residence# substantially for elderly persons with disabilities, under jurisdiction of a State or City agency, provided that the following findings are made:

- (1) that such #residences# are sponsored by a voluntary non-profit organization;
- (2) that the location and size of such facility does not create an undue concentration of #dwelling units# of this type and #community facilities# with sleeping accommodations within the immediate area;
- (3) that there are social service, health and related programs for the residents including a maintenance and security plan;
- (4) that on-site recreation areas for the use of the residents are provided; and
- (5) that the proposed #residences# will not overburden existing public services in the neighborhood.

The Commission may prescribe appropriate conditions or safeguards to minimize the adverse effect of any #use# permitted under this Section on the residential character of the surrounding area.

- (b) Special provisions for owner-occupied #buildings# containing #residences#

For alterations of #buildings# containing #residences#, which #buildings# are owner-occupied and which contain four or fewer #dwelling units#, the #dwelling unit# distribution provisions of this Section shall not apply.

96-106 - Special regulations for existing storefronts

LAST AMENDED
11/21/1974

Any vacant ground floor store in an underlying #Residence District# may change to a conforming #use# or to a #use# listed in Use Group 6 regardless of the two-year discontinuance provisions of Section 52-61.

96-107 - Special regulations for community facility uses

LAST AMENDED
2/2/2011

#Developments#, #enlargements# or #extensions# of #community facility uses# or #conversions# of an existing #building# to a #community facility use#, are permitted on #zoning lots# containing existing #buildings# with #residential uses# only pursuant to the provisions of this Section. The City Planning Commission, by special permit, may permit #developments#, #enlargements# or #extensions# of #community facility uses#, provided that the Commission makes the following findings:

- (a) that the existing #building# is not eligible for rehabilitation under any active publicly aided program under which funds are available;
- (b) that, prior to evicting or otherwise terminating the occupancy of any tenant preparatory to demolition, the developer shall have notified the Department of Housing Preservation and Development of his or her intention to demolish the #building#; and
- (c) that the Department of Housing Preservation and Development has issued a #certification of no harassment# or that the owner has complied with paragraph (d) of Section 96-110.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

96-108 - Demolition of buildings

LAST AMENDED
2/2/2011

No demolition permit or alteration permit for partial demolition involving a decrease of more than 20 percent in the amount of #residential floor area# in a #building# shall be issued by the Department of Buildings for any #building# containing #dwelling units# within the Preservation Area, unless it is an unsafe #building# and demolition is required pursuant to the provisions of Title 28, Chapter 2, Article 216 of the New York City Administrative Code.

However, the City Planning Commission, by a special permit, may allow demolition of #buildings# containing #dwelling units# or #rooming units# other than unsafe #buildings# within the Preservation Area, provided that the Commission makes the following findings:

- (a) that the existing #building#:
 - (1) is not eligible for rehabilitation under any active publicly-aided program under which funds are available; or
 - (2) is to be substantially preserved and requires an alteration permit to allow the removal and replacement of 20 percent or more of the #floor area#.
- (b) that prior to evicting or otherwise terminating the occupancy of any tenant preparatory to demolition, the owner shall have notified the applicable governmental agency of its intention to demolish the #building#.

- (c) that the Department of Housing Preservation and Development has issued a #certification of no harassment# or that the owner has complied with paragraph (d) of Section 96-110; and
- (d) that an acceptable program for #development# of the #zoning lot# is submitted to the Commission which indicates that to the extent permitted by the provisions of Section 96-10 (PRESERVATION AREA), the number of new #dwelling units# to be constructed is at least equal to the number of #dwelling units# to be demolished and that the #floor area# of the #development# containing #residences# is at least equal to the #floor area# of the #dwelling units# to be demolished and that site development will commence within a period of twelve months from completion of relocation.

The Commission may prescribe appropriate conditions and safeguards to ensure that any interim #use# proposed on the site prior to any construction is in conformance with the purposes of this Special District.

96-109 - Alterations of buildings

LAST AMENDED
8/16/1990

Prior to the issuance of an alteration permit by the Department of Buildings for a #material alteration# of a #multiple dwelling# within the Preservation Area, the Department of Housing Preservation and Development shall certify to the Department of Buildings that:

- (a) prior to evicting or otherwise terminating the occupancy of any tenant preparatory to alteration, the owner shall have notified the Commissioner of his or her intention to alter the #building#; and
- (b) the Department of Housing Preservation and Development has issued a #certification of no harassment# or that the owner has complied with paragraph (d) of Section 96-110.

However, a permit for alterations may be exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development that such alterations are to be performed solely for the purpose of either:

- (1) making the public areas of a #multiple dwelling# accessible to persons with disabilities without altering the configuration of any #dwelling unit# or #rooming unit#; or
- (2) making a #dwelling unit# or a #rooming unit# accessible to persons with disabilities.

For the purposes of this Section, #dwelling unit# and #rooming unit# shall be defined as in Section 96-110.

 - (1) a contribution has been deposited into an escrow account or similar fund established by the City (the #High Line# Improvement Fund), or such contribution is secured by a letter of credit or other cash equivalent instrument in a form acceptable to the City.  - (3) all additional requirements of Appendix D, E or F, as applicable with respect to issuance of a building permit, have been met. For #zoning lots# located between West 18th and West 19th Streets over which the #High Line# passes, in the event that a certification is initially made by the Chairperson on the basis that the requirements of paragraph (a)(1) of Appendix E with respect to Stairway and Elevator Access Work have been met, and the Commissioner of Parks and Recreation later elects to require #High Line# Service Facility Work in accordance with the provisions of paragraph (b)(4) of Appendix E,

such initial certification shall no longer be effective. In lieu thereof, a certification by the Chairperson that the requirements of paragraph (a)(1) of Appendix E with respect to #High Line# Service Facility Work have been met shall be required. Notwithstanding the foregoing, the Department of Buildings may continue to issue a building permit pursuant to the initial certification made for Stairway and Elevator Access Work, all building permits issued pursuant to the initial certification made for Stairway and Elevator Access Work shall remain in effect, and construction may continue pursuant to such permits, provided that the provisions of paragraph (c)(4)(ii) of this Section shall apply with respect to the issuance of any temporary or permanent certificates of occupancy for the #development# or #enlargement# authorized by such permits under the provisions of paragraph (c)(4).

- (1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area, as shown in Appendix C of this Chapter, for such #zoning lot#, have been performed in accordance with such agreement;
- (2) if elected by the owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;
- (3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C of this Chapter, except as otherwise provided in agreements and other instruments that provide for City construction of some or all of the At-Grade Plaza Work, in accordance with Appendix D;
- (4) Stairway and Elevator Access Work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, except as otherwise provided in agreements and other instruments that provide for City construction of some or all of the Stairway and Elevator Access Work in the At-Grade Plaza, in accordance with Appendix D; and
- (5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work required of owner shall be of substantial completion of the work as determined by the Chairperson. For permanent certificates of occupancy, certification with respect to performance of work required of owner shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this paragraph (b), no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D. In the event that the owner has executed agreements and other instruments that provide for City construction of some or all of the At-Grade Plaza Work and for some or all of the Stairway and Elevator Access Work, in accordance with Appendix D, certificates of occupancy shall be issued if owner has substantially or finally completed any aspects of the work required of owner pursuant to such agreements and other instruments, as the case may be, and is otherwise in full compliance with such agreements and instruments, including with respect to payment of all funds required pursuant to the terms thereof and Appendix D.

- (c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot# located between West 16th and 17th Streets or between West 18th and 19th Streets over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 9822, the Department of Buildings shall be furnished a certification by the Chairperson, that:

- (1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area, as shown in Appendix C of this Chapter, for such #zoning lot#, have been performed in accordance with such agreement;

 - (i) Stairway and Elevator Access Work; and
 - (ii) #High Line# Service Facility Work applicable to such #zoning lot# has been performed on such #zoning lot#, in accordance with Appendix E;
- (4) for #zoning lots# located between West 18th and 19th Streets over which the #High Line# passes, either:
 - (i) Stairway and Elevator Access Work; or
 - (ii) if elected by the Commissioner of Parks and Recreation, #High Line# Service Facility Work applicable to such #zoning lot#, has been performed on such #zoning lot#, in accordance with Appendix E; and
- (5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by the Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this paragraph (c), no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

- (d) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot# located within Subarea J over which the #High Line# passes that incorporates #floor area# that would cause the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, the Department of Buildings shall be furnished a certification by the Chairperson, that:
- (1) #High Line# Support Work has been performed on such #zoning lot#, in accordance with and to the extent required by Appendix F; and

- (a) In C6-4 Districts:
- (1) the amount of #low income floor area# is equal to at least 20 percent of the total #residential floor area# on the #zoning lot#;

Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#

The maximum amount of #floor area# transferred from a granting site located outside of a subarea shall not exceed the maximum #floor area ratio# permitted for a #commercial# or #residential use# on such granting site as of June 10, 2015, whichever is greater, less any existing #floor area# to remain on such granting site.

(c) #Use#

#Floor area# transferred from a granting site within the #High Line Transfer Corridor# may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement

As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Sections 98-60 (SPECIAL REGULATIONS FOR CERTAIN ZONING LOTS) and 98-63 (Recording of High Line Access Easement Volume).

(e) Restrictive declaration

However, dormers may not exceed the maximum #building# height in Subareas C, F and G where the maximum base height and maximum #building# height are the same.

All mechanical equipment located within 15 feet of the level of the #High Line bed# that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-423 - Street wall location, minimum and maximum base heights and maximum building heights

LAST AMENDED
4/25/2017

The provisions set forth in paragraph (a) of this Section shall apply to all #buildings or other structures#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (g) of this Section.

(1) #Street wall# location provisions

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section. On #narrow street# frontages, beyond 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

Where #street walls# are required to be located on the #street line#, recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#. Above a height of 12 feet, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

The #street wall# location provisions of this Section shall not apply along that portion of any #street# frontage:

- (i) over which the #High Line# passes;
- (ii) occupied by existing #buildings# to remain, unless such #buildings# are vertically #enlarged#; or
- (iii) between the #High Line# and a #side lot line#, where such frontage measures less than 20 feet.

(2) Maximum #building# heights

(i) For C6-2A and C6-3A Districts

In C6-2A and C6-3A Districts, the maximum base height, maximum #building# height and the maximum number of #stories# shall be as set forth in Section 23-662 (Maximum height of buildings and setback regulations) for the residential equivalent of an R8A and R9A District, respectively. For #buildings# meeting the criteria set forth in paragraph (a) of Section 23-664 (Modified height and setback regulations for certain Inclusionary Housing buildings or affordable independent residences for seniors), such maximum heights and number of #stories# may be modified in accordance with the provisions of paragraph (b) of Section 23-664 for such districts' applicable

residential equivalent. Separate maximum #building# heights are set forth within such Sections for #Quality Housing buildings# with #qualifying ground floors# and for those with #non-qualifying ground floors#.

(ii) For all other districts

All portions of #buildings or other structures# that exceed the applicable maximum base height specified in the table in this Section shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.

No #building or other structure# shall exceed the maximum #building# height specified in the table in this Section.

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

(2) Setback provisions

The setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#, and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.

(3) Tower provisions

Any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent of the #lot area# of the #zoning lot# and penetrates the #sky exposure planes# set forth in paragraph (b)(2) of this Section, is hereinafter referred to as a "tower." Such towers are permitted provided they are set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#, and provided no other portion of the #building# exceeds the applicable maximum base height. In addition, the following rules shall apply:

- (i) For #zoning lots# with less than 20,000 square feet of #lot area#, such tower may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).
- (ii) Any #story# within the highest 40 feet of such tower (the "penthouse portion"), shall not exceed 85 percent of the gross area of the highest #story# directly below such penthouse portion.
- (iii) In Subarea A, such tower shall occupy at least 30 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall be reduced to 25 percent above a height of 220 feet. However, no minimum #lot area# requirement shall apply to the highest four #stories# or 40 feet of such #building#, whichever is less.
- (iv) In Subarea A, the maximum length of any #story# located above a height of 220 feet shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 220 feet. Any side of such rectangle shall not exceed 150 feet.
- (v) In Subarea A, for any #zoning lot# with more than 75 feet of #narrow street# frontage in which a #side lot line# is located within an area bounded by a line 200 feet east of and parallel to Eleventh Avenue and a line 410 feet east of and parallel to Eleventh Avenue, no tower portion of a #building# shall be located closer than 25 feet to such #side lot lines#.
- (vi) In Subarea D, the maximum #building# height shall be 250 feet, and the maximum length of any #story# located above the maximum base height shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# wholly or partially above the maximum base height. Any side of such rectangle shall not exceed 150 feet. However, for #zoning lots# that occupy the entire Eleventh Avenue #block# front, a portion of the #street wall# may rise above the maximum base height without setback from Eleventh Avenue, provided the #aggregate width of the street wall# for Eleventh Avenue does not exceed 100 feet.

(c) Subareas C, F and G

In Subareas C, F and G, for #zoning lots# with #wide# and #narrow street# frontage, no #street wall# is required beyond 50 feet of a #wide street#. Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.

The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #building# are illustrated in Diagram 1 (Street Wall and High Line Frontage Regulations in Subareas C, F and G) in Appendix C of this Chapter.

In Subarea C, for #zoning lots# with Tenth Avenue frontage between West 24th Street and West 28th Street, the maximum #building# height shall be 125 feet.

(d) Subarea E

The #street wall# location provisions set forth in paragraph (a) of this Section shall not apply on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and G, where #floor area# has been transferred pursuant to Section 98-241. A maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet, and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea H

No #building or other structure# shall be located east of the #High Line#, unless otherwise specified in agreements and other instruments that provide for City construction of some or all of the At-Grade Plaza Work and some or all of the Stairway and Elevator Work, executed in accordance with Appendix D.

No portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as "Tower East" and "Tower West." At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such setbacks shall be provided at a height not lower than 60 feet, except that such setbacks may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet.

Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#. Tower East shall not exceed a height of 290 feet and Tower West shall not exceed a height of 390 feet. No portion of Tower East shall be located closer than 25 feet to any portion of Tower West.

A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

- (f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

98-62 - High Line Access Easement Regulations

LAST AMENDED
11/13/2012

(1) Primary access easement volume

A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet, 6 inches, and the minimum width shall be 10 feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least 10 feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (High Line Access Easement Volume Parameters) of Appendix C of this Chapter.

(2) Secondary access easement volume

A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of 10 feet. The height of such volume shall extend from #curb level# to a point at least 10 feet above the level of the #High Line bed#.

(b) Access

All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

- (1) The required width of the publicly traversable way shall be a minimum of eight feet.

- (2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.

- (4) The publicly traversable way shall be maintained by the property owner in good repair.
- (5) The publicly traversable way shall be fully accessible to persons with disabilities.

(c) Permitted obstructions

Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, #accessory# to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#

An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted #use# shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of Sections 37-726 (Permitted obstructions) and 37-73 (Kiosks and Open Air Cafes), except that in the case of open air cafes and kiosks, a certification shall not be required.

Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) #Legally required windows#

The minimum distance between any #legally required window# in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33, paragraph (a).

98-64 - Termination of High Line Access Easement Volume

LAST AMENDED
11/13/2012

In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access or Support Easement Volumes Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building# or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

The term "parties in interest" as used herein shall mean "parties-in-interest," as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for issuance of building permit under paragraph (a) of Section 9825

(1) As a condition of issuance of a building permit under paragraph (a) of Section 9825:

- (i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of \$50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22, provided, that in the event the Owner has previously entered into agreements for construction of At-Grade Plaza Work and Stairway and Elevator Access Work by the City, pursuant to paragraph (a)(2) of this Appendix D, and has made a contribution pursuant thereto, the amount of contribution to the #High Line# Improvement Fund under this subparagraph for purposes of Section 98-25, paragraph (a) shall be reduced by such amount at the time it is made;
- (ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator. Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (a)(1)(iii) of this Appendix D, provided that, in the event the Owner enters into agreements for construction of some or all of the At-Grade Plaza Work and Stairway and Elevator Access Work by the City pursuant to paragraph (a)(2) of this Appendix D, the provisions of such restrictive declaration shall be modified as deemed necessary by the City to effectuate such agreements; and
- (iii) the Owner shall execute a maintenance and operating agreement for the At-Grade Plaza.

Pursuant to such agreements, the Owner shall make a contribution of \$2,300,000 to a sub-account of the #High Line# Improvement Fund to fund such construction, which amount may be reduced in accordance with provisions of such agreements by an amount reflecting expenditures that the owner has reasonably incurred or shall reasonably incur with respect to remediation work for the At-Grade Plaza and any other work which is the responsibility of the Owner pursuant thereto. All parties in interest shall execute a Restrictive Declaration pursuant to paragraph (a)(1)(ii) of this Appendix D, with such modifications as deemed necessary by the City to effectuate such agreements.
- (3) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chairperson of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.
- (4) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 9825, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for issuance of certificates of occupancy under paragraph (b) of Section 9825

(1) Structural Remediation Work under paragraph (b)(2) of Section 9825:

- (i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot# and over #streets# contiguous thereto in accordance with the provisions of this paragraph (b). Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (b)(1)(iv) and (b)(1)(v) in this Section (unless such dates are extended by mutual agreement of the City and Owner), but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next 24 months. In that event, the amount of contribution to the #High Line# Improvement Fund shall be reduced by \$21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b) (2), with respect to the Structural Remediation Work, shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.
- (ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:
 - (a) Removal and disposal of all leadbased products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;
 - (b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;
 - (c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;
 - (d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;
 - (e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including, but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped, as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and
 - (f) Any work required to be performed belowgrade for the anticipated improvements of the #High Line# for reuse as open space.
- (iii) Subject to the Not-To-Exceed Limit set forth in paragraph (c) of this Appendix D, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).
- (iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.
- (v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following June 23, 2005, or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot#, or portion thereof, upon December 20, 2004.

- (vi) In the event that the City does not provide the specifications for the Structural Remediation Work, within the timeframe set forth in paragraph (iv) of this Section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (b)(1)(v), but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) At-Grade Plaza Work under paragraph (b)(3) of Section 9825:

The following shall apply, except to the extent that agreements and other instruments in a form acceptable to the City have been executed pursuant to paragraph (a)(2) of this Appendix D, that provide for construction of some or all of the At-Grade Plaza Work set forth in paragraphs (b)(2)(ii)(b) and (b)(2)(ii)(c), by the City:

- (i) Owner shall perform AtGrade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.
- (ii) At-Grade Plaza Work shall include, but not be limited to:
 - (a) remediation work; and
 - (b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and
 - (c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.
- (iii) The At-Grade Plaza Work shall be performed by the Owner pursuant to construction documents provided by the City by January 31, 2008. The AtGrade Plaza Work shall be completed within one year following January 31, 2008, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and the Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot#, or portion thereof, upon October 17, 2007, or for any time needed to perform any necessary remediation work on the #zoning lot#.
- (iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area, as shown in Appendix C of this Chapter, adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C), are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 9825, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.
- (v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph, (b)(3) of this Section) shall not exceed \$2,300,000. The amount of contribution to the #High Line# Improvement Fund under subdivision (a) of section (1) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth paragraph (c) of this Appendix D. Owner shall be required to reimburse the City for:
 - (a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and
 - (b) the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).
- (vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (b)(3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph (3) of this subsection, Owner shall not be required to perform the AtGrade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (b)(3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary belowgrade work (including related infrastructure work necessary to support the #High Line#), and atgrade improvements pursuant to the standards set forth in Sections 37-718, 37-726, 37-728, 37-741, 37-742, 37-743 and 37-76 of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's specifications for the At-Grade Plaza Work or as specified in Section 37-726, for the Alternate At-Grade Plaza Work, shall not count towards #lot coverage#.

- (vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed \$1,400,000. In addition, Owner shall, subject to the Not-To-Exceed Limit of paragraph (c) of this Appendix D, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).
 - (viii) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4), Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection (a) of section (1) of this Appendix, if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.
- (3) Stairway and Elevator Access Work under paragraph (b)(4) of Section 98-25:
- The following shall apply except to the extent that agreements and other instruments in a form acceptable to the City have been executed pursuant to paragraph (a)(2) of this Appendix D that provide for the construction of some or all of the Stairway and Elevator Access Work described in paragraph (b)(3)(ii) of this Appendix D by the City:
- (i) Except as provided in paragraph (b)(3)(iii) of this Section, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the AtGrade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.
 - (ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the AtGrade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in paragraph (c) of this Section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.
 - (iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this Section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):
 - (a) Owner shall deposit into the #High Line# Improvement Fund, a contribution of \$900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and
 - (b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (a)(1) of this Appendix D, if not previously provided in connection with issuance of a building permit.
- (4) City performance of work in the event of failure to perform:
- (i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (a) of this Appendix D, Structural Remediation Work (where Owner has exercised the option under paragraph (b)(1) of this Appendix), the AtGrade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraphs (b)(2) and (b)(3) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area, as shown in Appendix C of this Chapter, for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (b)(1), (b)(2) or (b)(3) has passed, subject to the provisions of such sections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.
 - (ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:
 - (a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and
 - (b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot#, or portion thereof, upon December 20, 2004, or for any time during which remediation work is in progress on the #zoning lot#.

- (iii) In the event Owner does not comply with the requirements of paragraph (b)(4)(ii):
 - (a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of section (a) of this Appendix;
 - (b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and
 - (c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To-Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of \$450,000.00.

Appendix E - Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E, G or I

LAST AMENDED
8/24/2017

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and G or within Subarea I between West 16th and 17th Streets over which the #High Line# passes, with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy, pursuant to paragraph (c) of Section 98-25, for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest," as defined in paragraph (f)(4) of the definition of #zoning lot# in Section 12-10.

- (a) Requirements for issuance of building permit pursuant to paragraph (a) of Section 98-25
 - (1) As a condition of certification:
 - (i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of \$50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and
 - (ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th Streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. For #zoning lots# between West 18th and 19th Streets, in the event that the Commissioner of Parks and Recreation requires #High Line# Service Facility Work pursuant to paragraph (b)(4) of this Appendix, no easements shall be required relating to the location of and public access to a #zoning lot# nor from a stairway and elevator on the #zoning lot#. In such event, Owner shall instead provide the City with easements providing for City access to and from and for use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities, as specified in paragraph (b)(4)(ii) of this Appendix, and any restrictive declaration previously executed under this paragraph (a)(1)(ii) in connection with an initial certification pursuant to paragraph (a) of Section 98-25 shall be amended to provide for such easements. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and
 - (iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix E, and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.
 - (2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement, approved by the

Chairperson of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

- (3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 9825, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for issuance of certificates of occupancy pursuant to paragraph (c) of Section 9825:

- (i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot# and over #streets# contiguous thereto in accordance with the provisions of this paragraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (b)(1)(iv) and (b)(1)(v), (unless such dates are extended by mutual agreement of the City and Owner), but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next 24 months. In that event, the amount of contribution to the #High Line# Improvement Fund shall be reduced by \$21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c) (2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.
- (ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped, as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and
 - (f) Any work required to be performed below grade for the anticipated improvements of the #High Line# for reuse as open space.
- (iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to such delays as are outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.
- (iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following June 23, 2005, or of the date of exercise of such option, whichever is later, unless

such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

- (v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (b)(1)(iii) of this Appendix, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.
 - (vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed \$115,000.
- (2) Stairway and Elevator Access Work pursuant to paragraph (c)(3) and, except where the provisions of paragraph (b)(4) of this Appendix E apply, paragraph (c)(4) of Section 98-25:

For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.
 - (ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (a)(1)(iii) of this Appendix, #curb level# entrances to such access facilities must be located at the #street line#. Such access facilities shall be harmonious with the design of the #High Line# on the #zoning lot# and shall be visible and identifiable as #High Line# access facilities when viewed from Tenth Avenue. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or facade separating the access facility from the #street# shall be substantially glazed and fully transparent from ground level to the full height of the access facility. Stairways shall have a clear path of not less than six feet in width. Such access facilities shall be identified with signage placed at the #High Line# level and at street level that is consistent with guidelines specified in the signage plan as authorized by the City Planning Commission pursuant to the provisions of Section 98-15.
 - (iii) The Stairway and Elevator Access Work shall be completed within one year following the later of June 23, 2005, or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (b)(2)(ii) of this Appendix, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.
 - (iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area, as shown in Appendix C of this Chapter, adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification, pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.
- (3) #High Line# Service Facility Work pursuant to paragraph (c)(3) of Section 98-25:

- (2) The City may proceed with performance and/or completion of the work following such notice unless Owner:
 - (i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

Appendix F - Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Within Subarea J

LAST AMENDED
11/13/2012

This Appendix sets forth additional requirements governing #zoning lots# located within Subarea J over which the #High Line# passes for any #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas). The additional requirements are set forth in this Appendix F, in paragraph (a), the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); in paragraph (b), the performance of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (d) of Section 98-25; and in paragraph (c), the option of the owner to offer to the City an additional #High Line# Support Easement Volume. The term "parties in interest" as used herein shall mean "parties-in-interest," as defined in paragraph (f)(4) of the definition of #zoning lot# in Section 12-10.

(a) Requirements for issuance of a building permit pursuant to paragraph (a) of Section 98-25

- (1) As a condition of certification:
 - (i) For each square foot of #floor area# which causes the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, up to the amount specified in Section 98-22, the owner shall:
 - (a) for the first 80,000 square feet of such #floor area#, deposit such contribution to the Affordable Housing Fund established under Section 98-262, paragraph (c), for use in accordance with the provisions of that Section; and

Such contribution, in each case, shall be \$59.07 per square foot of #floor area# as of November 13, 2012, which contribution rate shall be adjusted July 1 of the following year and each year thereafter by the percentage change

in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics;

- (ii) All parties-in-interest shall execute that restrictive declaration, dated October 25, 2012, and on file at the Office of the Counsel, Department of City Planning, required in connection with environmental assessment (CEQR No. 11DCP120M) for the purpose of addressing historic resources and containing other provisions regarding the preservation of certain features of existing #buildings# and structures and related matters;
- (iii) All parties-in-interest shall execute a restrictive declaration in a form acceptable to the City addressing the terms described in this paragraph (a)(1)(iii):

(a) Hotel #use#

No #development# or #enlargement# that utilizes the provisions of Section 98-25 shall include a #transient hotel#;

(b) Retail concourse

As a condition of any #development# or #enlargement# pursuant to Section 98-25, the owner shall provide a pedestrian passageway within any #building# located on the #zoning lot# connecting the Ninth Avenue sidewalk with the Tenth Avenue sidewalk, which passageway shall be open to the public during business hours. Not less than 60 percent of the length of the frontages of such passageway shall be occupied primarily by retail uses, and in addition may be occupied by service, wholesale, production and event space identified in Use Groups 6A, 6C, 7B, 7C, 8A, 9A, 9B, 10B, 11A, 12A, 12B, 16A, 17A and such spaces shall have access to the passageway;

(c) Locations and dimensions of the #High Line# Support Easement Volumes

The #High Line# Support Easement Volumes shall be sized and located to accommodate the following amenities, all of which shall be located within the #buildings# located within the Tenth Avenue Zone, as described in Section 98-423, paragraph (g)(3):

- (2) exclusive easements for #High Line# support space with an aggregate area of no less than 2,400 square feet (and which need not be more than 3,000 square feet) of which up to 800 square feet may be located on a mezzanine level, such space to be located adjacent and accessible to the #High Line#;
- (3) exclusive easements for #High Line# support space located in the cellar level in an aggregate area no less than 800 square feet (but need not be more than 1,000 square feet);
- (4) exclusive use of a dedicated freight elevator that shall provide access to the cellar level, to a shared loading facility at #street# level, to the level of the #High Line bed# and to the level of the #High Line# support space described in paragraph (a)(1)(iii)(c)(2) of this Appendix F; and
- (5) non-exclusive easements for:
 - (i) access between the dedicated freight elevator and the shared loading facility at grade level and the #High Line# support space located in the cellar level; and
 - (ii) use of the shared loading facility as more particularly set forth in paragraph (a)(1)(iii)(d) of this Appendix F;

(d) Use of the #High Line# Support Easement Volumes

The #High Line# Support Easement Volumes shall not be dedicated for use by the general public but rather for use by the City or its designee for storage, delivery of materials and support of #uses# within the #High Line# (and in connection therewith, the fitting-out, operating, maintaining, repairing, restoring and replacement of the #High Line# Support Easement Volumes), except that:

- (1) the public may use the public restrooms;
- (2) up to 650 square feet of space adjacent to the #High Line# may be used exclusively for educational and related programming that is at no cost to the public; and
- (3) if dedicated to the City in accordance with paragraph (d) of this Appendix F, the optional additional #High Line# Support Easement Volume may be accessible to the public as part of concessions or other uses that relate to the #High Line#.

The City or its designee shall at all times use, operate and maintain the #High Line# Support Easement

Volumes so as not to interfere with the use and enjoyment of the #buildings# located within Subarea J.

The #High Line# support spaces described in paragraphs (a)(1)(iii)(c)(2) and (3) of this Appendix F, shall be accessible by a dedicated freight elevator that connects to non-exclusive portions of the #building#, including a loading facility at #curb level#, through which the City or its designee shall be provided with a non-exclusive easement to enable reasonable and customary access;

(e) Effective date of the #High Line# Support Easement Volumes

The City's or its designee's rights to utilize the #High Line# Support Easement Volumes shall commence on the date that the #High Line# Support Work has been completed in accordance with paragraph (b)(1) of this Appendix F, or in the event of default of the owner in accordance with paragraph (c) of this Appendix F, the date that the City has notified the owner that it intends to perform such #High Line# Support Work in accordance with paragraph (c); and

(f) Notice by the Department of City Planning of its receipt of certified copies of the recorded restrictive declarations required pursuant to paragraph (a) (1) (ii) and (iii) of this Appendix F, shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# or #enlargement# which causes the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012;

(iv) The owner shall submit plans for the #High Line# Support Work described in paragraph (b)(1) of this Appendix F, that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing material life cycle and maintenance, for review and approval by the Chairperson of the City Planning Commission;

(v) Solely in the event the initial certification made pursuant to Section 98-25, paragraph (a), is with respect to additional #floor area# to be added to a #building# or portion of a #building# located outside of the Tenth Avenue Zone as described in Section 98-423, paragraph (g)(iii), then the owner shall enter into agreements with the City or its designee, in a form reasonably acceptable to the City, to provide interim access, in accordance with such agreements, to the #High Line# through a non-exclusive loading facility and an existing freight elevator. Such agreements shall provide that any space within the existing #building# may be used by the City or its designee at no cost, except that the City or its designee shall be obligated to pay for the proportionate costs of utilities, maintenance and other building expenses associated with the use of such loading facility and elevator, and for any improvements or modifications to such space that may be requested by the City or its designee. Such interim access shall cease upon the date that the City or its designee commences utilization of the #High Line# Support Easement Volumes in accordance with paragraph (a)(1)(iii)(d) of this Appendix F;

(2) The location of #floor area# which would cause the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, and be subject to the provisions of Section 98-25, shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), the owner designates on plans submitted to the Chairperson of the City Planning Commission, subject to the concurrence of the Chairperson, an alternate location.

(b) Requirements for issuance of certificates of occupancy pursuant to paragraph (d) of Section 98-25

(1) #High Line# Support Work pursuant to paragraph (d) of Section 98-25

(i) The owner shall perform #High Line# Support Work subject to the provisions of this paragraph (b)(1), inclusive. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (d), shall be the substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The #High Line# Support Work shall consist of the following:

(a) the construction, fit-out and delivery in an operative condition of public restrooms described in paragraph (a)(1)(iii)(c)(1) of this Appendix F, furnished with restroom fixtures, including six toilet stalls for women, an aggregate of six toilet stalls and/or urinals for men and three sinks in each restroom, and provided with utility connections.

