Where such an open area is provided, the #street# frontage of such open area may be excluded for the purpose of applying the #street wall# location provisions of paragraph (a)(2) of Section [35-631](#).

In addition, where an open area with a depth of at least 15 feet, as measured perpendicular from the shared #side lot line#, and is provided in the form of a recess, #court# or other open area is provided along shared #side lot line#, and such open area is provided adjacent to all portions of a #building# on an adjoining #zoning lot# that contain #legally required windows# facing and located within 15 feet of the shared #side lot line#, the applicable maximum #building# height set forth in Section [35-63](#), inclusive, may be increased by 10 feet; and the maximum number of #stories#, if applicable, may be increased by one.

#Zoning lots# may apply the regulations of this Section along multiple #side lot lines# where applicable, but in no case shall the permitted #building# height be increased by more than one #story# or 10 feet, whichever is lower.

(d) #Supplemental public access areas#

- (1) on Parcel 1, #supplemental public access area# shall be bounded by Ninth Avenue to the west, the shared boundary of Parcels 1 and 2/3 to the south, and the stabilized shore to the east. (a) #Shore public walkways#

- (1) #Waterfront zoning lots# that have a #shoreline# measuring more than 100 feet shall provide a #shore public walkway# as required by Section [62-53](#) (Requirements for Shore Public Walkways).
- (2) #Zoning lots# within or partially within 40 feet of the #shoreline# that do not #abut# the #shoreline#, or that contain a #shoreline# measuring 100 feet or less shall provide either:
 - (i) a #shore public walkway#, located partly on the #zoning lot# and partly on an adjoining #waterfront zoning lot#; or

Such #shore public walkway# shall have a minimum width of 14 feet, and its pedestrian circulation path shall connect to and provide access from adjoining public #streets#, parks or public places. Such #shore public walkway# shall extend beyond 40 feet of the #shoreline# as necessary to satisfy the minimum dimensional requirements, but the total area of the #shore public walkway# need not exceed an area equivalent to that portion of the #zoning lot# within 40 feet of the #shoreline#. The provisions of Section [62-62](#) (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall be modified to allow the circulation path to have a minimum width of 10 feet and to be located entirely beyond 10 feet from the #shoreline#. In addition, for Parcels 6, 7 or 8, the planting requirements set forth in paragraph (c)(1) of Section [62-62](#) need not apply.

Where the #zoning lot# does not include all of the adjacent #shoreline#, the design of the #shore public walkway# shall be compatible with the future improvement of public access areas on the land between the #zoning lot# and the #shoreline#.

- (3) The primary circulation path required pursuant to Section [62-62](#) shall be provided at a minimum elevation of 7.5 feet above the #shoreline#, except that such requirement need not include portions of a circulation path that slope downward to meet the elevation of an existing publicly accessible sidewalk.
- (b) #Supplemental public access areas#

On Parcel 5, no #supplemental public access area# shall be required.

142-64 - Special Regulations on Parcel 5

LAST AMENDED 8/8/2018

- (2) the Chairperson has certified that an easement, the requirements for which shall be determined in consultation with the Department of Transportation, has been provided to enlarge the adjoining mapped #streets#, an instrument creating such easement has been recorded in the Office of the City Register, and a certified copy of such easement has been submitted to the Department of City Planning; and
- (3) an acceptable restrictive declaration is executed and filed pursuant to Section [62-74](#) (Requirements for Recordation).

(b) Buildout of Adjoining #Streets#

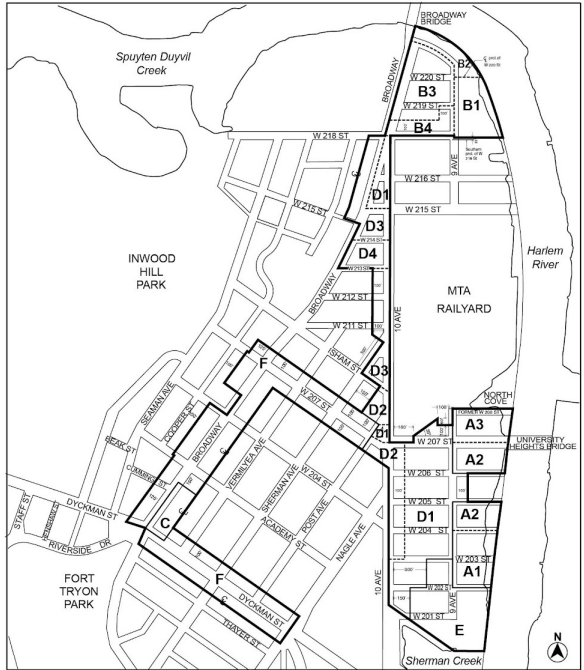

No certificate of occupancy for any #development# on Parcel 5 shall be issued until the Department of Buildings has been furnished with a certification by the Department of Transportation that adjoining mapped #streets# have been built out to Department of Transportation standards.

Within 45 days of receipt of a complete application, the Chairperson shall either certify that the proposed #development# complies with the requirements of this Section or disapprove such application, citing the nature of any failure to comply. Failure to certify or disapprove such application within the 45 day period will release the Department of Buildings or the Department of Small Business Services from any obligation to withhold the excavation or building permit and authorize such agency to determine compliance with the provisions of this Section.
