APPENDIX C, Table 1 — City Environmental Quality Review (CEQR) Environmental Requirements: (E) Designations

CITY ENVIRONMENTAL QUALITY REVIEW (CEQR) ENVIRONMENTAL REQUIREMENTS

Table 1 – (E) Designations

#Tax lot# changes that may have occurred since the establishment of a particular (E) Designation may not be reflected in this table. If the property in question is located on the same #tax block# as an (E) designation, review of the related CEQR documentation is recommended. For convenience, for (E) designations applied to a condominium, the condominium billing tax lot number is displayed instead of the individual condominium unit tax lot numbers.

#Application No.# – refers to a ULURP or non-ULURP application (containing six numbers followed by a three- or four-letter suffix) for a zoning text map or text amendment, special permit, authorization, or certification or to a Board of Standards and Appeals application (containing the letters “BZ”) for a special permit or variance.

#Lot Remediation Date# – refers to the date of the duly issued notice from the NYC Office of Environmental Remediation indicating that no investigative/remedial work is required for any current or future development of the lot.

* Underground gasoline storage tanks included in category of hazardous materials contamination as of 6/16/94.

** Indicates that a tax lot with multiple development sites is partially remediated.