(b) the construction of the core and shell of the #High Line# support space described in paragraphs (a)(1)(iii)(c)(2) and (3) of this Appendix F including the provision of and access to separately metered gas, ventilation, water, sewer, electricity and telecommunications utilities systems commonly available in the #building# sufficient to support the anticipated uses of the support space. Within the portion of the #High Line# support space in the vicinity of the level of the #High Line bed#, the owner will install a kitchen exhaust duct from such support space to a suitable point of discharge and will provide access to the #building# sprinkler standpipe and fire alarm system. Such support space shall also include access to a storage mezzanine pursuant to a dedicated lift, and there shall be a clear path at least five feet wide from the lift to the dedicated freight elevator described in paragraph (b)(1)(ii)(c) of this Appendix F. The owner will not be responsible for distributing any utility services within the #High Line# support space or for providing any ancillary

equipment for the kitchen exhaust duct; and

- (c) the construction of the dedicated freight elevator described in paragraph (a)(1)(iii)(c)(4) of this Appendix F, with a minimum capacity of 3,000 pounds;
 - (iii) Following the completion of the #High Line# Support Work described in paragraph (b)(1)(ii) of this Appendix F, all subsequent costs of operating, maintaining, repairing, replacing and additional fit-out of the #High Line# support space shall be exclusively the responsibility of the City and not the owner, provided that the owner shall be responsible for the repair and replacement of any defective #High Line# Support Work for a period of one year after completion thereof;
 - (iv) The cost to the owner of the #High Line# Support Work pursuant to the plans approved pursuant to this paragraph, (a)(1)(iv), shall be estimated at the time of such approval by a licensed engineer selected by the owner, such estimate to be in a form reasonably acceptable to the City, at an amount not to exceed \$2,544,000, as adjusted at the time of such approval by changes in the construction cost index published by the Engineering News Record (ENR) for New York City commencing as of December 1, 2012. In the event that the City requests the owner to perform any additional work in conjunction with the #High Line# Support Work and the owner agrees to perform such additional work, then the cost of such additional work shall be the responsibility of the City and may be deducted in whole or in part from the #High Line# Improvement Fund contribution required pursuant to paragraph (a)(1) of this Appendix F;
 - (v) Except as set forth in paragraph (b)(1)(v) of this Appendix F no temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which causes the #floor area ratio# on a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, until the #High Line# Support Work described in paragraph (b)(1) of this Appendix F has been substantially completed or finally completed, as applicable;
 - (vi) Notwithstanding anything to the contrary in this paragraph (b)(1), inclusive, if certification is initially made pursuant to Section 98-25, paragraph (a), with respect to additional #floor area# to be added to a #building# or portion of a #building# located outside of the Tenth Avenue Zone, as described in Section 98-423, paragraph (g)(iii), then the conditions for certification pursuant to Section 98-25, paragraph (d), for a permanent or temporary certificate of occupancy shall not apply to such #building# or portion of a #building# and the following conditions shall apply:
 - (a) the owner shall deliver a letter of credit or other security reasonably satisfactory to the City in an amount reasonably determined by the City as sufficient for the City to perform the #High Line# Support Work described in paragraph (b)(1) of this Appendix F which letter of credit or other security may be drawn or exercised by the City in the event of a default by the owner in accordance with paragraph (c)(ii) of this Appendix F; and
 - (b) the owner shall enter into an agreement with the City in a form reasonably acceptable to the City requiring the owner to commence the #High Line# Support Work described in paragraph (b)(1) of this Appendix F, no later than September 1, 2017, subject to force majeure as determined by the Chairperson, and shall thereafter diligently prosecute the same to completion, pursuant to an agreed-upon schedule, subject to force majeure as determined by the Chairperson.
- (c) In the event the owner is in default of its obligations pursuant to the agreements required by paragraph (b)(1)(vi) of this Appendix F:
 - (1) The City shall be entitled to draw the letter of credit or exercise the other security described in paragraph (b)(1)(vi)(a) of this Appendix F and to take possession of the #High Line# Support Easement Volumes following delivery of notice to the owner that the City intends to perform the #High Line# Support Work in accordance with provisions to be set forth in the restrictive declaration described in paragraph (a)(1)(iii) of this Appendix F;
 - (2) The City shall return to the owner any contribution made to the #High Line# Improvement Fund with respect to additional #floor area# to be added to a #building# or portion of a #building# located within the Tenth Avenue Zone as described in Section 98-423, paragraph (g)(3);
 - (3) No additional building permit may be issued pursuant to Section 98-25, paragraph (a), with respect to a #development# or #enlargement# to be located within the Tenth Avenue Zone as described in Section 98-423, paragraph (g)(iii), nor may any temporary or permanent certificates of occupancy be issued pursuant to Section 98-25, paragraph (d), for #floor area# in such a #development# or #enlargement# which causes the #floor area ratio# on a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012.
- (d) Option to offer an additional #High Line# Support Easement Volume:
 - (1) The owner, at its sole option, may elect to offer to the City an easement comprising up to 7,500 square feet of #floor area# within the #building# adjacent to the #High Line# and at the vicinity of the level of the #High Line bed# as an additional #High Line# Support Easement Volume by written notice to the Chairperson of the City Planning Commission, with a copy to the Commissioner of the Department of Parks and Recreation. Such written notice shall be delivered contemporaneously with the owner's first request for certification by the Chairperson, described in paragraph (a) of Section 98-25, that relates to a #building# or portion of a #building# within the Tenth Avenue Zone, as described in Section 98-423,

paragraph (g)(3);

- (2) If the owner elects to exercise such option, the owner shall provide an appraisal from an appraiser reasonably acceptable to the City who is a member of the American Institute of Real Estate Appraisers (or its successor organization) establishing the fair market value of the additional #High Line# Support Easement Volume to be so dedicated. The term “fair market value” shall mean the price at which such additional #High Line# Support Easement Volume would change hands between a willing buyer and a willing seller, both acting rationally, at arm’s length, in an open and unrestricted market. The appraisal shall determine such fair market value of the additional #High Line# Support Easement Volume based on its highest and best as-of-right #uses#, valued in an unimproved core and shell physical condition (including any existing structural elements, such as the #building# wall separating the #High Line# from the additional easement volume) and considered unencumbered by any leases, mortgages or other matters that will be released or otherwise subordinate to the grant of such additional #High Line# Support Easement Volume to the City. The appraisal shall not assume that as-of-right #uses# of the additional #High Line# Support Easement Volume may enjoy any access to and from the #High Line#. Any other appraisal assumptions or instructions not set forth herein shall be subject to approval by the City.
- (3) If such option is exercised by the owner, the City shall have up to 60 days from the delivery of the written notice described in paragraph (d)(1) of this Appendix F to irrevocably accept or decline the exercise of the option by written notice to the owner. If the City does not so accept or decline the option within said 60-day period, then the option shall be deemed declined and neither the City nor the owner shall have any further rights or obligations under this paragraph, (d), inclusive;
- (4) If such option is exercised by the owner and accepted by the City, the restrictive declaration described in paragraph (a)(1) (ii) of this Appendix F shall provide or shall be amended to include the additional #High Line# Support Easement Volume within the grant to the City, and the value of the additional #High Line# Support Easement Volume as set forth in the appraisal shall be the responsibility of the City and may be deducted in whole or in part from the #High Line# Improvement Fund contribution required pursuant to paragraph (a)(1) of this Appendix F;
- (5) In the event that the City requests the owner to perform any work in conjunction with the dedication of the additional #High Line# Support Easement Volume and the owner agrees to perform such work, then the cost of such additional work shall be the responsibility of the City and may be deducted in whole or in part from the #High Line# Improvement Fund contribution required pursuant to paragraph (a)(1) of this Appendix F. All costs of fitting-out, operating, maintaining, repairing and replacing the additional #High Line# Support Easement Volume shall be exclusively the responsibility of the City and not the owner.

berths shall be permitted.

However, the City Planning Commission may, by authorization, permit a curb cut, on a #street# specified on Map 5, for parking facilities and loading berths on a #zoning lot# that does not have access or egress on another #street#, provided that such curb cut will not unduly inhibit surface traffic or result in conflict between pedestrian and vehicular circulation, and will result in a good overall site plan.

101-52 - Reservoir Spaces

LAST AMENDED
6/28/2004

The provisions of this Section shall apply to parking facilities created after December 10, 2012, or for parking facilities enlarged by 50 or more spaces after December 10, 2012. For the purpose of determining required reservoir spaces, fractions equal to or greater than one-half resulting from the calculations in this Section shall be considered one reservoir space.

(a) Attended parking facilities

Attended #accessory# parking facilities, #public parking garages# or #public parking lots# with more than 25 parking spaces shall provide the following amount of off-street reservoir space at the vehicular entrance:

- (1) for parking facilities with more than 25 parking spaces and up to 50 parking spaces: five percent of the total number of parking spaces;
- (2) for parking facilities with more than 50 parking spaces and up to 100 parking spaces: 10 percent of the total number of parking spaces;
- (3) for parking facilities with more than 100 parking spaces and up to 200 parking spaces: 10 parking spaces; and
- (4) for parking facilities with more than 200 parking spaces: five percent of the total number of parking spaces. However, such number of reservoir spaces need not exceed 50.

(b) #Automated parking facilities#

For #automated parking facilities#, off-street reservoir space at the vehicle entrance shall be provided as set forth in paragraph (a) of this Section.

Each individual parking location where a driver is permitted to leave a vehicle for transfer to a mechanized automobile storage and retrieval unit shall constitute one reservoir space. Additional reservoir spaces may be located where drivers queue to access such locations for vehicle transfer.

In addition, the number of reservoir spaces required pursuant to paragraph (a) of this Section may be reduced where the Commissioner of Buildings determines that the operational characteristics of such #automated parking facility# warrant such a reduction.

(c) Self-parking facilities

For self-parking #accessory# parking facilities, #public parking garages# and #public parking lots#, where entering vehicles are required to stop at a mechanically operated barrier before entering the parking facility, such barrier shall be placed a minimum of 20 feet beyond the #street line#.

101-53 - Garages

LAST AMENDED
12/10/2012

101-531 - Public parking garages

LAST AMENDED 3/22/2016

#Public parking garages# with 225 or fewer spaces shall be permitted as-of-right, provided that such garages are, except for entrances and exits, entirely below the level of any #street# or #publicly accessible open area# upon which such facility, or portion thereof, fronts. In addition to a maximum number of 225 public parking spaces, such garages may include required #accessory# parking spaces, which may be provided at any level. Any #accessory# parking spaces that are not required shall be included with all other public parking spaces in such #public parking garage# for the purpose of applying any regulations in this Resolution relating to the number or location of parking spaces in such #public parking garage#.

101-532 - Off-site accessory parking spaces in public garages

LAST AMENDED3/22/2016

Section 36-57 (Accessory Off-street Parking Spaces in Public Garages) shall be modified to allow #accessory# off-street parking spaces in any #public parking garage developed# after December 10, 2012, provided such off-site spaces comply with the provisions of Section 101-55 (Location of Off-site Parking Spaces).

101-533 - Pedestrian safety

LAST AMENDED3/22/2016

The provisions of this Section shall apply to parking facilities created after December 10, 2012, or for parking facilities enlarged by 50 or more spaces after December 10, 2012. For all #accessory# parking garages and #public parking garages#, the following safety features shall be provided at all vehicular exit points:

- (a) a 'stop' sign which shall be clearly visible to drivers. Such signage shall comply with the standards set forth in the Manual of Uniform Traffic Control Devices (MUTCD) issued by the Federal Highway Administration (FHWA) for a conventional single lane road; and
- (b) a speed bump, which shall be located within the exit lane of the parking facility. Such speed bump shall:
 - (1) span the entire width of such exit lane;
 - (2) have a minimum of two inches in height, as measured from the adjoining grade of the exit lane, and a maximum depth of 12 inches; and
 - (3) be located a minimum of four feet beyond the #street line#, as measured perpendicular to the #street line#.

101-534 - Stackers in garages

LAST AMENDED3/22/2016

Within an enclosed attended parking facility with parking lift systems, for individual lifted trays upon which a vehicle is stored, each tray upon which a vehicle is stored shall be considered 153 square feet of #floor area#, except if located in portions of a #building# exempt from the definition of #floor area# pursuant to Section 12-10 (DEFINITIONS).

101-535 - Automated parking facilities

LAST AMENDED3/22/2016

For an #automated parking facility#, the minimum size of spaces regulated in Sections 25-62 (Size and Location of Spaces) and 36-521 (Size of spaces) shall not apply.

For the purpose of calculating parking spaces in #automated parking facilities#, each tray upon which a vehicle is stored shall constitute one off-street parking space. However, auxiliary parking trays may be exempted from constituting a parking space where the Commissioner of Buildings determines that such auxiliary parking trays are needed to routinely store and retrieve vehicles for the efficient operation of such #automated parking facility#.

Within an #automated parking facility#, each tray upon which a vehicle is stored shall be considered 153 square feet of #floor area#, except if located in portions of a #building# exempt from the definition of #floor area# pursuant to Section 12-10 (DEFINITIONS).

101-536 - Special permit for public parking garages

LAST AMENDED3/22/2016

Section 74-52 (Parking Garages or Public Parking Lots in High Density Central Areas) shall not apply to #public parking garages#. In lieu thereof, the City Planning Commission may permit:

- (a) a #public parking garage# that does not comply with the provisions of Section 101-531 (Public parking garages), provided that such garage complies with all other applicable regulations set forth in Section 101-50 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS); and
- (b) floor space on one or more #stories#, up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# as set forth in Section 12-10.

In order to grant a special permit for such #use# or #floor area# exemption, the Commission shall find that:

- (1) such #use# will be compatible with the surrounding area, and will not adversely affect the growth and development of #uses# comprising vital and essential functions in the general area within which such #use# is to be located;

- (2) the proposed materials and articulation of the #street wall# of the parking facility are compatible with #buildings# in the surrounding area;
- (3) the ground floor level of such parking facilities that front upon #streets# with a width of 60 feet or more, or that front upon public access areas, is occupied by #commercial#, #community facility# or #residential uses# that generate activity on all such adjoining #streets# or public areas, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from such adjoining #streets# or public access areas with a strip at least five feet deep, densely planted with shrubs or trees that are at least four feet high at the time of planting and that are of a type which may be expected to form a year-round dense screen, at least six feet high, within three years. Where such screening is not desirable, a total of at least 50 percent of the exterior #building# wall with adjacent parking spaces shall consist of opaque materials that include graphic or sculptural art, or living plant material;
- (4) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential floor area#, so as to minimize the visibility of the parking facility from adjoining #streets# with a width of 60 feet or more, or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;
- (5) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow and that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;
- (6) such #use# and its vehicular entrances and exits are so located as to draw a minimum of vehicular traffic to and through residential #streets# in nearby areas; and
- (7) if any floor space is exempted from the definition of #floor area#, such additional floor space is necessary to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, or requirements for shielding of floodlights, or locations of entrances and exits.

101-54 - Restrictions on Use of Accessory Off-street Parking Spaces

LAST AMENDED
12/10/2012

The provisions of Section 36-46 (Restrictions on Use of Accessory Off-street Parking Spaces) shall apply, provided that all #Commercial Districts# within the #Special Downtown Brooklyn District# shall be considered a C6 District for the purposes of such Section, inclusive. However, the provisions of this Section shall not apply within the Atlantic Avenue Subdistrict.

101-55 - Location of Off-site Parking Spaces

LAST AMENDED
12/10/2012

Sections 25-50 and 36-40 (RESTRICTIONS ON LOCATION AND USE OF ACCESSORY OFF-STREET PARKING SPACES) shall apply, except that where the #use# generating the parking requirement and the #zoning lot# providing the parking spaces are both within the #Special Downtown Brooklyn District#, Sections 25-521 and 36-421 (Maximum distance from zoning lot) shall be modified to permit #accessory# parking spaces to be located up to 2,500 feet from the #zoning lot# occupied by the #residences# to which they are #accessory#.

LAST AMENDED
2/2/2011

- (a) #Sign# located within the #sign# band

A #commercial# establishment located on the ground floor of a #building# may have one #sign# located on each #street# frontage within a #sign# band as defined in this Section.

The #sign# band shall have a lower limit of 10 feet above #curb level# and an upper limit coincident with the bottom of the lowest window sill on the second floor of a #building#, but in no event more than 15 feet above #curb level#. A #sign# located within the #sign# band may be applied directly to the surface of a #building# or to a #sign# board affixed to the surface of a #building#. If a #sign# board is employed, such #sign# board shall be entirely within the #sign# band, shall be mounted horizontally, shall have a uniform color over its entire surface excluding perimeter frame or trim and shall extend the full length of the #street wall# of the establishment to which it is #accessory#, except that such #sign# board may be interrupted by vertical architectural elements such as columns, pilasters or other integral architectural elements. Any background material shall be considered as a #sign# board, unless it extends the full length of the #street wall# of a #building# (or that portion of a #building# occupied by the establishment) and the full height of the #building# up to the topmost cornice. On #corner lots#, a #sign# or #sign# boards shall be the same vertical dimension and shall be mounted at the same height above the #curb level# on both #street# frontages.

If more than one #commercial# establishment is located on the ground floor of a #building#, the #signs# located within the #sign# band #accessory# to each such establishment shall consist of letters and symbols of approximately the same size for each establishment, either applied directly to the surface of the #building# or to a common #sign# board affixed to the surface of a #building#.

As of March 16, 1978, the owner or lessee of a #building# with more than one ground floor establishment shall be responsible (unless the #sign# is applied directly to the surface of the #building#) for specifying the requirements of a common #sign# board, which shall include, but are not limited to, vertical dimension, mounting height, background color, material, whether illuminated and method of illumination (if applicable) which shall be the same for each establishment and shall be adhered to by each establishment employing a #sign# board.

A #sign accessory# to #uses# on the upper floors of a #building# may be located within the #sign# band when it directs attention to a ground floor entrance of an establishment located on the upper floors of a #building#.

(b) #Signs# located below the #sign# band

101-81 - Special Permit for Use and Bulk Modifications for Cultural Use in Certain C6-2 Districts

LAST AMENDED
3/13/2019

In order to support a concentration of cultural #uses# and public open spaces in the C6-2 District bounded by Flatbush Avenue, Hanson Place, St. Felix Street and Lafayette Avenue, for #buildings# intended to be occupied in whole or in part by cultural #uses#, the City Planning Commission may permit the maximum #community facility floor area ratio# to be increased from 6.5 to 7.0, may permit modifications of the special #street wall# location regulations of Section 101-41, and the height and setback regulations of Section 23-641 as applied to the #residential# portion of a #building#, and modifications of applicable #sign# regulations in accordance with this Section.

For the purposes of this Section, "cultural use" shall be defined as public or non-profit libraries, theaters, museums, visual or performing arts spaces, or art, music, dance, theatrical studios or other comparable #uses# and space occupied by such cultural #use# shall qualify as #community facility floor area#.

In order to grant such special permit, the conditions of paragraph (a) and the findings of paragraph (b) of this Section shall be met. In addition, special regulations pertaining to the certificate of occupancy of such #building# shall apply as set forth in paragraph (c).

- (a) Conditions
 - (1) A letter from the Office of the Mayor shall be submitted certifying that:

- (i) a preliminary agreement has been executed providing for a cultural facility consisting of at least 40,000 square feet of interior gross square feet in the #building# to be transferred for cultural #uses# and for the construction of the core and shell of such cultural facility by the applicant; and
 - (ii) floor plans have been provided to the Office of the Mayor which demonstrate that the cultural facility is well-suited for cultural #uses#; and
 - (2) A legal commitment in the form of a declaration of restrictions shall be executed and delivered to the City for recording upon the approval of the permit, restricting use of the #floor area# to be occupied by cultural #uses# to cultural #use# for the life of the related #development#, provided that in the event the majority of the #zoning lot# containing such #floor area# is in the ownership of a not-for-profit corporation under contract with the City to provide economic development services at the time of the grant of such permit, execution and recordation of such declaration of restrictions shall be made at the time of the transfer of ownership of the majority of such #zoning lot# for purposes of facilitating the related #development#.
- (b) In order to grant such permit, the Commission shall find that:
- (1) the #building#, including such cultural #uses#, is designed and arranged on the #zoning lot# in a manner that results in ample visibility of and access to the cultural #uses# from surrounding #streets#;
 - (2) any #street wall# modifications will facilitate access to #open space# on the lot and result in a #development# that activates the pedestrian environment;
 - (3) any #bulk# modifications will result in a better distribution of #bulk# on the #zoning lot# by providing for increased light and air to #open space# on the #zoning lot#;
 - (4) the appearance of #bulk# is minimized through an enhanced articulation of the base and tower elements of the #building#, an enhanced relationship between the #building# and the #open space# on the #zoning lot#, and an enhanced amount and arrangement of the fenestration of the #building#; and
 - (5) any modifications to #sign# regulations will result in greater visibility for the cultural #uses# provided on the #zoning lot#.

The Commission may prescribe appropriate additional conditions and safeguards in order to enhance the character of the #development# and to minimize adverse effects on the character of the surrounding area.

(c) Certificate of occupancy

The Commissioner of Buildings shall not issue a temporary or permanent certificate of occupancy for more than an amount of #floor area# in the #building# equal to the #floor area# to be occupied by non-cultural #uses# minus 40,000 square feet of #floor area# unless the Department of Buildings has received a letter from the Office of the Mayor certifying that a deed transferring ownership of a majority of the #zoning lot# has been recorded and that such deed or other recorded document provides for:

- (1) the construction by transferee of the core and shell of the cultural facility described in paragraph (a)(1)(i) of this Section;
- (2) the creation of a condominium unit for such cultural facility and the transfer of ownership thereof to the City; and
- (3) a right of the transferor to re-enter and re-acquire the #zoning lot# should the applicant fail to complete the construction of the core and shell of the cultural facility.

Should the certification by the Office of the Mayor not be issued within 30 days of the recording of the deed or other document with the stated provisions, a copy of such deed or document may be provided to the Department of Buildings in satisfaction of such certification.

LAST AMENDED 3/13/2019

In C6-9 Districts within the #Special Downtown Brooklyn District#, mapped after March 13, 2019, for #developments# or #enlargements# on irregular sites, the City Planning Commission may modify underlying #bulk# regulations, other than #floor area ratio#, provided that no Use Group 5 #use# shall be permitted in any portion of the #building# receiving such modifications, and:

- (a) there are physical conditions, including irregularity, narrowness or shallowness of lot shape or size that create practical difficulties in complying with the #bulk# regulations and would adversely affect the #building# configuration or site plan;
- (b) the practical difficulties of developing on the #zoning lot# have not been created by the owner or by a predecessor in title;
- (c) the proposed modifications are limited to the minimum needed to relieve such difficulties;
- (d) the proposed modifications will not unduly obstruct access of light and air to adjoining properties or #streets#; and
- (e) the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area.

- (a) to preserve, protect and prevent obstruction of outstanding scenic views as seen from a mapped public park or an esplanade or a mapped public place directly accessible to the public; and
- (b) to promote the most desirable use of land and direction of building development, to assure the maintenance and enhancement of the aesthetic aspects of scenic views, to conserve the value of land and buildings and to protect the City's tax revenues.

102-01 - Definitions

LAST AMENDED
2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

- (b) outstanding views of large bodies of water such as rivers, streams, lakes, harbors, waterfalls or similar aquatic features; or
- (c) panoramic views of the waterfront profile of the skyline formed by built and natural elements.

The minimum horizontal distance between the scenic view and a view reference line shall be at least 1,500 feet and shall not contain distractions which reduce the quality of such view. The specific view to be preserved under the regulation of this Special Scenic View District shall be described and made part of this Chapter.

View framing line

The "view framing line" is a line or lines which establish the outer edge of the scenic view to be protected. For each scenic view, the view framing line or lines and their elevation are to be located and identified and made part of this Chapter.

View plane

A "view plane" is an imaginary plane above which no obstruction shall be permitted within a Special Scenic View District unless authorized by the City Planning Commission. Position of the view plane and its elevation applicable to each Special Scenic View District are to be located and identified and made part of this Chapter.

View planes and their elevation, length and slopes applicable to each Special Scenic View District are to be located and identified and made part of this Chapter.

View reference line

The "view reference line" is a line within a mapped public park or an esplanade or a mapped public place from which at any point an outstanding scenic view may be observed. A view reference line and its elevation applicable to each Special Scenic View District are to be located and identified and made part of this Chapter.

102-02 - General Provisions

LAST AMENDED
2/2/2011

In harmony with the general purpose and intent of this Resolution and the general purposes of the Special Scenic View District, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as so modified, all the

applicable regulations of the underlying districts shall be in effect.

#Special Scenic View Districts# may be mapped only in areas where the control of the height of a #building or other structure# including #signs#, is necessary to preserve outstanding #scenic views# from a mapped #public park# or an esplanade or a mapped public place.

102-021 - Requirement for application

LAST AMENDED
2/2/2011

An application to the City Planning Commission for a special permit pursuant to Section 102-30, shall include maps, plans or other documents showing topography, elevations, and site plans showing arrangement and spacing of #buildings or other structures#, and other information necessary to determine the impact of the proposal on the #scenic view# to be protected.

102-023 - Relationship to public improvement projects

LAST AMENDED
2/2/2011

In all cases, the City Planning Commission shall deny a special permit application whenever the proposal will interfere with a public improvement project (including highways, public #buildings# and facilities), redevelopment or renewal projects, or rights-of-way for sewers, transit, or other public facilities) which is approved by or pending before the Board of Estimate, the City Planning Commission, or the Site Selection Board as determined from the calendar of each such agency issued prior to the date of the public hearing on the application for a special permit.

102-10 - HEIGHT REGULATIONS FOR BUILDINGS, SIGNS OR STRUCTURES

LAST AMENDED
2/2/2011

Notwithstanding any other provisions of this Resolution, no portion of any #building or other structure# hereafter constructed, or of any #sign# hereafter erected, or of any existing #building or other structure# hereafter relocated, #enlarged# or reconstructed, shall penetrate a #view plane# unless authorized by the City Planning Commission, pursuant to Section 102-30 (SPECIAL PERMIT PROVISIONS).

102-11 - Damage, Destruction or Demolition

LAST AMENDED
10/24/1974

If an existing #building or other structure# which penetrates the #view plane# of a #Special Scenic View District# is damaged, destroyed or demolished by any means, such #building or other structure# may be reconstructed provided that such reconstruction shall not create a new #non-compliance# nor increase the pre- existing degree of #non-compliance#.

102-20 - MANDATORY LANDSCAPING PLAN

LAST AMENDED
10/24/1974

The requirements of this Section shall apply to #zoning lots#, any portion of whose finished ground elevation is within 30 feet of the elevation of the #view plane# located above the #zoning lot#. At the time of filing with the Department of Buildings, for any application for an excavation permit or a building permit for a #development# or #enlargement# or site improvement on such #zoning lots# within a #Special Scenic View District#, a landscaping plan shall be submitted to the City Planning Commission indicating that future landscaping on the site will not impair #scenic views# from the #view reference line#. Such plan shall indicate existing topography, trees, shrubs, #buildings or other structures# and proposed landscaping. All future landscaping on the site shall be in accordance with the approved landscaping plan on file with the Commission. The Commission shall submit a copy of the approved landscaping plan to the Department of Buildings or other appropriate city agency having jurisdiction.

As a condition for such modifications, the Commission shall find:

- (a) that any penetration of a #view plane# shall not significantly obstruct the #scenic view# which is to be protected by the provisions of this Chapter;
- (b) that any penetration of a #view plane# will cause the minimal obstruction consistent with reasonable development and #bulk# distribution on the #zoning lot#; and
- (c) that any #bulk# modifications on a #zoning lot# will not affect adversely any other #zoning lots# outside the development, by restricting access of light and air.

In reaching a determination for such modifications, the Commission shall be guided by the description of the #scenic view# to be made part of this Chapter at the time of the designation of a #Special Scenic View District#.

The Commission may prescribe appropriate conditions and safeguards to protect the #scenic view# and to minimize the adverse effects on the character of the surrounding areas.

LAST AMENDED
2/2/2011

- (a) For any #development# or #enlargement#, either of which may include demolition, within a #Special Planned Community Preservation District#, the City Planning Commission, by special permit, may allow:
- (1) the unused total #floor area#, #dwelling units# or #rooming units# permitted by the applicable district regulations for all #zoning lots# within the development to be distributed without regard for #zoning lot lines#;

- (b) In order to grant such special permits, the City Planning Commission shall make the following findings:
- (1) that the #development# or #enlargement# relates to the existing #buildings or other structures# in scale and design, and that the #development# will not seriously alter the scenic amenity and the environmental quality of the community;
 - (2) that the #development# or #enlargement# be sited in such a manner as to preserve the greatest amount of #open space# and landscaping that currently exists, consistent with the scale and design of the existing development, the landscaping surrounding the new landscaping arrangement, and conditions of the community;
 - (3) that the #development# or #enlargement# be sited in such a manner that it will not require at that time, or in the foreseeable future, new access roads or exits, off-street parking or public parking facilities that will disrupt or eliminate major portions of #open space# and landscaping or will generate large volumes of traffic that will diminish the environmental quality of the community; and
 - (4) that minimal landscaping be removed during construction and such areas will be fully restored upon completion of construction.
- (c) Notwithstanding the provisions of paragraph (a)(6) of this Section, where the requirement for #accessory# off-street parking spaces, driveways or curb cuts can only be accommodated in such a manner that the functioning of the existing planned community is substantially injured, the Commission shall authorize waiver of all or part of the required parking.

The Commission may prescribe appropriate conditions and safeguards, including covenants running with the land which shall permit public or private enforcement reflecting terms, conditions and limitations of any special permit in order to minimize adverse effects on the character and quality of the community. The mandatory #street wall# requirements shall apply to any #development# and the #enlarged# portion of an existing #building#, except as set forth in paragraph (c) of this Section.

In Subdistrict A, the mandatory #street walls# specified as Street Wall Types 1, 3 and 4 consist of a #lower street wall# and an #upper street wall#, except that for #buildings# fronting on a #wide street# that do not exceed a height of 85 feet, and for #buildings# fronting on a #narrow street# that do not exceed a height of 60 feet, such #street wall# may in its entirety comply with the rules for an #upper street wall#.

(a) #Lower street wall#

- (1) For Parcels D1, E1, F1, G1, G2 and H, the #lower street wall# is that portion of the #street wall# that extends from grade to a minimum height of 15 feet above the highest elevation of the #street# frontage of the #building# on Broadway and a maximum height of 55 feet above such elevation for each #street# frontage. For #buildings# without frontage on Broadway, the #lower street wall# shall be measured from the highest elevation of each such #street# frontage of such #building#;
- (2) For Parcels A, C1, C4, D4, E4 and F4, the #lower street wall# of each #street# frontage of a #building# is that portion of the #street wall# that extends from grade to a minimum height of 20 feet and a maximum height of 55 feet above the highest elevation of such #street# frontage of such #building#;
- (3) For Parcels C2, C3, D2, E2, E3, F2 and F3, the #lower street wall# of each #street# frontage of a #building# is that portion of the #street wall# that extends from grade to a minimum height of 20 feet and a maximum height of 45 feet above the highest elevation of such #street# frontage of such #building#. For the purposes of this Section, Parcel C2 shall be considered to have frontage only on West 130th Street.

(b) #Upper street wall#

For all Parcels, the #upper street wall# is that portion of the #street wall# that extends from the #lower street wall# to the maximum #building# height set forth in Appendix B or the height of the #building#, whichever is less.

- (c) The mandatory #street wall# requirements shall not apply to vertical #enlargements# of one #story# not exceeding 15 feet in height.
- (d) Where a #building# is located on more than one Parcel, the requirements of Sections 104-331 through 104-336, with respect to the locations of the #upper street wall# and the #lower street wall#, may apply to the entire #street frontage# of the Parcels.
- (e) On Parcels C3 and C4, the applicable #lower street wall# provision may be applied to the entire #building#.
- (f) For a #building# within Subdistrict A, located on a portion of a Parcel where no required #street wall# is shown on Map 4, such #building# shall comply with the #street wall# requirements for a #building# on the same Parcel. For a #building# on Parcel C3, the #street wall# requirements shall be those provisions applicable to Parcel D2.

This minimum area shall not include either the Midblock Open Area on Block D, or the area of the #mandatory widened sidewalks# on the West 130th and 131st Street frontages adjacent to the Square.

The Square shall be used for open space accommodating both passive recreation and limited active recreation.

#Building# transparency

The bounding #building# wall on the west side of the Square shall be transparent for 50 percent of the area of such wall, measured from the finished level of the adjacent pavement to the height of the ceiling of the second #story#.

Circulation and access

No fences or gates shall be permitted anywhere in the Square.

An unimpeded pedestrian access, with a minimum width of 15 feet, shall be provided across the Square in a generally diagonal direction in the north/south orientation, connecting the two narrow streets, with both ends located a minimum of 100 feet from the Midblock Open Area on Block D.

The Square shall provide unobstructed access from the adjoining sidewalks for at least 50 percent of the length of each street frontage of the Square. No single fixed element, within 15 feet of the #street line# of the Square, shall have a dimension greater than 15 feet or be higher than 30 inches, measured from the finished level of the adjacent sidewalk. The clear path between obstructions shall be at least three feet; however, to qualify as an unobstructed access that contributes to the 50 percent requirement set forth in this paragraph, a minimum width of five feet is required.

Elevation of the Square

The elevation of the Square shall generally follow the adjacent topography. Within 15 feet of the #street line#, the elevation of the Square, for a minimum of 50 percent of the length of each frontage on a #street#, shall have a maximum slope of 1:15. Seating

A minimum of one linear foot of seating shall be provided for each 50 square feet of the Square. A minimum of 75 percent of the required seating shall be fixed; up to 25 percent may be movable. Every two and one-half linear feet of fixed seating shall be considered as seating for one person.

The following standards shall apply to all required seating:

- (a) fixed seating may be provided in the form of double-sided benches, which shall be a minimum of 36 inches deep;
- (b) 50 percent of the fixed seats shall have backs; such backs shall be not less than 14 inches high;
- (c) fixed seating shall be between 16 inches and 18 inches in height, with a minimum depth of 18 inches measured from the edge to the back; and

(d) all seating shall be made of durable material and shall be comfortable to sit on, with rounded edges of at least one inch radius.

However, other types of seating, such as the edges of planters and fountains, may count toward the required amount of seating if such seating has a minimum depth of 22 inches and is between 16 and 18 inches in height.

At least 20 percent of the required seating shall be provided within 15 feet of the #street line# of the Square fronting all #streets# and the adjacent Midblock Open Area, and arranged to encourage a variety of uses. If such Midblock Open Area is provided with seating, that frontage of the Square may be exempt from this requirement.

General requirements for trees and planting

A minimum of 50 percent of the Square shall be landscaped with soft ground cover. Soft ground cover shall include trees, grasses, shrubs and other ornamental planting material. The remaining 50 percent of the Square may be paved as hard surface.

Trees shall be planted in continuous planted areas that have a minimum depth of four feet and a minimum area of 500 square feet of soil. All trees shall be planted flush to grade. The requirements of this paragraph, (a), shall be in addition to the requirements of Section 104-422 (Midblock Open Areas).

Planting

Seasonal planting is encouraged but not required. When planting beds are provided, they can be counted towards meeting the requirement for soft ground cover. Planting beds shall have a minimum soil depth of two feet for grass or other similar ground cover and three feet for shrubs.

Other required amenities

Racks shall be provided for a minimum of 16 bicycles. Such racks shall be located in the Square within 10 feet of the #street line# or, if outside the Square, on any open area facing the Square.

Four drinking fountains, two of which shall be fully accessible for children and people with disabilities, shall be provided in the Square or on the sidewalks, #mandatory widened sidewalks# or Midblock Open Area adjacent to the Square.

Vents and stairs in the Square

Exhaust or air intake vents and stair bulkheads shall not be permitted in the Square, except as authorized by the City Planning Commission, subject to the following conditions:

- (a) the top of the exhaust or intake vent shall be a minimum of 20 feet above the finished level of the adjacent grade;
- (b) no single element shall be more than 200 square feet; and
- (c) the aggregate area occupied by all vents and stair bulkheads shall not exceed one percent of the area of the Square.

In order to grant such authorization, the Commission shall find that:

- (1) placement of such elements cannot be reasonably accommodated elsewhere on the #zoning lot#; and
- (2) such vents and stair bulkheads are located so as to minimize impact on the visibility, accessibility and public use and enjoyment of the Square.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the Square.

Chapter 5 - Special Natural Area District (NA-1), (NA-2), (NA-3), (NA-4)

105-00 - GENERAL PURPOSES

LAST AMENDED
2/2/2005

The "Special Natural Area District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) to guide development in areas of outstanding natural beauty in order to protect, maintain and enhance the natural features of such areas;
- (b) to preserve land having qualities of exceptional recreational or educational value to the public;
- (c) to protect aquatic, biologic, botanic, geologic and topographic features having ecological and conservation values and functions;
- (d) to reduce hillside erosion, landslides and excessive storm water runoff associated with development by conserving vegetation and protecting natural terrain;
- (e) to preserve hillsides having unique aesthetic value to the public; and
- (f) to promote the most desirable use of land and the direction of building development in accordance with a well-considered plan, to promote stability of residential development, to promote the character of the district and its peculiar suitability for particular uses, to conserve the value of land and buildings and thereby protect the City's tax revenues.

105-01 - Definitions

LAST AMENDED
2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section 12-10 (DEFINITIONS).

Area of no disturbance

An "area of no disturbance" is an area designated on the site plan that is protected from all types of intrusion, including: #site alteration#, operation of construction equipment, storage of construction materials, excavation or regrading, tunneling for utilities, removal of trees, #topsoil# or any living vegetation, or construction of driveways, #private roads#, parking areas, patios, decks, swimming pools, walkways or other impervious surfaces. #Areas of no disturbance# shall include #steep slopes#, #steep slope buffers# and the #critical root zone# of each tree proposed for preservation.

Average percent of slope

The "average percent of slope" of a #zoning lot# is the average slope of all portions of a #zoning lot# excluding #steep slopes# and shall be determined according to the following equation:

$$S = \frac{IL}{A} \times 100$$

Where: S - #average percent of slope#

I - contour interval in feet

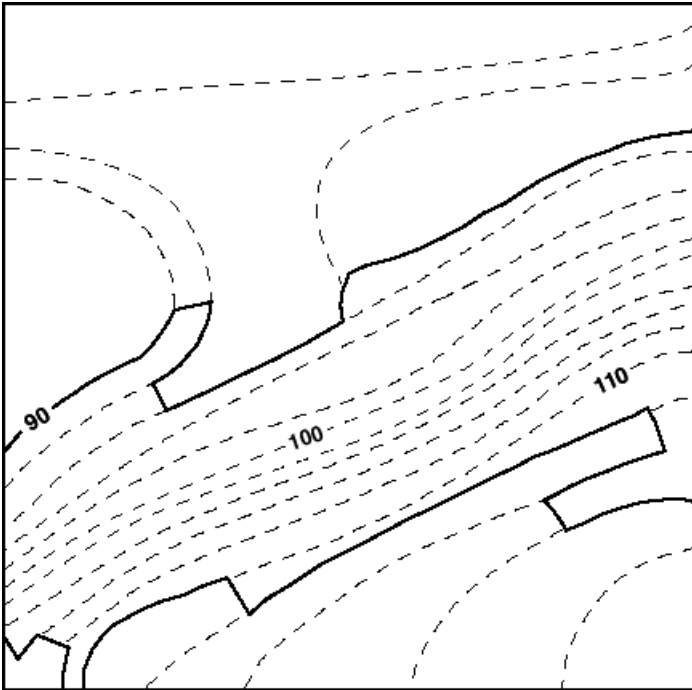

L - combined length of contour lines in feet, excluding those portions bordering or lying within areas having a

slope of 25 percent or greater and meeting the definition of #steep slope#

A - gross area in square feet of the #zoning lot#, excluding those portions of the #zoning lot# having a slope of 25 percent or greater and meeting the definition of #steep slope#. For a proposed #site alteration# on a tract of land not within a #zoning lot#, the portion of such tract of land owned by the applicant shall be considered to be part of the #zoning lot#

100 - factor which yields slope as a percentage

CALCULATING AREAS HAVING A SLOPE EQUAL TO OR GREATER THAN 25 PERCENT (ILLUSTRATIVE EXAMPLE)

Example:

$$X = \frac{\text{Contour interval in feet}}{0.25} = \frac{2}{0.25} = 8.0 \text{ feet}$$

Where: X - distance between contour lines which indicates a slope of 25 percent

In order to calculate the area having a slope equal to or greater than 25 percent, one can use a map with two-foot contour intervals and a scale of one inch equals 20 feet, as shown in the map in this Section. A 25 percent slope, on a map with two-foot contour intervals, is indicated by contour lines that are 8.0 feet apart, rounded to the nearest tenth (0.1) of a foot. On a map whose scale is one inch to 20 feet, 8.0 feet is represented by 0.4 of an inch, rounded to the nearest tenth (0.1) of an inch. Identify where the contour lines are 0.4 of an inch or less apart. Connect these contour lines (as indicated by the heavy lines on the map) and calculate the area.

Caliper (of a tree)

"Caliper" of a tree is the diameter of a tree trunk measured 4 feet, 6 inches from the ground. If a tree splits into multiple trunks below 4 feet, 6 inches from the ground, the trunk is measured at its most narrow point beneath the split.

Critical root zone

The "critical root zone" of a tree is the area containing the roots of a tree that must be maintained and protected to ensure the tree's survival. The area of the #critical root zone# is measured as one radial foot for every #caliper# inch of the tree, with a required minimum of four radial feet and maximum of 22 radial feet, measured from the surface of the tree trunk at grade.

Hillside

A "hillside" is ground where the ratio of change in elevation to horizontal distance results in a 10 percent or greater slope or #average percent of slope#.

Natural feature

A "natural feature" is a specific natural feature belonging to one of the types listed in Section 105-10 (NATURAL FEATURES) and existing within a #Special Natural Area District#.

Site alteration

A "site alteration" is an alteration on any vacant tract of land, #land with minor improvements# or any tract of land containing #buildings or other structures# which includes land contour work, topographic modifications, removal of #topsoil#, vegetation, excavating, filling, dumping, changes in existing drainage systems, improvements in public rights-of-way, relocation of erratic boulders or modification of any other #natural features#, whether or not a permit is required from the Department of Buildings, the Department of Transportation or other public agencies.

Staging area

A "staging area" is any area on a #zoning lot# used during the construction of a #development#, #enlargement# or #site alteration# for the purposes of stockpiling soil or construction materials; storing, cleaning or servicing construction equipment, vehicles or tools; or storing leachable construction products, gases or other materials used to clean or service vehicles, equipment or tools.

Steep slope

A "steep slope" is a portion of a #zoning lot# with an incline of 25 percent or greater. However, a portion of a #zoning lot# with an incline of 25 percent or greater shall not be considered a #steep slope# if it occupies an area of less than 200 square feet or has a dimension of less than 10 feet, measured along the horizontal plane, unless such portions in the aggregate equal 10 percent or more of the area of the #zoning lot#.

Steep slope buffer

A "steep slope buffer" is a 15-foot wide area having a slope of less than 25 percent that adjoins the entire length of the crest of a #steep slope#.

Tier I site

A "Tier I site" is a #zoning lot# or other tract of land having an #average percent of slope# of less than 10 percent.

Tier II site

A "Tier II site" is a #zoning lot# or other tract of land having an #average percent of slope# equal to or greater than 10 percent.

Topsoil

"Topsoil" is soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth and is generally the top six inches of soil.

Tree credit

A "tree credit" is a credit for preserving an existing tree of six-inch #caliper# or more that is counted towards a tree preservation requirement or a credit for a newly planted tree of three-inch #caliper# or more that is counted towards a tree planting requirement.

Tree protection plan

A "tree protection plan" is a plan that modifies the #area of no disturbance# around a tree proposed for preservation while protecting and preserving the tree during construction. A #tree protection plan# is prepared by an arborist certified by the International Society of Arboriculturists (ISA) or equivalent professional organization that includes:

- (a) a survey of the current condition and health of such trees of six-inch #caliper# or more;
- (b) methods for tree protection and preservation based on best management practices, including the prevention of damage due to compaction, grade and drainage pattern changes and tunneling for utilities;
- (c) a schedule for site monitoring during construction;
- (d) a procedure to communicate protection measures to contractor and workers; and
- (e) post-construction treatment.

Prior to issuance by the Department of Buildings or other City or State agencies, of a permit for any #development#, #enlargement# or #site alteration# within a #Special Natural Area District#, or for any #site alteration# for which no permit is required by the Department of Buildings or other City or State agencies, an application shall be submitted to the City Planning Commission for review and approval pursuant to Section 105-40 (SPECIAL REVIEW PROVISIONS), except those #developments#, #enlargements# and #site alterations# that are not subject to the provisions of Section 105-40, as specified in Section 105-021 (Actions not requiring special review).

Any authorization or special permit granted by the City Planning Commission after July 18, 1995, pursuant to the provisions of this Chapter, may be started or continued, in accordance with the terms thereof, or as such terms may be subsequently modified, pursuant to the regulations in effect at the time such authorization or special permit was granted, subject to the provisions of Sections 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution) and 11-43 (Renewal of Authorization or Special Permit).

When a #zoning lot# existing on the effective date of the Special District designation is subdivided into two or more #zoning lots#, an application shall be submitted to the Commission for review and approval pursuant to Section 105-90 (FUTURE SUBDIVISION).

 - (4) the resulting #development#, #enlargement# or #site alteration# not exceed 2,500 square feet of #lot coverage#; and
 - (5) no Notice of Restriction or Restrictive Declaration recorded against the title of such property;
- (b) any #site alteration#, on a #zoning lot# containing a #residential building# in existence on the effective date of the Special District designation, involving a structure that does not require a permit from the Department of Buildings, including, but not limited to swimming pools, garden sheds and fences, provided that:
 - (1) any modification of topography for the footprint, foundation or grading around the footprint of such structure shall not exceed two feet of cut or fill; and
 - (2) no tree of six-inch #caliper# or greater shall be removed and the #critical root zone# of such tree shall be an #area of no disturbance# on any #zoning lot#.

105-022 - Requirements for application

LAST AMENDED

For a #site alteration#, #enlargement# or #development# within any #Special Natural Area District#, the Commission may modify one or more requirements set forth in paragraphs (a) through (h) of this Section, when such modification is requested by the applicant in writing and when the Commission determines that the requirements are unnecessary for evaluation purposes.

Appendix B of this Chapter should be used as a guide to assist in identifying the #natural features# on the survey required in this Section.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

Where a permit is required for a #development#, #enlargement# or #site alteration# within a #Special Natural Area District# from any City or State agency, an application for such permit shall be filed simultaneously with such agency and the Commission.

105-023 - Relationship to public improvement projects

LAST AMENDED
2/2/2005

In all cases, the City Planning Commission shall deny an application, whenever the #development#, #enlargement# or #site alteration# will interfere with a public improvement project (including highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) that has been approved by the City Council or the City Planning Commission.

105-03 - District Plan

The regulations of this Chapter are designed to implement the #Special Natural Area District# Plan. The District Plan includes the following:

Appendix A - Special Natural Area District Plan Maps

Appendix B – Glossary

Appendix C - Selection List for Ground Covers and Shrubs

Appendix D - Tree Selection List for On-site Trees

Appendix E - Tree Selection List for Street Trees

These maps and lists are hereby incorporated and made part of this Resolution for the purpose of specifying locations where the special regulations and requirements set forth in this Chapter shall apply.

105-10 - NATURAL FEATURES

LAST AMENDED
12/19/1974

105-11 - Description of Natural Features

LAST AMENDED
2/2/2005

All #natural features# shall be significant in terms of age, size, composition, function, structure, history, association, location, ecological value or educational interest.

The protection of one #natural feature# may require the protection of another which is closely linked to it. The preservation of #natural features# may also be necessary to avoid such adverse conditions as flooding, erosion or hazards to private property. All vegetation is part of a botanic environment or part of an aquatic feature and shall be considered as a #natural feature# protected by the regulations of this District. For the purposes of this Chapter, vegetation includes all forms of plant material, including, but not limited to, trees, shrubs, vines, ferns, grasses, herbs and other plant life.

All #natural features# defined in this Section and further described in Appendix B of this Chapter shall be protected by the provisions of this Chapter.

(a) Geologic features

(1) Rock outcrop

A rock outcrop is the portion of a rock formation which appears at the surface of the earth.

(2) Geologic deposit

A geologic deposit is a mass of material which has been placed, shaped or created by the actions of wind, water, ice, gravity, vulcanism, pressure or temperature, either alone or in combination. Such deposits are to include erratic boulders, glacial formations, mineral deposits or semi-precious stones.

(b) Topographic features

(1) #Steep slope#

(2) Existing natural topography

Existing natural topography is the ground elevation of land.

(3) #Topsoil#

#Topsoil# is generally the top six inches of soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth.

(c) Aquatic features

Wetlands, including, but not limited to State and Federal, mapped or designated, freshwater or tidal wetlands:

(1) Laminarian zone

A laminarian zone is that land under the surface of salt water from the mean low tide mark to the depth of 15 fathoms. The portion of laminarian zone to be protected by the provisions of this Special District extends to the pierhead line or to the shore line where no pierhead line has been established.

(2) Beach

A beach is a tract of relatively flat, sandy or gravelly land, without visible vegetation, forming the shore of a large body of water.

(3) Tidal wetland and saltwater littoral zone

A tidal wetland or saltwater littoral zone is that land which is regularly covered by tidal waters and its spray.

(4) Swamp

A swamp is a wet woodland, the soil of which is typically waterlogged or often covered with water.

(5) Marsh

A marsh is a wet prairie that has waterlogged soil during the growing season (from last spring frost to first fall frost) and is often covered with shallow water.

(6) Bog

A bog is a tract of waterlogged land without natural drainage.

(7) Meadow

A meadow is a tract of land that is waterlogged to within a few inches of the surface and may have temporary ponds during the non-growing season (between the first fall frost and first spring frost).

(8) Creek, stream or brook

A creek, stream or brook is a free flowing fresh watercourse on soil, gravel or rock that drains a watershed.

(9) Lake or pond

A lake or pond is a body of fresh or salt water standing year round.

(10) Natural spring

A natural spring is a point source of water exiting from the surface of the earth or rock.

(d) Botanic environments

(1) Primary succession community area

A primary succession community area is a tract of land characterized by species that can tolerate extreme environmental conditions and provide initial protection for less tolerant forms of life. These species are usually annuals and herbaceous.

(2) Secondary succession community area

A secondary succession community area is a tract of land characterized by short-lived trees and shrubs as well as grasses and herbaceous material. These species are less tolerant than primary succession community species but provide a greater diversity and range of protection from the sun, wind and rain.

(3) Climax community area

A climax community area is a stable association of plants and animals that will perpetuate itself indefinitely with minor variation in the group of associated plants. The climax community area in New York City is the glaciated oak-chestnut association, which is part of the eastern hardwood deciduous forest.

(4) Dune or heathland

A dune or heathland is a tract of windblown and wind- or water-shaped sandy land with such characteristic species as beach grass and beach heather.

(5) Wild grassland

A wild grassland is an area whose vegetation is primarily of wild grass species.

The #natural features# defined in this Section are described in Appendix B of this Chapter.

105-20 - PROTECTION OF NATURAL FEATURES

LAST AMENDED
2/2/2005

All #natural features# within a #Special Natural Area District# shall be protected by the regulations of this Chapter in accordance with the provisions set forth in Sections 105-02 (General Provisions), 105-30 (PRESERVATION OF NATURAL FEATURES) and 105-50 (REGULATIONS FOR PROTECTION OF NATURAL FEATURES).

Except for any existing #natural feature# that is unsafe and the removal of which is required by the Department of Buildings to eliminate hazardous conditions, no #natural features# described in Section 105-11 (Description of Natural Features) shall be removed, destroyed or altered unless permitted by certification, authorization or special permit of the City Planning Commission, pursuant to Section 105-40 (SPECIAL REVIEW PROVISIONS), or allowed pursuant to Section 105-021 (Actions not requiring special review).

105-30 - PRESERVATION OF NATURAL FEATURES

LAST AMENDED
2/2/2005

The provisions of this Section are applicable to all #developments#, #enlargements# and #site alterations# within the #Special Natural Area District#, pursuant to Section 105-02 (General Provisions). When pursuant to Sections 105-41 (Certification) or 105-021 (Actions not requiring special review), it is not necessary for an applicant for a #development#, #enlargement# or a #site alteration# to apply for an authorization or special permit, such #development#, #enlargement# or #site alteration# shall nonetheless comply with the #natural feature# preservation requirements of this Section, inclusive.

105-31 - Botanic Environment and Tree Preservation Requirements

LAST AMENDED
2/2/2005

To the maximum extent possible, existing trees and vegetation shall be retained. Trees of six-inch #caliper# or more and vegetation may only be removed or destroyed as a result of a #development#, #enlargement# or #site alteration#, provided that:

- (a) such trees or vegetation are located in areas to be occupied by #buildings#, #private roads#, driveways, areas for required #accessory# parking, or within a distance of 15 feet of the exterior walls of such #building#, provided that it is not possible to avoid such removal by adjustments in the arrangement of such #buildings#, driveways or required parking areas;
- (b) the continued presence of such tree would create special hazards or dangers to persons or property, which would not be possible or practical to eliminate by pruning;
- (c) the continued presence of such tree would interfere with the growth or health of another tree of six-inch #caliper# or more, designated for preservation and belonging to a species listed in Appendix D (Tree Selection List for On-site Trees) of this Chapter; or
- (d) an authorization pursuant to Section 105-425 (Modification of botanic environment and tree preservation and planting requirements) has been granted by the City Planning Commission approving the removal of such trees or vegetation.

Any tree of six-inch #caliper# or more that cannot be preserved as a result of a proposed #development#, #enlargement# or #site alteration# shall be replaced pursuant to the provisions of Section 105-32 (Botanic Environment and Tree Planting Requirements).

105-32 - Botanic Environment and Tree Planting Requirements

LAST AMENDED
2/2/2005

Any vegetation that cannot be saved as a result of #site alteration#, #enlargement# or #development# shall be replaced with

alternative vegetation to be approved by the City Planning Commission. All #development#, #enlargements# and #site alterations# shall comply with the tree planting requirements set forth in this Section, whether or not existing trees are removed as a result of such #development#, #enlargement# or #site alteration#.

The replanting of elements of vegetation that are parts of an association or community shall be such as to reestablish, as rapidly as is reasonable, the vigor and character of the association. When necessary to establish ecological balance, the Commission may also require additional vegetation to be planted.

(a) Tree planting

For the purposes of this Section, the following minimum standard shall apply for tree planting:

- (1) For any #development#, #enlargement# or #site alteration# within a #Special Natural Area District#, trees of at least three-inch #caliper#, pre-existing or newly planted, shall be provided on the #zoning lot# at the rate of one tree for each 1,000 square feet of #lot area# or portion thereof or shall equal a total of 51 percent of all #tree credits# for trees originally on site, whichever is greater.
- (2) For any existing tree of at least six-inch #caliper# that is preserved, credit for one tree shall be given for the first six inches of #caliper# and, for each additional four inches of #caliper#, credit for an additional tree shall be given.

Single-trunk trees, newly planted to meet this requirement, shall be of at least three-inch #caliper# at the time of planting. Multiple-trunk trees and low-branching coniferous evergreens shall be at least 10 feet in height at the time of planting. Trees newly planted to meet this requirement shall be of a species selected from Appendix D of this Chapter, and acceptable from the standpoint of hardiness, appearance and habit of growth suitable to the site.

The Commission may grant a waiver of the tree planting requirements by certification to the Department of Buildings, where the Commission finds that the ecology of the site is such that the substitution of other plant material would be more appropriate than the tree planting requirements and a detailed plan for planting has been filed with the Commission for its approval.

(b) Botanic Environment Planting

For the purposes of this Section, the following minimum standard shall apply for the planting of vegetation.

Any vegetation or #topsoil# that cannot be preserved as a result of a proposed #development#, #enlargement# or #site alteration# and is not permitted to be removed pursuant to the regulations of Sections 105-31 (Botanic Environment and Tree Preservation Requirements) or 105-425 (Modification of botanic environment and tree preservation and planting requirements), shall be replaced as follows: for every square foot of #lot area# of removed vegetation or #topsoil#, plantings shall be provided of the size and number indicated in paragraphs (b)(1), (b)(2), (b)(3) and (b)(4) of this Section. The area of removed vegetation shall be measured so as to include any portions of the #zoning lot# that were located within the #critical root zone# of a removed tree of six-inch #caliper# or more. Species of ground cover and shrubs shall be selected from Appendix C (Selection List for Ground Covers and Shrubs) of this Chapter. Species of on-site trees shall be selected from Appendix D (Tree Selection List for On-site Trees) of this Chapter.

- (1) Ground cover shall be planted one at one-foot-on-center and at the rate of one plant for every square foot of #lot area# of removed vegetation; and
- (2) Large trees shall be planted at the rate of one three-inch #caliper# tree for every 500 square feet of #lot area# of removed vegetation; or
- (3) Small trees shall be planted at a rate of one eight-foot high tree for every 100 square feet of #lot area# of removed vegetation; or
- (4) #Shrubs# shall be planted at a rate of one gallon container-grown material for every 25 square feet of #lot area# of removed vegetation.

The planting of species shall not be limited to woody plant materials, but shall include trees, shrubs, vines, ferns, grasses, herbs, annuals, biennials, perennials, mosses and other associated vegetation. All vegetation to be planted shall be either of the species which characterized the area's biological community prior to #site alteration#, #enlargement# or #development#, or of an alternative biologic community found in the area. Species selection shall give particular attention to the relationship of the species to each other and to the surrounding plant community and to the quality of the soil and the vertebrate and invertebrate populations associated with and dependent upon the proposed plants.

105-36 - Controls During Construction

LAST AMENDED
2/2/2005

The following requirements must be met during construction and identified on the construction plan:

- (a) No construction equipment of any kind shall operate beyond 15 feet of the perimeter of a #building# foundation except those vehicles engaged in the construction of #private roads#, driveways or required #accessory# parking areas. This provision may be waived by the Commissioner of Buildings should it be determined that the particular conditions of the site make a 15-foot limit infeasible or impractical.
- (b) Construction fences shall be erected around all vegetation proposed for preservation and all #areas of no disturbance#, and those portions of the fence that are downhill from the construction site shall have hay bales placed adjacent to them.
- (c) Excavating for fill shall be prohibited unless the material is obtained from a cut permitted under an approved grading plan obtained for some purpose other than to produce fill material, or imported from outside the #Special Natural Area District#.
- (d) The #staging area# shall be located in an area that would most minimize destruction of the #natural features# of the landscape. Such area shall be as close to the construction area on the #zoning lot# as practical, and shall be either on the flattest portion of the #zoning lot# or behind a containment wall where it will not erode any #area of no disturbance# or endanger any tree designated for preservation.
- (e) #Topsoil# shall be used in the area to be replanted as soon as construction is complete.
- (f) Any exposed earth area shall have straw, jute matting or geotextiles placed on it within two days of exposure and be seeded with annual rye grass during construction.

105-37 - Special Erosion and Sedimentation Prevention Requirements for Authorizations for Tier II Sites

LAST AMENDED
2/2/2011

Any #development#, #enlargement# or #site alteration# that is on a #Tier II site# and requires an authorization shall be subject to the provisions of this Section. The requirements of this Section shall supplement any other requirements set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS) that also must be met.

Prior to construction, at least one of the erosion and sedimentation control measures described in paragraphs (a) through (e) of this Section shall be selected. A plan describing how the selected erosion and sedimentation control measure will be implemented and justifying its selection on the basis of the particular conditions of the site shall be prepared by a professional engineer or landscape architect and submitted to the City Planning Commission.

- (a) Benches and berms

These are level terraces or ledges constructed across sloping land to provide a relatively flat construction site or reduce the length and grade of the slope. Benches and berms reduce runoff and erosion hazards by slowing down the velocity of water and providing greater intake opportunity.

(b) Diversion channels

These are earth channels with a supporting ridge on the lower side constructed across the slope lengths to break up concentration of runoff and move water to stable outlets at a non-erosive velocity.

(c) Debris or sediment basins

These consist of a dam or embankment, a pipe outlet and an emergency spillway situated at the low corner of the site to provide a temporary means of trapping and storing sediment while releasing the water. They protect property below the installation from damage by excessive sedimentation and debris.

(d) Retention ponds

These are impoundment-type ponds that temporarily store runoff water and release it at rates that minimize erosion and prevent flooding. They may be located above the site to trap water before it enters the area or within the site to protect properties below the site.

(e) Grassed waterways or outlets

These are natural or excavated channels to dispose of excess runoff water from diversions, berms, benches and other areas at non-erosive velocities. Waterways or outlets are shaped or graded and established in suitable vegetation as needed, depending on the supplemental measure used to slow the velocity of runoff.

105-38 - Special Submission Requirements for Authorizations on Tier II Sites

LAST AMENDED
2/2/2011

When a #development#, #enlargement# or #site alteration# is on a #Tier II site#, an application to the City Planning Commission for an authorization shall include the following submission requirements. These requirements shall be in addition to the requirements set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS).

- (a) A drainage plan and soil report prepared by a professional engineer to protect #natural features#. The drainage plan shall describe the temporary (during construction) and permanent measures to collect, direct and discharge stormwater drainage from the site, indicating the direction of drainage flow and providing detailed plans and locations of all surface and subsurface drainage devices, walls, dams, sediment basins, stormwater storage (detention and retention) facilities, and other drainage facilities and protective devices. Such report shall include an estimate of runoff from the site after completion of proposed #developments#, #enlargements# or #site alterations# and provide a description with supporting information of the manner in which the proposed #development#, #enlargement# or #site alteration# complies with the requirements of Local Law 103 of 1989.
- (b) An erosion and sedimentation plan as described in Section 105-37 (Special Erosion and Sedimentation Prevention Requirements for Authorizations for Tier II Sites).
- (c) For any #development# or #site alteration# on a tract of land 40,000 square feet or greater, a landscape plan prepared by a registered landscape architect that shows the location and species of all new plantings of trees, shrubs and ground covers and the proposed method of preserving existing trees, shrubs and ground covers.
- (d) Any other information the Commission may deem necessary to evaluate the request.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

105-40 - SPECIAL REVIEW PROVISIONS

LAST AMENDED
2/2/2011

The provisions of this Section shall apply to all #developments#, #enlargements# or #site alterations# located within a #Special Natural Area District#.

Prior to the issuance by the Department of Buildings of any permit for a #development#, #enlargement# or #site alteration# within a #Special Natural Area District#, the City Planning Commission shall certify to the Department of Buildings that the #development#, #enlargement# or #site alteration# is approved pursuant to Sections 105-41, 105-42, 105-43 or 105-44,

inclusive.

The provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-scale Residential Developments), shall apply to a #large-scale residential development#, as modified by the provisions of Section 105-701 (Applicability of large-scale residential development regulations).

105-41 - Certification

LAST AMENDED
2/2/2005

When it is not necessary for the applicant for a #development#, #enlargement# or #site alteration# to apply for an authorization or special permit, the City Planning Commission shall certify to the Department of Buildings that such #development#, #enlargement# or #site alteration# complies with the regulations of this Chapter, and that no authorization or special permit is required pursuant to this Chapter.

Where #natural features# are to be protected and maintained under Section 105-60 (MAINTENANCE OF NATURAL FEATURES), the Commission shall indicate in the certification specific conditions and safeguards appropriate to the designated area.

- (d) alteration of aquatic features, pursuant to Section 105-426 in NA-1, NA-2 and NA-3 Districts.

The Commission may prescribe appropriate additional conditions and safeguards to protect the character of the #Special Natural Area District#.

105-421 - Modification of topographic features on Tier I sites

LAST AMENDED
2/2/2005

The topographic features, including natural topography and #topsoil#, existing at the time of designation of a #Special Natural Area District# may be modified by the City Planning Commission, provided that the Commission finds that:

- (a) #development#, #enlargement# and #site alteration# is not feasible without such modification, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification, including any removal of #topsoil#, will not disturb the drainage pattern and soil conditions in the area;
- (c) such modification of topography has minimal impact on the existing topographic features of the surrounding area and blends harmoniously with it;
- (d) such modification is the least modification required to achieve the purpose for which it is granted; and
- (e) the #development#, #enlargement# or #site alteration# takes advantage of the natural characteristics of the site.

Where permits are required from a City agency, the Commission shall request a report from such agency, and the provisions of Section 105-93 (Inter-agency Coordination) shall apply.

105-422 - Authorization of a development, enlargement or site alteration on a Tier II site or portion of a zoning lot having a steep slope or steep slope buffer

LAST AMENDED
2/2/2011

The City Planning Commission may authorize #developments#, #enlargements# and #site alterations# on a #Tier II site# or on portions of a #zoning lot# having a #steep slope# or #steep slope buffer#.

In order to grant such authorizations, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modification, or that the modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the modification will not disturb the drainage patterns and soil conditions of the area; and
- (e) the #development#, #enlargement# or #site alteration# takes advantage of the natural characteristics of the site.

The #lot coverage# regulations of Table II of Section 105-33 (Residential Lot Coverage Regulations on Tier II Sites or on Sites Granted an Authorization Pursuant to Section 105-422) shall apply to any #residential development#, #enlargement# or #site alteration# granted an authorization pursuant to this Section.

Any #development#, #enlargement# or #site alteration# requiring an authorization pursuant to this Section shall be subject to all the requirements of this Chapter for which an authorization or special permit has not been obtained.

105-423 - Relocation of erratic boulders

LAST AMENDED
2/2/2005

No erratic boulder with a diameter at any point of six feet or more may be moved from its location at the time of designation of a #Special Natural Area District# to another location within the Special District during #development#, #enlargement# or #site alteration# except in compliance with the provisions of this Section.

Prior to the moving of an erratic boulder from its present location to a location elsewhere within the #Special Natural Area District#, an application shall be filed with the City Planning Commission showing the present location and the proposed location. Moving of an erratic boulder will be permitted only by authorization of the Commission under the following circumstances:

- (a) where such a boulder is located in an area to be occupied by #buildings#, driveways, parking areas or recreation areas and it is not possible to avoid such location by minor adjustments in the arrangement of such #buildings#, driveways, parking areas or recreation areas on the site;
- (b) where the boulder's continued existence in its present location would create hazards or dangers; or
- (c) where authorizations granted by the Commission under the provisions of this Chapter require or clearly contemplate the boulder's relocation from its present position.

In issuing an authorization under this Section, the Commission shall require an appropriate relocation site, visible, if possible, from a public #street#, park, or public place, preferably on the #zoning lot# or elsewhere within the #Special Natural Area District#. The Commission may prescribe appropriate conditions to enhance the setting of the relocated boulder.

105-424 - Alteration of rock outcrops

LAST AMENDED
2/2/2005

The City Planning Commission may authorize the alteration of a rock outcrop, provided that:

- (a) the #development# or #enlargement# is not feasible without such alteration, or that the requested alteration will permit a #development# or #enlargement# that satisfies the purposes of this Chapter; or
- (b) such alteration is necessary to protect the health and safety of the site occupants; and
- (c) such #development# or #enlargement#, as authorized, will result in the minimum #natural feature# interference that must be permitted in order to allow reasonable #development# or #enlargement# and #bulk# distribution under the regulations of the underlying district.

The Commission shall impose appropriate conditions and safeguards to assure protection of the portions of the area to be preserved in their natural state.

105-425 - Modification of botanic environment and tree preservation and planting requirements

LAST AMENDED

2/2/2005

The City Planning Commission may authorize modifications to the provisions of Sections 105-31 (Botanic Environment and Tree Preservation Requirements), 105-32 (Botanic Environment and Tree Planting Requirements) and paragraph (b)(8) of Section 105-35 (Tier II Requirements for Driveways and Private Roads).

In order to grant such authorizations, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modifications, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the ecology and soil conditions of the site are such that the substitution of other plant material would be as appropriate as the botanic preservation or planting requirements being modified; and
- (d) in order to modify requirements relating to tree preservation, planting or removal, the Commission shall also find that:
 - (1) such tree is located in areas which require excessive cut or fill of land deemed inimical to plant survival; or
 - (2) the continued presence of such tree would create hazards or dangers (such as an area affected by storm or plant disease) to persons, property or other plant material which it would not be possible or practical to eliminate by pruning.

Where on-site replanting of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the #Special Natural Area District#. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

105-426 - Alteration of aquatic features

LAST AMENDED

No portion of an aquatic feature shall be altered or land operations affecting aquatic features undertaken by or on behalf of present or future applicants for permits except in compliance with the provisions of this Section. The City Planning Commission may permit the alteration of aquatic features, provided that:

- (a) the #development# or #enlargement# is not feasible without such alteration or where such alteration will permit a #development# or #enlargement# that satisfies the purposes of this Chapter; or
- (b) such alteration is necessary to protect the health and safety of the site occupants; and
- (c) such #development# or #enlargement#, as authorized, will result in the minimum #natural feature# interference that must be permitted in order to allow reasonable #development# or #enlargement# and #bulk# distribution under the regulations of the underlying district; and
- (d) such modification shall not disturb the drainage patterns in the area.

The Commission shall impose appropriate conditions and safeguards to assure protection of the portions of the area to be preserved in their natural state.

Where permits are required from a City agency for any work affecting #natural features#, the Commission shall request a report from such agency and the provisions of Section 105-93 (Inter-agency Coordination) shall apply.

In the event alteration of an aquatic feature is found inappropriate, the Commission may treat an application under this Section as an application for modification of #yard# and height and setback regulations under Section 105-432.

105-43 - Authorizations to Modify Bulk, Parking, Grading and Private Roads Regulations

LAST AMENDED
1/19/2016

105-431 - Modification of lot coverage controls

LAST AMENDED
2/2/2011

For any #development# or #enlargement# on a #Tier II site# or within a #steep slope# or a #steep slope buffer# on a #Tier I site#, the City Planning Commission may authorize variations in the #lot coverage# controls set forth in Section 105-33.

In order to grant such authorization, the Commission shall find that:

- (a) the #development# or #enlargement# is not feasible without such modification, or that the requested modification will permit a #development# or #enlargement# that satisfies the purpose of this Chapter;
- (b) by allowing the permitted #floor area# in a #building# or #buildings# of lower height to cover more land, the preservation of #hillsides# having aesthetic value to the public would be assured, and that such preservation would not be possible by careful siting of a higher #building# containing the same permitted #floor area# on less land;
- (c) such modification is the least modification required to achieve the purpose for which it is granted;
- (d) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (e) the modification will not disturb the drainage pattern and soil conditions of the area; and
- (f) the modification does not impair the essential character of the surrounding area.

105-432 - Modification of yard, height and setback regulations, and parking location regulations

LAST AMENDED
2/2/2011

For any #development# or #enlargement# that does not qualify under provisions of Section 105-701 (Applicability of large-scale residential development regulations), the City Planning Commission may authorize variations in required #front#, #rear# or #side yards#, parking lot landscaping or maneuverability requirements, location of parking, driveways or curb cuts and required space between #buildings# on the same #zoning lot#, and may modify height and setback regulations for the purpose of preserving #natural features#, provided the Commission finds that:

- (a) the proposed placement of #buildings# and arrangement of #open space# will not have significant adverse effects upon the light, air and privacy for existing #buildings# in adjacent areas or the opportunities therefore in future #development#; and
- (b) will preserve significant #natural features#.

The Commission may condition such authorizations upon the joint submission of acceptable plans for #development# or #enlargement# of two or more adjacent #zoning lots# by the owners thereof.

105-433 - Modification of grading controls

LAST AMENDED
2/2/2011

For any #development#, #enlargement# or #site alteration# on a #Tier II site#, the City Planning Commission may authorize variations in the grading controls set forth in Section 105-34.

In order to grant such authorization, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modifications, or that the modifications will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the modification will not disturb the drainage pattern and soil conditions of the area;
- (e) the modification does not impair the essential character of the surrounding area; and
- (f) the benefits to the surrounding area from the modification outweigh any disadvantages that may be incurred thereby in the area.

105-434 - Modification of requirements for private roads and driveways

LAST AMENDED
1/19/2016

For any #development#, #enlargement# or #site alteration#:

- (a) the City Planning Commission may authorize variations in the requirements for #private roads# and driveways on any #Tier II site# as set forth in Section 105-35 (Tier II Site Requirements for Driveways and Private Roads), as well as the requirements of Sections 25-621 (Location of parking spaces in certain districts) and 25-631 (Location and width of curb cuts in certain districts) provided that:
 - (1) the #development# or #enlargement# is not feasible without such modification, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
 - (2) such modification is the least modification required to achieve the purpose for which it is granted;
 - (3) the modification will not disturb the drainage pattern and soil conditions of the area;
 - (4) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it; and
 - (5) such modification will enhance the quality of the design of the #development#, #enlargement# or #site alteration#; or
- (b) located on a #zoning lot# containing historic buildings designated by the Landmarks Preservation Commission within the New York City Farm Colony-Seaview Hospital Historic District, as shown on Map 2 in Appendix A of this Chapter, the City Planning Commission may authorize modifications or waivers of the requirements for #private roads# as set forth in Section 26-20 (SPECIAL REQUIREMENTS FOR LOTS WITH PRIVATE ROADS) through Section 26-27 (Waiver of Bulk Regulations Within Unimproved Streets), inclusive, and Section 26-30 (SPECIAL REQUIREMENTS FOR LOTS WITH PRIVATE ROADS IN LOWER DENSITY GROWTH MANAGEMENT AREAS) through 26-35 (Screening),

inclusive, provided that such modification or waiver:

- (1) results in greater environmental conservation or preservation of existing natural features;
- (2) results in a superior site and landscape plan that will not unduly disturb the drainage pattern and soil conditions of the area;
- (3) results in greater preservation of historic #buildings# or other architectural elements of the Historic District designated by the Landmarks Preservation Commission;
- (4) enhances vehicular and pedestrian connections between #buildings# on the site and the surrounding neighborhood;
- (5) will not impair the essential character of the Historic District and the surrounding area;
- (6) is the least required to achieve the purpose for which it is granted; and
- (7) will not reduce the required minimum width of the #private road# to a width less than 34 feet unless the Fire Department has approved such reduction and determined that emergency vehicles can adequately access and move within the site.

105-44 - Special Permit

LAST AMENDED
2/2/2005

For any #development#, #enlargement# or #site alteration# within the #Special Natural Area District#, the City Planning Commission may grant special permits for modification of the underlying district regulations in accordance with the provisions of Sections 105-441 and 105-442.

105-441 - Modification of use regulations

LAST AMENDED
2/2/2011

In addition to any #use# modifications which may be granted under the provisions of Section 105-701 (Applicability of large-scale residential development regulations), the City Planning Commission may permit #semi-detached# or #attached single-family residences# in R2 Districts and #attached single-# or #two-family residences# in R3-1 Districts.

Furthermore, except in the #Special Natural Area District#-1 (NA-1), the Commission may permit #semi-detached# or #attached single-family residences# in R1-2 Districts provided that the #development# or #enlargement# is on a tract of land of at least four acres, and provided the Commission finds that:

- (a) the preservation of #natural features# requires the permitted #development# to be concentrated to the extent feasible in the remaining portion of the tract;
- (b) for such concentration of #development#, better standards of privacy and usable #open space# can be and are achieved under the development plan by inclusion of the proposed #residential building# types;
- (c) the change of housing type constitutes the most effective method of preserving #natural features#;
- (d) the #aggregate width of street walls# of a number of #residential buildings# separated by party walls shall not exceed 100 feet;
- (e) the proposed #street# system for the tract of land to be #developed# is so located as to draw a minimum of vehicular traffic to and through #streets# in the adjacent area; and
- (f) the existing topography, vegetation and proposed planting effectively screen all #attached single-family residences# from the #lot lines# along the perimeter of the tract of land to be #developed#.

105-442 - Natural area dedicated for public use

LAST AMENDED

2/2/2005

Where commonly or separately owned areas containing #natural features# of exceptional recreational, cultural or educational value to the public are dedicated to the City, without any cost to the City, pursuant to Section 105-701 (Applicability of large-scale residential development regulations), the City Planning Commission may by special permit allow, where appropriate, such portion of the #zoning lot# to be included in the zoning computation for #floor area#, #open space#, #lot coverage# and density regulations and other #bulk# computations.

105-45 - Certification of Restoration Plans

LAST AMENDED
2/2/2005

On any #zoning lot# to which the provisions of Section 105-02 (General Provisions) apply, no #natural features# as described in Section 105-11 (Description of Natural Features) or any other vegetation shall be removed, altered, relocated or replaced without prior approval by the City Planning Commission, as set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS).

In the event that any such features are removed, altered, relocated or replaced from a #zoning lot# without prior approval by the Commission, the Commission may specify the manner of their replacement or restoration. If trees are to be planted, the Commission may require that they be three inches in #caliper#.

A copy of the restoration plan certified by the Commission specifying requirements for the replacement or restoration of the #natural features# shall be issued to the owner of the #zoning lot# containing such violations and to the Department of Buildings.

Upon receipt of the Commission's certified restoration requirements, the Department of Buildings shall require the owner of the #zoning lot# to remove the violations in accordance with the requirements set forth by the Commission. If such violations have not ceased within 90 days of receipt of the Commission's requirements, the Department of Buildings shall institute such action as may be necessary to terminate the violations. For compliance with new planting requirements to remove violations, the Department of Buildings may allow an additional 90 days.

No building permit or certificate of occupancy shall be issued by the Department of Buildings for any #development#, #enlargement#, #site alteration# or #use# on such #zoning lot# until the violations are removed from the #zoning lot# in accordance with the restoration plan certified by the Commission.

105-50 - REGULATIONS FOR PROTECTION OF NATURAL FEATURES

LAST AMENDED
2/2/2011

The provisions of this Section establish regulations for City Planning Commission review of #development#, #enlargement# or #site alteration# plans from the standpoint of the adequacy of protection for #natural features# within a #Special Natural Area District#. Plans that are deficient in this regard may be rejected or required to be modified, even though they comply with all other applicable regulations of this Chapter.

These regulations are to be used by the Commission in reaching a determination whether to approve #development#, #enlargement# or #site alteration# plans filed pursuant to Sections 105-41 (Certification), 105-42 (Authorizations to Alter Natural Features), 105-43 (Authorizations to Modify Bulk, Parking, Grading and Private Roads Regulations) or 105-44 (Special Permits).

The Commission, where appropriate, shall be guided by the reports from other city agencies involved in land contour work, storm water drainage systems and similar operations affecting #natural features#.

In determining the necessary alteration of #natural features# or extent of modifications involved in a #development#, #enlargement# or #site alteration#, the Commission shall be guided by the effect of any alteration of a #natural feature# on the total ecological process of the surrounding natural environment including the following: the effect of such alteration on the existing topography, soil conditions, erosion, natural flow of water and drainage, water quality, and animal, plant and marine life.

Further guidelines for the protection of #natural features# are:

- (a) No #natural feature# shall be moved, removed, covered, diminished, broken or disfigured, unless permitted pursuant to the provisions of Sections 105-30 (PRESERVATION OF NATURAL FEATURES) and 105-40 (SPECIAL REVIEW PROVISIONS). Furthermore, #topsoil# shall neither be removed from the surface of any #zoning lot# nor covered with inferior material unless permitted pursuant to Section 105-40. Where existing topography is altered without prior authorization of the Commission, the Commission may require new grading or other topographical modifications or surface improvement to reestablish the viability and function of the soil as a growing medium, and as a drainage surface,

in order to permit the site to blend harmoniously with the surrounding area of the Special District.

- (b) Filling, excavating, draining, dredging, grading and contouring shall be staged and controlled so as to minimally impair the function, composition, vitality and existence of #natural features#. When and where possible, such operations shall be done in a manner so as to maintain or improve the biological system and individual features on the site.
- (c) All filling, excavating, draining, dredging, grading and contouring shall avoid creation of #steep slopes# or conditions causing erosion, loss of fertility of soil, health or safety hazards, and shall be done in conformance with the limits and nature of the soil involved.
- (d) All land operations including filling, excavating, draining, dredging, grading and contouring shall be limited to those operations which maintain or restore natural drainage, cause a minimum disturbance of the #natural features# and their setting while providing for the #development#, #enlargement# or #site alteration# or permitted #uses#.
- (e) No #development#, #enlargement# or #site alteration# shall be such as to impede or change the quality, turbidity, temperature or chemical composition of natural drainage or aquatic features.
- (f) A #development#, #enlargement# or #site alteration# shall be permitted only in areas sufficiently removed from the #natural features# to avoid impairment of their existence, functions or beauty.
- (g) There shall be maximum preservation of all natural vegetation in and adjacent to the #natural features# found on the site. Plant communities which have been substantially reduced in area or composition as a result of a #development#, #enlargement# or #site alteration# shall be restored, extended or replaced by alternative plant materials with an adequate maintenance program. In no case shall the site be allowed to be denuded and without vegetational cover upon completion of the #development#, #enlargement# or #site alteration#.
- (h) Replacement of any #natural feature# and planting of new vegetation on a site in the Special District shall be such as to extend, reinforce, increase the diversity, function and vitality of an association or community in the area. Special attention shall be given to symbiotic relationships between plants and the relationship between vegetation to be planted and animal populations which are dependent upon or related to the proposed vegetation. Where appropriate, planting shall include trees, shrubs, vines, ferns, grasses, herbs, annuals, biennials, perennials, mosses, and other associated vegetation.
- (i) Adequate provision shall be made for proper management and maintenance of #natural features# and their immediate surroundings to avoid pollution, loss of vigor, reduction in composition or function or other ecological damage.
- (j) Where appropriate, when a portion of a #natural feature# or its function must be altered, such alteration shall not only reinforce the function, vitality and existence of the remaining portion of the #natural feature# but also improve conditions for other #natural features#. This shall apply particularly but not exclusively to the removal and replanting of plant materials.
- (k) Where appropriate, a #development#, #enlargement# or #site alteration# shall be such as to leave #natural features# intact in their natural setting and, where feasible, visible from public #streets# or places.
- (l) For a #steep slope#, these additional requirements apply:
 - (1) In all #Residence Districts#, for #residential developments# on individual #zoning lots# substantially within a #steep slope# area, the #lot area per dwelling unit# requirement shall not be less than 12,500 square feet. Except in R1 Districts located in #Special Natural Area District#-1 (NA-1), the Commission may, for a tract of land of at least four acres substantially within the #steep slope# area, modify, by authorization, the #lot area per dwelling unit# requirement set forth in this paragraph, (l)(1), for the #steep slope# area, and may allow #development# to be concentrated in clusters to preserve the #steep slope# areas in their natural state, provided that such clusters are located to the extent feasible in areas of comparatively flat topography and will not require unnecessary grading on adjacent slopes or the creation of new #steep slopes#.
 - (2) In no event shall the #lot area per dwelling unit# requirement be less than the amount required by the underlying district regulations.
 - (3) Existing vegetational cover in steep areas shall not be removed, destroyed or damaged except pursuant to development and grading plans approved by the Commission. An objective of such plans shall be to fit #street# layouts and #building# designs to the natural terrain, limit grading to a practical minimum and provide for maximum preservation of the natural terrain and vegetational cover.

LAST AMENDED
2/2/2005

For any #development#, #enlargement# or #site alteration# on a tract of land within a #Special Natural Area District#, the City Planning Commission may require a maintenance plan for a #natural feature#. Where a maintenance plan is required, approval of the development plan and the granting of any certification, authorization or special permit shall be conditioned upon the Commission's approval of the maintenance plan.

The maintenance plan shall specify what the maintenance is to consist of and whose responsibility it will be, and shall provide assurance that maintenance will be satisfactorily executed. The Commission, in considering the maintenance needs of a particular #natural feature# and the content of an acceptable maintenance plan shall, where appropriate, refer all relevant plans to the Landmarks Preservation Commission, Department of Parks or other City agency with primary responsibilities in natural areas conservation, for its report thereon. The Commission shall, in its determination, give due consideration to any such report submitted within one month from the date of referral. If such City agency does not report within one month, the Commission may make a final determination without reference thereto.

For #natural features# for which the Commission determines that specialized maintenance and regulated public #use# are appropriate, the maintenance plan may provide for dedication of the #natural feature# to the City or an approved private conservation organization for responsible maintenance in the public interest.

105-70 - SPECIAL REGULATIONS FOR RESIDENTIAL DEVELOPMENT

LAST AMENDED
2/2/2011

In order to carry out the purposes of this Chapter, all #zoning lots developed# predominantly for #residential use# may be subject to the provisions of this Section.

105-701 - Applicability of large-scale residential development regulations

LAST AMENDED
2/2/2011

The provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-Scale Residential Developments), shall apply except as modified by the provisions of this Section.

Any #zoning lots developed#, used predominantly for #residential uses#, may be treated as a #large-scale residential development# and authorizations or special permits for such #zoning lot# may be granted in accordance with the provisions of Article VII, Chapter 8, as modified herein or in Section 105-80 (JOINT APPLICATIONS), regardless of whether such #zoning lot# will have the area, number of #buildings# or number of #dwelling units# specified in the definition of #large-scale residential development#, as set forth in Section 12-10 (DEFINITIONS).

However, in R1 Districts located in the #Special Natural Area District#-1 (NA-1), no modification of minimum required #lot area# as set forth in Section 23-32 (Minimum Lot Area or Lot Width for Residences) shall be allowed for any #development# pursuant to paragraph (c) of Section 78-311 (Authorizations by the City Planning Commission) or Section 78-32 (Bonus for Good Site Plan) but modifications of required #front# or #rear yards# and height and setback regulations on the periphery of such #zoning lot#, pursuant to paragraphs (c) and (d) of Section 78-312 (Special permits by the City Planning Commission), shall apply. Modification of #side yards# of all #zoning lots#, including #zoning lots# in R1 Districts, shall be subject to the provisions of Section 105-432 (Modification of yard, height and setback regulations, and parking location regulations).

Bonuses which may be granted for #large-scale residential developments#, pursuant to Section 78-32 through Section 78-35 (Special Bonus Provisions), may not be granted for #zoning lots# which have less than 10 acres and less than the number of #buildings# or number of #dwelling units# required by the definitions of a #large-scale residential development#.

Commonly or separately owned areas containing #natural features# may qualify as common #open space# for purposes of satisfying #open space# requirements.

Approval by the Commission of a development plan incorporating #natural features# as common #open space# shall be conditioned upon the findings required in Sections 78-313 (Findings) and 78-52 (Common Open Space) with respect to the qualification of areas as common #open space# and upon additional findings that appropriate safeguards are provided for the protection and preservation of such #natural features#. In the case of #natural features# that are determined to have qualities of exceptional recreational, cultural or educational value to the public and that are directly accessible to the public from a public right-of-way, the applicant may request the City to take title or a less than fee interest in the property occupied by such a #natural feature# without any cost to the City or its designee for #use# and enjoyment by the public subject to the provisions of

105-702 - Applicability of lower density growth management area regulations

LAST AMENDED

The regulations for #developments# or #enlargements# within #lower density growth management areas# are modified as follows:

(a) Parking location regulations

#Accessory# parking spaces shall be permitted within a #front yard#.

(b) Private road regulations

The provisions of paragraph (b) of Section 105-35 (Tier II Requirements for Driveways and Private Roads) shall apply to #Tier II sites# accessed by #private roads#.

105-80 - JOINT APPLICATIONS

LAST AMENDED
12/19/1974

Notwithstanding the provisions of Section 78-06 (Ownership), a tract of land which is the subject of an application for authorizations or special permits under the provisions of this Chapter may include adjacent property in more than one ownership, provided that the application is filed jointly by the owners of all property included. Any subdivision of the tract reflecting ownerships at the time of application or creating new ownerships before, during or after #development# shall be subject to the provisions of Section 78-51 (General Provisions).

105-90 - FUTURE SUBDIVISION

LAST AMENDED
2/2/2011

Within a #Special Natural Area District#, any #zoning lot# existing on the effective date of the Special District designation may be subdivided into two or more #zoning lots#, provided that #natural features# are preserved to the greatest extent possible under future development options.

A plan for such subdivision shall be filed with the City Planning Commission and the Commission shall certify that such subdivision complies with this objective. The subdivision plan shall include a survey map indicating existing topography and other #natural features# within this area. When a #zoning lot#, existing on the effective date of the Special District designation, is more than 10 acres and is intended to be subdivided, an area plan of the entire #zoning lot# shall be filed with the Commission. The area plan shall include the proposed #street# system within the area, #block# layouts and any other information required by the Commission.

When any #zoning lot# is subdivided into two or more #zoning lots#, all resulting #zoning lots# that lie substantially within a #steep slope# area existing as of December 19, 1974, shall be subject to the #steep slope# provisions of Section 105-50 (REGULATIONS FOR PROTECTION OF NATURAL FEATURES) and all other provisions of this Chapter, as applicable.

In the event that #natural features# on any #zoning lot# subject to the provisions of Section 105-02 (General Provisions) proposed for subdivision have been removed, altered, relocated or replaced from the #zoning lot# without prior approval by the Commission, as set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS), the Commission shall not approve the subdivision until violations are removed from the #zoning lot# in accordance with the Commission's requirements under Section 105-45 (Certification of Restoration Plans).

105-91 - Special District Designation on Public Parks

105-941 - Special Natural Area District-1: Emerson Hill, Dongan Hills, Todt Hill, Lighthouse Hill and the Central Wetlands Area of Staten Island

LAST AMENDED
6/23/1977

The central, serpentine, hilly spine of Staten Island is composed of Emerson Hill, Dongan Hills, Todt Hill and Lighthouse Hill. These hills are richly endowed with steep slopes, rock outcrops, erratic boulders and ponds, lakes, swamps, creeks and many trees of the glaciated Oak-Chestnut association.

To the south and west of the serpentine hills are tidal wetlands, a habitat for marine life and water fowl. The wetlands include parts of Latourette Park, Fresh Kills Park and New Springville Park. The high and low wetlands of Latourette Park and New Springville Park and most of the low wetlands of Fresh Kills Park remain in their natural state. The purpose of this #Special Natural Area District# is to preserve and protect the aforementioned #natural features# pursuant to the provisions of this Chapter.

105-942 - Special Natural Area District-2: Riverdale, Spuyten Duyvil and Fieldston, The Bronx

LAST AMENDED
5/21/1975

The Riverdale Ridge of The Bronx is composed of part of Riverdale, Spuyten Duyvil and Fieldston. This ridge contains steep slopes, rock outcrops, ponds, brooks, swampy areas and mature trees.

The western foot of the ridge contains marshes, feeding areas for water fowl. The shore line of the Hudson River estuary contains the aquatic food web necessary to sustain marine life.

The marshes and most of the Hudson River shore line are included in Riverdale Park. Much of the Riverdale Ridge and Riverdale Park are in their natural state. The purpose of this #Special Natural Area District# is to preserve and protect the aforementioned #natural features# pursuant to the provisions of this Chapter.

105-943 - Special Natural Area District-3: Shore Acres Area of Staten Island

LAST AMENDED
12/1/1977

The Shore Acres area of Staten Island owes its unique character to Shore Acres Pond, which is fed predominantly by springs percolating from an underground aquifer through Pleistocene strata of sand and gravel.

The Pond is a resting place for migratory and local fowl as well as a watering hole for opossums which are abundant along the wooded cliffs of the Narrows. The Pond has shaped its built environment, including the street layout, landscaping and orientation of neighboring homes. The surrounding area is distinguished by rolling topography with orientation of the northeastern edge toward Lower New York Bay and the Narrows.

The natural drainage area is in need of protection to ensure survival and maintenance of the Pond which in turn is essential to the preservation of this special area.

105-944 - Special Fort Totten Natural Area District-4

LAST AMENDED
2/2/2011

(a) General purposes

The "Special Fort Totten Natural Area District"-4 (hereinafter referred to as the Special District), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following general purposes:

- (1) to preserve, protect and enhance the combination of historically significant buildings and other structures, public open spaces, outstanding scenic views and pedestrian and vehicular circulation system which by their siting create a unique balance between buildings and open spaces and which, together with the harmonious scale of development and landscaping, add to the quality of life in the area;
- (2) to protect aquatic, biologic, geologic, topographic and other natural features having ecological and conservation values and functions;
- (3) to improve the quality of new development in the area by fostering the provision of specified public amenities and recreational facilities in appropriate locations and by making these facilities directly accessible to the public; and
- (4) to promote the desirable use of land improvements in accordance with the District Plan and in conformance with the character of the Fort Totten area and thus conserve the value of land and buildings and thereby protect the City's tax revenue.

(b) Definitions

(1) Designated open space

The "designated open space" is an #open space# as shown on the District Plan.

(2) Street

For the purpose of this Section, a "street" is a way existing within the #Special Fort Totten Natural Area District#-4 as shown on the District Plan (Appendix A) complying with the definition of #street# in Section 12-10, except that the #street# width shall be limited to existing dimensions. No modification of existing dimensions shall be permitted without prior certification of the City Planning Commission.

(c) General requirements

(1) Requirements for applications

An application to the Commission for any #development# within the Special District shall be subject to the requirements of Section 105-021 (Actions not requiring special review). In addition, an application for #development# within Area B shall include the existing and proposed site plan showing the location and the scale of the existing and proposed #buildings or other structures#, the location of all vehicular entrances and exits and off-street parking facilities, the changes that will be made in the location and size of the #open space#, and such other information as may be required by the Commission. The submission shall include a landscaping plan, #building# sections and elevation and an appropriate model of the planned community.

The Commission shall require, where relevant, a subdivision plan and, in the case of a site plan providing for common #open space# or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

(2) Pier #development#

The Commission may permit, by special permit, pier #development#, only upon finding that the proposed #development# shall have no significant adverse impact on the Special District or surrounding environment. The Commission may prescribe appropriate conditions and safeguards to minimize possible adverse effects on the surrounding area.

(d) Special regulations

(1) Demolition

Except in Area E, no demolition permit or alteration permit for alterations which may affect the character or design of the facade of a #building or other structure# shall be issued by the Department of Buildings, except as permitted by the Commission, unless it is an unsafe #building or other structure# and demolition or alteration is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8, or its successor, of the New York City Administrative Code. An applicant for any such permit shall notify the Landmarks Preservation Commission of the application.

The Commission, by special permit, may allow:

- (i) the alteration of such #building or other structure#, provided that such alteration treatment of the facade relates harmoniously to the character and materials of the original facade and to the adjoining #buildings or other structures#; or
- (ii) the demolition of such #buildings or other structures#, other than those deemed unsafe as defined by the Department of Buildings, provided that the Commission finds that the existing #building or other structures# are not suitable for rehabilitation.

Where a #building or other structure# has been demolished pursuant to this Section, the Commission may, by special permit, allow the replacement of the demolished structure provided that the design of the new structure in terms of scale, #lot coverage#, #building# height and exterior treatment of the facade shall replicate as nearly as possible the design and site plan of the original #building#.

(2) Special height regulations

In order to preserve the unique character of the Special District and to protect the views of and to the water within the Special District, Section 23-631 (General provisions) shall apply except that the maximum height for any #development# or #enlargement# shall be 32 feet or three #stories#, whichever is less.

(3) Location of zoning district boundaries at the shore line

Zoning district boundary lines shall coincide with the shore line lawfully existing on April 28, 1983, or any natural or lawful alteration thereof.

A zoning district boundary line which intersects the shore line lawfully existing on April 28, 1983 shall be prolonged, in a straight line, to such naturally or lawfully altered shore line. Lawfully approved piers or other lawfully approved structural extensions of the shore line, as may be so altered, shall not generate development rights.

(4) Designated open space

Any #development# or #site alteration# on a #zoning lot# which contains #designated open space# as shown on the District Plan, shall require certification by the Commission that such #designated open space# shall not be reduced in size or altered in shape and shall be preserved in its natural state by the owner of the #zoning lot#.

Planting, landscaping or provision of footpaths or sitting areas are permitted in any part of #designated open space#, provided that such improvements do not involve removal of trees or alteration of existing topography, and do not obstruct pedestrian movement within the public pedestrian ways.

#Designated open space# may be used for active recreational facilities provided that the Commission certifies that such #uses# have minimal impact on tree removal, topographic alteration or drainage conditions.

All #designated open spaces# shall be directly accessible to the public from public rights-of-way between dawn and dusk. A prominent plaque or other permanent #sign# shall be displayed on all #designated open spaces# in a prominent location, designated by the Commission, visible from the adjacent public right-of-way. Such plaque or permanent #sign# shall have a #surface area# of not less than three nor more than six square feet, and shall contain the following statement:

"This area is open to the public between sunrise and sunset."

(5) District plan

The District Map for the #Special Fort Totten Natural Area District#-4 identifies specific areas comprising the District Plan in which special zoning regulations carry out the general purposes of the #Special Fort Totten Natural Area District#-4. The District Plan is set forth in Appendix A and is made an integral part hereof. These areas and the specific paragraphs of this Section which contain regulations pertaining thereto are as follows:

Area A - Historic Fort Area, paragraph (d)(6)

Area B - Planned Community Area, paragraph (d)(7)

Area C – Water Related Area, paragraph (d)(8)

Area D - Bay Area, paragraph (d)(9)

Area E - Development Area, paragraph (d)(10)

(6) Historic Fort Area (Area A)

Within Area A (Fort Area) there shall be no #development# nor #enlargement# of existing #buildings or other structures# except that the Commission may authorize necessary renovation to protect existing structures. In all cases the Commission shall refer all applications to the Landmarks Preservation Commission and Department of Parks and Recreation or other City agencies with primary responsibilities in the conservation area, for its report thereon.

(7) Planned Community Area (Area B)

In order to protect the unique scale, character and design relationships between the existing #buildings# and public #open spaces# and parade grounds, no #development#, #enlargement# nor alteration of landscaping or topography shall be permitted, except as set forth herein and as provided by paragraph (d)(1) of this Section.

(i) Special permit

For any #development#, #enlargement# or alteration of landscaping or topography, the Commission may, by special permit, allow:

- (a) the unused total #floor area#, #dwelling units# or #rooming units# permitted by the applicable district regulations for all #zoning lots# within the development to be distributed without regard for #zoning lot lines#;
- (b) the total #open space# or #lot coverage# required by the applicable district regulations for any #zoning lot# within the development to be distributed without regard for #zoning lot lines#;
- (c) minor variations in the #yard# and #court# regulations required by the applicable district regulations;
- (d) minor variations in the height and setback regulations required by the applicable district

regulations;

- (e) modifications of the minimum spacing requirements consistent with the intent of the provisions of Section 23-71 (Minimum Distance Between Buildings on a Single Zoning Lot);
- (f) permitted or required #accessory# off-street parking spaces to be located anywhere within the #development# without regard to #zoning lot lines#, or the provisions of Sections 25-621 (Location of parking spaces in certain districts) and 25-631 (Location and width of curb cuts in certain districts), subject to findings of Section 78-41 (Location of Accessory Parking Spaces), or where such requirement substantially injures the functioning of the existing area, authorize waiver of all or part of the required parking.

(ii) Findings

As a condition precedent to the granting of a special permit under the provisions of paragraph (d)(7)(i) of this Section, the Commission shall make the following findings:

- (a) that the #development#, #enlargement# or said alteration is related to the existing #buildings or other structures# in the Planned Community Area (Area B) in scale and design, and that the #development# will not seriously alter the scenic amenity and the environmental quality of the area;
- (b) that the #development# or #enlargement# be sited in such a manner as to preserve the greatest amount of #open space# and landscaping that presently exists, consistent with the scale and design of the existing #buildings# and the landscaping surrounding the new landscaping arrangement and conditions of the community;
- (c) that the #development# or #enlargement# is sited such that it will not require at the same time, or in the foreseeable future, new access roads or exits, off-street parking or public parking facilities that will disrupt or eliminate major portions of #open space# and landscaping or will generate large volumes of traffic which will diminish the environmental quality of the community;
- (d) that minimal landscaping is to be removed during construction and such areas will be fully restored upon completion of construction.

The Commission may prescribe appropriate conditions and safeguards, including covenants running with the land which shall permit public or private enforcement reflecting terms, conditions, and limitations of any special permit hereunder to minimize adverse effects on the character and quality of the community.

(iii) Parade ground

Unless ownership is retained in a governmental agency, the parade ground #designated open space# shall be commonly owned with a #zoning lot# within Area B or Area E and the maintenance of the parade ground shall be the collective responsibility of said owner or owners. The parade ground shall be used for open recreational #uses# and may contain minor #accessory# structures to said #use#. The parade ground shall be directly accessible from the adjoining #streets# along its entire perimeter. There shall be no fences nor walls around or within the parade ground.

(8) Water Related Area (Area C)

In order to protect the unique aquatic and botanic characteristics of the area, there shall be no #development# in Area C except as provided by paragraph (d)(1) of this Section.

(9) Bay area (Area D)

In order to promote waterfront related activities, only the following #uses# of the C3 District shall be permitted in Area D:

- (i) #residential uses#, which #uses# are permitted only above the ground floor of those #buildings# existing prior to April 28, 1983;
- (ii) all #uses# of Use Group 14, except for boat showrooms or sales, and the storage, repair, or painting of boats other than crew sculls used for intercollegiate competition;
- (iii) all retail or service establishment #uses# of Use Group 6, except automobile supply stores.

(10) Development area (Area E)

Any #zoning lot developed# predominantly for #residential uses# may be considered a #large-scale residential development#, and authorizations or special permits for such #zoning lot# may be granted in accordance with the provisions of Article VII, Chapter 8, except that the #accessory uses# of 78-22 (Accessory Uses in Large-Scale Residential Developments) shall not apply.

Any #zoning lot developed# predominantly for #community facility uses# may be treated as a #large-scale community facility development#, and authorizations or special permits for such #zoning lot# may be granted in accordance with the provisions of Article VII, Chapter 9.

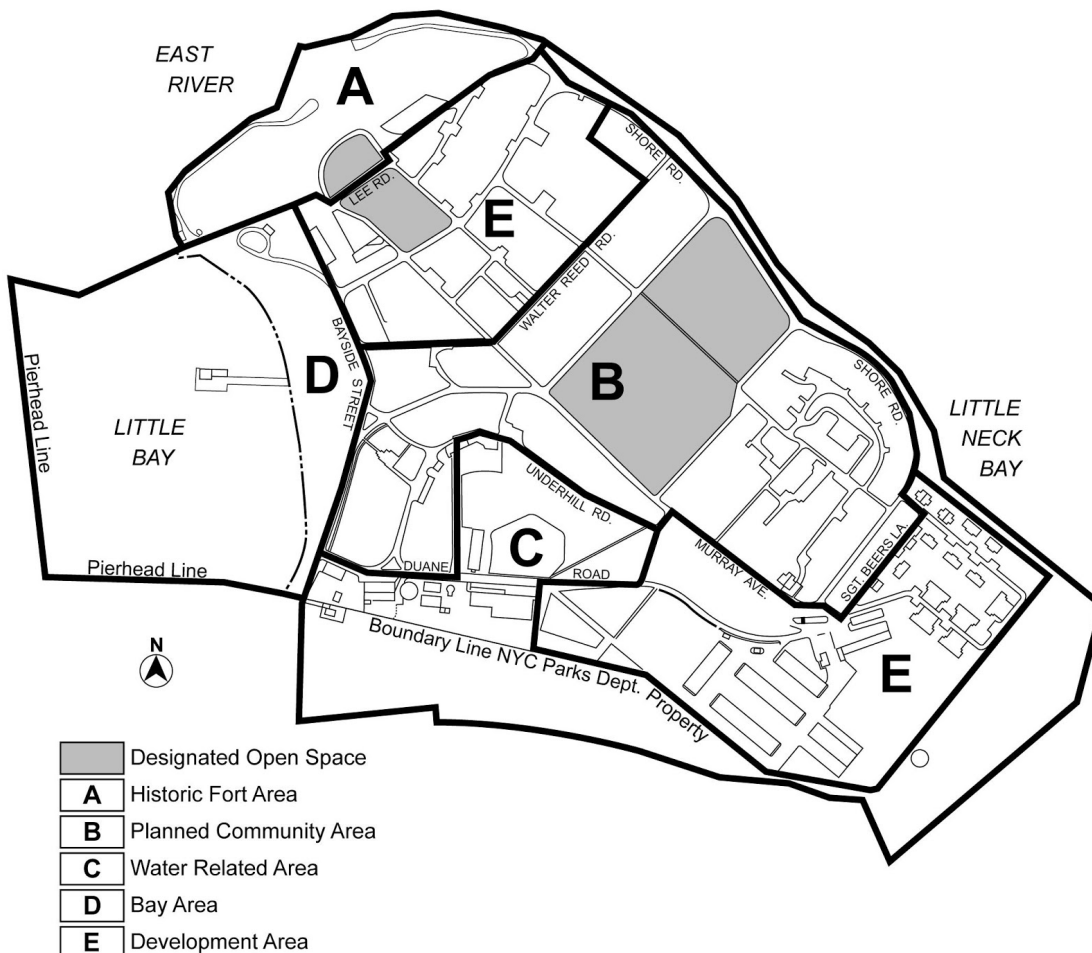

In Area E, the Commission may authorize clustering of #single-family# and #two-family residences# and a modification of housing types in order to maximize the preservation of existing #natural features# in the area, and to provide adequate view protection, and to relate these new structures with the existing structures in the general vicinity. Clustering shall be limited to a maximum #street wall# of 100 feet.

Any and all bonuses permitted in Sections 78-32 through 78-353, inclusive, shall not apply to #development# in Area E.

Part I:

Certain botanic terms referred to in the text and Part II of this Appendix are explained below:

A "tree" is any woody plant with one trunk rising out of the earth and root system, from which branches then spring, usually at some distance from the earth. A tree may be deciduous or coniferous.

A "shrub" is a woody plant that has one or more trunks rising from the same root system instead of a single trunk. These trunks or stems may or may not branch at some distance from the earth. A shrub may be deciduous or coniferous.

A "herb" is a non-woody plant with a fleshy stem which dies back to the earth level at the end of the growing season. It may be annual, biennial, or perennial.

A "vine" is a woody plant whose trunk or stem must be supported by the general environment or other plants. It is unable to stand on its own.

A "grass" is a family of herbaceous plants, rarely woody, with hollow round stems.

An "annual" is a plant which completes its life cycle in the space of one growing season, that is, it goes from seed to full plant and flower and sets seed in a single season.

A "biannual" is a plant which requires two years to grow from seed to mature plant capable of producing seed and then dies.

A "perennial" is a plant which lives more than one or two years and usually produces seeds for more than a few years.

A "fern" is a perennial, flowerless plant which reproduces by spores.

An "association" is a grouping of many plant species over a wide area sharing a common habitat and similar geographic conditions.

A "community" is a series of plants, animals, algae, fungi, grasses, trees, shrubs, herbs and other life forms which characteristically grow and live together in harmony, creating a balanced biological environment.

Part II:

Description of Natural Features defined in Section 105-10 (NATURAL FEATURES):

107-02 - General Provisions

LAST AMENDED
10/10/2013

In harmony with the general purpose and intent of this Resolution and the general purpose of the #Special South Richmond Development District#, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect. In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

In addition to applicability as provided in Section 11-10 (ESTABLISHMENT AND SCOPE OF CONTROLS, ESTABLISHMENT OF DISTRICTS, AND INCORPORATION OF MAPS), the provisions of this Chapter shall apply to #site alterations# or subdivision of #zoning lots#, except:

- (a) public improvement projects for which preliminary design contracts were approved by the Board of Estimate prior to January 2, 1975, or for which title was vested by the City prior to September 11, 1975; and
- (b) any #large-scale development# for which an authorization or special permit was granted prior to September 11, 1975. For the purposes of this Chapter, the City Planning Commission may extend such authorization or special permit for a renewable term of one year provided that the Commission finds that the facts upon which the authorization or special permit was granted have not substantially changed and that the adoption of this amendment shall not constitute a substantial change of fact.

For all #developments# located within areas D, F or K as shown on the District Plan (Map 4 in Appendix A), the applicant shall obtain from the Commission a certification indicating that the #development# complies with the approved South Richmond Development Plan. As a condition for such certification, the Commission shall find that:

- (1) the minimum #lot area# for any #commercial development# is at least two acres;
- (2) vehicular access and egress for the #development# is arranged so that it affords the best means of controlling the flow of traffic generated by such #development#; and
- (3) due consideration has been given to relate the proposed #development# to the character of the surrounding area by providing suitable buffering, landscaping and #building# setbacks.

For such certification, the applicant shall submit to the Commission a site plan and drawings depicting the proposed #buildings# and location of off-street parking facilities, curb cuts and pedestrian walkways. For #residential uses# within Area K, the #bulk# and parking regulations of R3-2 Districts, as modified by this Chapter, shall apply.

107-05 - Relationship to Public Improvement Projects

LAST AMENDED
9/11/1975

In all cases, the City Planning Commission shall deny a special permit, authorization or certification application whenever a #development# will interfere with a public improvement project (including, without limitation, housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate, City Planning Commission or Site Selection Board.

107-08 - Future Subdivision

LAST AMENDED
2/2/2011

Within the Special District, any #zoning lot# existing on September 11, 1975, may be subdivided into two or more #zoning lots# provided that the existing topography, all individual trees of six inch caliper or more and all land located within a #designated open space#, to the greatest extent possible, are preserved under future #development# options. Any subdivision that is proposed to take place within the Special District after September 11, 1975, shall be filed with the City Planning Commission, and the Commission shall certify that such subdivision complies with the approved South Richmond Plan and the above objective. In the case of a subdivision of a tract of land containing #designated open space#, a site plan indicating the distribution of #bulk# for the individual #zoning lots# shall be submitted to the Commission. Such approved subdivision shall then be recorded in the land records and indexed against all #zoning lots#. The subdivision plan shall include a survey map indicating existing topography at two foot contour intervals, all individual trees of six inch caliper or more, and the location of #designated open space# within the area. When a #zoning lot# existing on September 11, 1975, is more than five acres and is intended to be subdivided, an area plan of the entire subdivision shall be filed with the Commission. 107-10 - GENERAL REQUIREMENTS

LAST AMENDED
9/11/1975

107-11 - Special Requirements for Application

LAST AMENDED
9/11/1975

Prior to the approval of any application to the Department of Buildings for a #site alteration# or a #development#, the applicant shall file applications with the appropriate City agency requesting the certifications required in Section 107-12 (Public Facilities).

Any application to the Department of Buildings for a #site alteration# or #development# shall include a survey map or maps prepared by a licensed land surveyor showing, for the site, existing topography at two foot contour intervals and the locations, names and calipers of all existing trees of six inch caliper or more and; for any #development#, the application shall also include certifications from the appropriate City agencies as required by Section 107-12.

However, the requirements of a survey map at two foot contour intervals shall not apply to #zoning lots# 4,000 square feet or less owned separately and individually from all other adjoining #zoning lots# on September 11, 1975, and on the date of filing such application.

However, when a #zoning lot# which was owned separately and individually from all other adjoining #zoning lots# existing prior to January 2, 1975, is proposed to be #developed# with one #single-# or #two-family detached residence#, the certification reports of Section 107-12 shall not be required, but the provisions of local laws shall apply. When a permit for land contour work, storm water drainage systems or other #site alteration# work is required from the Department of Transportation or Department of

Environmental Protection or when a public agency requires a #site alteration# on either privately or City-owned land, the public agency involved shall, prior to initiating or issuing a permit for such site work, notify the Department of Buildings.

The Department of Buildings and the public agency involved shall jointly determine that the proposed #site alteration# work is consistent with the provisions of Sections 107-31 (Topographic Regulations), 107-32 (Tree Regulations) and 107-25 (Special Regulations along Certain Streets and Railroads). In case of non-agreement, the provisions of Section 107-91 (Inter-agency Coordination) shall apply.

107-12 - Public Facilities

LAST AMENDED
9/11/1975

107-121 - Public schools

LAST AMENDED
2/2/2011

For any #development# containing #residential uses#, the Department of Buildings shall be in receipt of a certification from the Chairperson of the City Planning Commission which certifies that sufficient #school# capacity exists to accommodate the anticipated primary and intermediate public school children of the #development#. All applications for certification pursuant to this Section shall be referred by the Chairperson of the Commission to the Board of Education.

The Board of Education shall issue a report concerning the availability of #school# capacity within 60 days after receipt of the application. The Chairperson of the Commission shall respond within 90 days after receipt of an application. The report shall specify the following:

- (a) whether or not #school# space is available;
- (b) if #school# space is not available, the report shall include:
 - (1) the number of seats required;
 - (2) the grade organization;
 - (3) the location of the #school#;
 - (4) the size of #school# (sq. ft. per pupil); and
 - (5) the proposed financing mechanism.

For the purposes of this Section, sufficient #school# capacity shall be deemed to exist if:

- (1) such capacity is available in existing #schools#; or
- (2) construction funds have been authorized in the Capital Budget to accommodate anticipated primary and intermediate public school children from the #development# upon its completion or within three years from the date of the Chairperson's certification; or
- (3) sufficient #school# space is to be provided by the applicant under a plan jointly approved by the Chairperson of the Commission and Board of Education.

After approval of the Chairperson of the Commission and Board of Education of the applicant's plan to provide the #school building#, the certification may be granted either upon approval of a financial agreement by the Board of Estimate or such guarantee of construction with provision for future #school# occupancy as may be accepted by the Board of Education and the Chairperson of the Commission.

However, the Chairperson of the Commission may grant such certification if capacity is not currently available and the Board of Education after consulting with the Community School Board determines that the impact from the #development# will have a minimal effect on the concerned #schools# and includes such statement in their report.

A certification by the Chairperson of the Commission that sufficient capacity will be available in the public #schools#, as set forth in the above circumstances, shall automatically lapse if substantial construction of the foundations of the #development# in accordance with approved plans has not been completed within one year from the date of such certification.

No certification concerning the availability of #school# capacity shall be required for any #development# within a predominantly built up area or within an area for which #drainage schemes# were approved prior to January 1, 1975. For the purposes of this Chapter, a "predominantly built up area" is a #block# having a maximum of four acres which is #developed# with #buildings# on #zoning lots# comprising 75 percent or more of the area of the #block#. All such #buildings# shall have a certificate of occupancy or other evidence acceptable to the Commissioner of Buildings issued not less than three years prior to the date of application for a building permit.

107-20 - DISTRICT PLAN ELEMENTS

LAST AMENDED
8/18/1983

All land in the #open space network# as shown on the District Plan (Map 3 in Appendix A), except #public parks#, is subject to the provisions of this Section.

107-21 - Modification of Designated Open Space

LAST AMENDED
8/18/1983

The City Planning Commission may adjust the boundaries of a #designated open space# on a #zoning lot# provided that such adjustment will not place the new boundary closer than 60 feet to a watercourse. As a condition for such adjustment in the boundaries, the Commission shall find that:

- (a) such adjustment shall:
 - (1) result in a substantial improvement in the quality and usefulness of the #designated open space#; and
 - (2) permit #development# which better satisfies the purpose of this Chapter and include new features in the #designated open space# which will be at least equal in quality to those which are displaced from it; and
 - (3) provide an equivalent area replacement for the area removed from the #designated open space#; or
- (b) such adjustment shall:
 - (1) be permitted to exclude:
 - (i) a #zoning lot# which is contiguous to exempted #zoning lots# along at least two #lot lines#; or
 - (ii) a #zoning lot# which would otherwise be contiguous to exempted #zoning lots# along at least two #lot lines# but for the separation by a #street#; or
 - (iii) #streets abutting# exempted #zoning lots#; and
 - (2) not substantially alter the utility and quality of the #designated open space#; or
- (c) such adjustment shall:
 - (1) be in conjunction with a public improvement project approved by the City prior to September 11, 1975, for funding to exclude in whole or in part the bed of a mapped #street# and/or adjacent #zoning lots# or portions thereof; and
 - (2) not substantially alter the utility and quality of the #open space network#; or
- (d) such adjustment shall:
 - (1) exclude, in whole or in part, private property contiguous with a #public park# which has been mapped since September 11, 1975; and
 - (2) not preclude the continuity to the #designated open space# or the public pedestrian way or the #waterfront esplanade#; and
 - (3) not substantially alter the utility and quality of the #designated open space#.

107-22 - Designated Open Space

LAST AMENDED
9/11/1975

Any #development# or #site alteration# on a #zoning lot# which contains #designated open space# as shown on the District Plan (Map 3 in Appendix A), shall require certification by the City Planning Commission that:

- (a) such #designated open space# shall be preserved in its natural state by the owner of the #zoning lot#; and
- (b) where required by the Commission, the applicant has complied with the provisions of Section 107-222 (Public pedestrian ways); and
- (c) where required by the Commission, as indicated on the District Plan, that the applicant has complied with Section 107-23 (Waterfront Esplanade).

Within any #designated open space#, removal of trees, alteration of topography, #development# of active recreational facilities or utility easements may be undertaken only in accordance with the provisions of this Section and Section 107-30 (TOPOGRAPHIC AND TREE REGULATIONS).

Planting, landscaping or provision of footpaths or sitting areas are permitted in any part of #designated open space#, provided that such improvements do not involve removal of trees or alteration of existing topography, and do not obstruct pedestrian movement within the public pedestrian ways.

107-221 - Active recreational facilities

LAST AMENDED
2/2/2011

#Designated open space# may be used for active recreational facilities provided that the City Planning Commission certifies that such #uses# are compatible with the purposes of the network #open space# and have minimal impact on tree removal, topographic alterations or drainage conditions.

Active recreational facilities may include swimming pools, tennis courts or facilities and equipment normally found in playgrounds, and shall comply with the #use# regulations of the underlying district.

In the development of active recreational facilities, no individual trees of six-inch caliper or more shall be removed except by special authorization of the Commission in accordance with the provisions of Sections 107-64 (Removal of Trees) or 107-65 (Modification of Existing Topography). Active recreational facilities shall not be allowed within 60 feet of any watercourse in #designated open space# unless the Commission certifies that a location closer to such watercourse will not adversely affect the natural character of the watercourse or its drainage function. The Commission, where appropriate, shall be guided by the reports from other City agencies involved in land contour work, storm water drainage systems or similar operations.

If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# for satisfying #lot area# requirements, #yard# requirements, #floor area# or #lot coverage# restrictions or #open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-222 - Public pedestrian ways

LAST AMENDED
2/2/2011

For any #site alteration# or #development# on a #zoning lot# which contains #designated open space#, the City Planning Commission shall certify whether or not the applicant shall be required to provide a public pedestrian way through a portion of the #designated open space#.

When a public pedestrian way is required, it shall be built and maintained by the owner of the #zoning lot# and shall be accessible to the public at all times. The public pedestrian way shall be improved at the time the #site alteration# or #development# takes place, except that for #site alterations# or #developments# on a tract of land less than 1.5 acres, the Commission may allow the applicant to delay the construction of the public pedestrian way if the applicant complies with Section

107-24 (Performance Bond).

The location and dimension of such pedestrian way shall be determined by the Commission. The owner of the #zoning lot# may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-223 - Permitted obstruction in designated open space

LAST AMENDED
4/30/2012

The following shall not be considered as obstructions when located in #designated open space#:

- (a) Awnings and other sun control devices, pursuant to Section 23-44 (Permitted Obstructions);
- (b) Balconies, unenclosed, subject to the provisions of Section 23-13;
- (c) Eaves, gutters or downspouts projecting into such #designated open space# not more than 16 inches;
- (d) Fences or walls, conditioned upon certification by the City Planning Commission that:
 - (1) such fences or walls will not obstruct or preclude public access or circulation of pedestrians, cyclists or horseback riders through the public easement within #designated open space#; and
 - (2) the location, size, design and materials of such fences or walls are appropriate to the character of the #designated open space#;
- (e) Exterior wall thickness, pursuant to Section 23-44;
- (f) Solar energy systems on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the #building# wall (as viewed in elevation) from which it projects.

No #accessory# off-street parking facilities shall be permitted in #designated open space#. No #building or other structure# shall be erected in #designated open space# except as permitted by the provisions of Section 107-221 (Active recreational facilities). Any existing #building or other structure# located within the #designated open space# on September 11, 1975, and not complying with the provisions of this Section or the other Sections specified in the preceding paragraph, shall not be #enlarged# but may be continued as a #non-conforming use# or #non-complying building# subject to the applicable provisions of Article V (Non-conforming Uses and Non-complying Buildings) in accordance with the underlying district regulations.

107-224 - Qualification of designated open space as lot area for bulk computations

LAST AMENDED
2/2/2011

#Designated open space# on a #zoning lot# may count as #lot area# for the purposes of the applicable regulations on #yards#, #floor area ratio#, #open space ratio#, #open space#, #lot coverage#, #lot area# or density, provided that the area of the #designated open space# claimed as #lot area# does not exceed the area of the #zoning lot# located outside the designated space. For a #single-family residence#, any portion of a #zoning lot# occupied by #designated open space# shall count as #lot area# for the purposes of satisfying minimum density requirements only pursuant to this Section.

Where the area of the #designated open space# claimed as #lot area# exceeds the above permitted amount, the provisions of Section 107-72 (Qualification of Designated Open Space as Lot Area) shall apply.

Any #designated open space#, or portion thereof, claimed as required #open space# or used to satisfy the #lot coverage# restrictions for a #development# containing #residences# shall be accessible to and usable by all residents of the #zoning lot#.

In the case of a #large-scale residential development#, any #designated open space#, or portion thereof, that qualifies as #lot area# may be used as common space.

107-225 - Special bulk regulations for developments containing designated open space

LAST AMENDED
2/2/2011

This section shall apply to any tract of land containing #designated open space# that is #developed# as a unit in single ownership and where the area of the #designated open space# claimed as #lot area# for zoning computation does not exceed the area of that portion of the tract of land not located within #designated open space#. Such a tract of land may contain a single #zoning lot# or two or more #zoning lots# which are contiguous or would be contiguous except for their separation by a #street#.

In all #Residence Districts#, except R1-1 Districts, for all permitted #residential uses# on such tract of land, the total #floor area# or #dwelling units# generated by that portion of the #designated open space# claimed as #lot area# by the applicable district regulations may be distributed without regard for #zoning lot lines#, for all #zoning lots# wholly within such tract of land. The total #open space# required or #lot coverage# permitted for such tract of land may be located anywhere within the tract of land without regard for #zoning lot lines#.

No transfer of #floor area# or #dwelling units# shall be permitted from a #zoning lot# not containing any #designated open space#.

The site plan and #bulk# distribution for the entire tract of land shall be recorded in the land records and indexed against all #zoning lots# in such tract of land.

Furthermore, the minimum #lot area# and #lot width# regulations, #yards# and spacing between #buildings# regulations shall not apply along portions of #streets# or #lot lines# wholly within such tract of land, provided that:

- (a) the maximum #lot coverage# on any #zoning lot# shall not exceed 50 percent of the #lot area#;
- (b) the minimum distance between #buildings# on the same or adjacent #zoning lots# across a common #side lot line# is not less than 10 feet; and
- (c) the minimum distance between #buildings# on adjacent #zoning lots# across a common #rear lot line# shall not be less than 40 feet.

107-226 - Zoning lots entirely or substantially within designated open space

LAST AMENDED
2/2/2011

When a #zoning lot# owned separately or individually from all adjoining #zoning lots# prior to January 2, 1975, is located entirely or substantially within #designated open space# and no reasonable development is possible on the #zoning lot#, the owner may request the City to provide, in exchange, a City-owned #zoning lot#.

The #zoning lots# may be exchanged only after an appraisal made by a body consisting of the following:

- (a) one independent fee appraiser appointed by the City;
- (b) one independent fee appraiser appointed by the private property owner, which appraiser may be the same as in paragraph (a) of this Section; and
- (c) if needed to resolve a disagreement between the two appraisers appointed in paragraphs (a) and (b), one independent fee appraiser chosen by mutual agreement between the two individually appointed appraisers.

Such requests for exchange shall be filed by the owner of the #zoning lot# with the City Planning Commission.

If such exchange of #zoning lots# is not feasible under this Section or Section 384-7.0 of the New York City Administrative Code, the City may either acquire such #zoning lot# or permit development to proceed thereon with the minimal modification of the #designated open space# necessary to permit #development# containing #residences#.

107-23 - Waterfront Esplanade

LAST AMENDED
2/2/2011

When a #zoning lot# containing a portion of the #waterfront esplanade#, as shown on the District Plan (Map 3 in Appendix A) is #developed#, the location and design of the #waterfront esplanade# shall be certified by the City Planning Commission and such #waterfront esplanade# shall conform to the guidelines and standards established by the Department of City Planning in consultation with the Department of Transportation and the Department of Parks and Recreation.

The #waterfront esplanade# shall be built and maintained by the owner of a #zoning lot# on which the esplanade is shown on the District Plan, except where such #zoning lot# has been #developed# prior to September 11, 1975. Where such #waterfront esplanade# is not accessible to the public, the Commission may require the owner of the #zoning lot# to provide public access to such a #waterfront esplanade# from a public right-of-way through the #zoning lot#.

The #waterfront esplanade# shall be either built at the same time that the #zoning lot# is #developed# or the Commission may allow the owner to comply with Section 107-24 (Performance Bond).

The owner of a #zoning lot# may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# for satisfying #lot area# requirements, #yard# requirements, #floor area# or #lot coverage# restrictions or #open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-24 - Performance Bond

LAST AMENDED
2/2/2011

When the provision of the required improvement is to be delayed for a period not to exceed five years from the date of the City Planning Commission certification, the owner of the #zoning lot# shall, prior to obtaining any certificate of occupancy, provide to the Comptroller of the City of New York a performance bond or City securities to ensure the future provision of either the #waterfront esplanade# or the public pedestrian way.

When the required improvement has been constructed, the Comptroller of the City of New York may release the bond or City securities posted to ensure such construction, provided an amount of the bond or City securities to ensure maintenance of the improvement, as set forth in the paragraph above, remains with the Comptroller.

The value of the bond or City securities tendered to ensure the future provision of the improvement shall be at the rate of \$400 per 100 square feet of #waterfront esplanade# and at \$200 per 100 square feet of public pedestrian way, if such bond or securities are tendered prior to January 1, 1980.

At five year intervals after January 1, 1980, the Commission, with the approval of the Board of Estimate, shall establish the new rates for the future provision (and maintenance) of the improvement.

107-25 - Special Regulations Along Certain Streets or Railroads

107-251 - Special provisions for arterials

LAST AMENDED
2/2/2011

Along those #streets# designated as #arterials#, the following regulations shall apply:

(a) Access restrictions

Curb cuts are not permitted along an #arterial street# on #zoning lots# with access to a non-#arterial street#. For #zoning lots# with access only to an #arterial street#, one curb cut is permitted along such #arterial street#. For purposes of this Section, adjoining #zoning lots# in the same ownership shall be treated as one #zoning lot#. Such access restrictions with regard to curb cuts shall not apply to #schools#, hospitals and related facilities, police stations or fire stations.

For #zoning lots# with access only to a #arterial street#, the City Planning Commission may, by certification, approve additional curb cuts for access to such #arterial street# when necessary to avoid adverse effects on the traffic flow of the #arterial#.

For #zoning lots# with access to both #arterial# and non-#arterial streets#, the Commission may authorize one or more curb cuts on the #arterial street#, pursuant to the provisions of Section 107-68 (Modification of Group Parking Facility and Access Regulations).

(b) #Building# setback

Along portions of the #arterials#, as indicated on the District Plan, a 20 foot #building# setback shall be provided for the full length of the #front lot line abutting# such #arterial#. The front #building# setback area shall be unobstructed from its lowest level to the sky except as permitted by this Section. Where a front #building# setback area at least 35 feet in depth is provided, such setback area may be used for required #accessory# off-street parking or loading facilities. No portion of such required setback area may be used for open storage.

In the case of the service roads of the West Shore Expressway, a 30 foot #building# setback shall be provided and required off-street parking and loading facilities are permitted within such setback. Within the required front #building# setback, there shall be provided one tree of three-inch caliper or more, pre-existing or newly planted, for each 400 square feet of such front open area. The trees shall be selected in accordance with the table set forth in Appendix B.

107-252 - Special provisions for park streets

LAST AMENDED
2/2/2011

For those #streets# designated as #park streets#, the following regulations shall apply:

(a) Access restrictions

No curb cuts are permitted on such #streets# except that one curb cut is permitted for any #residential#, #community facility# or #commercial use# whose #zoning lot# has frontage only on a #park street#. For purposes of this Section, adjoining #zoning lots# in the same ownership shall be treated as one #zoning lot#.

For #zoning lots# with access to both #park streets# and non-#park streets#, the City Planning Commission may authorize one or more curb cuts on the #park street#, pursuant to the provisions of Section 107-68 (Modification of Group Parking Facility and Access Regulations).

(b) Landscaping

One tree of at least three inch caliper, pre-existing or newly planted, shall be provided for each 400 square feet of area of the #street# sidewalk area. Trees shall be selected in accordance with the table set forth in Appendix B and shall be planted in the #street# sidewalk area.

(c) Development and maintenance responsibility

The owner of each #development# abutting a #park street# shall have responsibility for landscaping and maintenance of that portion of the #park street# located between the #front lot line# and the curb.

Alternatively, maintenance responsibility may be vested in a properly constituted Home Association or other organization established for this purpose. Those segments of a #park street# which are abutted by land #developed# prior to the effective date of the Special District designation shall be #developed#, landscaped and maintained by the City of New York.

For all #developments# on #zoning lots# immediately adjacent or directly opposite to the Staten Island Rapid Transit right-of-way, a #building# setback of at least 20 feet in depth, unobstructed from its lowest level to the sky, except as permitted herein, shall be provided along the #lot line# adjacent to or directly opposite the right-of-way of such railroad. Such #building# setback shall be measured perpendicular to such #lot line#, as indicated on the District Map. Within such #building# setback area, there shall be provided one tree of three-inch caliper or more, pre-existing or newly planted, for each 400 square feet of such open area. The trees shall be selected in accordance with the table set forth in Appendix B.

107-31 - Topographic Regulations

LAST AMENDED
9/11/1975

Except for any existing topographic feature which is unsafe and the removal of which is required by the Department of Buildings to eliminate hazardous conditions, no topographic modifications may take place except as provided in this Section or as authorized by Section 107-65.

107-311 - Areas within designated open space

LAST AMENDED
9/11/1975

Within #designated open space# on a #zoning lot#, any #site alteration# shall be permitted only by authorization of the City Planning Commission pursuant to Section 107-65 (Modifications of Existing Topography).

107-312 - Areas not within designated open space

LAST AMENDED
2/2/2011

On any portion of a #zoning lot# not within #designated open space#, alteration of topography shall be permitted only in accordance with the provisions of this Section.

The ground elevation of land existing on September 11, 1975, may be modified by up to two feet of cut or fill, provided that such modification shall not result in the destruction of trees of six-inch caliper or more, unless authorized pursuant to other provisions of this Chapter. Modification of topography to a greater extent is permitted:

- (a) in an area designated for #building# foundations, driveways or utilities for a proposed #building or other structure# whose location is approved by the Department of Buildings in accordance with the provisions of this Chapter; and
- (b) in order to meet the legal mapped grades of a #street#, the existing topography of that portion of the #zoning lot# abutting such #street# may be modified to create a slope on the #zoning lot# of not less than one foot vertical to each two feet horizontal provided the slope is landscaped to prevent erosion.

Topographic modifications not permitted by the provisions of this Section may be permitted only by authorization of the City Planning Commission, pursuant to the provisions of Section 107-65.

107-32 - Tree Regulations

LAST AMENDED
4/5/1979

The following regulations in Sections 107-321 through 107-323, inclusive, shall not apply to existing trees which are unsafe and the removal of which is required by the Department of Buildings.

107-321 - Tree preservation

LAST AMENDED
2/2/2011

No trees of six-inch caliper or more shall be removed, or land operations affecting their survival undertaken, in connection with any #site alteration# or #development#, except in compliance with the provisions of this Section.

Prior to any such removal or land operations, plans shall be filed with the Department of Buildings showing the locations of all trees of six-inch caliper or more on the #zoning lot# and in the public sidewalk area of the #street# or #streets# adjacent thereto, and identifying those which are proposed to be removed. Removal of live trees of six-inch caliper or more will be permitted only under the following circumstances:

- (a) where such trees are located in areas to be occupied by #buildings#, driveways, areas for required #accessory# parking, or within a distance of eight feet of the exterior walls of such #building#, provided that it is not possible to avoid such removal by adjustments in the arrangement of such #buildings#, driveways or required parking areas;
- (b) where the continued presence of such trees would create special hazards or dangers to persons or property, which it would not be possible or practical to eliminate by pruning;
- (c) where continued presence of the trees would interfere with another tree of six-inch caliper or more designated for preservation and belonging to a species listed in Appendix B (Tree Selection Tables); or
- (d) where authorizations granted by the City Planning Commission under the provisions of this Chapter require or clearly contemplate the removal of such trees.

If an existing tree of six-inch caliper or more identified for preservation is removed without prior approval by the Department of Buildings or the City Planning Commission, any permit issued by the Department of Buildings for a #site alteration#, #development# or any #use# on the #zoning lot# shall be revoked.

In order to remove such violations, the owner of the #zoning lot# shall request the Commission to specify the tree restoration requirements and to certify such requirements to the Department of Buildings.

No building permit, reinstatement of such permit or issuance of a certificate of occupancy shall occur until the owner of the #zoning lot# either posts with the Comptroller of the City of New York a landscaping performance bond in an amount determined

by the Commission or completes the replanting in accordance with the requirements set forth by the Commission in order to correct the planting violations.

Replacement trees to be planted shall be of a caliper no less than three inches and be of a species listed in Appendix B and the sum of whose calipers shall be at least equivalent to that of the trees removed.

In addition, the Commission may require a restrictive declaration specifying the terms of implementing the restoration plan.

Where on-site planting of such replacement trees would result in over crowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more replacement trees on adjoining public sidewalks or in a nearby public area or substituting other planting material pursuant to Section 107-323.

107-322 - Tree requirements

LAST AMENDED
2/2/2011

New trees shall be provided in accordance with the table set forth in Appendix B. For any existing tree of at least six-inch caliper which is preserved, credit for one tree shall be given for the first six inches of caliper and, for each additional four inches of caliper, credit for an additional tree shall be given.

(a) On site

In connection with any #development#, #site alteration# or #enlargement# involving the addition of at least 1,000 square feet of #floor area#, trees of at least three-inch caliper, pre-existing or newly planted, shall be provided on the #zoning lot# at the rate of one tree for each 1,000 square feet of #lot area# or portion thereof.

(b) Planting for open parking areas

Any #development# with open off-street parking areas with 10 spaces or more shall be subject to the tree planting and screening requirements of Section 107-483.

A copy of such approved landscaping plan shall be filed with the Department of Buildings by the Commission.

107-33 - Preservation of Natural Features

LAST AMENDED
8/12/2004

For any #development# or #enlargement#, the Chairperson of the City Planning Commission may modify the applicable regulations governing the location of required parking spaces, driveways and curb cuts where the Chairperson certifies to the Commissioner of Buildings that such modifications are necessary so as to avoid the destruction of existing topography and trees of six-inch caliper or more.

For any #commercial# or #manufacturing development# on a #zoning lot# adjoining a #Residence District# boundary, there shall be in the open area required by the provisions of Sections 33-29 and 43-30 (SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES) along the #lot line# adjoining the #Residence District#, a strip at least four feet wide, densely planted with evergreen shrubs at least four feet high at the time of planting and complying with the provisions applicable to screening for parking areas as set forth in Section 107-483 (Planting and screening for open parking areas).

107-482 - Landscaped buffer for manufacturing development adjacent to residences

LAST AMENDED

Where an existing #residential use# is located adjacent to a proposed #manufacturing# or #commercial development#, the developer shall plant along that part of the #side# or #rear lot line# adjacent to a #residential use#, a row of evergreen shrubs at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years, or trees selected from Appendix B and spaced at 10 feet on center. Such screening shall be maintained in good condition at all times.

107-483 - Planting and screening for open parking areas

LAST AMENDED
6/10/2009

(a) Tree planting requirements

One tree, of three inch caliper or more, pre-existing or newly planted, shall be provided for each four parking spaces. Such trees may be located in the perimeter landscaped area of the parking area or in planting islands within the parking area.

However, where 30 or more parking spaces are provided, at least 50 percent of the required trees shall be located within planting islands within the parking area. Such planting islands shall have a minimum area of 150 square feet of pervious surface and comply with the requirements of paragraphs (a), (b) and (c) of Section 37-922 (Interior landscaping).

For open parking areas with at least 36 parking spaces, the total number of trees required pursuant to Section 37-922 (Interior landscaping) shall be superseded by the number of trees required pursuant to this Section.

(b) Screening requirements

The parking area shall be screened from all adjoining #zoning lots# by a landscaped area at least four feet in width, densely planted with shrubs maintained at a maximum height of three feet. Such parking area shall also be screened from all adjoining #streets# by a perimeter landscaped area at least seven feet in width. Such perimeter landscaped area may be interrupted only by vehicular entrances and exits. Sidewalks that provide a direct connection between the public sidewalk and a pedestrian circulation route within the parking area may also interrupt a perimeter landscaped area.

In addition, such screening shall be maintained in good condition at all times and may be interrupted by normal entrances and exits.

(c) Planting Waiver

Tree planting and screening requirements may be waived if the Commissioner of Buildings certifies that planting is unfeasible due to:

- (1) unique geological conditions, such as excessive subsurface rock conditions or high water table;
- (2) underground municipal infrastructure; or
- (3) a City, State or Federal mandated brownfield remediation that requires the site to be capped.

Such waiver shall be based on a report prepared by a licensed engineer that such conditions exist.

For #developments# in #Residential Districts#, trees provided in accordance with the provisions of this Section may be counted for the purposes of meeting the requirements of Section 107-322, paragraph (a). Furthermore, for #developments# in #Commercial# or #Manufacturing Districts# which provide trees in accordance with the provisions of this Section, the requirements of Section 107-322, paragraph (a), shall not apply.

- (e) #Residential enlargements# not to exceed 500 square feet shall be permitted subject to all of the R3X District regulations and the applicable Special District regulations, provided that there is no increase in the number of #dwelling units# and that there is no disturbance of the soil.
- (f) #Residential developments#, and #residential enlargements# where there is a disturbance of the soil, shall be subject to the provisions of Section 107-69 (Residential Uses in Area M).

107-492 - Special bulk regulations

LAST AMENDED
8/17/1995

The maximum #floor area ratio# for two or more #uses# on a #zoning lot# shall be determined by the #use# that is permitted the greatest #floor area ratio# in Area M (Map 4 in Appendix A), provided that the #floor area# occupied by each #use# does not exceed the amount permitted by the #floor area ratio# for that #use# in Area M.

- (b) when a #development# contains #residential uses#, as set forth in Section 107-121 (Public schools);
- (c) when a #zoning lot# contains #designated open space#, as set forth in Section 107-22 (Designated Open Space);
- (d) where required #yards# or equivalents are to be modified as set forth in Section 107-465 (Modifications of special yard regulations for certain zoning lots);

- (f) where plant material is substituted for required trees as set forth in Section 107-323 (Substitution of other plant materials);
- (g) when #development# takes place within areas D, F, or K, as set forth in Section 107-02 (General Provisions); or

On application, the City Planning Commission may grant authorizations for modifications of specified regulations of this Chapter or of the underlying districts in accordance with the provisions of Sections 107-62 to 107-69, inclusive, relating to authorizations.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorizations.

107-62 - Yard, Court and Parking Regulations

LAST AMENDED
2/2/2011

For any #zoning lots#, the City Planning Commission may authorize variations in the #yard# or #court# regulations as set forth in Section 107-46 or in the location of parking, driveway or curb cut regulations as set forth in Sections 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents), 25-621 (Location of parking spaces in certain districts), 25-622 (Location of parking spaces in lower density growth management areas) and 25-631 (Location and width of curb cuts in certain districts) for the purpose of allowing proper arrangements of #buildings#, driveways or required parking areas so as to avoid the destruction of existing topography and individual trees of six-inch caliper or more. #Rear yard#, #side yard# or #side yard# equivalent variations shall not be authorized on the periphery of a #development# unless acceptable agreements are jointly submitted for #development# of two or more adjacent #zoning lots# by the owners thereof, incorporating the proposed #yard# or #side yard# equivalent variations along their common #lot lines#.

As a condition for granting such authorizations, the Commission shall find that the proposed placement of #buildings# and arrangement of #open spaces# will not have adverse effects upon light, air and privacy on adjacent #zoning lots#.

107-63 - Minimum Distance Between Buildings

LAST AMENDED
2/2/2011

For any #development# containing #residences#, the City Planning Commission may authorize the location of #buildings#, on a single #zoning lot# without regard for spacing between #buildings# regulations, provided that the resultant spacing will not be reduced beyond an amount considered appropriate by the Commission and in no case by more than 15 percent of that required by Section 23-71 (Minimum Distance Between Buildings on a Single Zoning Lot).

107-64 - Removal of Trees

LAST AMENDED
9/11/1975

For any #development#, the City Planning Commission may authorize the removal of trees of six-inch caliper or more whose removal would otherwise be prohibited under the provisions of Section 107-32 (Tree Regulations), provided that the Commission makes one or more of the following findings:

- (a) that the tree's retention would cause serious disadvantage in the arrangement of open areas on the lot, impairing the usefulness of such areas;
- (b) that such tree is located in an area where more than two feet of cut or fill is required and measures for saving the tree would be extremely difficult and impractical; or
- (c) that provision of a segment of the #waterfront esplanade# is not feasible without such tree's removal.

107-65 - Modifications of Existing Topography

LAST AMENDED
2/2/2011

For any #development# or #site alteration#, the City Planning Commission may authorize modifications of the natural topography existing on September 11, 1975, beyond the amount specified in Section 107-31 (Topographic Regulations), provided that the Commission finds that:

- (a) #development# on the #zoning lot# is not feasible without such modifications;
- (b) such modification of topography is necessary to accommodate public amenities, such as public pedestrian ways, the #waterfront esplanade# or active recreational facilities within a #designated open space# as required under the provisions of this Chapter;
- (c) such modification will not cause unnecessary disturbance of the drainage pattern in the area; and

- (d) such modified topography will have minimal impact on the existing natural topography of the surrounding area and will blend harmoniously with it.

Where a permit for land contour work or topographic modification is required from the Department of Transportation or the Department of Buildings, the City Planning Commission and other such agencies shall jointly determine the conditions under which such topographic modification may be permitted so as best to serve the purposes of the Special District, in accordance with the provisions of Section 107-91 (Inter-agency Coordination).

107-66 - Developments Partly Within Designated Open Space

LAST AMENDED
9/11/1975

107-661 - Modification of permitted obstructions

LAST AMENDED
2/2/2011

For #developments# containing #residences# on #zoning lots# partly within #designated open space#, the City Planning Commission, on application, may modify the requirements of Section 107-45 (Required Open Space for Residences) to permit more than 50 percent of the required #open space#, not within the #designated open space#, to be occupied by driveways, private streets, open #accessory# off-street parking spaces or open #accessory# off-street loading berths, if the Commission finds that such facilities are so arranged and landscaped as to afford an acceptable standard of amenity for the #development# and its surroundings.

107-662 - Modification of required yards of building setbacks

LAST AMENDED
2/2/2011

On application, the City Planning Commission may grant an authorization modifying the #building# setback requirements of Section 107-251 (Special provisions for arterials), provided that the Commission finds that:

- (a) the area of that portion of the #zoning lot# which is designated as #designated open space# on the District Plan in Appendix A of this Chapter, is at least equal to the area of the required #building# setback #front yard# or #yards#, or portion thereof, which is waived;
- (b) along any #front lot line# abutting an #arterial#, a front setback shall be provided having a depth to be determined by the Commission and which shall be improved in accordance with a landscape plan approved by the Commission; and
- (c) #building# placement leaves adequate spaces for the provision of #street# trees.

107-67 - Uses and Bulk Permitted in Certain Areas

LAST AMENDED
11/15/2006

107-671 - In Areas F and K

LAST AMENDED
2/2/2011

In Areas F and K, as shown in the District Plan (Map 4 in Appendix A), the City Planning Commission may authorize one or more #uses# in the Use Groups specified in this Section not permitted by the underlying district regulations.

As a condition for such authorization, the Commission shall find that:

- (a) such #uses# are so located as not to impair the essential character of the surrounding area for its future development;
- (b) the minimum #lot area# of a #zoning lot# on which such #uses# are located is at least 20 acres;

- (c) vehicular access and egress for such proposed #uses# are located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas; and
- (d) where vehicular access and egress are located on an #arterial#, such location affords the best means for controlling the flow of traffic generated by such proposed #uses# to and from such #arterial#.

In each case the Commission may prescribe additional conditions and safeguards, including requirements for adequate screening, planting or landscaping.

107-672 - In Area SH

LAST AMENDED
2/2/2011

The City Planning Commission may authorize #developments# that will result in more than 250 #dwelling units# of #affordable independent residences for seniors# in Area SH, as shown on the District Plan (Map 4 in Appendix A), provided such #developments# comply with the #use# and #bulk# regulations of R3-2 Districts, except that the maximum #floor area ratio#, maximum #lot coverage# and minimum required #open space# shall be as set forth for R3-2 Districts in Section 23-142 (Open space and floor area regulations in R1 and R2 Districts with a letter suffix and R3 through R5 Districts), as modified by this Chapter. The provisions of Section 23-144 (Affordable independent residences for seniors) shall not apply.

In order to grant such authorization, the Commission shall find that:

- (a) such #developments# are part of a superior site plan;
- (b) such #residences# are compatible with the character of the surrounding area; and
- (c) the #streets# providing access to such #residences# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

107-68 - Modification of Group Parking Facility and Access Regulations

LAST AMENDED
2/2/2011

For a permitted #commercial#, #community facility# or #manufacturing use#, the City Planning Commission may authorize more than 30 #accessory# off-street parking spaces, and for any #use#, may modify access restrictions with regard to curb cuts as set forth in paragraph (a) of Section 107-251 (Special provisions for arterials) or paragraph (a) of Section 107-252 (Special provisions for park streets). In order to grant such authorization, the Commission, upon a review of the site plan, shall find that:

- (a) vehicular access and egress are located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (b) where vehicular access and egress are located on an #arterial# or #park street#, such location affords the best means for controlling the flow of traffic generated by such #use# to and from such #arterial# or #park street#, and does not unduly interfere with pedestrian traffic; and
- (c) the location of such vehicular access and egress permits better site planning.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and may, in appropriate cases, condition its authorization upon compliance with an approved site and landscaping plan. The Commission may also permit modifications to parking lot landscaping and maneuverability requirements only if such modifications preserve vegetation and natural topography.

107-69 - Residential Uses in Area M

LAST AMENDED
8/17/1995

- (a) The City Planning Commission may authorize #developments#, or #enlargements# of #residential uses# in excess of 500 square feet, or in any case where there would be a disturbance of the soil, for the following:
- (1) #zoning lots# with #residential# or #community facility uses# existing on August 17, 1995; or
 - (2) #zoning lots# that have been vacant or #land with minor improvements# for at least two years immediately prior to the date of application for the authorization.
- (b) No #building# shall be constructed for occupancy by both #residential# and #manufacturing uses#. All #residential uses# shall comply with the R3X District regulations and all #commercial uses# shall comply with the M1-1 District regulations. All #developments# or #enlargements# shall comply with the applicable Special District regulations:
- (c) In authorizing new #residential uses# and #residential enlargements#, the Commission shall find that:
- (1) the #residential use# will not be exposed to excessive noise, smoke, dust, noxious odor, toxic metals, safety hazards, or other adverse impacts from #commercial# or #manufacturing uses#;
 - (2) there are no open #uses# listed in Use Group 18 within 400 feet of the #zoning lot#;
 - (3) the #residential use# shall not adversely affect #commercial# or #manufacturing uses# in the Special District; and
 - (4) the authorization shall not alter the essential character of the neighborhood or district in which the #use# is located, nor impair the future #use# or #development# of #commercial# and #manufacturing uses# on nearby #zoning lots#.

In granting such authorization, the Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

107-70 - SPECIAL PERMITS

LAST AMENDED
9/11/1975

107-71 - General Provisions

LAST AMENDED
9/11/1975

On application, the City Planning Commission, may grant special permits for modifications of specified regulations of this Chapter or of the underlying districts in accordance with the provisions of Sections 107-72 to 107-78, inclusive, relating to Special Permits.

107-72 - Qualification of Designated Open Space as Lot Area

LAST AMENDED
2/2/2011

For any #development# containing #designated open space#, the City Planning Commission may allow the amount of #designated open space# to be counted as #lot area# for #bulk# computations to exceed the amount permitted under Section 107-224.

As a condition for granting a permit for such modifications, the Commission shall find that:

- (a) that for the occupants of the site itself, the ill effects of concentration of #buildings# or #accessory# off-street parking are avoided or overcome by the manner in which the #buildings# are sited and #yards# and other open areas arranged; and

- (b) that the concentration of #buildings# or activities will not adversely affect any other #zoning lot# outside the development by restricting access of light and air, impairing privacy or creating traffic congestion.

107-73 - Exceptions to Height Regulations

LAST AMENDED
6/29/1989

For any #development#, the City Planning Commission may grant a special permit to modify the height regulations as set forth in Section 23-631, paragraphs (b), (c) and (d) and Section 107-43, provided that the Commission finds that:

- (a) such #development# is so located as not to impair the essential character of the surrounding area;
- (b) by concentrating permitted #floor area# in a #building# or #buildings# of greater height covering less land, the preservation of existing topography, #designated open space# or the protection of an outstanding view from a public space, will be assured, and that such preservation would not be possible by careful siting of lower #buildings# containing the same permitted #floor area# and covering more land; and
- (c) that the #development's# design proposals take full advantage of all special characteristics of the site.

107-74 - Modification of Permitted Use Regulations

LAST AMENDED
2/2/2011

For any #development#, the City Planning Commission may grant special permits to allow #semi-detached# or #attached single-family residences# in R2 Districts and #attached single-# or #two-family residences# in R3-1 Districts. As a condition for granting such special permits, the Commission shall find that:

- (a) only by modifying the #residential building# type, the preservation of trees over six-inch caliper and of existing topography can be assured;
- (b) by inclusion of the proposed #residential building# types, better standards of privacy and usable #open space# can be achieved; and
- (c) if the #zoning lot# is located in the #designated open space#, the prohibition of #development# on the #designated open space# requires the permitted #development# to be concentrated in the remaining portion of the tract.

107-75 - Modification of Underlying R1-1 District Regulations

LAST AMENDED
2/2/2011

For any #development#, the City Planning Commission may grant special permits for the modifications of underlying R1-1 District regulations on #yards# or #courts# where such modifications are appropriate in order to:

- (a) permit siting of a #building# or driveway so as to avoid destruction of a valuable tree of six-inch caliper or more; or
- (b) allow a #building# to be arranged on a #zoning lot# that includes #designated open space# without encroaching on such #designated open space#.

As a condition for granting such modifications, the Commission shall find that:

- (1) the siting of the #building# will not adversely affect adjacent properties by impairing privacy or access of light and air;
- (2) the benefits to the surrounding area from the proposed arrangement of #buildings# and #open spaces# outweigh any disadvantages which may be incurred thereby in the area; and
- (3) such modification is the least modification required to achieve the purpose for which it is granted.

The Commission may impose appropriate conditions or safeguards, such as special landscaping requirements, to minimize any adverse effects on the character of the surrounding area.

107-76 - Boundary Adjustments in Designated Open Space

LAST AMENDED
9/11/1975

The City Planning Commission may grant special permits to allow adjustments in the boundaries of the #designated open space# on a #zoning lot# provided that such adjustment will not place the new boundary closer than 60 feet to a watercourse. As a condition for such adjustment in the boundaries, the Commission shall find that such adjustment will:

- (a) result in a substantial improvement in the quality and usefulness of the #designated open space#; or
- (b) permit #development# which better satisfies the purposes of this Chapter and that the new features which will be added to the #designated open space# will be at least equal in quality to those which are displaced from it; and
- (c) provide an equivalent area replacement for the area removed from the #designated open space#.

107-77 - Community Facility Buildings or Treatment Plants Permitted in Designated Open Space

LAST AMENDED
2/2/2011

The City Planning Commission may grant special permits for the construction of sewage disposal plants or pumping stations or #community facility uses# listed in Section 78-352 (Bonus for community facility space) in #designated open space# where such #uses# are permitted by the underlying district regulations provided the Commission finds that:

- (a) an amount of open area outside the boundary of the #designated open space#, at least equal to the coverage of any #building or other structure# permitted under this Section, shall be added to the #designated open space#, and action shall be taken to change the boundary of the #designated open space# pursuant to Section 107-76 (Boundary Adjustments in Designated Open Space);
- (b) such added open area forms a continuous part of the #open space network#, and does not interrupt or foreclose the continuity of a public pedestrian way;
- (c) such added open area shall contain natural (aquatic, botanic, geologic or topographic) features that are equal or better in quality to those displaced by the #development#; and
- (d) such sewage disposal plants and sewage pumping stations meet the requirements of Section 74-73, inclusive.

The City Planning Commission may prescribe appropriate conditions and safeguards to enhance the character of the #designated open space#.

107-78 - Other Buildings Permitted in Designated Open Space

LAST AMENDED
9/11/1975

On any #zoning lot# located partially within the #designated open space#, the City Planning Commission may grant a special permit to allow a #building# to encroach on the #designated open space# where #development# is not feasible without encroachment on the #designated open space#. As a condition for permitting such construction, the Commission shall find that the #development#, as authorized, will result in the minimum interference with the #designated open space# that must be permitted in order to allow reasonable #development# and #bulk# distribution under the regulations of the underlying district or as such regulations are modified by the provisions of this Chapter.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the #designated open space#.

Notwithstanding any provision in Article VII, Chapter 8, or elsewhere in this Zoning Resolution, if the City of New York acquires title or a less than fee interest in any #designated open space# which serves as required #open space# for a #development# and the acquisition occurs while the #development# is under construction or after it is completed, it shall not affect the area's qualifications for satisfying #open space# requirements for #zoning lots# in the #development#.

Chapter 9 - Special Hillside Preservation District (HS)

File generated by <https://zr.planning.nyc.gov> on 6/22/2020

Chapter 9 - Special Hillside Preservation District (HS)

119-00 - GENERAL PURPOSES

LAST AMENDED
6/30/1987

The "Special Hillside Preservation District" (hereinafter also referred to as the "Special District") established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following special purposes:

- (a) to reduce hillside erosion, landslides and excessive storm water runoff associated with development by conserving vegetation and protecting natural terrain;
- (b) to preserve hillsides having unique aesthetic value to the public;
- (c) to guide development in areas of outstanding natural beauty in order to protect, maintain and enhance the natural features of such areas; and
- (d) to promote the most desirable use of land and to guide future development in accordance with a comprehensive development plan, and to protect the neighborhood character of the district.

119-01 - Definitions

LAST AMENDED
2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section 12-10 (DEFINITIONS).

Area of no disturbance

An "area of no disturbance" is an area designated on the site plan that is protected from all types of intrusion, including: #site alteration#, operation of construction equipment, storage of construction materials, excavation or regrading, tunneling for utilities, removal of trees, #topsoil# or any living vegetation, or construction of driveways, #private roads#, parking areas, patios, decks, swimming pools, walkways or other impervious surfaces. #Areas of no disturbance# shall include #steep slopes#, #steep slope buffers# and the #critical root zone# of each tree proposed for preservation.

Average percent of slope

The "average percent of slope" of a #zoning lot# is the average slope of all portions of a #zoning lot# excluding #steep slopes# and shall be determined according to the following equation:

$$S = \frac{IL}{A} \times 100$$

Where:

S - average percent of slope

I - contour interval in feet

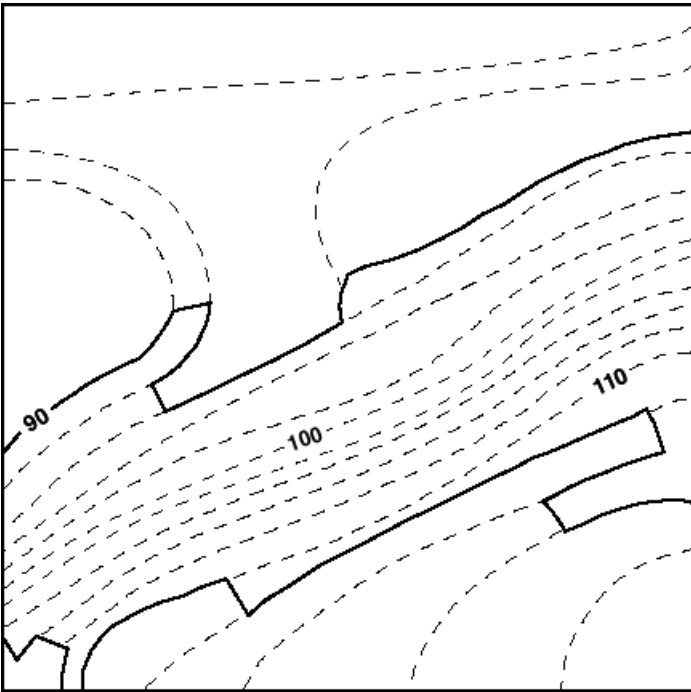

L - combined length of contour lines in feet, excluding those portions bordering or lying within areas having a slope of 25 percent or greater and meeting the definition of #steep slope#

A - gross area in square feet of the #zoning lot#, excluding those portions of the #zoning lot# having a slope of 25 percent or greater and meeting the definition of #steep slope#. For a proposed #site alteration# on a tract of land

not within a #zoning lot#, the portion of such tract of land owned by the applicant shall be considered to be part of the #zoning lot#.

100 - factor which yields slope as a percentage

CALCULATING AREAS HAVING A SLOPE EQUAL TO OR GREATER THAN 25 PERCENT (illustrative example)

Example:

$$X = \frac{\text{contour interval in feet}}{0.25} = \frac{2}{0.25} = 8.0 \text{ feet}$$

Where:

X - distance between contour lines which indicates a slope of 25 percent

In order to calculate the area having a slope equal to or greater than 25 percent, one can use a map with two-foot contour intervals and a scale of one inch equals 20 feet, such as the map pictured above. A 25 percent slope, on a map with two-foot contour intervals, is indicated by contour lines which are 8.0 feet apart, rounded to the nearest tenth (0.1) of a foot. On a map whose scale is one inch to 20 feet, 8.0 feet is represented by 0.4 of an inch, rounded to the nearest tenth (0.1) of an inch.

Identify where the contour lines are 0.4 of an inch or less apart. Connect these contour lines (as indicated by the heavy lines on the map) and calculate the area.

Buildable area

A "buildable area" is a portion of a #zoning lot# excluding #steep slopes#.

Caliper (of a tree)

"Caliper" of a tree is the diameter of a tree trunk measured 4 feet, 6 inches from the ground. If a tree splits into multiple trunks below 4 feet, 6 inches from the ground, the trunk is measured at its most narrow point beneath the split.

Critical root zone

The "critical root zone" of a tree is the area containing the roots of a tree that must be maintained and protected to ensure the tree's survival. The area of the #critical root zone# is measured as one radial foot for every #caliper# inch of the tree, with a required minimum of four radial feet and maximum of 22 radial feet, measured from the surface of the tree trunk at grade.

Hillside

A "hillside" is defined as ground where the ratio of change in elevation to horizontal distance results in a 10 percent or greater slope or #average percent of slope#.

Site alteration

For the purposes of this Chapter, a "site alteration" is an alteration on any vacant tract of land, #land with minor improvements# or any tract of land containing #buildings or other structures#. #Site alterations# shall include the following:

- (a) removal of #topsoil#;
- (b) excavating, filling, land contour work and other topographic modifications where the ground elevation of the land existing on June 30, 1987, is modified by two feet or more;
- (c) dumping, changes in existing drainage systems and changes in grade, alignment or width of public rights-of-way; or
- (d) removal of vegetation beyond 15 feet of the foundation of an existing #building#, except when the plant materials' continued presence would create hazards or dangers (such as an area affected by storm or plant disease) to persons, property or other plant material which it would not be possible or practical to eliminate by pruning or routine maintenance.

Staging area

A "staging area" is any area on a #zoning lot# or other tract of land used during the construction of a #development#, #enlargement# or #site alteration# for the purposes of stockpiling soil or construction materials; storing, cleaning or servicing construction equipment, vehicles or tools; or storing leachable construction products, gases or other materials used to clean or service vehicles, equipment or tools.

Steep slope

A "steep slope" is a portion of a #zoning lot# or other tract of land with an incline of 25 percent or greater. However, a portion of a #zoning lot# or other tract of land with an incline of 25 percent or greater shall not be considered a #steep slope# if it occupies an area of less than 200 square feet or has a dimension of less than 10 feet, measured along the horizontal plane, unless such portions in the aggregate equal 10 percent or more of the area of the #zoning lot#.

Steep slope buffer

A "steep slope buffer" is a 15-foot wide area having a slope of less than 25 percent that adjoins the entire length of the crest of a #steep slope#.

Tier I site

A "Tier I site" is a #zoning lot# or other tract of land having an #average percent of slope# of less than 10 percent.

Tier II site

A "Tier II site" is a #zoning lot# or other tract of land having an #average percent of slope# equal to or greater than 10 percent.

Topsoil

"Topsoil" is soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth and is generally the top six inches of soil.

Tree credit

A "tree credit" is a credit for preserving an existing tree of six-inch #caliper# or more which is counted toward a tree preservation requirement, or a credit for a newly planted tree of three-inch #caliper# or more which is counted toward a tree planting requirement.

Tree protection plan

A "tree protection plan" is a plan that modifies the #area of no disturbance# around a tree proposed for preservation while protecting and preserving the tree during construction. A #tree protection plan# is prepared by an arborist certified by the International Society of Arboriculturists (ISA) or equivalent professional organization that includes:

- (a) a survey of the current condition and health of such trees of six-inch #caliper# or more;
- (b) methods for tree protection and preservation based on best management practices, including the prevention of damage due to compaction, grade and drainage pattern changes and tunneling for utilities;
- (c) a schedule for site monitoring during construction;
- (d) a procedure to communicate protection measures to contractor and workers; and
- (e) post-construction treatment.

119-02 - General Provisions

LAST AMENDED
2/2/2011

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Hillside Preservation District#, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect.

Any #development#, #enlargement# or #site alteration# on the #buildable area# of a #zoning lot# where the #average percent of slope# is less than 10 percent shall be regulated by the provisions set forth in Section 119-10 (PROVISIONS REGULATING TIER I SITES). Any #development#, #enlargement# or #site alteration# on the #buildable area# of a #zoning lot# having an #average percent of slope# equal to or greater than 10 percent shall be governed by the provisions set forth in Section 119-20 (PROVISIONS REGULATING TIER II SITES).

No #development#, #enlargement# or #site alteration# is permitted within any #area of no disturbance# on a #zoning lot# or other tract of land. #Areas of no disturbance# shall remain in their natural state, except:

- (a) for #steep slopes# or #steep slope buffers#, an authorization may be granted by the City Planning Commission, pursuant to Section 119-30 (SPECIAL REVIEW PROVISIONS);
- (b) vegetation and #topsoil# may be removed from a #steep slope buffer# during construction on a #Tier I site#, provided that the #development#, #enlargement# or #site alteration# complies with the requirements of Sections 119-215 (Landscaping controls to preserve trees, shrubs and ground cover), 119-217 (Tier II controls during construction) and 119-22 (Tier II Submission Requirements); or
- (c) in accordance with a #tree protection plan#.

Those portions of a #zoning lot# having #areas of no disturbance#, however, may count as #lot area# for the purposes of the applicable regulations on #yards#, #floor area ratio#, #open space ratio# or maximum number of #dwelling units# or #rooming units#.

The following #uses#, including #enlargements# to such #uses#, shall not be permitted within the #Special Hillside Preservation District# unless an authorization is granted by the Commission pursuant to Section 119-30: #community facility uses#, #group parking facilities# of 30 cars or more, whether or not they are necessary to satisfy parking requirements.

When the #Special Hillside Preservation District# is designated on a #public park#, or portion thereof, #site alterations#, the construction of new park-related facilities such as, but not limited to, roadways, parking lots, comfort stations, storage facilities, swimming pools, eating establishments, tennis courts, amphitheaters and stadiums, and improvements to existing park-related facilities, shall not be subject to the provisions of Sections 119-10 or 119-20 but shall require an authorization from the Commission, pursuant to Section 119-31 (Authorizations).

119-03 - Applicability of Large-scale Residential Development Regulations

LAST AMENDED
6/30/1987

Any #development# on a #zoning lot# having an #average percent of slope# of 10 percent or greater, which is used predominantly for #residential use#, may be treated as a #large-scale residential development# and special authorizations or special permits for such #developments# may be granted in accordance with the provisions of Article VII, Chapter 8, as modified herein, regardless of whether such #development# will have the area, number of #buildings# or number of #dwelling units# specified in the definition of #large-scale residential developments# as set forth in Section 12-10 (DEFINITIONS). However, bonuses that may be granted for #large-scale residential developments# under the provisions of Sections 78-32 (Bonus for Good Site Plan), 78-33 (Bonus for Common Open Space) or 78-35 (Special Bonus Provisions) may not be granted for #developments# that have less than the minimum area, number of #buildings# or number of #dwelling units# required by the definition of a #large-scale residential development#.

Notwithstanding the provisions of Section 78-06 (Ownership), a #zoning lot# having an #average percent of slope# of 10 percent or greater that is the subject of an application under this Section may include adjacent properties in more than one ownership, provided that the application is filed jointly by the owners of all the properties included. Any subdivision of the tract before, during or after #development# shall be subject to the provisions of Section 78-51 (General Provisions).

119-04 - Future Subdivision

LAST AMENDED
2/2/2011

Within the #Special Hillside Preservation District#, no #zoning lot# existing on June 30, 1987, may be subdivided without certification by the City Planning Commission that the proposed subdivision complies with the regulations of the #Special Hillside Preservation District# and that all #hillside# are preserved to the greatest extent possible under future #development# options.

A plan for such subdivision shall be filed with the Commission and shall include a survey map indicating existing topography at two-foot contour intervals and all individual trees of six-inch #caliper# or more.

When a #zoning lot# existing on June 30, 1987, is intended to be subdivided and is more than five acres, a site plan of the entire subdivision shall be filed with the Commission. The site plan shall include the proposed vehicular circulation system within the area, #block# and #zoning lot# layouts and any other information required by the Commission.

In the event that any #zoning lot# proposed for subdivision contains a #development#, #enlargement# or #site alteration# that has been undertaken contrary to the provisions of this Chapter, the Commission shall not approve the subdivision until violations are removed from the #zoning lot#, in accordance with the Commission's requirements under Section 119-40 (COMPLIANCE).

119-05 - Applicability of Parking Location Regulations

LAST AMENDED
2/2/2011

The parking regulations applicable to #lower density growth management areas# are modified to allow required #accessory# parking spaces to be located in a #front yard#.

119-111 - Tier I tree preservation requirements

LAST AMENDED
12/7/1999

To the maximum extent possible, existing trees shall be retained. Trees of six-inch #caliper# or more may only be removed or destroyed as a result of a #development#, #enlargement# or #site alteration#, provided that:

- (a) such trees are located in areas to be occupied by #buildings#, #private roads#, driveways, areas for required #accessory# parking, or within a distance of 15 feet of the exterior walls of such #building#, provided that it is not possible to avoid such removal by adjustments in the arrangement of such #buildings#, driveways or required parking areas;
- (b) the continued presence of such tree would create special hazards or dangers to persons or property, which would not be possible or practical to eliminate by pruning;
- (c) the continued presence of such tree would interfere with the growth or health of another tree of six-inch #caliper# or more designated for preservation and belonging to a species listed in Appendix B (Selection List for On-site Trees); or

All #developments#, #enlargements# and #site alterations# on #Tier II sites# shall comply with the following tree planting requirements, whether or not existing vegetation is removed as a result of such #development#, #enlargement# or #site alteration#. However, the requirements set forth herein shall not apply to an #enlargement# of an existing #building#, provided that such #enlargement# does not increase the #lot coverage# of said #building#.

On-site trees, pre-existing or newly-planted, shall be provided on the #zoning lot# at the rate of one tree for each 1,000 square feet of #lot area#, or portion thereof, or shall equal a total of 51 percent of all #tree credits# for trees originally on site, whichever is greater.

119-30 - SPECIAL REVIEW PROVISIONS

LAST AMENDED
6/30/1987

119-31 - Authorizations

LAST AMENDED
2/2/2011

Upon application, the City Planning Commission may grant authorizations for modifications of specified regulations of this Chapter and for the underlying district regulations in accordance with the provisions of Sections 119-311 (Authorization of a development, enlargement or site alteration on a steep slope or steep slope buffer) through 119-319 (Authorization to allow site alterations, the construction of new park-related facilities and improvements to existing park-related facilities within public parks), inclusive.

In addition, all #developments#, #enlargements# and #site alterations# that require an authorization pursuant to Sections 119-311 through 119-318, inclusive, shall be subject to the provisions of Sections 119-33 (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits) and 119-34 (Special Submission Requirements for Certain Authorizations and Special Permits).

The Commission may prescribe appropriate conditions and safeguards, including covenants running with the land which shall permit public or private enforcement reflecting terms, conditions and limitations, of any authorizations hereunder, to minimize adverse effects on the #hillsides# and the character and quality of the community.

119-311 - Authorization of a development, enlargement or site alteration on a steep slope or steep slope buffer

LAST AMENDED
2/2/2011

The City Planning Commission may authorize #developments#, #enlargements# and #site alterations# on a #steep slope# or #steep slope buffer#.

In order to grant such authorizations, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modification, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification requested has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the requested modification will not disturb the drainage patterns and soil conditions of the area; and
- (e) the #development#, #enlargement# or #site alteration# takes advantage of the natural characteristics of the site.

Any #development#, #enlargement# or #site alteration# requiring an authorization pursuant to this Section shall be subject to all the requirements of Section 119-20 (PROVISIONS REGULATING TIER II SITES) for which an authorization or special permit has not been obtained.

119-312 - Authorization of certain uses within the Special Hillsides Preservation District

LAST AMENDED
2/2/2011

Any #group parking facility# with 30 cars or more and, in #Residence Districts#, any #community facility use# or #enlargement# thereof, shall be allowed only by authorization of the City Planning Commission. In order to grant such authorizations, the Commission, upon review of a site plan, shall find that:

- (a) the proposed #development#, #enlargement# or #site alteration# will not adversely affect the drainage pattern and soil conditions of the area;
- (b) the proposed #development#, #enlargement# or #site alteration# has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (c) such #development#, #enlargement# or #site alteration# is so located as not to impair the essential character of the surrounding area;
- (d) the design of such #development#, #enlargement# or #site alteration# takes full advantage of all special characteristics of the site;
- (e) vehicular access and egress for such #development#, #enlargement# or #site alteration# is located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas; and
- (f) where vehicular access and egress is located on an arterial, such location affords the best means for controlling the flow of traffic generated by such development to and from such arterial.

The Commission may permit modifications to parking lot landscaping and maneuverability requirements for applications for such authorizations of #group parking facilities# for over 30 cars or for #enlargements# to #group parking facilities#, if such modifications preserve vegetation and natural topography.

119-313 - Modification of landscaping, tree preservation and tree planting requirements

LAST AMENDED
12/7/1999

The City Planning Commission may authorize modifications to Sections 119-111 (Tier I tree preservation requirements), 119-112 (Tier I tree planting requirements), paragraph (b)(8) of Section 119-214 (Tier II requirements for driveways and private roads), 119-215 (Landscaping controls to preserve trees, shrubs and ground cover) and 119-216 (Tier II tree planting requirements).

In order to grant such authorizations, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modifications, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted; and
- (c) the ecology and soil conditions of the site are such that the substitution of other plant material would be as appropriate as the tree preservation or planting requirements being modified.

Where on-site restoration of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the #Special Hillside Preservation District#. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

119-314 - Modification of lot coverage controls

LAST AMENDED
2/2/2011

For any #development# or #enlargement# subject to Section 119-211 (Lot coverage, floor area and density regulations), the City Planning Commission may authorize variations in the #lot coverage# controls.

In order to grant such authorization, the Commission shall find that:

- (a) the #development# or #enlargement# is not feasible without such modification, or that the requested modification will permit a #development# or #enlargement# that satisfies the purpose of this Chapter;
- (b) by allowing the permitted #floor area# in a #building# or #buildings# of lower height to cover more land, the preservation of #hillside# having aesthetic value to the public would be assured, and that such preservation would not be possible by careful siting of a higher #building# containing the same permitted #floor area# on less land;
- (c) such modification is the least modification required to achieve the purpose for which it is granted;
- (d) the modification requested has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (e) the requested modification will not disturb the drainage pattern and soil conditions of the area; and
- (f) the proposed modification does not impair the essential character of the surrounding area.

119-315 - Modification of height and setback regulations

LAST AMENDED

For any #Tier II site#, the City Planning Commission may authorize variations in the height and setback regulations set forth in Section 119-212 (Height and setback regulations).

In order to grant such authorizations, the Commission shall find that:

- (a) the #development# or #enlargement# is not feasible without such modification, or that the requested modification will permit a #development# or #enlargement# that satisfies the purpose of this Chapter;
- (b) by concentrating permitted #floor area# in a #building# or #buildings# of greater height covering less land, the preservation of existing topography and vegetation and the preservation of #hillside# having aesthetic value to the public will be assured, and that such preservation would not be possible by careful siting of lower #buildings# containing the same permitted #floor area# and covering more land;

- (c) such modification is the least modification required to achieve the purpose for which it is granted;
- (d) the requested modification will not disturb the soil conditions of the area;
- (e) the proposed modification does not impair the essential character of the surrounding area; and
- (f) the proposed modification will not have adverse effects upon light, air and privacy of adjacent properties.

119-316 - Modification of grading controls

LAST AMENDED

For any #development#, #enlargement# or #site alteration# on a #Tier II site#, the City Planning Commission may authorize variations in the grading controls set forth in Section 119-213.

In order to grant such authorization, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modifications, or that the requested modifications will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the requested modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the requested modification will not disturb the drainage pattern and soil conditions of the area;
- (e) the proposed modification does not impair the essential character of the surrounding area; and
- (f) the benefits to the surrounding area from the proposed modification outweigh any disadvantages that may be incurred thereby in the area.

119-317 - Modification of requirements for private roads and driveways

LAST AMENDED
2/2/2011

For any #development#, #enlargement# or #site alteration#, the City Planning Commission may authorize variations in the requirements for #private roads# and driveways on any #Tier II site# as set forth in Section 119-214 (Tier II requirements for driveways and private roads) as well as the requirements of Sections 25-621 (Location of parking spaces in certain districts), 25-624 (Special parking regulations for certain community facility uses in lower density growth management areas) and 25-631 (Location and width of curb cuts in certain districts).

In order to grant such authorizations, the Commission shall find that:

- (a) the #development# or #enlargement# is not feasible without such modification, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the requested modification will not disturb the drainage pattern and soil conditions of the area;
- (d) the requested modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it; and
- (e) such modification will enhance the quality of the design of the development, #enlargement# or #site alteration#.

119-318 - Modifications of certain bulk regulations

LAST AMENDED
2/2/2011

For any #development# or #enlargement# subject to Section 119-20 (PROVISIONS REGULATING TIER II SITES), the City

Planning Commission may authorize variations in required #front#, #rear# or #side yards#, variations in required space between #buildings# on the same #zoning lot# and modifications in the underlying district height and setback regulations.

In order to grant such authorizations, the Commission shall find that:

- (a) #development# is not feasible without such modification, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that better satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted; and
- (c) the proposed #bulk# and placement of #buildings# and the proposed arrangement of #open spaces# will not have significant adverse effects upon the light, air and privacy for existing development in adjacent areas or the opportunities therefor in future development.

119-319 - Authorization to allow site alterations, the construction of new park-related facilities and improvements to existing park-related facilities within public parks

LAST AMENDED
12/7/1999

Upon application, the City Planning Commission may authorize #site alterations#, the construction of new park-related facilities such as, but not limited to, roadways, parking lots, comfort stations, storage facilities, swimming pools, eating establishments, tennis courts, amphitheaters and stadiums, and improvements to existing park-related facilities.

In order to grant such authorizations, the Commission shall find that the proposed action:

- (a) will have a minimal impact on the existing natural topography of the surrounding area and will blend harmoniously with it;
- (b) will have minimal impact on the drainage pattern and soil conditions in the area;
- (c) will preserve to the greatest extent possible the trees and vegetation within the park; and
- (d) is compatible with the neighborhood character of the area.

An application to the Commission for an authorization pursuant to this Section shall include the following:

- (1) a survey map prepared by a licensed surveyor showing existing topography at the two-foot contour intervals;
- (2) a site plan prepared by a registered architect, registered landscape architect or professional engineer indicating the location of all existing #buildings or other structures#, the location of all proposed #buildings or other structures#, the location of all understory including shrubs and ground cover, and the #caliper# and species of all individual trees of six-inch #caliper# or more; and
- (3) any other information necessary to evaluate the request.

In issuing authorizations under this Section, the Commission may impose conditions or safeguards, such as special landscape requirements, to minimize adverse effects on the character of the #Special Hillside Preservation District#.

119-32 - Special Permits

LAST AMENDED
12/7/1999

The City Planning Commission may grant special permits for modification of the underlying district regulations in accordance with the provisions of Section 119-321 (Modification of use regulations).

119-321 - Modification of use regulations

LAST AMENDED
2/2/2011

For any #Tier II site#, the City Planning Commission may grant special permits to allow #single-family semi-detached residences# in R1 and R2 Districts, #single-family attached residences# in R1, R2 and R3-1 Districts or #two-family attached

residences# in R3-1 Districts.

As a condition for granting such special permits, the minimum required #lot area# of the underlying district shall not be reduced, and the #aggregate width of street walls# of a #building#, or a number of #buildings# separated by party walls, shall not exceed 100 feet.

In order to grant such special permits, the Commission shall find that:

- (a) #development# is not feasible without such modifications, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that better satisfies the purposes of this Chapter;
- (b) the change of housing type requested constitutes the most effective method of preserving the existing topography and vegetation;
- (c) the preservation of existing topography and vegetation requires the permitted development to be concentrated, to the extent feasible, in the remaining portion of the tract;
- (d) for such concentration of development, better standards of privacy and usable #open space# can be and are achieved under the development plan by inclusion of the proposed #building# type;
- (e) such modification is the least modification required to achieve the purpose for which it is granted;
- (f) the proposed #street# or #private road# system for the development is so located as to draw a minimum of vehicular traffic to and through #streets# in the adjacent area;
- (g) the siting of the #building# or #buildings# will not adversely affect adjacent properties by impairing privacy or access of light and air; and
- (h) the existing topography and vegetation and the proposed planting effectively screen all #attached# one-family #residences# from the #lot lines# along the development perimeter.

The Commission may impose appropriate conditions or safeguards, such as special landscaping requirements, to minimize any adverse effects on the character of the surrounding area.

All #developments#, #enlargements# or #site alterations# that require a special permit pursuant to this Section shall also be subject to the provisions of Sections 119-33 (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits) and 119-34 (Special Submission Requirements for Certain Authorizations and Special Permits).

119-33 - Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits

LAST AMENDED
2/2/2011

Any #development#, #enlargement# or #site alteration# that requires an authorization or special permit and that is subject to the provisions of Section 119-20 (PROVISIONS REGULATING TIER II SITES), shall be subject to the provisions of this Section. The requirements of this Section shall supplement any other requirements that also must be met.

Prior to construction, at least one of the erosion and sedimentation control measures described in paragraphs (a) through (e) of the Section shall be selected. A plan describing how the selected erosion and sedimentation control measure will be implemented and justifying its selection on the basis of the particular conditions of the site shall be prepared by a professional engineer and submitted to the City Planning Commission.

- (a) Benches and berms

These are level terraces or ledges constructed across sloping land to provide a relatively flat construction site or to reduce the length and grade of the slope. Benches and berms reduce runoff and erosion hazards by slowing down the velocity of water and providing greater intake opportunity.

- (b) Diversion channels

These are earth channels with a supporting ridge on the lower side constructed across the slope lengths to break up concentration of runoff and move water to stable outlets at a non-erosive velocity.

- (c) Debris or sediment basins

These consist of a dam or embankment, a pipe outlet and an emergency spillway situated at the low corner of the site to provide a temporary means of trapping and storing sediment while releasing the water. They protect property below the installation from damage by excessive sedimentation and debris.

(d) Retention ponds

These are impoundment-type ponds that temporarily store runoff water and release it at rates that minimize erosion and prevent flooding. They may be located above the site to trap water before it enters the area or within the site to protect properties below the site.

(e) Grassed waterways or outlets

These are natural or excavated channels to dispose of excess runoff water from diversions, berms, benches and other areas at non-erosive velocities. Waterways or outlets are shaped or graded and established in suitable vegetation as needed, depending on the supplemental measure used to slow the velocity of runoff.

119-34 - Special Submission Requirements for Certain Authorizations and Special Permits

LAST AMENDED
2/2/2011

When a #development#, #enlargement# or #site alteration# is subject to the provisions of Section 119-20 (PROVISIONS REGULATING TIER II SITES), an application to the City Planning Commission for an authorization or special permit shall include the following submission requirements. These requirements shall be in addition to the requirements set forth in Section 119-22 (Tier II Submission Requirements).

- (a) A drainage plan and soil report prepared by a professional engineer to protect natural features. The drainage plan shall describe the temporary (during construction) and permanent measures to collect, direct and discharge stormwater drainage from the site, indicating the direction of drainage flow and providing detailed plans and locations of all surface and subsurface drainage devices, walls, dams, sediment basins, stormwater storage (detention and retention) facilities, and other drainage facilities and protective devices. Such report shall include an estimate of runoff from the site after completion of proposed #developments#, #enlargements# or #site alterations# and provide a description with supporting information of the manner in which the proposed #development#, #enlargement# or #site alteration# complies with the requirements of Local Law 103 of 1989.
- (b) An erosion and sedimentation plan as described in Section 119-33 (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits).
- (c) For any #development# or #site alteration# on a tract of land 40,000 square feet or greater, a landscape plan prepared by a registered landscape architect that shows the location and species of all new plantings of trees, shrubs and ground covers and the proposed method of preserving existing trees, shrubs and ground covers.
- (d) Any other information the Commission may deem necessary to evaluate the request.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

119-35 - Administration of Special Review Provisions

LAST AMENDED
2/2/2011

Where a permit other than a building permit is required for a #development#, #enlargement# or #site alteration# within the #Special Hillside Preservation District# from any City agency, an application for such permit shall be filed simultaneously with such agency and the City Planning Commission.

No permanent certificate of occupancy shall be granted unless an inspection report, verifying that the requirements of Sections 119-20 (PROVISIONS REGULATING TIER II SITES) and 119-30 (SPECIAL REVIEW PROVISIONS) have been met, is filed with the Department of Buildings by a registered landscape architect, licensed surveyor or professional engineer.

119-40 - COMPLIANCE

LAST AMENDED
6/30/1987

In the event that a #development#, #enlargement# or #site alteration# is undertaken, or has been undertaken, contrary to the provisions of this Chapter, any permit issued by the Department of Buildings for any #use#, #development#, #enlargement# or #site alteration# on the affected #zoning lot# shall be revoked.

No building permit or permanent certificate of occupancy shall be issued by the Department of Buildings for any #use#, #development#, #enlargement# or #site alteration# on such #zoning lot# until the violations are removed from the #zoning lot#, pursuant to a restoration plan certified by the City Planning Commission.

If such violations have not ceased within 90 days of receipt of the Commission's requirements, the Department of Buildings shall institute such action as may be necessary to prosecute the violations. For compliance with restoration requirements to remove violations, the Department of Buildings may allow an additional 90 days.

Where on-site restoration of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the #Special Hillside Preservation District#. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

Above such required setback, any portion of a #building# on the #zoning lot# shall be considered a "tower."

(2) Along #narrow streets#

For #buildings#, or portions thereof, located on #narrow streets# beyond 100 feet of a #wide street#, the portion of such #building# above the applicable maximum base height set forth in paragraph (b)(2) of this Section shall be set back from the #street wall# of the #building# at least 15 feet along a #narrow street#, except such dimensions may include the depth of any permitted recesses in the #street wall#. Above such required setback, any portion of a #building# on the #zoning lot# shall be considered a "tower."

(d) Tower Regulations

Each #story# of a tower above the required setback shall not exceed a maximum #lot coverage# of 40 percent of the #lot area# of a #zoning lot# or, for #zoning lots# of less than 20,000 square feet, the percent set forth in Section 43-451 (Towers on small lots).

- (ii) Commercial Extension Areas
- (iii) Commercial Infill Sites

(b) The location of these sub-areas is described below:

(1) Limited Commercial Areas

The following areas with a depth of 50 feet from the #street line# of the Grand Concourse are designated on the District Plan (Appendix A) as Limited Commercial Areas:

- (i) on the west side of the Grand Concourse from the south side of East 176th Street to a point 25 feet north of Henwood Place;

Along certain cross-streets within the Residential Preservation Area, extensions of existing #Commercial Districts# up to the Grand Concourse to a depth of 100 feet measured perpendicularly from the #street line# of such cross-streets, are designated as Commercial Extension Areas on the District Plan (Appendix A). These extension areas are located along the following #streets#:

In order to preserve the residential character of the Special District, the applicable #use# regulations of the underlying districts are modified, as follows:

- (a) Within the Limited Commercial Areas, #commercial uses# listed in Section 32-15 (Use Group 6) are permitted, provided they are located only on the ground floor of an existing or new #building# containing #residential# or #community facility uses#. All existing or new #commercial uses# shall be directly accessible only from the #street#. Any existing #commercial use# which fails to provide direct access from a #street# shall be terminated one year after September 28, 1989.
- (b) On a cross-street within the Commercial Extension Areas, #commercial uses# listed in Section 32-15 are permitted to occupy the ground floor of an existing or new #building# containing #residential# or #community facility uses#. Such ground floor #commercial uses# may be permitted to #extend# up to the Grand Concourse on the #basement# level of a #building#, provided that such #commercial uses# are accessible only from a cross-street which intersects the Grand Concourse. No direct or indirect access to such #commercial uses# is permitted from the Grand Concourse.
- (c) Any #commercial use# which lawfully existed on or before July 1, 1981, on any Commercial Infill Site listed in Table A, shall be considered conforming and may be changed to a Use Group 6 #use# or to a #use# which previously occupied the space lawfully on or before July 1, 1981, except that expansion or re-occupancy of #floor area# to a retail #use# in Use Group 6A or 6C is restricted to the ground floor of the #building#.

However, if a #building# on a Commercial Infill Site contains an entrance from the Grand Concourse as well as from the cross-street running underneath the Concourse, such entrance floors at both #street# levels may be occupied by retail #uses# listed in Use Group 6 if they were in existence prior to July 1, 1981, as a lawful #use#. In those cases, the #use# of the remaining #stories# of such #building# shall be limited to business, professional or governmental offices or to ambulatory diagnostic or treatment health care facilities as set forth in Use Group 4A or Use Group 6B, regardless of the locational restrictions in Use Group 4.

124-22 - Height and Setback Regulations

LAST AMENDED
2/2/2011

The height and setback regulations of this Section shall apply throughout the #Special Willets Point District#, except that #developments# or #enlargements# that result in less than 100,000 square feet of #floor area# on #zoning lots# of less than 200,000 square feet shall be limited to the height and setback regulations of an R6B District. The height of all #buildings or other structures# shall be measured from the level of the adjoining sidewalk or other publicly accessible open space. For the purposes of this Section, the present or former 34th Avenue and Willets Point Boulevard shall be considered to be #connector streets#, 127th Street shall be considered to be a #residential street#, and public access areas provided pursuant to paragraph (d) of Section 124-42 (Types and Standards of Publicly Accessible Open Space) shall be considered a #connector street#.

- (a) Street wall location and base heights
 - (1) Except along 126th Street, Northern Boulevard and #residential streets#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# or public access area and shall extend without setback to a minimum base height of 60 feet or the height of the #building#, whichever is less. The maximum height of a #building or other structure# before setback shall be 85 feet. However, for #buildings# directly opposite Citi Field Stadium, a setback lower than 60 feet shall be permitted, provided that:
 - (i) for #buildings# greater than 85 feet in height, an additional setback is provided between a height of 60 and 85 feet; and
 - (ii) eating and drinking establishments with outdoor seating on terraces overlooking 126th Street are provided on the second #story#. Such terraces shall be located on the roof level above the ground floor level of the #building#, at a height not lower than 20 feet or higher than 30 feet above the level of the sidewalk fronting the 126th Street #street wall# of the #building#, and shall have a minimum depth of 15 feet.
 - (3) Along #residential streets#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# or public access area and shall extend without setback to a minimum base height of 40 feet or the height of the #building#, whichever is less. The maximum height of a #building or other structure# before setback shall be 85 feet. Where #street walls# facing #residential streets# contain ground floor #dwelling units#, such #street walls# shall be set back at least four feet from the #street line#. The #building#

may project into the required setback area, provided that:

- (i) any such projection does not exceed 20 feet in width;
 - (ii) any such projection does not exceed 25 feet in height;
 - (iii) the aggregate width of all such projections at the level of any #story# shall not exceed 50 percent of the width of the #street wall# of the #building#; and
 - (iv) all such projections are at least 10 feet apart.
- (4) Along Northern Boulevard, no portion of a #street wall# shall be located closer to Northern Boulevard than eight feet. At least 70 percent of the #aggregate width of street walls# shall be located between eight and 15 feet of the Northern Boulevard #street line# and shall extend without setback to a minimum base height of 60 feet or the height of the #building#, whichever is less. The maximum height of a #building or other structure# before setback shall be 85 feet.
- (5) Wherever an open area is provided between the #street wall# of a #building# and the #street line#, such area shall be planted, except at entrances to and exits from the #building#, and except where non-#residential uses# are provided at the ground floor level of the #building#.

(b) Required setbacks and maximum #building# height

Except as provided in paragraph (c)(6) of this Section, setbacks are required for all portions of #buildings or other structures# that exceed a height of 85 feet. Such setbacks shall be provided at a height not lower than 60 feet. The depth of the required setback shall be at least 10 feet measured from any required #street wall# fronting on a #wide street#, and at least 15 feet from any required #street wall# fronting on a #narrow street#. Where portions of #buildings or other structures# that exceed a height of 85 feet are not located above a required #street wall#, such portions shall be set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#. However, dormers may penetrate a height of 85 feet in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). Within the area limited to 232 feet above mean sea level, as shown on Map 3 in the Appendix to this Chapter, no portion of a #building or other structure# shall exceed a height of 120 feet except in accordance with the tower provisions of paragraph (c) of this Section.

(c) Towers

Within the area limited to 232 feet above mean sea level, as shown on Map 3, any #story# of a #building# located above a height of 120 feet shall comply with the provisions of this paragraph (c). Such portions of a #building# are hereinafter referred to as "towers."

(1) Maximum tower size

Each #residential story# of a tower located entirely above a height of 120 feet shall not exceed a gross area of 11,000 square feet.

(2) Maximum tower length

The maximum length of any #residential story# located entirely above a height of 120 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each #story# entirely above a height of 120 feet. No side of such rectangle shall exceed a length of 170 feet.

(3) Orientation

The length of any #residential story# located entirely above a height of 120 feet shall be at least 1.5 times its width and oriented so that the long side of such tower faces within 25 degrees of geographical south. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each #story# entirely above a height of 120 feet. The orientation provisions of this paragraph,(c)(3) need not apply if at least 75 percent of all towers in the #Special Willets Point District# for which building permits have been issued comply with such provisions.

(4) Tower top articulation

For towers containing #residences#, the highest three #stories#, or as many #stories# as are located entirely above a height of 120 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of

the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph (c)(4), each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

(5) Distance between towers

The minimum distance between all towers shall be 60 feet.

(6) Tower walls without setbacks

To permit a #building# to rise from grade to a tower portion without setback, the setback provisions of paragraph (b) of this Section shall not apply to any portion of a #building# located within the tower wall location areas shown on Map 4 in the Appendix to this Chapter, provided that this exception from paragraph (b) of this Section shall not apply to more than one tower for each #block#.

(d) Maximum total height

Notwithstanding any other provisions of this Chapter, no #building or other structure# shall exceed the height limits depicted on Map 3. The height limits established in Map 3 include reference points for two airport approach surface areas that are continuous planes, and one area with a maximum height limitation of 232 feet above mean sea level (AMSL). The coordinates of the points are:

Point 1	73°50'42.9"W	40°45'38.1"N
Point 2	73°50'36.8"W	40°45'45.6"N
Point 3	73°50'26.6"W	40°45'39.3"N
Point 4	73°50'33.6"W	40°45'30.7"N

The height limits hereby established supersede the height limits described in Article VI, Chapter 1 (SPECIAL REGULATIONS APPLYING AROUND MAJOR AIRPORTS). Application may be made to the Board of Standards and Appeals pursuant to Section 73-66 (Height Regulations Around Airports) for a permit to construct a #building or other structure# in excess of what is permitted pursuant to this paragraph (d), provided that such application is also referred to the Port Authority of New York and New Jersey.

Any portion of a #building developed# or #enlarged# on such #zoning lots# that exceeds the applicable maximum base height shall be constructed as either a point tower or a broad tower, as follows:

(a) Point tower

(1) Tower #lot coverage# and maximum length

Each #story# located entirely above a height of 75 feet shall not exceed a gross area of 6,800 square feet. The outermost walls of each #story# shall be inscribed within a rectangle, and the maximum length of any side of such rectangle shall be 85 feet.

(2) Tower top articulation

The highest three #stories#, or as many #stories# as are located entirely above a height of 75 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot

coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph (a)(2), each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

(b) Broad tower

Each #story# located entirely above a height of 75 feet shall not exceed a gross area of 8,800 square feet. The outermost walls of each such #story# shall be inscribed within a rectangle, and the maximum length of any side of such rectangle shall be 135 feet. The upper #stories# shall provide setbacks with a minimum depth of 15 feet measured from the east facing wall of the #story# immediately below. Such setbacks shall be provided at the level of three different #stories#, or as many #stories# as are located entirely above a height of 75 feet, whichever is less. For towers with at least six #stories# located entirely above a height of 75 feet, the lowest level at which such setbacks may be provided is 100 feet, and the highest #story# shall be located entirely within the western half of the tower.

(c) Orientation of all towers

The maximum length of the outermost walls of any side of each #story# of a #building# facing the #shoreline# that is entirely above a height of 75 feet shall not exceed 80 feet. For the purposes of this Section, the #street line# of St. Marks Place shall be considered to be a line parallel to the #shoreline#, and any side of such rectangle facing St. Marks Place from which lines perpendicular to the #street line# of St. Marks Place may be drawn, regardless of intervening structures, properties or #streets#, shall not exceed 80 feet.

(d) Location of all towers

Any portion of a #building# that exceeds a height of 70 feet shall be no closer to a #side lot line# than eight feet, and any #story# of a #building# that is entirely above a height of 70 feet shall be located within 25 feet of a #street line# or sidewalk widening line, where applicable.

(e) Maximum tower height

The maximum height of any #building# utilizing the tower provisions of this Section shall be 200 feet. The height of the tower portion of the #building# shall be measured from the #base plane#.

(f) Tower and base integration

All portions of a #building# that exceed the applicable maximum base height set forth in Section 128-33 shall be set back at least 10 feet from the #street wall# of a #building# facing a #wide street# and at least 15 feet from the #street wall# of a #building# facing a #narrow street#. However, up to 50 percent of the #street wall# of the portion of the #building# located above a height of 75 feet need not be set back from the #street wall# of the #building#, and may rise without setback from grade, provided such portion of the #building# is set back at least 10 feet from a #wide street line# or sidewalk widening line, where applicable, and at least 15 feet from a #narrow street line# or sidewalk widening line, where applicable.

(g) Tower exclusion areas

No #building or other structure# may exceed a height of 75 feet within the areas designated on Map 4 (Tower Restriction Areas) in the Appendix to this Chapter.

- (1) establish appropriate requirements for the height and setback of #buildings or other structures#, permitted obstructions in #yards#, off-street parking and loading; and
- (2) permit #floor area# to be distributed within the North Waterfront Subdistrict without regard for #zoning lot lines#, provided that if distribution is made to a #zoning lot#, subject to a special permit granted under this Section, from a #zoning lot# not subject to such special permit, Notices of Restriction in a form acceptable to the Department of City Planning shall be filed against such #zoning lots# setting forth the increase and decrease in the #floor area# on such #zoning lots#, respectively.

(f) The Commission shall find that the Proposed Plans:

- (1) include #uses# that are appropriate, considering the unique location of the site in relation to the Staten Island Ferry Terminal, the Staten Island Rail Road, and the land #uses# in and around the #Special St. George District# ;
- (2) provide a distribution of #floor area#, locations and heights of #buildings or other structures#, primary business entrances and open areas, that will result in a superior site plan, providing a well-designed relationship between #buildings and other structures# and open areas on the #zoning lot#; and shall also provide a well-designed relationship between the site and adjacent #streets#, surrounding #buildings#, adjacent off-site open areas and #shorelines# and will thus benefit the users of the site, the neighborhood and the City as a whole;
- (3) provide a distribution of #floor area# and locations and heights of #buildings or other structures# that will not unduly increase the #bulk# of #buildings or other structures# in the North Waterfront Subdistrict or unduly obstruct access of light and air to the detriment of the users of the site or nearby #blocks# or of people using the public #streets#, and that will provide waterfront vistas from nearby #streets# and properties on nearby #blocks# ;
- (4) provide useful and attractive publicly accessible open space, with sufficient public amenities, including but not limited to seating, landscaping and lighting, that results in a superior relationship with surrounding neighborhood destinations, #streets#, #buildings#, open areas, public facilities and the waterfront;
- (5) improve public access to the waterfront;
- (6) improve, as applicable, the publicly accessible waterfront open space sufficiently to ensure that emergency vehicles will have adequate access to the waterfront and adjacent #developments# ;
- (7) in connection with the improvement of the applicable portions of the publicly accessible waterfront open space, restore planted areas, trees and lighting in a way that is attractive and compatible with the design of the Waterfront Esplanade existing on October 30, 2013;
- (8) provide adequate parking and loading to meet the demand for all users during peak utilization;
- (9) provide adequate parking for commuters at locations convenient and accessible to the Staten Island Ferry Terminal at all times and during all phases of construction;
- (10) provide signage and lighting that are compatible with the scenic and historic character of the harbor and that will not adversely affect the character of the surrounding neighborhood;
- (11) for a #public parking garage# with more than 150 parking spaces, will ensure that:
 - (i) entrances are proposed in locations and with design features that minimize traffic congestion and conflicts with pedestrians;
 - (ii) adequate reservoir space has been provided at the vehicular entrances; and
 - (iii) the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby; and
- (12) for a #development# located partially or entirely within a railroad or transit right-of-way or yard and/or in #railroad or transit air space#, that:

- (i) the distribution of #floor area# does not adversely affect the character of the surrounding area by being unduly concentrated in any portion of such #development#, including any portion of the #development# located beyond the boundaries of such railroad or transit right-of-way or yard; and
- (ii) if such railroad or transit right-of-way or yard is deemed appropriate for future transportation #use#, the site plan and structural design of the #development# do not preclude future use of, or improvements to, the right-of-way for such transportation #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. In addition, for a #development# located partially or entirely within a railroad or transit right-of-way or yard, or in #railroad or transit air space#, the Commission may require that the structural design of such #development# makes due allowance for changes within the layout of tracks or other structures within any #railroad or transit air space# or railroad or transit right-of-way or yard which may be deemed necessary in connection with future development or improvement of the transportation system.

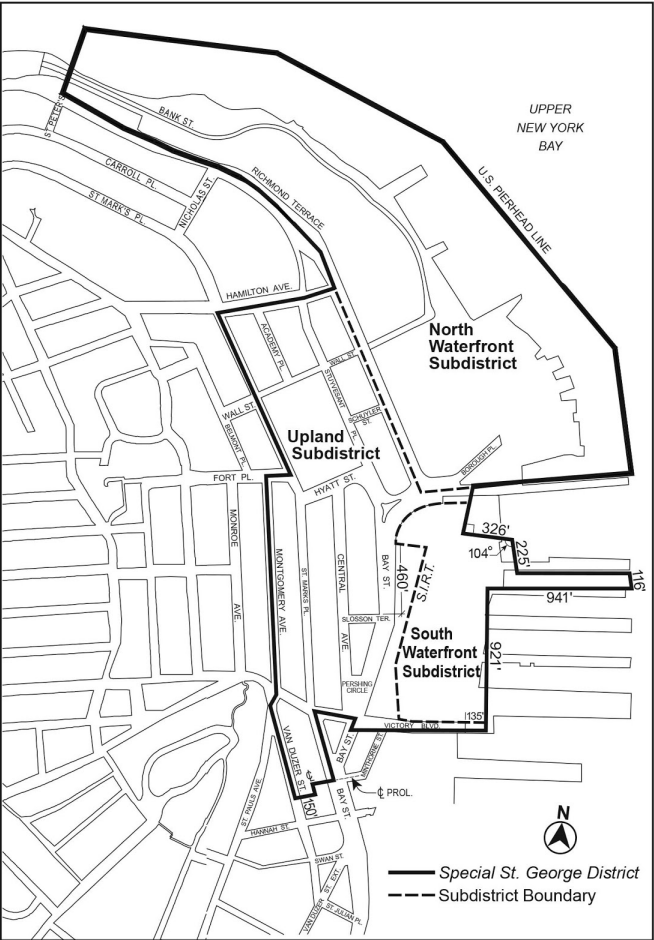

Prior to granting a special permit, the Commission shall request the Metropolitan Transportation Authority to indicate whether said agency has any plan to use that portion of any #railroad or transit air space# or railroad or transit right-of-way or yard where the railroad or transit #use# has been discontinued.

The execution and recordation of a restrictive declaration acceptable to the Commission, binding the owners, successors and assigns to maintain such #developments#, #enlargements#, alterations, changes of #use#, and any temporary parking facilities, in accordance with the approved Proposed Plans, and in a manner consistent with any additional conditions and safeguards prescribed by the Commission, shall be a condition to exercise of the special permit. Such restrictive declaration shall be recorded in the Office of the County Clerk. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a #development#, #enlargement# or change of #use#.

For any application for such special permit, the applicant shall provide plans to the Commission including, but not limited to, a site plan, signage plan, parking and loading plan, lighting plan and an operations plan (the "Proposed Plans").

- (a) The Commission may permit open-air auditoriums with a maximum of 5,100 seats, provided the Proposed Plans demonstrate that:
 - (1) at all times when Riegelmann Boardwalk is open to the public, all publicly accessible space, as shown on the Proposed Plans, will remain accessible to the public, except that access may be restricted as necessary during scheduled events, for the setup and takedown for such events, and in connection with maintenance activities. Any barriers erected for the purpose of restricting access or visibility during such events shall be completely removed at all other times;
 - (2) the height of all structures, temporary or fixed, does not exceed 70 feet in height, as measured from the level of Riegelmann Boardwalk;
 - (3) any roof or structural canopy above the open-air auditorium seating area will be removed prior to the month of November and shall remain removed during the entire off-season period between November through April, as well as in advance of severe weather events;
 - (4) the signage plan and parking and loading plan comply with the provisions of paragraphs (c) and (d) of this Section, respectively; and
 - (5) the City and applicant will enter into an agreement under which Parcel G will be returned to the City as of the expiration of the term of the special permit in a condition set forth in such agreement appropriate for #use# as a #public park#.
- (b) In granting such permit, the Commission shall find that:
 - (1) such open-air auditorium will not unduly impair the essential character or the future #use# or #development# of the surrounding area, pursuant to the goals and objectives of the #Special Coney Island District# plan;
 - (2) the outdoor lighting for such open-air auditorium is located and arranged so as to minimize any negative effects on nearby #residences# and

#community facilities#, and that the Proposed Plans include noise attenuation features and measures which serve to reduce the effect of noise from the open-air auditorium on the surrounding area, including nearby #residences# and #community facilities# ;

- (3) the construction of a stage as part of any #building# on Parcel B, for the purpose of accommodating an open-air auditorium #use#, will:
 - (i) enable the stage area to be closed to the outdoor portion of the open-air auditorium during the off-season when the open-air auditorium is not in use, so as to be operated for indoor entertainment #uses# with an eating and drinking establishment or other #use# permitted on Parcel B; and
 - (ii) allow for such #building# to be operated, subsequent to the expiration of the special permit, for #uses# permitted on Parcel B, such as eating or drinking establishments with entertainment;
 - (4) appropriate visual and pedestrian connections are maintained in the general area of the former street bed from the termination of West 22st Street to Riegelmann Boardwalk;
 - (5) the portions of the site not dedicated to the stage area or event seating are so designed to serve as a full time park-like resource for the public, and the portions of the site designed for open-air auditorium #use# serve as a high-quality open space resource when not in auditorium use;
 - (6) any roof or structural canopy above the open-air auditorium seating area will be visually unobtrusive, and maximize openness and visibility between the site and Riegelmann Boardwalk;
 - (7) the operations plan, which shall include a protocol for queuing for concertgoers, demonstrates that there would be no interference with the public use and enjoyment of adjacent public facilities; and
 - (8) the site plan, signage plan and lighting plan incorporate good design, effectively integrate the site with surrounding streets and Riegelmann Boardwalk, and are consistent with the purposes of the #Special Coney Island District#.
- (c) The Commission may, through approval of the Proposed Plans, permit #signs# notwithstanding the applicable #sign# regulations, except that #flashing signs# shall not be permitted and only #advertising signs# that are oriented toward the interior of the open-air auditorium and not visible from Riegelmann Boardwalk or other public area shall be permitted.
- In order to permit such #signs#, the Commission shall find that proposed signage is appropriate in connection with the permitted open-air auditorium #use#, is not unduly concentrated within one portion of the site, and will not negatively affect the surrounding area.
- (d) The Commission may, through approval of the Proposed Plans, reduce or waive required parking or loading requirements, provided the Commission finds that the open-air auditorium will be adequately served by a combination of surrounding public parking facilities and mass transit. In addition, the Commission shall find that the proposed loading facilities on the site are located so as not to adversely affect the movement of pedestrians or vehicles on the #streets# surrounding the auditorium.

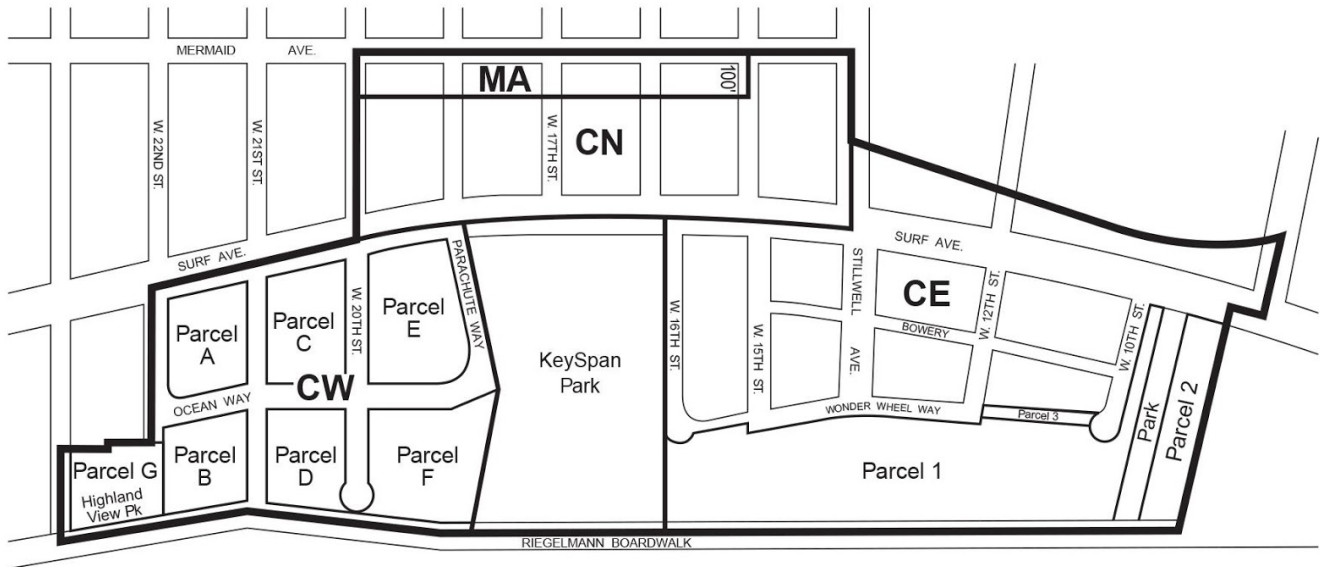

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. Such conditions and safeguards may include, but are not limited to, restrictions on signage or requirements for soundproofing of auditoriums, shielding of floodlights or screening of open #uses#.

Upon the first issuance of this permit for an open-air auditorium, the effective period of the permit shall be 10 years from the date a certificate of occupancy, including a temporary certificate of occupancy, has been issued. To establish the term of years for subsequent applications for this special permit, the Commission shall, in determining whether the finding of paragraph (b)(1) of this Section is met, take into account the existing character of the surrounding area, as well as #residential# and #community facility development# proposed or under construction on surrounding #blocks#, and shall also consider whether continuation of such auditorium #use# within a proposed term of years would be compatible with or may hinder achievement of the goals and objectives of the #Special Coney Island District# plan. Subsequent applications for this special permit shall be filed no later than one year prior to expiration of the term of the permit then in effect.

- (b) the applicant has submitted an affidavit attesting to and including information that:
 - (1) at the time of application for #extension#, the #use# has existed within such #building# for a period of one year; and
 - (2) such existing establishment cannot #extend# without increasing the #street wall# width for such establishment because of:
 - (i) physical restrictions created by the #building# design, including, but not limited to, the location of existing structural walls and vertical circulation cores;
 - (ii) the presence of other #uses# with ongoing or expected occupancy within such #building#; or
 - (iii) regulatory limitations; and
- (c) the applicant has demonstrated that at the time of application not more than one non-#residential# establishment, either existing, or with an approved certification or authorization pursuant to Section 132-50 that has not lapsed, has a #street wall# width exceeding 40 feet on either the same #block# frontage containing the applicant's establishment, or on the #block# frontage directly across the #street# from the #block# containing such establishment, or on the #blocks# fronting on the #commercial street# immediately adjacent to the north and south of the #block# containing such applicant's establishment.

In #Special Enhanced Commercial Districts# 2 and 3, the City Planning Commission may authorize a modification of the maximum #street wall# width of non-#residential# establishments, as set forth in paragraphs (a) and (b) of Section 132-24, provided the Commission finds that:

- (a) such additional frontage space is required for the operation of such proposed #use#, and such #use# cannot be reasonably configured within the permitted #street wall# width; or
- (b) a high ground floor vacancy rate exists within a reasonable distance of the proposed #use#, and such high vacancy rate is a consequence of adverse market conditions.

The land use application for an authorization pursuant to this Section shall be sent to the applicable Community Board. If the Community Board elects to comment on such application, it must be done within 30 days of receipt of such application. The Chairperson will not act on such application until the Community Board's comments have been received, or the 30 day comment period has expired, whichever is earlier.

- (d) provide sound planning in areas that have historically been occupied by wetlands and, where plans exist, for such areas to be maintained as open space; and

The table in this Section sets forth, by zoning district, the maximum base height, the maximum transition height, the maximum height of a #building or other structure# and the maximum number of #stories# for #buildings#.

However, for #street walls# facing the elevated rail structure along Jerome or River Avenues beyond 75 feet of the corner, the maximum base height shall be 30 feet.

A setback is required for all portions of #buildings or other structures# that exceed the maximum base height specified for the district, and shall be provided at a height not lower than the minimum base height, where applicable, or higher

The maximum #street wall# width of any #story# above the maximum transition height shall not exceed 165 feet and, where two or more non-contiguous portions of a #building# exist at the same level above the maximum transition height, such portions shall provide a minimum distance of 60 feet between facing walls at any point.

142-07 - Development over a Street in Subarea A1

LAST AMENDED8/8/2018

In Subarea A1, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, when a volume above a #street#, or portion thereof, has been eliminated, discontinued or closed, such volume may, at the option of an owner of a #zoning lot# adjoining such volume, be considered part of the adjoining #zoning lot#, and a #development# or #enlargement# may be located within such volume that is part of or connected to a #building# on the adjoining #zoning lot# utilizing #floor area# generated by the adjoining #zoning lot#, provided that the #street# below the volume is provided with lighting in accordance with Department of Transportation standards. In no event shall such volume contribute to the amount of #lot area# of any #zoning lot# for the purposes of generating #floor area#.

142-08 - Shoreline boundary

LAST AMENDED8/8/2018

For the purposes of this Chapter, the #shoreline# shall be as shown on a survey available on the Department of City Planning website.

142-09 - Off-street Relocation of Subway Station Entrances

LAST AMENDED8/8/2018

For all #developments# or #enlargements# involving ground floor level construction on a #zoning lot# that is wholly or partially located within a Transit Easement Zone, as shown on Map 3 (Special Inwood District – Transit Easement Zones) in the Appendix to this Chapter, a transit easement volume may be required on such #zoning lot# for public access between the #street# and the adjacent above- or below-grade subway station.

(a) Transit Easement

Prior to filing any application with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit for a #development# or #enlargement#, the owner of the #zoning lot# shall file an application with the Metropolitan Transportation Authority (MTA) and the Chairperson of the City Planning Commission requesting a certification as to whether or not a transit easement volume is required on the #zoning lot#.

Within 60 days of receipt of such application, the MTA and the Chairperson shall jointly certify whether or not a transit easement volume is required on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the MTA and the Chairperson indicate that a transit easement volume is required, the MTA shall, in consultation with the owner of the #zoning lot# and the Chairperson, determine the appropriate type of transit easement and reasonable dimensions for such transit easement volume.

The owner shall submit a site plan showing a proposed location of such transit easement volume that would provide access between the #street# and the adjacent subway station and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the MTA and the Chairperson. The MTA and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the transit easement volume is being finalized. Upon joint approval of a site plan by the MTA and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Department of Buildings.

Legally enforceable instruments, running with the land, creating a transit easement volume, and setting forth the obligations of either the MTA or the owner and developer, their successors and assigns, to design and construct the improvement, shall be executed and recorded in a form acceptable to the MTA and the Chairperson. The execution and recording of such instruments shall be a precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such #development# or #enlargement#.

(b) Construction and Maintenance

Where a transit easement volume is required pursuant to this Section, transit access improvements within such volume shall be constructed and maintained either by the MTA or the owner of the #zoning lot# with the #development# or #enlargement#.

- (1) Where such mass transit improvement is constructed and maintained by the owner of the #development# or #enlargement#:
 - (i) a transit access improvement shall be provided in accordance with standards set forth by the MTA;
 - (ii) such improvement shall be accessible to the public at all times, except as otherwise approved by the MTA;
 - (iii) such improvement shall include #signs# to announce accessibility to the public. Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section 32-642 (Non-illuminated signs); and
 - (iv) no temporary certificate of occupancy shall be granted by the Department of Buildings for the #building# until the Chairperson of the City Planning Commission, acting in consultation with the MTA, has certified that the improvement is substantially complete and usable by the public.
- (2) Where such mass transit improvement is constructed and maintained by the MTA:
 - (i) Where the construction of the improvement is not contemporaneous with the construction of the #development# or #enlargement#, any underground walls constructed along the #front lot line# adjacent to a below-grade subway station shall include a knockout panel, not less than 12 feet wide, below #curb level# down to the bottom of the easement. The actual location and size of such knockout panel shall be determined through consultation with the MTA.
 - (ii) Temporary construction access shall be granted to the MTA on portions of the #zoning lot# outside of the transit easement volume, as necessary, to enable construction within and connection to the transit easement volume.
 - (iii) In the event that the MTA has approved of obstructions associated with the #development# or #enlargement# within the transit easement volume, such as building columns or footings, such construction and maintenance shall exclude any such obstructions within the transit easement volume.

(c) Additional modifications

Where a transit easement volume is required pursuant to paragraph (a) of this Section, the Chairperson of the City Planning Commission shall certify the following modifications in conjunction with such transit easement volume certification:

- (1) the edge of the transit easement volume facing the #street# shall be considered a #street wall# for the purposes of applying the #street wall# location provisions set forth in Section 142-40 (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive, irrespective of whether such volume is incorporated into a #building#;
- (2) for #zoning lots# adjacent to a below-grade subway station, the maximum height for the #building# set forth in Section 142-40, inclusive, shall be increased by 10 feet, and the maximum number of #stories#, if applicable, shall be increased by one, except where the provisions of Section 142-48 (Special Regulations for Certain Sites in Subdistricts C and F) are being utilized;
- (3) the floor space contained within any transit easement volume required pursuant to this Section shall be excluded from the definition of #floor area#; and
- (4) the street frontage of such transit easement volume shall be excluded for the purpose of applying the provisions of Section 142-14 (Ground Floor Level Requirements).

(d) Temporary Use

Any easement volume required on a #zoning lot# pursuant to paragraph (a) of this Section may be temporarily used for any permitted #commercial# or #community facility uses# until such time as required by the MTA for transit access improvements. The floor space allocated to such temporary #uses# within the transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating #accessory# off-street parking, bicycle parking, or loading berths.

Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #building# or portion of the #zoning lot# within which the easement volume is located prior to the time at which public #use# of the easement area is required, except as otherwise specified by the MTA. A minimum

notice of six months shall be given, in writing, by the MTA to the owner of the #building# or portion of the #zoning lot# to vacate the easement volume.

(e) Termination of an easement volume

In the event that the MTA and the City Planning Commission jointly notify the Department of Buildings and the owner in writing that a transit easement volume is not required on a #zoning lot# in its final construction plans, the restrictions imposed on such #zoning lot# by the provisions of this Section shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the MTA to the extinguishment of the easement volume.

On any #zoning lot# which has been #developed# or #enlarged# in accordance with the provisions of this Section and on which termination of transit easement has been certified, pursuant to this paragraph, any floor space in a previously required transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating requirements for #accessory# off-street parking, bicycle parking or loading berths. However, where such previously required volume is located within a #building#, the ground floor space shall be subject to the provisions of Section 142-14.

Such certification shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area ratio# for such #development#.

A separate application shall be filed for each transfer of #floor area# to any #zoning lot# pursuant to this Section.

Within 45 days of receipt of a complete application, the Chairperson shall either certify that the proposed #development# complies with the requirements of this Section or disapprove such application, citing the nature of any failure to comply. Failure to certify or disapprove such application within the 45 day period will release the Department of Buildings or the Department of Small Business Services from any obligation to withhold the excavation or building permit and authorize such agency to determine compliance with the provisions of this Section.

APPENDIX C, Table 2 — City Environmental Quality Review (CEQR) Environmental Requirements: Environmental Restrictive Declarations

CITY ENVIRONMENTAL QUALITY REVIEW (CEQR) Environmental Requirements

Table 2 - Environmental Restrictive Declarations

The Environmental Restrictive Declarations (ERD) listed below were recorded in connection with a zoning action against the noted Tax Blocks and Tax Lots, or portion thereof, and are available in the property records on file at the Office of the City Register for Bronx, Kings, New York and Queens counties or at the Richmond County Clerk's office. They contain environmental requirements with respect to hazardous materials, air quality and/or noise in accordance with Section [11-15](#) of this Resolution.

Tax Lot changes that may have occurred since the recordation of an ERD may not be reflected in this table. If the property in question is located on the same **Tax Block** as an ERD, review of the related CEQR documentation is recommended. For an ERD recorded against a condominium, the condominium billing tax lot number is displayed instead of the individual condominium unit tax lot numbers.

Reference No. – refers to the Environmental Restrictive Declaration identification number used for Table 2 reference purposes only.

Application No. – refers to a ULURP or non-ULURP application (containing six numbers followed by a three- or four-letter suffix) for a zoning map or text amendment, special permit, authorization or certification or to a Board of Standards and Appeals application (containing the letters "BZ") for a special permit or variance.

Recording Reference No. – refers to one of the following: Reel No./Page No., City Register File No., or Land Doc No. For ERDs for properties in boroughs other than Staten Island, use the City Register File No. to locate the ERD online in the Automated City Register Information System (ACRIS) on the NYC Department of Finance's website.
